

faith family wellness clinic

Faith Family Wellness Clinic: Nurturing Body, Mind, and Spirit

Are you searching for a healthcare provider that understands the interconnectedness of your physical, mental, and spiritual well-being? Do you value a holistic approach to health, one that respects your faith and prioritizes your family's needs? Then look no further. This comprehensive guide delves into what makes Faith Family Wellness Clinic a unique and exceptional choice for your healthcare journey. We'll explore the clinic's philosophy, services offered, and how they integrate faith and family values into their patient care.

Understanding the Faith Family Wellness Clinic Philosophy

At the heart of Faith Family Wellness Clinic lies a belief in the holistic nature of health. We don't just treat symptoms; we seek to understand the root causes of illness and imbalance, considering the physical, emotional, and spiritual dimensions of a person's life. This integrated approach acknowledges that our faith and family relationships significantly impact our overall health and well-being. The clinic embraces a patient-centered model, ensuring each individual receives personalized care tailored to their unique needs and beliefs. This isn't just about medical expertise; it's about building trusting relationships and empowering individuals to take control of their health journeys.

A Wide Range of Services Tailored to Your Needs

Faith Family Wellness Clinic offers a comprehensive range of services designed to meet the diverse healthcare needs of families. These services may include (but are not limited to):

Primary Care: Routine check-ups, preventative care, diagnosis and treatment of common illnesses, and ongoing health management. The clinic emphasizes preventative care, helping patients avoid health issues before they arise.

Mental Health Services: Recognizing the vital link between mental and physical health, the clinic provides counseling, therapy, and support for individuals and families facing emotional challenges. This may include individual therapy, family therapy, and group support sessions.

Nutritional Counseling: Nutrition plays a crucial role in overall wellness. The clinic likely offers consultations with registered dietitians to help patients develop healthy eating habits and address nutritional deficiencies.

Spiritual Guidance (If applicable): Depending on the specific clinic's religious affiliation (if

any), spiritual counseling or guidance might be offered, fostering a connection between faith and healing. This would be handled with sensitivity and respect for all beliefs.

Family-Focused Care: The clinic likely prioritizes family-centered care, understanding that the health of one family member often impacts the others. They might offer family-oriented programs, workshops, or support groups.

Specialized Services: Depending on the size and resources of the clinic, specialized services might be available. This could range from physical therapy to specialized medical consultations.

It's essential to contact the Faith Family Wellness Clinic directly to confirm the specific services offered at their location.

How Faith and Family are Integrated into Patient Care

Faith Family Wellness Clinic distinguishes itself through its intentional integration of faith and family values. This is not about imposing religious beliefs but about creating a supportive and compassionate environment where patients feel understood and respected. This integration might manifest in several ways:

Compassionate and Empathetic Care: A core principle is providing care rooted in compassion, understanding, and empathy. The staff actively listens to patients' concerns and respects their beliefs and values.

Holistic Approach: The holistic approach embraces the mind-body-spirit connection, recognizing the importance of spiritual well-being in overall health.

Family-Friendly Environment: The clinic aims to be a welcoming and comfortable space for families, perhaps offering child-friendly waiting areas or family-focused programs.

Community Building: Some clinics may foster a sense of community amongst patients, potentially organizing support groups or community events.

Respect for Diverse Beliefs: While the clinic may have a faith-based foundation, it's vital that they respect and honor the diverse beliefs and values of all patients.

Finding the Right Fit for Your Family's Healthcare Needs

Choosing a healthcare provider is a personal decision. Faith Family Wellness Clinic may be an ideal choice for those seeking a holistic approach to health, one that respects their faith and values and prioritizes their family's well-being. However, it's essential to research and compare different providers to find the best fit for your specific needs. Look into their specific services, the experience of their staff, and their approach to patient care to ensure a positive and effective healthcare experience.

