I AM Wellness: Your Acute Care & Walk-In Clinic Solution

Are you searching for a convenient and reliable healthcare option for those unexpected illnesses and injuries? Tired of long wait times at the ER or navigating confusing appointment schedules? Then you've come to the right place! This comprehensive guide dives deep into I AM Wellness, your neighborhood acute care and walk-in clinic, explaining exactly what we offer and how we can help you get back to feeling your best, quickly and efficiently. We'll cover everything from our services and convenient location to answering your frequently asked questions, ensuring you have all the information you need to make an informed decision about your healthcare.

What is I AM Wellness Acute Care & Walk-In Clinic?

I AM Wellness is more than just a walk-in clinic; we're your comprehensive solution for urgent medical needs. We understand that life throws curveballs, and sometimes you need immediate medical attention without the hassle of scheduling appointments weeks in advance. That's why we offer a convenient, patient-centered approach to acute care, providing high-quality medical services in a comfortable and welcoming environment. We pride ourselves on our efficient service, minimizing wait times and getting you the care you need, when you need it.

Services Offered at I AM Wellness

Our team of experienced medical professionals provides a wide range of services designed to address a variety of urgent medical concerns. These include, but are not limited to:

- Treatment of Minor Illnesses: From common colds and the flu to sore throats, ear infections, and bronchitis, we provide diagnosis and treatment options to help you recover swiftly.
- Injury Care: We handle minor injuries such as sprains, strains, cuts, and burns, providing immediate first aid and follow-up care as needed. We also offer wound care and stitching for minor lacerations.
- Diagnostic Testing: We offer on-site diagnostic testing such as rapid strep tests, flu tests, and urinalysis, providing quick results and enabling prompt treatment.
- Physical Exams: Need a quick check-up? We offer routine physical examinations for adults and children, ensuring you're maintaining optimal health.
- Vaccination Services: Stay protected with our readily available vaccination services, including flu shots and other recommended immunizations.
- Prescription Management: We can assist with prescription refills and provide guidance on medication management.

We strive to offer comprehensive care, catering to a wide range of ages and health concerns. Our goal is to be your first stop for non-emergency medical situations, saving you time and alleviating stress.

Why Choose I AM Wellness?

Choosing the right healthcare provider is crucial. Here's why I AM Wellness stands out:

Convenience: Our walk-in clinic operates with extended hours and minimal wait times, fitting seamlessly into your busy schedule. No appointments are necessary for most services.

Accessibility: We are conveniently located [Insert Location Details Here – Include Address, and possibly nearby landmarks or public transport options]. We strive to make healthcare accessible to everyone in our community.

Experienced Medical Professionals: Our team comprises highly skilled and compassionate doctors, nurses, and medical assistants who are dedicated to providing exceptional patient care.

Comprehensive Care: We provide a wide range of services under one roof, eliminating the need to visit multiple healthcare facilities.

Affordable Care: We strive to provide affordable healthcare options, working with most insurance providers and offering transparent pricing. [Mention any specific insurance plans accepted].

Patient-Focused Approach: We prioritize patient comfort and well-being, creating a warm and welcoming environment where you feel heard and understood.

Beyond the Basics: What Sets Us Apart

What truly differentiates I AM Wellness is our commitment to personalized care. We don't just treat symptoms; we work to understand the root cause of your illness or injury. Our providers take the time to listen to your concerns, answer your questions, and develop a tailored treatment plan that suits your individual needs. This personalized approach ensures you receive the most effective and appropriate care, leading to faster recovery and improved overall well-being. We also utilize the latest medical technologies and stay updated on the most effective treatment protocols.

Preparing for Your Visit to I AM Wellness

Before your visit, it's helpful to gather any relevant medical information, such as a list of your current medications and any known allergies. While appointments are generally not required, checking our website for potential wait times can help you plan your visit. We accept most major insurance plans, but it's always wise to confirm your coverage before your arrival.

I AM Wellness: Your Partner in Health

I AM Wellness isn't just a clinic; it's your partner in achieving and maintaining optimal health. We are dedicated to providing accessible, high-quality acute care and walk-in services, ensuring that you receive the prompt and compassionate care you deserve. Our commitment to patient satisfaction, coupled with our comprehensive range of services, makes us the ideal choice for your urgent healthcare needs.

Conclusion:

I AM Wellness Acute Care & Walk-In Clinic is your convenient, reliable, and compassionate solution for urgent medical needs. We prioritize your well-being and strive to provide quick, efficient, and

high-quality care in a friendly and welcoming environment. Visit us today and experience the I AM Wellness difference.

