genesis wellness group llc: *Creation and Fall Temptation* Dietrich Bonhoeffer, 1997-03-12 In this enlightening study, renowned twentieth-century theologian Dietrich Bonhoeffer offers a careful textual analysis of the story of creation, approaching the biblical tale of Genesis with the eye of a philosopher and the soul of a true Christian. "Creation and Fall" is Bonhoeffer's lucid, brilliant analysis of the first three chapters of Genesis. Here he discusses the seeming scientific naiveté behind the creation story, God's love and goodness, and humanity's creation, its free will, and its blessedness. Bonhoeffer also tackles difficult questions that are raised from the first book of the Bible, questions about the seemingly redundant second story of creation, about God's own beginning, about the source of the light that was created the first day. The author then expounds upon Adam and Eve's fall from grace: How could they, creatures made in God's image, have thought to oppose God so foully? Where did the first evil come from? How did humanity lose its right to live in paradise? In "Temptation," Bonhoeffer questions how temptation appeared in the midst of Eden's innocence, and he explores the very nature of evil. Bonhoeffer explains that Jesus Christ helps us to understand and conquer physical and spiritual temptation through His grace and goodness.

genesis wellness group llc: *The World of Lore: Monstrous Creatures* Aaron Mahnke, 2024-10-08 A fascinating, beautifully illustrated guide to the monsters that are part of our collective psyche, featuring stories from the Lore podcast—now a streaming television series—including "They Made a Tonic," "Passed Notes," and "Unboxed," as well as rare material. They live in shadows—deep in the forest, late in the night, in the dark recesses of our minds. They're spoken of in stories and superstitions, relics of an unenlightened age, old wives' tales, passed down through generations. Yet no matter how wary and jaded we have become, as individuals or as a society, a part of us remains vulnerable to them: werewolves and wendigos, poltergeists and vampires, angry elves and vengeful spirits. In this beautifully illustrated volume, the host of the hit podcast Lore serves as a guide on a fascinating journey through the history of these terrifying creatures, exploring not only the legends but what they tell us about ourselves. Aaron Mahnke invites us to the desolate Pine Barrens of New Jersey, where the notorious winged, red-eyed Jersey Devil dwells. He delves into harrowing accounts of cannibalism—some officially documented, others the stuff of speculation . . . perhaps. He visits the

dimly lit rooms where séances take place, the European villages where gremlins make mischief, even Key West, Florida, home of a haunted doll named Robert. In a world of “emotional vampires” and “zombie malls,” the monsters of folklore have become both a part of our language and a part of our collective psyche. Whether these beasts and bogeymen are real or just a reflection of our primal fears, we know, on some level, that not every mystery has been explained and that the unknown still holds the power to strike fear deep in our hearts and souls. As Aaron Mahnke reminds us, sometimes the truth is even scarier than the lore. The World of Lore series includes: MONSTROUS CREATURES • WICKED MORTALS • DREADFUL PLACES

genesis wellness group llc: *Health Promotion in Health Care - Vital Theories and Research* Gørill Haugan, Monica Eriksson, 2021-03-11 This open access textbook represents a vital contribution to global health education, offering insights into health promotion as part of patient care for bachelor’s and master’s students in health care (nurses, occupational therapists, physiotherapists, radiotherapists, social care workers etc.) as well as health care professionals, and providing an overview of the field of health science and health promotion for PhD students and researchers. Written by leading experts from seven countries in Europe, America, Africa and Asia, it first discusses the theory of health promotion and vital concepts. It then presents updated evidence-based health promotion approaches in different populations (people with chronic diseases, cancer, heart failure, dementia, mental disorders, long-term ICU patients, elderly individuals, families with newborn babies, palliative care patients) and examines different health promotion approaches integrated into primary care services. This edited scientific anthology provides much-needed knowledge, translating research into guidelines for practice. Today’s medical approaches are highly developed; however, patients are human beings with a wholeness of body-mind-spirit. As such, providing high-quality and effective health care requires a holistic physical-psychological-social-spiritual model of health care is required. A great number of patients, both in hospitals and in primary health care, suffer from the lack of a holistic oriented health approach: Their condition is treated, but they feel scared, helpless and lonely. Health promotion focuses on improving people’s health in spite of illnesses. Accordingly, health care that supports/promotes patients’ health by identifying their health resources will result in better patient outcomes: shorter hospital stays, less re-hospitalization, being better able to cope at home and improved well-being, which in turn lead to lower health-care costs. This scientific anthology is the first of its kind, in that it connects health promotion with the salutogenic theory of health throughout the chapters. The authors here expand the understanding of health promotion beyond health protection and disease prevention. The book focuses on describing and explaining salutogenesis as an umbrella concept, not only as the key concept of sense of coherence.

But when family secrets spill out and racism at school ramps up, she must decide what she believes in and take a stand. Liliana Cruz is a hitting a wall—or rather, walls. There’s the wall her mom has put up ever since Liliana’s dad left—again. There’s the wall that delineates Liliana’s diverse inner-city Boston neighborhood from Westburg, the wealthy—and white—suburban high school she’s just been accepted into. And there’s the wall Liliana creates within herself, because to survive at Westburg, she can’t just lighten up, she has to whiten up. So what if she changes her name? So what if she changes the way she talks? So what if she’s seeing her neighborhood in a different way? But then light is shed on some hard truths: It isn’t that her father doesn’t want to come home—he can’t...and her whole family is in jeopardy. And Liliana must choose: Use this foundation as a platform to speak her truth, or risk crumbling under its weight.