Conclusion

Faith Family Wellness Clinic represents a unique and valuable approach to healthcare, emphasizing the interconnectedness of body, mind, and spirit within a supportive family-centered environment. By integrating faith and family values into their practice, they strive to create a space where individuals feel understood, respected, and empowered to take control of their health journeys. Contact Faith Family Wellness Clinic today to discover how they can help you and your family achieve optimal well-being.

FAQs

1. Does the Faith Family Wellness Clinic accept my insurance? You should contact the clinic directly to verify which insurance providers they accept. Their website or a phone call will provide the most accurate information.
1. What are the clinic's hours of operation? The clinic's hours of operation will vary depending on location. Check their website or contact them directly for their specific schedule.
1. Do I need a referral to see a specialist at the clinic? Referral requirements depend on the type of specialist and your insurance coverage. It's best to contact the clinic directly to clarify this.
1. What types of payment methods does the clinic accept? The acceptable payment methods will vary; check their website or contact the clinic to confirm what forms of payment they accept (e.g., credit cards, debit cards, cash).
1. How do I schedule an appointment at the Faith Family Wellness Clinic? The clinic's website or a phone call to their office will allow you to book an appointment with the appropriate healthcare professional.

faith family wellness clinic: Care G. Scott Morris, 2022-10-27 Our health system doesn't work for the most vulnerable. It's time for people of faith to respond with concrete action to demonstrate God's love and effect real change. Here's how. The dialogue on how to fix US health

care is mired in partisan policy debates. Rather than idly waiting for the gridlock to resolve, people of faith can live into their call to care for the underserved right now. Drawing from his experience as medical doctor, pastor, and founder and CEO of the nation's largest charitably funded faith-based health-care center, Scott Morris sheds light on how we can live out a crucial aspect of discipleship by ministering to the vulnerable and underserved among us. Through the stories of people too often ignored or dehumanized, Dr. Morris addresses the financial and social barriers to health care for low-income and undocumented individuals, the lack of affordable medications, the challenges of chronic disease and behavioral health issues, and the promising outcomes of faith-based care that treats the whole person. As we continue to reckon with the effects of the Covid-19 pandemic and the inequities in our health systems it has highlighted, Dr. Morris's book calls readers to awareness, action, and advocacy in their local communities on behalf of those who have no one else to turn to for quality care.

faith family wellness clinic: *Faith In The Future* Harold Koenig, 2012-05-01 div After an interview in Newsweek about his book *Spirituality in Patient Care* and his research in religion and health, Dr. Harold Koenig became the international voice on spirituality, health, and aging. In this book, *Faith in the Future*, he is joined by two other experts on aging and human development. They present a compelling look at one of the most severe issues in today's society: health care in America. How will we provide quality healthcare to older adults needing it during the next thirty to fifty years? Who will provide this care? How will it be funded? How can we establish systems of care now to be in place as demographic and health-related economic pressures mount? Alongside the sobering reality of our country's challenges, there are reasons for optimism. Innovative programs created and maintained by volunteers and religious congregations are emerging as pivotal factors in meeting healthcare needs. Summarizing decades of scientific research and providing numerous inspirational examples and role models, the authors present practical steps that individuals and institutions may emulate for putting faith into action. faith family wellness clinic: *Faith, Family, and Filipino American Community Life* Stephen M. Cherry, 2014-01-03 Stephen M. Cherry draws upon a rich set of ethnographic and survey data, collected over a six-year period, to explore the roles that Catholicism and family play in shaping Filipino American community life. From the planning and construction of community centers, to volunteering at health fairs or protesting against abortion, this book illustrates the powerful ways these forces structure and animate not only how first-generation Filipino Americans think and feel about their community, but how they are compelled to engage it over issues deemed important to the sanctity of the family. Revealing more than intimate accounts of Filipino American lives, Cherry offers a glimpse of the often hidden but vital relationship between religion and community in the lives of new immigrants, and allows speculation on the broader impact of Filipino immigration on the nation. The Filipino American community is the second-largest immigrant community in the United States, and the Philippines is the second-largest source of Catholic immigration to this country. This ground-breaking study outlines how first-generation Filipino Americans have the potential to reshape American Catholicism and are already having an impact on American civic life through the engagement of their faith.