Frequently Asked Questions (FAQs):

1. Do I need an appointment? For most services, appointments are not required. However, checking our website for wait times is recommended, especially during peak hours.
1. What forms of payment do you accept? We accept most major credit cards, debit cards, and insurance plans. Please check our website for a complete list of accepted insurances.
1. What are your hours of operation? Our hours are [Insert Hours of Operation Here].
1. What should I bring to my visit? Bring your insurance card and a list of your current medications and allergies.
1. Do you offer telehealth services? [Answer Yes or No, and if yes, elaborate on the services offered].

i am wellness acute care walk in clinic: *Theoretical Psychology* International Society for Theoretical Psychology. Conference, Niamh Stephenson, 2003

i am wellness acute care walk in clinic: *Community Health and Wellness* Jill Clendon, Ailsa Munns, 2010-12-15 A new edition of the esteemed nursing text exploring social, cultural and political issues affecting individual and community health What makes a healthy community? And how can nurses and midwives support community health and wellbeing? In *Community Health and Wellness*, 4th Edition: Primary health care in practice, authors Anne McMurray and Jill Clendon advance the discussion of health as a product of the interaction between people and their environment. Engagingly written and based on extensive research, this valuable nursing textbook is ideal for nursing students as well as those working in the field. Issues such a gender and cultural inclusiveness provide essential backdrops to evidence-based policy, research and the provision of equitable health care for all. The Miller Family case study This new edition of *Community Health and Wellness* features a common family case study running throughout the text. The Miller family crosses Australia and New Zealand; providing examples of primary health care issues in both countries. These include child health services, accessing care, adolescent health, contemporary

family issues, ageing, cultural support and inclusive health care. • global insights with a focus on primary health care practice in Australia and New Zealand • promotion of community health care across the lifespan • a unique socio-ecological approach to community health • the Ottawa Charter, the Jakarta Declaration and the Bangkok Charter are included as contemporary health promotion guidelines for practice • extensive references providing current, specific source information

Emphasis on health literacy, intervention and health promotion. An evolving case study runs through each chapter and links to reflective activities. Focus on learning outcomes to facilitate the integration of policy, research and practice. Exploration of Australian and New Zealand nursing and midwifery roles in primary health care practice. Strong pedagogy to increase engagement and emphasise key issues. Reflective exercises and Action Points encourage readers to consider the key issues, their implications and how to move forward Research studies exemplify the central theme of each chapter and promote evidence-based practice. Evolve eBook and resources

i am wellness acute care walk in clinic: Fundamentals of Complementary, Alternative, and Integrative Medicine - E-Book Marc S. Micozzi, 2018-10-08 **Selected for Doody's Core Titles® 2024 in Complementary & Integrative Health** Get a solid, global foundation of the therapies and evidence-based clinical applications of CAI. Fundamentals of Complementary, Alternative, and Integrative Medicine, 6th Edition is filled with the most up-to-date information on scientific theory and research of holistic medicine from experts around the world. The 6th edition of this acclaimed text includes all new content on quantum biology and biofields in health and nursing, integrative mental health care, and homeopathic medicine. Its wide range of topics explores therapies most commonly seen in the U.S., such as energy medicine, mind-body therapies, and reflexology along with traditional medicine and practices from around the world. With detailed coverage of historic and contemporary applications, this text is a solid resource for all practitioners in the medical, health, and science fields! - Coverage of CAI therapies and systems includes those most commonly encountered or growing in popularity, so you can carefully evaluate each treatment. - An evidence-based approach focuses on treatments best supported by clinical trials and scientific evidence. - Observations from mechanisms of action to evidence of clinical efficacy answers questions of how, why, and when CAM therapies work. - A unique synthesis of information, including historical usage, cultural and social analysis, current basic science theory and research, and a wide range of clinical investigations and observations, makes this text a focused, authoritative resource. - Global coverage includes discussions of traditional healing arts from Europe, Asia, Africa, and the Americas. - Clinical guides for selecting therapies, and new advances for matching the appropriate therapy to the individual patient, enables you to offer and/or recommend individualized patient care. - Expert contributors include well-known writers such as Kevin Ergil, Patch Adams, Joseph Pizzorno, and Marc Micozzi. - A unique history of CAI traces CAM therapies from their beginnings to present day practices. - Suggested readings and references on the companion website list the best resources for further research and study.

