donato business lawyer greensboro nc: The Hamlet Fire Bryant Simon, 2020-07-23 For decades, the small, quiet town of Hamlet, North Carolina, thrived thanks to the railroad. But by the 1970s, it had become a postindustrial backwater, a magnet for businesses in search of cheap labor and almost no oversight. Imperial Food Products was one of those businesses. The company set up shop in Hamlet in the 1980s. Workers who complained about low pay and hazardous working conditions at the plant were silenced or fired. But jobs were scarce in town, so workers kept coming back, and the company continued to operate with impunity. Then, on the morning of September 3, 1991, the never-inspected chicken-processing plant a stone's throw from Hamlet's city hall burst into flames. Twenty-five people perished that day behind the plant's locked and bolted doors. It remains one of the deadliest accidents ever in the history of the modern American food industry. Eighty years after the Triangle Shirtwaist Fire, industrial disasters were supposed to have been a thing of the past in the United States. However, as award-winning historian Bryant Simon shows, the pursuit of cheap food merged with economic decline in small towns across the South and the nation to devalue laborers and create perilous working conditions. The Hamlet fire and its aftermath reveal the social costs of antiunionism, lax regulations, and ongoing racial discrimination. Using oral histories, contemporary news coverage, and state records, Simon has constructed a vivid, potent, and

disturbing social autopsy of this town, this factory, and this time that exposes how cheap labor, cheap government, and cheap food came together in a way that was destined to result in tragedy.

donato business lawyer greensboro nc: *Twenty-First Century Gateways* Audrey Singer, Susan W. Hardwick, Caroline B. Brettell, 2009-04-01 While federal action on immigration faces an uncertain future, states, cities and suburban municipalities craft their own responses to immigration. *Twenty-First-Century Gateways*, focuses on the fastest-growing immigrant populations in metropolitan areas with previously low levels of immigration—places such as Atlanta, Austin, Charlotte, Dallas-Fort Worth, Minneapolis-St. Paul, Phoenix, Portland, Sacramento, and Washington, D.C. These places are typical of the newest, largest immigrant gateways to America, characterized by post-WWII growth, recent burgeoning immigrant populations, and predominantly suburban settlement. More immigrants, both legal and undocumented, arrived in the United States during the 1990s than in any other decade on record. That growth has continued more slowly since the Great Recession; nonetheless the U.S. immigrant population has doubled since 1990. Many immigrants continued to move into traditional urban centers such as New York, Chicago, and Los Angeles, but burgeoning numbers were attracted by the economic and housing opportunities of fast-growing metropolitan areas and their largely suburban settings. The pace of change in this new geography of immigration has presented many local areas with challenges—social, fiscal, and political. Edited by Audrey Singer, Susan W. Hardwick, and Caroline B. Brettell, *Twenty-First-Century Gateways* provides in-depth, comparative analysis of immigration trends and local policy responses in America's newest gateways. The case examples by a group of leading multidisciplinary immigration scholars explore the challenges of integrating newcomers in the specific gateways, as well as their impact on suburban infrastructure such as housing, transportation, schools, health care, economic development, and public safety. The changes and trends dissected in this book present a critically important understanding of the reshaping of the United States today and the future impact of

donato business lawyer greensboro nc: **The End of White Politics** Zerlina Maxwell, 2020-07-07 An MSNBC political analyst and former Hillary Clinton staffer examines the past and present problems of the Left—and makes a compelling case for how to take back our government and secure a better future for America. In the entire history of the United States of America, we've never elected a woman as our president. And we've only had one president who was not a white man. After working on two presidential campaigns (for Barack Obama and Hillary Clinton), MSNBC political analyst and SiriusXM host Zerlina Maxwell gained first-hand knowledge of everything liberals have been doing right over the past few elections-and everything they are still doing wrong. Ultimately, these errors worked in President Donald Trump's favor in 2016; he effectively ran a campaign on white identity politics, successfully tapping into white male angst and resistance. In 2020, after the Democratic Party's most historically diverse pool of presidential candidates finally

dwindled down to Joe Biden, once again an older white man, Maxwell has posed the ultimate question: what now, liberals? Fueled by Maxwell's trademark wit and candor, *The End of White Politics* dismantles the past and present problems of the Left, challenging everyone from scrappy, young Bernie Bros to seasoned power players in the Billionaire Boys' Club. No topic is taboo; whether tackling the white privilege that enabled Mayor Pete Buttigieg's presidential run, the controversial #HashtagActivism of the Millennial generation, the massive individual donations that sway politicians toward maintaining the status quo of income inequality, or the lingering racism that debilitated some Democratic presidential contenders and cut their promising campaigns short, Maxwell pulls no punches in her fierce critique. However, underlying all of these individual issues, Maxwell argues that it's the liberal-minded party's struggle to engage women and communities of color—and its preoccupation with catering to the white, male working class—that threatens to be its most lethal shortfall. The times—and the demographics—are changing, and in order for progressive politics to prevail, we must acknowledge our shortcomings, take ownership of our flaws, and do everything in our power to level the playing field for all Americans. *The End of White Politics* shows exactly how and why progressives can lean into identity politics, empowering marginalized groups, and uniting under a common vision that will benefit us all. ****TIME*, 100 Must-Read Books of 2020!*** Witty and piercing. —*TIME*

donato business lawyer greensboro nc: *Murder in the Cathedral* T. S. Eliot, 2014-02-25 T. S. Eliot's most famous drama, a retelling of the murder of the archbishop of Canterbury Murder in the Cathedral, written for the Canterbury Festival in 1935, was one of T. S. Eliot's first dramatic achievements, and it remains one of the great plays of the century. It takes as its subject matter the martyrdom of Thomas Becket, Archbishop of Canterbury, depicting the events that led to his assassination, in his own cathedral church, by the knights of Henry II in 1170. Like Greek drama, the play's theme and form are rooted in religion, ritual purgation and renewal, and it was this return to the earliest sources of drama that brought poetry triumphantly back to the English stage at the time. The theatre is enriched by this poetic play of grave beauty and momentous decision. —*The New York Times*

donato business lawyer greensboro nc: "What Shall We Do with the Negro?" Paul D. Escott, 2009-03-03 Throughout the Civil War, newspaper headlines and stories repeatedly asked some variation of the question posed by the New York Times in 1862, What shall we do with the negro? The future status of African Americans was a pressing issue for those in both the North and in the South. Consulting a broad range of contemporary newspapers, magazines, books, army records, government documents, publications of citizens' organizations, letters, diaries, and other sources, Paul D. Escott examines the attitudes and actions of Northerners and Southerners regarding the future of African Americans after the end of slavery. What Shall We Do with the Negro? demonstrates how historians together with our larger national popular culture have wrenched the history of this period from its context in order to portray key figures as heroes or exemplars of national virtue. Escott gives especial critical attention to Abraham Lincoln. Since the civil rights movement, many popular books have treated Lincoln as an icon, a mythical leader with thoroughly modern views on all aspects of race. But, focusing on Lincoln's policies rather than attempting to divine Lincoln's intentions from his often ambiguous or cryptic statements, Escott reveals a president who placed a higher priority on reunion than on emancipation, who showed an enduring respect for states' rights, who assumed that the social status of African Americans would change very slowly in freedom, and who offered major incentives to white Southerners at the expense of the interests of blacks. Escott's approach reveals the depth of slavery's influence on society and the pervasiveness of assumptions of white supremacy. What Shall We Do with the Negro? serves as a corrective in offering a more realistic, more nuanced, and less celebratory approach to understanding this crucial period in American history.