faith family wellness clinic: *Faith In The Future* Malcolm McConnell, 2024-04-29 Dr. Harold Koenig was recently interviewed by Newsweek (November 10, 2003) about his book *Spirituality in Patient Care* and his research in the area of religion and health. He has become the international voice on the subjects of spirituality, health, and aging. In this book he is joined by two other experts on aging and human development. They present a compelling look at one of the most serious issues in today's society: health care in America. How will we provide quality healthcare to older adults who will need it during the next thirty to fifty years? Who will provide this care? How will it be funded? How can we establish systems of care now to be in place as demographic and health-related economic pressures mount? Alongside the sobering reality of the challenges our country faces, there are reasons for optimism. Innovative programs created and maintained by volunteers and religious congregations are emerging as pivotal factors in meeting health care needs. Summarizing decades

of scientific research and providing numerous inspirational examples and role models, the authors present practical steps that individuals and institutions may emulate for putting faith into action.

faith family wellness clinic: **Closing the Chart** Steven D. Hsi, 2004-04-30 Dr. Steven D. Hsi, a family physician and father of two young sons, was diagnosed in 1995 with a rare coronary disease that caused his death five years later at the age of forty-four. Throughout his ordeals as a patient, including three open-heart surgeries, Dr. Hsi's outlook on the teaching and practice of medicine changed. In 1997 he began a journal intended for publication after his death. Written with the assistance of newspaper columnist Jim Belshaw and completed posthumously by Hsi's widow, Beth Corbin-Hsi, Dr. Hsi's writings urge his colleagues to become healers, to look at their patients as human beings with spiritual as well as physical lives. Every patient should read it, if only to be made aware that they are not alone with their thoughts. Every spouse of a patient should read it. . . . Every medical student and physician should read it to learn that the biology of the disease is really just a small part of the illness.--John Saiki, M.D., Medical Oncology, University of New Mexico Dr. Steven Hsi asks his fellow doctors to be more than physicians. He asks them to be healers. He says that when he thinks of healers, he sees traditional medicine men, people who are integral parts of their communities. They are in touch physically and spiritually with the people they serve.--Tony Hillerman Closing the Chart is built on the personal journals and experiences of Steven D. Hsi, M.D., as he travels on an intense 5-year journey from an assumption of health, professional success, and family stability to his progressive illness and eventual death. . . . Closing the Chart is both an engaging, page-turning read and a story told with so little artifice that you cannot close the cover unchanged.--Kenneth Jacobson, executive director, American Holistic Medical Association, Explore "There are lessons on every page, lessons to make us better caregivers, more discerning patients, and better advocates for family members and friends who are sick. . . . Every reader will take away different lessons from this book based on his or her role, age, and experience. This would be an ideal book for group study by medical and nursing students with some senior physicians, patients, and family members. What a great learning experience for all participants! . . . I exhort you to pick up and read this humble story. Nothing I have encountered in the medical narrative genre has been more worthy of my time." —David J. Elpern, M.D, Psychiatric Services

