**haydel spine pain wellness houma: Pulse of Perseverance** Pierre Johnson, 2017-11 What drove three young black men, each from America's most urban environments, to achieve their dreams of becoming doctors? The answer is in the Pulse of Perseverance. In 1998, Max Madhere, Pierre Johnson, and Joe Semien were three young, black, premedical students at Xavier University of Louisiana. Each was struggling with the demands of Xavier's rigorous curriculum, yet each was determined to succeed, even if the statistics, or the stereotypes about black men, said otherwise. By drawing on each other's determination and individual strengths, they forged a brotherhood and created a bond so strong that it would carry them through college, medical school, and well beyond. Now they've come together in Pulse to share their stories and encourage young people of color to pursue high-level careers. Max grew up in New York City and Washington D.C., Pierre in Chicago, and Joe in New Orleans. Underperforming schools, instability in the home, the trappings of street life, or simply being expected to fail could have derailed their aspirations, yet all three men refused to accept failure as an option. No obstacle was too great, no ambition too high. Today, Dr. Maxime Madhere, Dr. Pierre Johnson, and Dr. Joseph W. Semien Jr. are each board-certified physicians, as well as fathers and community mentors. Their message in Pulse is both simple and complex: no matter where you're from, no matter what society tells you, you can realize your dreams with hard work, determination, and God's guidance.

**haydel spine pain wellness houma: *The Story of Land and Sea*** Katy Simpson Smith, 2014-08-26 Set in a small coastal town in North Carolina during the waning years of the American Revolution, this incandescent debut novel follows three generations of family—fathers and daughters, mother and son, master and slave, characters who yearn for redemption amidst a heady brew of war, kidnapping, slavery, and love. Drawn to the ocean, ten-year-old Tabitha wanders the marshes of her small coastal village and listens to her father's stories about his pirate voyages and the mother she never knew. Since the loss of his wife Helen, John has remained land-bound for their daughter, but when Tab contracts yellow fever, he turns to the sea once more. Desperate to save his daughter, he takes her aboard a sloop bound for Bermuda, hoping the salt air will heal her. Years

before, Helen herself was raised by a widowed father. Asa, the devout owner of a small plantation, gives his daughter a young slave named Moll for her tenth birthday. Left largely on their own, Helen and Moll develop a close but uneasy companionship. Helen gradually takes over the running of the plantation as the girls grow up, but when she meets John, the pirate turned Continental soldier, she flouts convention and her father's wishes by falling in love. Moll, meanwhile, is forced into marriage with a stranger. Her only solace is her son, Davy, whom she will protect with a passion that defies the bounds of slavery. In this elegant, evocative, and haunting debut, Katy Simpson Smith captures the singular love between parent and child, the devastation of love lost, and the lonely paths we travel in the name of renewal.

**haydel spine pain wellness houma: Acadie Then and Now** Warren A. Perrin, Phil Comeau, Mary Broussard Perrin, 2014-08-18 Acadie Then and Now: A People's History is an international collection of articles from 50 authors that chronicles the historical and contemporary realities of the Acadian and Cajun people worldwide. In 1605, French colonists settled Acadie (today Nova Scotia, Canada) and for the next 150 years developed a strong and unique Acadian culture. In 1755, the British conducted forced deportations of the Acadians rendering thousands homeless, and for the next 60 years these exiles migrated to seaports along the Atlantic Ocean and the Gulf of Mexico, eventually settling in new lands. This tragic upheaval did not succeed in extinguishing the Acadians, but instead planted the seeds of many new Acadies, where today their fascinating culture still thrives. This collection includes 65 articles on the Acadians and Cajuns living today in the American states of Louisiana, Texas, and Maine, in the Canadian provinces of New Brunswick, Nova Scotia, Prince Edward Island, Newfoundland, and Quebec, and in the French regions of Poitou, Belle-Ile-en-Mer, and St-Pierre et Miquelon.

Drawing on his experiences, Baker shows how Western banks and businesses use secret transactions and ignore laws while handling some \$1 trillion in illicit proceeds each year. He also illustrates how businesspeople, criminals, and kleptocrats perfect the same techniques to shift funds and how these tactics negatively affect individuals, institutions, and countries.

Some achieve a degree of social mobility while many more encounter aggressive policing, exploitative economies, and a political infrastructure that creates insecurities in healthcare, housing, education, and criminal justice. The gripping narrative moves with the band members from back street to backstage, before and after Hurricane Katrina, always in step with the tap of the snare drum, the thud of the bass drum, and the boom of the tuba.

**haydel spine pain wellness houma:** Inventing Acadia Katie A. Pfohl, 2019 A wide-ranging study of Louisiana landscape painting that places art from the region into a broader national and global context With its dense forests and swamps, Louisiana captured the imagination of writers and painters who viewed its landscape as a fascinating, untamed wilderness. Starting in the 1820s when French émigrés brought the Barbizon school to New Orleans, the state attracted artists from Europe, Latin America, the Caribbean, and the greater United States who shared ideas and experimented with approaches to the enigmatic scenery. Although Louisiana was in many ways an artists' paradise, the land also bore the scars of colonialism and the forced migrations of slavery. *Inventing Acadia* explores this complex history, following the rise of Louisiana landscape art and situating it amid the cultural shifts of the 19th century. The authors engage not only with artworks but also with the issues that informed them--representations of race and industry, international trade, and climate change. These issues are then carried into the present with a look at the work of contemporary artist Regina Agu. *Inventing Acadia* establishes Louisiana's role in creating a new vision for American art and highlights the continued relevance of landscape and representation.
