"An exquisite debut that combines a moving tale of friendship with a fascinating primer on bees."--People "This heartwarming, uplifting story will make you want to call your own friends, not to mention grab some honey."--Good Housekeeping Three lonely strangers in a rural Oregon town, each working through grief and life's curveballs, are brought together by happenstance on a local honeybee farm where they find surprising friendship, healing--and maybe even a second chance--just when they least expect it. Forty-four-year-old Alice Holtzman is stuck in a dead-end job, bereft of family, and now reeling from the unexpected death of her husband. Alice has begun having panic attacks whenever she thinks about how her life hasn't turned out the way she dreamed. Even the beloved honeybees she raises in her spare time aren't helping her feel better these days. In the grip of a panic attack, she nearly collides with Jake--a troubled, paraplegic teenager with the tallest mohawk in Hood River County--while carrying 120,000 honeybees in the back of her pickup truck. Charmed by Jake's sincere interest in her bees and seeking to rescue him from his toxic home life, Alice surprises herself by inviting Jake to her farm. And then there's Harry, a twenty-four-year-old with debilitating social anxiety who is desperate for work. When he applies to Alice's ad for part-time farm help, he's shocked to find himself hired. As an unexpected friendship blossoms among Alice, Jake, and Harry, a nefarious pesticide company moves to town, threatening the local honeybee population and illuminating deep-seated corruption in the community. The unlikely trio must unite for the sake of the bees--and in the process, they just might forge a new future for themselves. Beautifully moving, warm, and uplifting, *The Music of Bees* is about the power of friendship, compassion in the face of loss, and finding the courage to start over (at any age) when things don't turn out the way you expect. inspire wellness purcell ok: *Channel Kindness: Stories of Kindness and Community* Born This Way Foundation Reporters, Lady Gaga, 2020-09-22 A New York Times Bestseller For Lady Gaga, kindness is the driving force behind everything she says and does. The quiet power of kindness can change the way we view one another, our communities, and even ourselves. She embodies this mission, and through her work, brings more kindness into our world every single day. Lady Gaga has always believed in the importance of being yourself, being kind to yourself, and being kind to others, no matter who they are or where they come from. With that sentiment in mind, she and her mother, Cynthia Germanotta, founded Born This Way Foundation, a nonprofit organization dedicated to making the world a kinder and braver place. Through the years, they've collected stories of kindness, bravery and resilience from young people all over the world, proving that kindness truly is the universal language. And now, we invite you to read these stories and follow along as each and every young author finds their voice just as Lady Gaga has found hers. Within these pages, you'll meet young changemakers who found their inner strength, who prevailed in the face of bullies, who started their own social movements, who decided to break through the mental health stigma and share how they felt, who created safe spaces for LGBTQ+ youth, and who have embraced kindness with every fiber of their being by helping others without the expectation of anything in return. In one story, you'll read about a young person with an autoimmune disease, who after being bullied at school, learned how to practice self-love and started an organization with the mission of educating others about the importance of self-love, too; and in another story, you'll meet a young person who decided to start a movement to help eliminate the stigma surrounding mental health and encouraged others to talk about their feelings openly and honestly, a reminder that kindness and mental wellness go hand in hand. Not only were we moved by these individual acts of kindness, but we were also touched by the many stories of organizations, neighborhoods, and entire communities that fully dedicated themselves to helping those in need and found new, innovative ways to make our world a kinder and braver place. Individually and collectively, these stories prove that kindness not only saves lives but builds community. Kindness is inclusion, it is pride, it is empathy, it is compassion, it is self-respect and it is the guiding light to love. Kindness is always transformational, and its never-ending ripples result in even more kind acts that can change our lives, our communities, and our world.

inspire wellness purcell ok: Uprising! Robert Perry, 2009 The life of Woodrow Woody Crumbo (1912-1989) parallels the twentieth-century evolution of American Indian art. An accomplished Native dancer, flutist, silversmith, and poet, Crumbo is perhaps best known today for his oil paintings and silk screens--revolutionary artworks that were denigrated by some critics at first but that helped move Indian art to museums of fine art, as well as its markets. Now the life story of an Indian artist who often went against the grain is told by an accomplished Indian storyteller. Chickasaw author Robert Perry's interest in gathering and preserving elders' stories from neighboring tribes prompted him to write this long-awaited biography. Starting with a suitcase full of newspaper clippings provided by Crumbo's widow, Perry traced Crumbo's first flowering as an artist from his studies at Chilocco Indian School, where he befriended several Kiowas who taught him about their dances and regalia and introduced him to the traditional Kiowa cedar-wood flute. The book follows Crumbo from Chilocco to his studies at Wichita University and the University of Oklahoma, his years touring as an Indian dancer, and his position as director of art at Bacone College in Muskogee, Oklahoma. Later, Crumbo collaborated with Taos artists, helped organize Indian art exhibitions at the Gilcrease and Philbrook art museums in Tulsa, and directed the El Paso Museum of Art. *Uprising!* Woody Crumbo's Indian Art tells a compassionate and inspiring story as it fills a gap in the historical record regarding indigenous artists of the century just closed.

Moriarty, 2010 Greg Giberson and Tom Moriarty have collected a rich volume that offers a state-of-the-field look at the question of the undergraduate writing major, a vital issue for compositionists as the discipline continues to evolve. *What We Are Becoming* provides an indispensable resource for departments and WPAs who are building undergraduate majors. Contributors to the volume address a range of vital questions for undergraduate programs, including such issues as the competition for majors within departments, the job market for undergraduates, varying focuses and curricula of such majors, and the formation of them in departments separate from English. Other chapters discuss the importance of flexibility, consider arguments for a rhetorical or civic discourse core for the writing major, address the relationship between rhetoric and composition majors, and review the role of multiliteracies in the major. The field of composition has not come to a consensus on the shape, content, or focus of the undergraduate major. But as individual programs develop and refine their curricula, one thing has become clear: we must think about them in ways that go beyond our particular circumstances, theorize them in ways that secure their place on our campuses and in our discipline for years to come. *What We Are Becoming* is an effort to do just that.