faith family wellness clinic: Faith, Medicine, and Science Harold G Koenig, 2013-10-11 A perfect introduction to the connection between religious faith and physical and mental health! Faith, Medicine, and Science: A Festschrift in Honor of Dr. David B. Larson is a comprehensive collection of groundbreaking work from one of the principal figures in the establishment, expansion, and acceptance of scientific research at the interface of religion, spirituality, and health. Dr. Jeff Levin and Dr. Harold G. Koenig honor their late colleague with a retrospective of his writings on the impact of religious faith and identity on physical and mental health and on a variety of social issues, including criminal behavior, substance abuse, mental illness, juvenile delinquency, reproductive decisions, marital satisfaction, family functioning, and the quality of life. The book also features a concise history of the religion and health field, a biography of Dr. Larson, and tributes, essays, and remembrances from the leading figures in the field. Faith, Medicine, and Science honors Dr. Larson's role in raising awareness of the health effects of religious faith and his vision and efforts in establishing coursework on religion and spirituality within undergraduate and graduate medical education programs. His body of theoretical and empirical writings serves as a permanent record of the powerful role played by religion and spirituality, and his work stands as a lasting contribution to science, medicine, and society. These articles combine with the book's supplemental features to provide social and behavioral scientists, medical researchers, and clinicians with an essential resource for clinical research and education. Topics examined in Faith, Medicine, and Science include: the religious life of alcoholics religion, spirituality, and mortality the impact of religion on men's blood pressure the systematic analysis of research on religious variables a systematic review of nursing home research religious affiliations in mental health research samples as compared with national samples the associations between dimensions of religious commitment and mental health and much more! Faith, Medicine, and Science: A Festschrift in Honor of Dr. David B. Larson documents the work of one of the most important writers on the interface of the human spirit and the healing arts. His death in 2002 at the age of 54 remains a profound loss, but through this book, his pioneering research will continue to serve as a thorough and accessible introduction to the religion and health field.

faith family wellness clinic: Faith in Black Power Kerry Pimblott, 2017-01-20 In 1969, nineteen-year-old Robert Hunt was found dead in the Cairo, Illinois, police station. The white authorities ruled the death a suicide, but many members of the African American community believed that Hunt had been murdered -- a sentiment that sparked rebellions and protests across the city. Cairo suddenly emerged as an important battleground for black survival in America and became a focus for many civil rights groups, including the NAACP. The United Front, a black power organization founded and led by Reverend Charles Koen, also mobilized -- thanks in large part to the support of local Christian congregations. In this vital reassessment of the impact of religion on the black power movement, Kerry Pimblott presents a nuanced discussion of the ways in which black churches supported and shaped the United Front. She deftly challenges conventional narratives of the de-Christianization of the movement, revealing that Cairoites embraced both old-time religion and revolutionary thought. Not only did the faithful fund the mass direct-action strategies of the United Front, but activists also engaged the literature on black theology, invited theologians to speak at their rallies, and sent potential leaders to train at seminaries. Pimblott also investigates the impact of female leaders on the organization and their influence on young activists, offering new perspectives on the hypermasculine image of black power. Based on extensive primary research, this groundbreaking book contributes to and complicates the history of the black freedom struggle in America. It not only adds a new element to the study of African American religion but also illuminates the relationship between black churches and black politics during this tumultuous era.

faith family wellness clinic: Pragmatic Faith and the Tanzanian Lutheran Church Amy Stambach, Aikande Kwayu, 2020-11-09 Pragmatic Faith and the Tanzanian Lutheran Church: Bishop Erasto N. Kweka's Life and Work examines the operations and organization of the Tanzanian Lutheran church through the life and times of its longest serving diocesan bishop, Erasto N. Kweka. Amy Stambach and Aikande Kwayu develop the concept of pragmatic faith, belief-in-practice, to analyze the integration of religious experience, institutionalism, and doctrine or orthodoxy. Pragmatic faith breaks down the lingering binary found in anthropological studies of Christianity between transcendental experience and pragmatic struggle, and between religious revival as rupture or continuity. Stambach and Kwayu analyze the instrumental use of religion in practice, as well as its socially mobilized potential for revelation and transformation. A key analytic agenda of this book is to illuminate how a church that retains the organizational and ritual forms of a European mission church became culturally localized over time and yet, paradoxically, also existed pre-colonially. Accordingly, this book offers detailed and ethnographically-grounded perspective on how leaders and laypeople affiliated with the Tanzanian Lutheran church connect the church with other significant institutions, not only the state and the government, but also descent groups, extended families, self-help groups, and existing civic organizations, in order to live meaningfully.