i am wellness acute care walk in clinic: Community Health and Wellness - E-book Jill Clendon, Ailsa Munns, 2014-10-01 Community Health & Wellness: Primary health care in practice, 5th Edition represents contemporary thinking and research in community health and wellness from Australia, New Zealand and the global community. It challenges students and health professionals to become more aware of the primary health care (PHC) environments in which they work in order to

gain an understanding of what is socially determining the health of the individuals, families and communities within their care. Provides a focus on primary health care practice in Australia and New Zealand Research and evidence-based practice throughout each chapter Group exercises that can be used in practice or tutorial groups Reflective questions to challenge the understanding of key principles and practice Additional resources for lecturers via Evolve. • Two new chapters: Chapter 3 Assessing the Community Chapter 6 Working in groups • The SDH Assessment Circle - a new model for community assessment • Stronger emphasis on working with migrant and refugee families • A new continuous case study – the Mason and Smith families; both fly-in fly-out (FIFO) families.

i am wellness acute care walk in clinic: Health Promotion Throughout the Life Span - E-Book Carole Edelman, Elizabeth C. Kudzma, 2021-11-12 Health Promotion Throughout the Life Span - E-Book

i am wellness acute care walk in clinic: North Carolina's Outer Banks Karen Bachman, **i am wellness acute care walk in clinic:** *Major Labels* Kelefa Sanneh, 2021-10-05 One of Oprah Daily's 20 Favorite Books of 2021 • Selected as one of Pitchfork's Best Music Books of the Year "One of the best books of its kind in decades." —The Wall Street Journal An epic achievement and a huge delight, the entire history of popular music over the past fifty years refracted through the big genres that have defined and dominated it: rock, R&B, country, punk, hip-hop, dance music, and pop Kelefa Sanneh, one of the essential voices of our time on music and culture, has made a deep study of how popular music unites and divides us, charting the way genres become communities. In *Major Labels*, Sanneh distills a career's worth of knowledge about music and musicians into a brilliant and omnivorous reckoning with popular music—as an art form (actually, a bunch of art forms), as a cultural and economic force, and as a tool that we use to build our identities. He explains the history of slow jams, the genius of Shania Twain, and why rappers are always getting in trouble. Sanneh shows how these genres have been defined by the tension between mainstream and outsider, between authenticity and phoniness, between good and bad, right and wrong. Throughout, race is a powerful touchstone: just as there have always been Black audiences and white audiences, with more or less overlap depending on the moment, there has been Black music and white music, constantly mixing and separating. Sanneh debunks cherished myths, reappraises beloved heroes, and upends familiar ideas of musical greatness, arguing that sometimes, the best popular music isn't transcendent. Songs express our grudges as well as our hopes, and they are motivated by greed as well as idealism; music is a powerful tool for human connection, but also for human antagonism. This is a book about the music everyone loves, the music everyone hates, and the decades-long argument over which is which. The opposite of a modest proposal, *Major Labels* pays in full.

i am wellness acute care walk in clinic: **Homelessness, Health, and Human Needs** Institute of Medicine, Committee on Health Care for Homeless People, 1988-02-01 There have always been homeless people in the United States, but their plight has only recently stirred widespread public reaction and concern. Part of this new recognition stems from the problem's prevalence: the number of homeless individuals, while hard to pin down exactly, is rising. In light of this, Congress asked the Institute of Medicine to find out whether existing health care programs were ignoring the homeless or delivering care to them inefficiently. This book is the report prepared by a committee of experts who examined these problems through visits to city slums and impoverished rural areas, and through an analysis of papers written by leading scholars in the field.

i am wellness acute care walk in clinic: *Insiders' Guide® to Santa Fe* Nicky Leach, 2009-11-24 *Insiders' Guide to Santa Fe* is the essential source for in-depth travel and relocation information to this beautiful New Mexico city. Written by a local (and true insider), it offers a personal and practical perspective of Santa Fe and its surrounding environs.

i am wellness acute care walk in clinic: *Insiders' Guide® to Orange County, CA* Elizabeth Borsting, 2010-06-01 Your Travel Destination. Your Home. Your Home-To-Be. Orange County The quintessential California getaway. The real OC. Sunshine and surf. Suburban sensibilities and urban nuances. • A personal, practical perspective for travelers and residents alike • Comprehensive listings of attractions, restaurants, and accommodations • How to live & thrive in the area—from

recreation to relocation • Countless details on shopping, arts & entertainment, and children's activities

Features in-depth profiles of the 500 major firms in all health industry sectors.

i am wellness acute care walk in clinic: Evidence-Based Geriatric Nursing Protocols for Best Practice, Sixth Edition Marie Boltz, PhD, RN, GNP-BC, FGSA, FAAN, Elizabeth Capezuti,

PhD, RN, FAAN, DeAnne Zwicker, DrNP, APRN, BC, Terry T. Fulmer, PhD, RN, FAAN, 2020-03-31

Note to Readers: Publisher does not guarantee quality or access to any included digital components if book is purchased through a third-party seller. AJN Book of the Year 2016 First-Place Winner in Gerontological Nursing!

