eye candy laser wellness inc: Geriatric Dermatology R.A. Norman, 2020-08-26 Over the past few years the world's population has continued on its remarkable transition from a state of high birth and death rates to one characterized by low birth and death rates. Consequently, primary care physicians and dermatologists will see more elderly patients presenting age-related dermatological conditions. There has never been a better time for a book devoted entirely to skin care in the elderly. Geriatric Dermatology draws together a panel of experts who provide an overview of the diagnosis and treatment of geriatric skin diseases. It begins with a general review of the aging of the world's population and the major dermatological problems that often arise in elderly patients. An added benefit is the book's coverage of geriatric skin care in nursing homes, adult congregate living, and subacute and home health settings, a subject not always found in conventional dermatology texts. The book includes: A summary of the dermatological disorders frequently encountered in the elderly, including eczematous dermatitis, skin infections, and neoplasias A description of the most common geriatric hair and scalp disorders, including graying, alopecia, and scalp psoriasis Comprehensive coverage of the diagnosis and treatment of leg, foot, and nail diseases Detailed discussion of the treatment of superficial mycoses, scabies, and pediculosis Less common geriatric conditions such as blistering diseases Major adverse drug reactions on the skin Leg ulcers due to venous insufficiency, arterial diseases, and diabetic nephropathy Diagnosis and treatment of diabetic complications of dermatology, such scleroderma and dermopathy The study of diseases that impact the elderly

population is a crucial and growing area of interest in medicine. Geriatricians, primary care physicians, dermatologists, and others involved in the care of the elderly will inevitably see an increase in skin diseases specific to aging. The comprehensive coverage provided by Geriatric Dermatology facilitates the diagnosis and management of these geriatric skin diseases from the common to the rare and unusual.

eye candy laser wellness inc: Salt Sugar Fat Michael Moss, 2013-02-26 From a Pulitzer Prize-winning investigative reporter at The New York Times comes the troubling story of the rise of the processed food industry -- and how it used salt, sugar, and fat to addict us. *Salt Sugar Fat* is a journey into the highly secretive world of the processed food giants, and the story of how they have deployed these three essential ingredients, over the past five decades, to dominate the North American diet. This is an eye-opening book that demonstrates how the makers of these foods have chosen, time and again, to double down on their efforts to increase consumption and profits, gambling that consumers and regulators would never figure them out. With meticulous original reporting, access to confidential files and memos, and numerous sources from deep inside the industry, it shows how these companies have pushed ahead, despite their own misgivings (never aired publicly). *Salt Sugar Fat* is the story of how we got here, and it will hold the food giants accountable for the social costs that keep climbing even as some of the industry's own say, Enough already.

eye candy laser wellness inc: E-Cigarette Use Among Youth and Young Adults: a Report of the Surgeon General Centers for Disease Control and Prevention, National Center National Center for Chronic Disease Prevention and Health Promotion, U.S. Department of Health and Human Services, 2019-07-26 Tobacco use among youth and young adults in any form, including e-cigarettes, is not safe. In recent years, e-cigarette use by youth and young adults has increased at an alarming rate. E-cigarettes are now the most commonly used tobacco product among youth in the United States. This timely report highlights the rapidly changing patterns of e-cigarette use among youth and young adults, assesses what we know about the health effects of using these products, and describes strategies that tobacco companies use to recruit our nation's youth and young adults to try and continue using e-cigarettes. The report also outlines interventions that can be adopted to minimize the harm these products cause to our nation's youth. E-cigarettes are tobacco products that deliver nicotine. Nicotine is a highly addictive substance, and many of today's youth who are using e-cigarettes could become tomorrow's cigarette smokers. Nicotine exposure can also harm brain development in ways that may affect the health and mental health of our kids. E-cigarette use among youth and young adults is associated with the use of other tobacco products, including conventional cigarettes. Because most tobacco use is established during adolescence, actions to prevent our nation's young people from the potential of a lifetime of nicotine addiction are critical. E-cigarette companies appear to be using many of the advertising tactics the tobacco industry used to persuade a new generation of young people to use their products. Companies are promoting their products through television and radio advertisements that use celebrities, sexual content, and claims of independence to glamorize these addictive products and make them appealing to young people.