faith family wellness clinic: The Faith Link Max Fleury, 2016-02-02 This book brings together evidences of medical science and clinical studies on the beneficial effects that faith and spirituality have on health and healing

faith family wellness clinic: Faith Community Nursing P. Ann Solari-Twadell, Deborah Jean Ziebarth, 2019-08-31 A multi-authored book, with editors and authors who are leaders in Faith Community Nursing (FCN) that aims to address contemporary issues in faith-based, whole person, community based health offering cost effective, accessible, patient centered care along the patient continuum while challenging contemporary health policy to include more health promotion services. Twenty-five chapters take the reader from a foundational understanding of this historic grass-roots movement to the present day international specialty nursing practice. The book is structured into

five sections that describe both the historical advancement of the Faith Community Nursing, its current implications and future challenges, taking into account the perspectives of the pastor, congregation, nurse, health care system and public health national and international organizations. The benefits of this book are that it is intended for a mixed audience including lay, academic, medical professionals or health care executives. By changing the mindset of the reader to see the nurse as more than providing illness care, the faith community as more than a place one goes to on Sunday and health as more than physical, creative alternatives for promoting health emerge through Faith Community Nursing.

faith family wellness clinic: *Contending for the Faith* Daniel Richard Carnett, 2002 Examines how a southern evangelical denomination was able to become the second largest religious body in a region characterized by cultural, racial, and religious pluralism; and the effect this had on their structure and beliefs.

faith family wellness clinic: *Faith-based Perspectives on the Provision of Community Services* United States. Congress. House. Committee on Government Reform. Subcommittee on Criminal Justice, Drug Policy, and Human Resources, 2004

faith family wellness clinic: *Faith and Mental Health* Harold G Koenig, 2005-09-01 Dr. Harold Koenig opens a window on mental health, providing an unprecedented source of practical information about the relationship between religion and mental health. He examines how Christianity and other world religions deliver mental health services today, and he makes recommendations, based on research, expertise, and experience, for new programs to meet local needs. Meticulously researched and documented, *Faith and Mental Health* includes Research on the relationship between religion and positive emotions, psychiatric illnesses, and severe and persistent mental disorders Ways in which religion has influenced mental health historically, and how now and in the future it can be involved with mental health A comprehensive description and categorization of Christian and non-Christian faith-based organizations that provide mental health resources Resources for religious professionals and faith communities on how to design effective programs Presenting a combination of the history and current research of mental health and religion along with a thorough examination of faith-based organizations operating in the field, this book is a one-of-a-kind resource for the healthcare community; its valuable research and insights will benefit medical and religious professionals, and anyone concerned with the future of mental health care.

faith family wellness clinic: *Kenya Medical Directory* , 2002

faith family wellness clinic: *Serving Faith, Profession, and Community* Prof. Faroque Ahmad Khan, 2017-06-02 In 1967, seven Muslim physicians arrived in the United States from various countries India, Pakistan, Syria, Egypt, and Afghanistan for advanced training. They found themselves in a new culture with few Muslims around. They formed an organization where they shared common concerns, supported each other, and maintained their identity, faith, and culture. Thus began the journey of the Islamic Medical Association (IMA). *Serving Faith, Profession, and Community*, by author Faroque Ahmad Khan, captures the essence of that journey, including how this was accomplished, what some of the challenges were, and who the key individuals involved in organizing and laying the foundation of IMA (now called the Islamic Medical Association of North America (IMANA)) were. Describing the major contributions American Muslim physicians have made toward the health and well-being of Americans, *Serving Faith, Profession, and Community* chronicles the organizations first fifty years and sets goals and plans for the future.

faith family wellness clinic: *Authorizing Safety Net Public Health Programs* United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Health, 2001

faith family wellness clinic: *Development Across Faith Boundaries* Anthony Ware, Matthew Clarke, 2016-11-03 Faith-based organisations (FBOs) have long been recognised as having an advantage in delivering programs and interventions amongst communities of the same faith. However, many FBOs today work across a variety of contexts, including with local partners and communities of different faiths. Likewise, secular NGOs and donors are increasingly partnering with faith-based organisations to work in highly-religious communities. *Development Across Faith*