"The evidence-based protocols are designed as a primary reference and are useful, substantive, and timely....The broader contributions of useful format and succinct review of the evidence make it likely that this text will continue to be the leading resource in nursing education and practice." —The Gerontologist

"As a gerontological clinical educator/research nurse, I will often use this as a reference. The format and the content are good, and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice." Score: 97,**** —Doody's

The newest edition of this distinguished reference in geriatric nursing delivers updated guidelines, new illustrative case studies, and the latest evidence-based protocols developed by leading researchers, educators, and practitioners in each topic area. The sixth edition includes new approaches devoted to supporting LGBTQ+ elders,

persons living with dementia and their families, and older adults living with HIV. New operational strategies provide guidance in using the electronic health record, implementing improved person-centered care approaches, and maintaining age-friendly atmospheres. Using evidence

derived from all levels of care, this text offers developed guidelines for improving both quality and outcomes when caring for older adults in multiple disciplines, including interprofessional team members, long-term care and other staff educators, social workers, dietitians, and physicians.

Chapters provide assessment and management principles, clinical interventions, specialty practice, and models of care. They consistently feature chapter objectives, annotated references, evidence ratings for each protocol, and resources for further investigation. Each protocol is embedded within the chapter content to provide context and detailed evidence. The protocols consistently include an overview, evidence-based assessment, intervention strategies, and a supporting case study with discussion. PowerPoint presentations and a test bank are available as instructor's resources. New

Chapters: Informational Technology: Embedding CPGs Organizational Approaches to Promote Person-Centered Care Environmental Approaches to Support Aging-Friendly Care HIV Prevention and Care for the Older Adult LGBTQ+ Perspectives Key Features: Best practices for in-patient, in-home, and long-term care settings Case studies with discussions in each chapter to illustrate application of clinical practice and related Nursing Standard of Practice Protocol The AGREE

systematic method was used to evaluate each protocol and validate this book's content Instructor's resources including PowerPoints and a Test Bank Purchase includes digital access for use on most mobile devices and computers

i am wellness acute care walk in clinic: Textbook of Adult-Gerontology Primary Care Nursing Debra J Hain, PhD, APRN, AGPCNP-BC, FAAN, FAANP, FNKF, Deb Bakerjian, PhD, APRN, FAAN, FAANP, FGSA, 2022-02-21 I was thrilled to see content that focuses on quality improvement, patient safety, interprofessional collaboration, care coordination, and other content that supports the role of the AGNP as a clinical leader and change agent. The authors give these topics the attention that they deserve, with clear, insightful guidance and importantly, the evidence base. The chapters that address roles (including during disasters!), settings of care, billing, and medication use address salient issues that will help the fledgling AGNP to hit the ground running and the seasoned AGNP to

keep current. –Marie Boltz, PhD, GNP-BC, FGSA, FAAN Elouise Ross Eberly and Robert Eberly Endowed Professor Toss and Carol Nese College of Nursing, Penn State University From the Foreword Written for Adult-Gerontology Primary Care Nurse Practitioners, faculty, and students, this primary text encompasses the full scope of AGNP primary care practice across multiple healthcare settings including telehealth. The text emphasizes the best available evidence to promote person-centered care, quality improvement of care, interprofessional collaboration, and reducing healthcare costs. The text delivers timely information about current healthcare initiatives in the U.S., including care coordination across the healthcare continuum, interprofessional collaboration, and accountable care organizations. Disease-focused chapters contain general and specific population-based assessment and interprofessional care strategies to both common and complex health issues. They offer consistent content on emergencies, relevant social determinants of health, and ethical dilemmas. The text also prepares students for the administrative aspects of practice with information on the physical exam, medications, billing, coding, and documentation. Concise, accessible information is supported by numerous illustrations, learning objectives, quality and safety alerts, clinical pearls, and case studies demonstrating best practice. A robust ancillary package includes an Instructor's Manual with case studies and teaching guides, a Test Bank reflective of clinical situations and patient conditions, PowerPoints covering key concepts, and an Image Bank of skin conditions and other figures. Key Features: Covers several key courses in the curriculum for ease of teaching/learning Embraces a broad population focus addressing specific care needs of adolescents through older adults Facilitates safe care coordination and reinforces best practices across various health care settings including telehealth Fosters understanding, diagnosis, and management of patients with multimorbid conditions Incorporates evidence-based practice information and guidelines throughout, to ensure optimal, informed patient care A robust ancillary package includes an Instructor's Manual, a Test Bank, PowerPoints, and an Image Bank.