eye candy laser wellness inc: Where the Line Bleeds Jesmyn Ward, 2018-01-16 The first novel from National Book Award winner and author of Sing, Unburied, Sing Jesmyn Ward, a timeless Southern fable of brotherly love and familial conflict—"a lyrical yet clear-eyed portrait of a rural South and an African American reality that are rarely depicted" (The Boston Globe). Where the Line Bleeds is Jesmyn Ward's gorgeous first novel and the first of three novels set in Bois Sauvage—followed by Salvage the Bones and Sing, Unburied, Sing—comprising a loose trilogy about small town southern family life. Described as "starkly beautiful" (Publishers Weekly, starred review), "fearless" (Essence), and "emotionally honest" (The Dallas Morning News), it was a finalist for the Hurston/Wright Legacy Award and the Virginia Commonwealth University Cabell First Novelist Award. Joshua and Christophe are twins, raised by a blind grandmother and a large extended family in rural Bois Sauvage, on Mississippi's Gulf Coast. They've just finished high school and need to find jobs, but after Katrina, it's not easy. Joshua gets work on the docks, but Christophe's not so lucky and starts to sell drugs. Christophe's downward spiral is accelerated first by crack, then by the reappearance of the twins' parents: Cille, who left for a better job, and Sandman, a dangerous addict. Sandman taunts Christophe, eventually provoking a shocking confrontation that will ultimately damn or save both twins. Where the Line Bleeds takes place over the course of a single, life-changing summer. It is a delicate and closely observed portrait of fraternal love and strife, of the relentless grind of poverty, of the toll of addiction on a family, and of the bonds that can sustain or torment us. Bois Sauvage, based on Ward's own hometown, is a character in its own right, as stiflingly hot and as rich with history as it is bereft of opportunity. Ward's "lushly descriptive prose...and her prodigious talent and fearless portrayal of a world too often overlooked" (Essence) make this novel an essential addition to her incredible body of work.

eye candy laser wellness inc: Holistic Dental Care Stephen A. Lawrence, 2018-09-08 Stephen A. Lawrence introduces readers to holistic dental care and its role in overall health. Most people America would like to maintain healthy teeth and gums during their lifetime. While conventional dental care still relies on outdated treatment methods, including the use of toxic elements such as mercury and fluoride, this is not the way dentistry must be practiced, and more and more patients are beginning to realize that there are safer, more effective ways to care for their teeth and gums. Holistic Dental Care: Your Mind, Body, and Spirit Guide to Optimal Health and a Beautiful Smile presents a positive, detailed, and easy-to-read argument for the benefits of a more open-minded, progressive, and integrative approach to dental care and overall health. Scientific studies suggest that our mind/body relationship, psychological function, physical activity, and the food we eat all affect us at biological levels, where our habits can alter our immune system and

affect our physical, emotional, and spiritual health. When we get sick on any level, from an ordinary cold to a cavity or gum disease, it's usually because of some imbalance in our immune system, often triggered by chronic inflammation, oxidative stress, and toxins. Holistic dentistry addresses these issues by supporting a patient's comprehensive health. Holistic dentist Stephen A. Lawrence's new work introduces readers to safer, gentler, and more efficient way of treating their mouths and bodies, along with addressing their overall wellness. He offers a reader-friendly tour through how our body works, and approaches dental health through the lens of comprehensive wellness and summarizes current holistic dental healthcare ideas and products--to stop cavities and gum disease, rebuild teeth at home, and positively affect patients and those around them--as we strive to spread wellness worldwide. Considering the current explosion of green living all over America, the increased awareness of how toxins affect our health, and a rising interest in bettering our general quality of life through wellness and mindfulness, this work fills a gap in understanding how holistic dental health care can be part of an overall approach to healthier living now.

Based upon in-depth documentation and analysis of 36 Swiss companies over their entire history, an expert team of authors presents several parallels in the pathways and success factors which allowed these firms to become dominant and operate from a high-cost location such as Switzerland. The book enhances these insights by providing detailed company profiles documenting the company history, development, and how their relevant global niche positions were reached. Readers will benefit from these profiles as they compile a diverse selection of industries, mainly active within the B2B sector, with mostly mature companies (60 years to older than 100 years since founding) and different types of ownership structures including family firms. 'Masterpieces of Swiss Entrepreneurship' brings unique learning opportunities to owners and leaders of SMEs in Switzerland and elsewhere. Findings are based on detailed bottom-up research of 36 companies -- without any preconceived notions. The book is both conceptual and practical. It fosters understanding for different choices in development pathways and management practices.

eye candy laser wellness inc: *No Sense of Obligation* Matt Young, 2001-10-31 Some of the Praise for *No Sense of Obligation* . . . fascinating analysis of religious belief -- Steve Allen, author, composer, entertainer [A] tour de force of science and religion, reason and faith, denoting in clear and unmistakable language and rhetoric what science really reveals about the cosmos, the world, and ourselves. Michael Shermer, Publisher, *Skeptic Magazine*; Author, *How We Believe: The Search for God in an Age of Science* About the Book Rejecting belief without evidence, a scientist searches the scientific, theological, and philosophical literature for a sign from God--and finds him to be an allegory. This remarkable book, written in the laypersons language, leaves no room for unproven ideas and instead seeks hard evidence for the existence of God. The author, a sympathetic critic and observer of religion, finds instead a physical universe that exists reasonlessly. He attributes good and evil to biology, not to God. In place of theism, the author gives us the knowledge that the universe is intelligible and that we are grownups, responsible for ourselves. He finds salvation in the here and now, and no ultimate purpose in life, except as we define it.