Boundaries explores the dynamics of activities by local or international FBOs that cross faith boundaries, whether with their partners, donors or recipient communities. The book investigates the dynamics of cross-faith partnerships in a range of development contexts, from India, Cambodia and Myanmar, to Melanesia, Bosnia, Ethiopia and Afghanistan. The book demonstrates how far FBOs extend their activities beyond their own faith communities and how far NGOs partner with religious actors. It also considers the impacts of these cross-faith partnerships, including their work on conflict and sectarian or ethnic tension in the relevant communities. This book is an invaluable guide for graduates, researchers and students with an interest in development and religious studies, as well as practitioners within the aid sector.

faith family wellness clinic: Not by Faith Alone Julie Adkins, Laurie A. Occhipinti, Tara Hefferan, 2010 This volume builds on the existing ethnographic literature on faith-based development internationally to offer a fresh and sophisticated analysis of faith-based organizations in the United States. The case studies included offer starting points for expanded discussions on the meaning of 'faith-based' development, the differences between faith-based and secular development approaches, the influence of faith-orientation on program formulation and delivery, and whether faith-based organizations can offer more efficient and effective solutions to structural inequality and poverty alleviation.

faith family wellness clinic: *The Journal of the Oklahoma State Medical Association* Oklahoma State Medical Association, 1984

faith family wellness clinic: *Boundless Faith* Robert Wuthnow, 2010-10-12 Robert Wuthnow shows that American Christianity is increasingly influenced by globalization and is, in turn, playing a larger role in other countries and in US policies and programmes abroad.

faith family wellness clinic: *Recapturing Joy in Medicine* Amaryllis Sanchez Wohlever MD, 2019-04-30 *Recapturing Joy in Medicine* by Amaryllis Sanchez Wohlever, MD, contains a powerful prescription for physicians today who are practicing medicine during a time of crisis in the healthcare industry; one that is fueling an epidemic of physician burnout. From dealing with poor electronic healthcare records systems and insurance company intrusions to inadequate staffing to loss of clinical autonomy, doctors are facing myriad obstacles to providing excellent, compassionate patient care. As a physician, a physician coach, author, and speaker, Dr. Sanchez Wohlever understands the lives of doctors firsthand and writes this coaching manual to help them find the joy they once found in caring for patients. Within, physicians find practical ways to practice self-care, ask for the help they need, and to place doctor-patient relationships back at the center of their practices. This book is a hopeful call to action for physicians to reclaim their passion for patient care.

faith family wellness clinic: *Faith* Bill Becknell, 2014-11-17 A successful American surgeon gives away everything he owns and moves to Russia to keep a promise he made to God when he was fourteen. . . and finds unexpected joy. Doctor Bill Becknell moved to Russia and, despite not speaking the language, began providing medical care to people in the villages above the Arctic Circle. He traveled by truck, snowmobile, reindeer sleigh, and helicopter to reach people who had never seen a doctor or heard about Jesus—people who told him that they've been waiting all their lives for someone to explain who created the stars in the night sky. Every trip he made was an adventure. Despite extreme hardships, brokenness, sacrifices, and even near-death experiences along the road, Bill discovered that God has an unfailing love that is beyond comprehension. This is the true story of one man's journey to confront and understand the suffering, pain, confusion, and despair that challenge our lives. Sorrow is a part of living, but how we handle the tragedy in our lives makes all the difference. This book was written to encourage us not to be afraid to step into the unknown abyss of faith. "This book about battles of faith . . . will be an encouragement to everyone who reads it." —Ingeborg Fuhrhop-Stetzler, president, Agape Germany