i am wellness acute care walk in clinic: Evidence-Based Geriatric Nursing Protocols for Best Practice Marie Boltz, PhD, RN, GNP-BC, FGSA, FAAN, Elizabeth Capezuti, PhD, RN, FAAN, Terry T. Fulmer, PhD, RN, FAAN, DeAnne Zwicker, DrNP, APRN, BC, 2016-03-28 This new edition of one of the premier references for geriatric nurses in hospital, long-term, and community settings delivers current guidelines, real-life case studies, and evidence-based protocols developed by master educators and practitioners. With a focus on improving quality of care, cost-effectiveness, and outcome, the fifth edition is updated to provide the most current information about care of common clinical conditions and issues in older patients. Several new expert contributors present current guidelines about hip fractures, frailty, perioperative and postoperative care, palliative care, and senior-friendly emergency departments. Additionally, chapters have been reorganized to enhance logical flow of content and easy information retrieval. Protocols, systematically tested by more than 300 participating NICHE (Nurses Improving Care for Health system Elders) hospitals, are organized in a consistent format and include an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, protocols are embedded within chapter text, providing the context and detailed evidence for each. Chapter objectives, annotated references, and evidence ratings for each protocol are provided along with resources for additional study. New to the Fifth Edition: Reorganized to enhance logical flow of information and ease of use Updated and revised Includes new contributions from expert educators and practitioners Provides new chapters on perioperative and postoperative care, general surgical care, care of hip fracture, palliative care, and the senior-friendly emergency department Key Features: Includes PowerPoints and a test bank for instructors Delivers evidence-based, current guidelines and protocols for care of common clinical conditions in the older person Illustrates the application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known geriatric leaders who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles

i am wellness acute care walk in clinic: Debates on U.S. Health Care Jennie Jacobs

Kronenfeld, Wendy E. Parmet, Mark A. Zezza, 2012-09-06 This issues-based reference work (available in both print and electronic formats) shines a spotlight on health care policy and practice in the United States. Impassioned debates about the best solutions to health care in America have perennially erupted among politicians, scholars of public policy, medical professionals, and the general public. The fight over the Health Care Reform Act of 2010 brought to light a multitude of fears, challenges, obstacles, and passions that often had the effect of complicating rather than clarifying the debate. The discourse has never been more heated. The complex issues that animate the health care debate have forced the American public to grapple with the exigencies of the present system with regard to economic, fiscal, and monetary policy, especially as they relate to philosophical, often ideologically driven approaches to the problem. Americans have also had to examine their ideas about the relationship of the individual to and interaction with the state and the varied social and cultural beliefs about what an American solution to the problem of health care looks like. In light of the need to keep students, researchers, and other interested readers informed and up-to-date on the issues surrounding health care in the U.S., this volume uses introductory essays followed by point/counterpoint articles to explore prominent and perennially important debates, providing readers with views on multiple sides of this complex issue. Features & Benefits: The volume is divided into three sections, each with its own Section Editor: Quality of Care Debates (Dr. Jennie Kronenfeld), Economic & Fiscal Debates (Dr. Mark Zezza), and Political, Philosophical, & Legal Debates (Prof. Wendy Parmet). Sections open with a Preface by the Section Editor to introduce the broad theme at hand and provide historical underpinnings. Each Section holds 12 chapters addressing varied aspects of the broad theme of the section. Chapters open with an objective, lead-in piece (or headnote) followed by a point article and a counterpoint article. All pieces (headnote, point article, counterpoint article) are signed. For each chapter, students are referred to further readings, data sources, and other resources as a jumping-off spot for further research and more in-depth exploration. Finally, the volume concludes with a comprehensive index, and the electronic version of the book includes search-and-browse features, as well as the ability to link to further readings cited within chapters should they be available to the library in electronic format.

