instagram small business clothes: #GIRLBOSS Sophia Amoruso, 2014-05-06 In the New York Times bestseller that the Washington Post called "Lean In for misfits," Sophia Amoruso shares how she went from dumpster diving to founding one of the fastest-growing retailers in the world. Amoruso spent her teens hitchhiking, committing petty theft, and scrounging in dumpsters for leftover bagels. By age twenty-two she had dropped out of school, and was broke, directionless, and checking IDs in the lobby of an art school—a job she'd taken for the health insurance. It was in that lobby that Sophia decided to start selling vintage clothes on eBay. Flash forward to today, and she's the founder of Nasty Gal and the founder and CEO of Girlboss. Sophia was never a typical CEO, or a typical anything, and she's written #GIRLBOSS for other girls like her: outsiders (and insiders) seeking a unique path to success, even when that path is windy as all hell and lined with naysayers. #GIRLBOSS proves that being successful isn't about where you went to college or how popular you were in high school. It's about trusting your instincts and following your gut; knowing which rules to follow and which to break; when to button up and when to let your freak flag fly. "A witty and cleverly told account . . . It's this kind of honest advice, plus the humorous ups and downs of her rise in online retail, that make the book so appealing." —Los Angeles Times "Amoruso teaches the innovative and entrepreneurial among us to play to our strengths, learn from our mistakes, and know when to break a few of the traditional rules." —Vanity Fair "#GIRLBOSS is more than a book . . . #GIRLBOSS is a movement." —Lena Dunham

instagram small business clothes: Consumed Aja Barber, 2021-10-05 A call to action for consumers everywhere, Consumed asks us to look at how and why we buy what we buy, how it's created, who it benefits, and how we can solve the problems created by a wasteful system. We live in a world of stuff. We dispose of most of it in as little as six months after we receive it. The byproducts of our quest to consume are creating an environmental crisis. Aja Barber wants to change this--and you can, too. In Consumed, Barber calls for change within an industry that regularly overreaches with abandon, creating real imbalances in the environment and the lives of those who do the work—often in unsafe conditions for very low pay—and the billionaires who receive the most profit. A story told in two parts, Barber exposes the endemic injustices in our consumer industries and the uncomfortable history of the textile industry, one which brokered slavery, racism, and today's wealth inequality. Once the layers are peeled back, Barber invites you to participate in unlearning, to understand the truth behind why we consume in the way that we do, to confront the uncomfortable feeling that we are never quite enough and why we fill that void with consumption rather than compassion. Barber challenges us to challenge the system and our role in it. The less you buy into the consumer culture, the more power you have. Consumed will teach you how to be a citizen and not a consumer.

instagram small business clothes: Fashion Stylist's Handbook Danielle Griffiths, 2012-08-27 With its tutorial-based approach, this is a practical guide to both hand- and computer-drawn design. Readers will learn to think three-dimensionally and build complex design ideas that are structurally sound and visually clear. The book also illustrates how these basic skills underpin the use of computer-aided design and graphic software. While these applications assist the designer in creating physical products, architectural spaces and virtual interfaces, a basic knowledge of sketching and drawing allows the designer to fully exploit the software. Foundational chapters show how these technical skills fit into a deeper and more intuitive feeling for visualisation and representation, while featured case studies of leading designers, artists and architects illustrate the full range of different drawing options available. Hundreds of hand-drawn sketches and computer models have been specially created to demonstrate critical geometry and show how to build on basic forms and exploit principles of perspective to develop sketches into finished

illustrations. There's also advice on establishing context, shading and realizing more complex forms.

Most of us are familiar with the traditional way of looking at legacy—something preserved in the past. Traditional legacy is all around us, evidenced by the steady churn of autobiographies, bequests, commemorations, and dedications we are forever leaving in our collective cultural wake. This is not the legacy you will find in this book. *Legacy in the Making* celebrates an active, dynamic form of “modern legacy,” seen through the eyes of a select group of extraordinary men and women who are pursuing their enduring ambitions in the age of now. More than caretakers of the past, these modern legacy builders are also the authors of a vital today and tomorrow. Rather than leaving their legacies behind them, they are looking ahead to harness their long-term ambitions and inspire others to help carry them forward. These are not static, traditional legacies. These are legacies in the making.