faith family wellness clinic: *Geriatric Urology, An Issue of Clinics in Geriatric Medicine* Tomas L Griebing, 2015-12-11 This issue of *Clinics in Geriatric Medicine* is devoted to Geriatric Urology. Guest Editor Tomas L. Griebing, MD, MPH has assembled a group of expert authors to review the

faith family wellness clinic: My Father's Amazing Journey of Faith Sang Sun Lee, Dr. Stephanie Chung, 2022-04-11 Sang Sun Lee was a refugee in South Korea during the Korean War. He fled North Korea, leaving behind his wife, children, and parents. During a narrow escape from death, he made a promise to God in exchange for his life. Lee was true to his promise for the rest of his life. From building churches to building a business, being a true servant of God guided all his decisions and actions. Lee eventually became a businessperson and went from poverty to wealth and back again as he gave generously, and sometimes naively, to those who asked him for help. He was instrumental in the planting of numerous churches over the years and supported pastors and missionaries unfailingly, often putting their needs ahead of those of his own family. Throughout this time, Lee's steadfast faith in God carried him and his family through every challenge and setback. Later in life, Lee was interviewed of his experiences, and that was published in an eight-month weekly series in The Christian Times. His daughter, Dr. Stephanie Chung, gathered her father's articles to share his story and honour his life.

faith family wellness clinic: **Slavery of Faith** Leslie Wagner-Wilson, 2009 Slavery Of Faith...the quietly kept story of a young woman's escape through the jungles of Jonestown, Guyana the morning of the massacre November 18, 1978 and her struggles to live in the aftermath. November 18, 2008 marks 30 years since the Jonestown, Guyana Massacre/Suicides and the death of its founder, the Reverend Jim Jones. Escaping Jonestown, Guyana the morning of November 18, 1978 with nine others, Leslie Wagner-Wilson then twenty one years old, trekked thirty seven miles through the jungle with a 40-pound care package strapped to her back with a sheet, her son, later to be known as the youngest survivor of Jonestown. That evening, she would be told that Jonestown was gone along with her plan to escape and return with her father, Richard Wagner who was a part of the Concerned Relatives to free the rest of her family. Amongst the carnage would be her husband, mother, brother, sister, niece, nephew, sister in law, brother in law and the friends she had grown up and loved since 13. Slavery of Faith reveals the life of a thirteen year old coming of age in the heart of People's Temple Disciples of Christ Church where the pastor Jim Jones, exhorted his followers to consider him divine and to call him Father while he touted his extra-marital affairs from the pulpit. The world of Jim Jones was one of inverted ideals, isolation and alienation. However, what began as a church that appealed to peoples inner spirit to help others, was turned into a living hell. Yet it was a place she would go, half a continent away, to be with her 2 year old son, who'd been taken to Jonestown by Jim Jones as he made his exodus to Guyana. It shares the horrors of Jonestown - the labor punishment squads, suicide drills, sleep deprivation, drugging, and humiliations. It also takes the reader through the escape that she says was revealed to her in the spirit. Thirty years since Jonestown, Slavery of Faith also chronicles her return to the U.S. under a veil of secrecy in fear of the death squads, her fight to maintain her faith in her most darkest hours; suffering survivors guilt, drug addiction, a family suicide, and finally redemption. It shares her journey through psychological and spiritual jungles to reach a place of remembrance-- to live their love and not their deaths. Faith has allowed her the resiliency to as she states tuck and roll and discover that through pain, tragedy and joy, her life has found divine order.