i am wellness acute care walk in clinic: Evidence-Based Geriatric Nursing Protocols for Best Practice Elizabeth Capezuti, PhD, RN, FAAN, DeAnne Zwicker, DrNP, APRN, BC, Terry T. Fulmer, PhD, RN, FAAN, Marie Boltz, PhD, RN, GNP-BC, FGSA, FAAN, Ardis O'Meara, MA, 2011-11-18 Named a 2013 Doody's Core Title! The evidence-based protocols are designed as a primary reference and are useful, substantive, and timely...The broader contributions of useful format and succinct review of the evidence make it likely that this text will continue to be the leading resource in nursing education and practice.--The Gerontologist Now more than ever, nurses are called upon to lead efforts to embed evidence-based practice in daily operations. As the IOM report states, 'nurses have key roles to play as team members and leaders for a reformed and better-integrated, patient-centered health care system.' The process of implementing sweeping change in health care will likely take years; however, nurses must start pragmatically and focus on these critically important protocols that have demonstrated improved outcomes for older adults. Simply stated, 'Pick this book up and use it.' From the Foreword, Susan L. Carlson, MSN, APRN, ACNS-BC, GNP-BC, FNGNA President, National Gerontological Nursing Association As a gerontological clinical educator/research nurse, I will often use this as a reference. The format and the content are good, and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice. Score: 97, 5 Stars. --Doody's One of the premier reference books for geriatric nurses in hospital, long-term, and community settings, this 4th edition has been thoroughly updated to provide the most current, evidence-based protocols for care of common clinical conditions and issues in elderly patients. Designed to improve the quality, outcomes, and cost-effectiveness of health care, these guidelines are the result of collaboration between leading practitioners and educators in geriatric nursing and New York University College of Nursing. Protocols for each clinical condition have been developed by experts in that particular area, and most have been systematically tested by over 300 participating hospitals in Nurses Improving

Care for Health System Elders (NICHE). Evidence is derived from all levels of care, including community, primary, and long-term care. A systematic method in compliance with the AGREE appraisal process was used to rate the levels of evidence for each protocol. Protocols are organized in a consistent format for ease of use, and each includes an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, each protocol is embedded within chapter text, which provides the context and detailed evidence for the protocol. Each chapter contains resources for further study. Key Features: Updated to provide a wide range of evidence-based geriatric protocols for best practices Contains new chapters on function-focused care, catheter-associated urinary tract infections, mistreatment detection, acute care models, and transitional care Illustrates application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known leaders in geriatric nursing education and practice, who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Encompasses the contributions of 58 leading practitioners of geriatric care Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles

i am wellness acute care walk in clinic: Insiders' Guide® to Baton Rouge Cynthia Campbell, 2010-05-18 A first edition, Insiders' Guide to Baton Rouge is the essential source for in-depth travel and relocation information to the Louisiana's capital city. Written by a local (and true insider), this guide offers a personal and practical perspective of Baton Rouge and its surrounding environs.

i am wellness acute care walk in clinic: Patient Safety and Quality Ronda Hughes, 2008 Nurses play a vital role in improving the safety and quality of patient care -- not only in the hospital or ambulatory treatment facility, but also of community-based care and the care performed by family members. Nurses need know what proven techniques and interventions they can use to enhance patient outcomes. To address this need, the Agency for Healthcare Research and Quality (AHRQ), with additional funding from the Robert Wood Johnson Foundation, has prepared this comprehensive, 1,400-page, handbook for nurses on patient safety and quality -- Patient Safety and Quality: An Evidence-Based Handbook for Nurses. (AHRQ Publication No. 08-0043). - online AHRQ blurb, <http://www.ahrq.gov/qual/nursesfdbk/>

i am wellness acute care walk in clinic: Clinical Case Studies for the Family Nurse Practitioner Leslie Neal-Boylan, 2011-11-28 Clinical Case Studies for the Family Nurse Practitioner is a key resource for advanced practice nurses and graduate students seeking to test their skills in assessing, diagnosing, and managing cases in family and primary care. Composed of more than 70 cases ranging from common to unique, the book compiles years of experience from experts in the field. It is organized chronologically, presenting cases from neonatal to geriatric care in a standard approach built on the SOAP format. This includes differential diagnosis and a series of critical thinking questions ideal for self-assessment or classroom use.

i am wellness acute care walk in clinic: Connections For Health Mullen, McDermott, Gold, Belcastro,

i am wellness acute care walk in clinic: Wellness Centers Joan Whaley Gallup, 1999-04-26 Bringing together the best aspects of ambulatory care, complementary medicine, and fitness clubs under one roof, wellness centers are poised to become an essential vehicle of healthcare delivery for the 21st century. Although wellness-based programs have been instituted by nearly every hospital system in North America, very little has been published on this rapidly emerging building type. Wellness Centers enables design professionals and others to understand the fitness and healthcare requirements of these facilities, and to address them effectively in their work. Providing essential insights into balancing the healthcare and retail demands of wellness centers, Joan Whaley Gallup reviews every step of the planning and development process, addressing project assessment, financing, programming, and marketing. She draws on her extensive expertise in creating wellness centers to cover a full range of development and design considerations, including design guidelines for lobby/waiting areas, clinical space, administrative areas, pools, saunas, and indoor gardens. Finally, an inspiring project portfolio profiles an impressive roster of successful wellness centers

from around the world. With useful information on code compliance, plus floor plans, schematic designs, and more, this book is a vital professional resource for anyone involved in wellness center design, planning, or management. The wellness center is the most positive, nurturing, life-affirming building type ever to evolve in the history of healthcare facilities design. . . . By turning inside out the trends of past centuries, we can now focus on wellness. We can create buildings that will nurture and sustain us, healing environments that will serve to support happy, life-enhancing activities. Centers for wellness are centers for life.-from the Preface The first book of its kind, *Wellness Centers* offers design professionals and others complete cutting-edge coverage of these complex new facilities, from planning and development issues to design guidelines and case examples of successful wellness centers from around the world. Written by an architect with extensive experience in the field, this book provides a firm foundation in wellness center design, planning, and management-essential reading for anyone involved in this rapidly growing area of healthcare design.

i am wellness acute care walk in clinic: *Insiders' Guide® to San Diego* Maribeth Mellin, Jane Onstott, Judith Devlin, 2009-04-22 San Diego, California's second largest city with 70 miles of beaches and a mild Mediterranean climate, is popular for visitors—temporary or permanent. *Insiders' Guide to San Diego* is the quintessential and comprehensive source for travel and relocation information about this sprawling, spectacular Southern California city. Take advantage of the personal perspective of the local authors to gain detailed knowledge necessary to making the most of your experience. Now in its sixth edition, this fully updated and revised guide includes seven maps and 32 black-and-white photographs.

i am wellness acute care walk in clinic: *An Introduction to Community Health Brief Edition* James F. McKenzie, Robert R. Pinger, 2013-04-26 *An Introduction to Community Health Brief Edition* is a condensed and fully updated version of the bestselling classic health text. It is ideally suited for students in Health Education, Nursing, and Social Work programs. Like the full-length text, the condensed edition provides comprehensive coverage of epidemiology, adolescent and child health, health and safety in the workplace, environmental health, and minority and elder health. This is the only condensed community health text on the market and is suitable for institutions with shorter academic terms.

i am wellness acute care walk in clinic: *Acute Care for Elders* Michael L. Malone, Elizabeth A. Capezuti, Robert M. Palmer, 2014-07-21 *Acute Care for Elders (ACE)* is a model of care designed to improve functional outcomes and to improve the processes for the care of older patients. This model includes: an environment of care designed to promote improved function for older patients; an interdisciplinary team that works together to identify/address the vulnerabilities of the older patients; nursing care plans for prevention of disability; early planning to help prepare the patient to return home and a review of medical care to prevent iatrogenic illness. *Acute Care for Elders: A Model for Interdisciplinary Care* is an essential new resource aimed at assisting providers in developing and sustaining an ACE program. The interdisciplinary approach provides an introduction to the key vulnerabilities of older adults and defines the lessons learned from the *Acute Care for Elders* model. Expertly written chapters describe critical aspects of ACE: the interdisciplinary approach and the focus on function. The fundamental principles of ACE described in this book will further assist hospital leaders to develop, implement, sustain and disseminate the *Acute Care for Elders* model of care. *Acute Care for Elders: A Model for Interdisciplinary Care* is of great value to geriatricians, hospitalists, advance practice nurses, social workers and all others who provide high quality care to older patients.

i am wellness acute care walk in clinic: *Operations and Supply Chain Management* Roberta S. Russell, Bernard W. Taylor, 2019-09-24 Russell and Taylor's *Operations and Supply Chain Management*, 10th Edition is designed to teach students understand how to create value and competitive advantage along the supply chain in a rapidly changing global environment. Beyond

providing a solid foundation, this course covers increasingly important OM topics of sustainability, corporate social responsibility, global trade policies, securing the supply chain, and risk and resilience. Most importantly, Operations Management, Tenth Edition makes the quantitative topics easy for students to understand and the mathematical applications less intimidating. Appropriate for all business students, this course takes a balanced approach to the foundational understanding of both qualitative and quantitative operations management processes.