faith family wellness clinic: *Monumental Jesus* Margaret M. Grubiak, 2020-02-11 The American landscape is host to numerous works of religious architecture, sometimes questionable in

taste and large, if not titanic, in scale. In her lively study of satire and religious architecture, Margaret Grubiak challenges how we typically view such sites by shifting the focus from believers to doubters, and from producers to consumers. Grubiak considers an array of sacred architectural constructions—from Touchdown Jesus at the University of Notre Dame to the Wizard of Oz Mormon temple outside Washington D.C. to the renamed Gumby Jesus of the Christ of the Ozarks statue in Eureka Springs, Arkansas - and how such constructions are confronted by the doubt and dismissiveness articulated by the more skeptical of their viewers. These responses of doubt activate our religious built environment in ways unanticipated but illuminating, asking us, at times forcefully, to consider and clarify what it is we believe. Opening up new avenues of thinking about how people deal with theological questions in the vernacular, Grubiak's book shows how religious doubt is made manifest in the humorous, satirical, blasphemous, and popular culture responses to religious architecture and image in modern America. *Midcentury: Architecture, Landscape, Urbanism, and Design*

faith family wellness clinic: *Scarred Faith* Josh Ross, 2013-05-07 Are you scarred? Tired of platitudes that don't heal your brokenness? Have you wondered if you're allowed to say things like, God, this doesn't make any sense. Where are you? Are you looking for the balance between honesty and faithfulness? This book is for you. Josh Ross lets you in on his own journey of grief as he discovers that faith is about experience, movement, and process. -- Publisher's description.

faith family wellness clinic: *Faith Under Fire* Steve Rabey, 2006-10-29 As World War II raged, millions of men and women confronted injury, destruction, separation from home and loved ones, chaos, and death. These challenges and traumas and many others forced an entire generation of everyday heroes to take stock of their lives. And in the process, many turned to God in ways they never had before. In *Faith Under Fire*, you'll experience scenes of astonishing bravery, moments of heart-breaking loss, and a pervasive sense of love for God, neighbor, and country that was strong enough to transcend denominational and national differences, inspiring selfless acts of courage and compassion under the worst of circumstances. From the Catholic chaplain who offered mercy among the carnage of Iwo Jima, to the Pentecostal boy who was saved from an incoming shell by the voice of God calling his name, to the young wife praying that her husband would survive life in a concentration camp, to the Tuskegee Airman who fought both totalitarianism and racism, these stories reveal the power of faith that sustained these heroes when there was nowhere else to turn. Award-winning author Steve Rabey presents more than twenty firsthand accounts of faith under pressure, many of them illustrated with war-time photos, letters, and journal entries. At a time when many who lived through these trying times are dying, their stories live on, passing on a legacy of faith and fortitude to future generations.

faith family wellness clinic: *Blessings in India Bundle, Faith of Ashish, Hope of Shridula & Love of Divena* - eBook [ePub] Kay Marshall Strom, 2014-02-04 This bundle contains *The Faith of Ashish*, *The Hope of Shridula*, and *The Love of Divena*. *The Faith of Ashish* Virat and Latha named their son Ashish, for he is the light and glory of their world. Yet a simple drink of water from the wrong cup changes them forever. Virat, Latha, and Ashish are Untouchables in 1905 India, members of a caste who must never contaminate the world of the other, higher, castes. When Ashish is in desperate need of a doctor, Virat risks everything to save his son and ventures into the dangerous realm of the high caste. There, the strength of a father's love, the power of a young British nurse, and the faith of a child change the lives around them. *The Hope of Shridula* India: 1946. For forty-eight years, Ashish and his family toiled as slaves in the fields of the high-caste Lal family, and all because of one small debt. At fifty-four, Ashish was old and worn out. Every day was a struggle to survive for his family including his only daughter. His wife had named the girl Shridula (Blessings). "Perhaps the name will bring you more fortune than it brought me," Ashish told his daughter. His words proved to be prophetic in ways he could never have imagined. And when the flames of revolt brought independence to India, they seared change into the family of Ashish. *The Love of Divena* India 1990. Shridula, old and stooped at fifty-nine, makes her painful way to pay homage to the elephant god Ganesh, lord of success and destroyer of evils and obstacles. "Why are we Hindus

instead of Christians?” her seventeen-year-old granddaughter Divena asked. “Because we are Indian,” said Shridula. So begins a spiritual journey for Divena as she struggles against an entire culture to proclaim a faith close to her heart while rocking the world of two families.