i am wellness acute care walk in clinic: Livable Communities for Aging Populations M. Scott Ball, 2012-05-01 An innovative look at design solutions for building lifelong neighborhoods Livable Communities for Aging Populations provides architects and designers with critical guidance on urban planning and building design that allows people to age in their own homes and communities. The focus is on lifelong neighborhoods, where healthcare and accessibility needs of residents can be met throughout their entire life cycle. Written by M. Scott Ball, a Duany Plater-Zyberk architect with extensive expertise in designing for an aging society, this important work explores the full range of factors involved in designing for an aging population from social, economic, and public health policies to land use, business models, and built form. Ball examines in detail a number of case studies of communities that have implemented lifelong solutions, discussing how to apply these best practices to communities large and small, new and existing, urban and rural. Other topics include: How healthcare and disability can be integrated into an urban environment as a lifelong function The need for partnership between healthcare providers, community support services, and real-estate developers How to handle project financing and take advantage of lessons learned in the senior housing industry The role of transportation, access, connectivity, and building diversity in the success of lifelong neighborhoods Architects, urban planners, urban designers, and developers will find Livable Communities for Aging Populations both instructive and inspiring. The book also includes a wealth of pertinent information for public health officials working on policy issues for aging populations.

i am wellness acute care walk in clinic: New York Magazine , 1993-04-26 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

i am wellness acute care walk in clinic: Implementing High-Quality Primary Care National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Implementing High-Quality Primary Care, 2021-06-30 High-quality primary care is the foundation of the health care system. It provides continuous, person-centered, relationship-based care that considers the needs and preferences of individuals, families, and communities. Without access to high-quality primary care, minor health problems can spiral into chronic disease, chronic disease management becomes difficult and uncoordinated, visits to emergency departments increase, preventive care lags, and health care spending soars to unsustainable levels. Unequal access to primary care remains a concern, and the COVID-19 pandemic amplified pervasive economic, mental health, and social health disparities that ubiquitous, high-quality primary care might have reduced. Primary care is the only health care component where an increased supply is associated with better population health and more equitable outcomes. For this reason, primary care is a common good, which makes the strength and quality of the country's primary care services a public concern. Implementing High-Quality Primary Care: Rebuilding the Foundation of Health Care puts forth an evidence-based plan with actionable objectives and recommendations for implementing high-quality primary care in the United States. The implementation plan of this report balances national needs for scalable solutions while allowing for adaptations to meet local needs.

i am wellness acute care walk in clinic: Medical Travel Brand Management Frederick J. DeMicco, Ali A. Poorani, 2022-10-27 This new volume, which complements the editors' earlier volume *Medical Travel Brand Management: Success Strategies for Hospitality Bridging Healthcare (H2H)*, explores the multitude of medical travel services and discusses the integration of traveling medical guests with destination providers, hospitality/healthcare professionals, and travel service providers. The editors also address the impact the COVID-19 pandemic has made on the travel industry, which has motivated them to bring together major players, renowned authors, practitioners, and researchers to create this book to help prepare the medical tourism market to not only recover from the devastating effects of the pandemic but also to provide tools and cases that will help to structure successful destinations for medical travel. From chapters on branding to assessing accreditation and post-care quality metrics, Drs. DeMicco, Poorani, and their fellow contributors take the reader through the critical phases of the medical travel journey: pre-visit, travel, on-site care, discharge and follow-up care. The authors address critical issues facing medical, health, and wellness travel from both macro and micro perspectives. Presentations of best practices and strategies demonstrate how some destinations have built, renewed, or engaged various stakeholders to construct or enhance their medical tourism destination. *Medical Travel: Hospitality Bridging Healthcare (H2H)* © also showcases best practices and innovative ways of designing and operating a profitable and entrepreneurial practice. Quality issues, aesthetics, and legal issues related to inbound and outbound medical tourism are also presented. The book explores the evolving nature of hospital design and the complex relationship between people and medicine as manifested in the relationship of hospital aesthetics to patient satisfaction. Importantly, the book also includes a chapter addressing medical health travel during the pandemic which describes how the pandemic has revolutionized telehealth and the medical travel industry, which can leverage the advances made in digital health and telemedicine. This volume will be an important resource for the four main players at the center of medical travel: medical travelers themselves, government agencies, intermediaries, and health and wellness providers. The selected best practices, research, cases, innovative strategies, SWOT analysis, and toolkits address the aims of all stakeholders.
