ivy creek healthcare and wellness centre: *Pediatric Incontinence* Israel Franco, Paul Austin, Stuart Bauer, Alexander von Gontard, Yves Homsy, 2015-09-23 Pediatric incontinence: evaluation and clinical management offers urologists practical, 'how-to' clinical guidance to what is a very common problem affecting up to 15% of children aged 6 years old. Introductory chapters cover the neurophysiology, psychological and genetic aspects, as well as the urodynamics of incontinence,

before it moves on to its core focus, namely the evaluation and management of the problem. All types of management methods will be covered, including behavioural, psychological, medical and surgical, thus providing the reader with a solution to every patient's specific problem. The outstanding editor team led by Professor Israel Franco, one of the world's leading gurus of pediatric urology, have recruited a truly stellar team of contributors each of whom have provided first-rate, high-quality contributions on their specific areas of expertise. Clear management algorithms for each form of treatment support the text, topics of controversy are covered openly, and the latest guidelines from the ICCS, AUA and EAU are included throughout. Perfect to refer to prior to seeing patients on the wards and in the clinics, this is the ideal guide to the topic and an essential purchase for all urologists, pediatric urologists and paediatricians managing children suffering from incontinence.

ivy creek healthcare and wellness centre: Geriatric Dermatology R.A. Norman, 2020-08-26
Over the past few years the world's population has continued on its remarkable transition from a state of high birth and death rates to one characterized by low birth and death rates. Consequently, primary care physicians and dermatologists will see more elderly patients presenting age-related dermatological conditions. There has never been a better time for a book devoted entirely to skin care in the elderly. Geriatric Dermatology draws together a panel of experts who provide an overview of the diagnosis and treatment of geriatric skin diseases. It begins with a general review of the aging of the world's population and the major dermatological problems that often arise in elderly patients. An added benefit is the book's coverage of geriatric skin care in nursing homes, adult congregate living, and subacute and home health settings, a subject not always found in conventional dermatology texts. The book includes: A summary of the dermatological disorders frequently encountered in the elderly, including eczematous dermatitis, skin infections, and neoplasias A description of the most common geriatric hair and scalp disorders, including graying, alopecia, and scalp psoriasis Comprehensive coverage of the diagnosis and treatment of leg, foot, and nail diseases Detailed discussion of the treatment of superficial mycoses, scabies, and pediculosis Less common geriatric conditions such as blistering diseases Major adverse drug reactions on the skin Leg ulcers due to venous insufficiency, arterial diseases, and diabetic nephropathy Diagnosis and treatment of diabetic complications of dermatology, such scleroderma and dermopathy The study of diseases that impact the elderly population is a crucial and growing area of interest in medicine. Geriatricians, primary care physicians, dermatologists, and others involved in the care of the elderly will inevitably see an increase in skin diseases specific to aging. The comprehensive coverage provided by Geriatric Dermatology facilitates the diagnosis and management of these geriatric skin diseases from the common to the rare and unusual.

ivy creek healthcare and wellness centre: Starvation Heights Gregg Olsen, 2005-05-03 In this true story—a haunting saga of medical murder set in an era of steamships and gaslights—Gregg Olsen reveals one of the most unusual and disturbing criminal cases in American history. In 1911 two wealthy British heiresses, Claire and Dora Williamson, arrived at a sanatorium in the forests of the Pacific Northwest to undergo the revolutionary “fasting treatment” of Dr. Linda Burfield Hazzard. It was supposed to be a holiday for the two sisters, but within a month of arriving at what the locals called Starvation Heights, the women underwent brutal treatments and were emaciated shadows of their former selves. Claire and Dora were not the first victims of Linda Hazzard, a quack doctor of extraordinary evil and greed. But as their jewelry disappeared and forged bank drafts began transferring their wealth to Hazzard's accounts, the sisters came to learn that Hazzard would stop at nothing short of murder to achieve her ambitions.

ivy creek healthcare and wellness centre: Indigenous Peoples' Food Systems Harriet V. Kuhnlein, Bill Erasmus, Dina Spigelski, 2009 Today, globalisation and homogenisation have replaced local food cultures. The 12 case studies presented in this book show the wealth of knowledge in indigenous communities in diverse ecosystems, the richness of their food resources, the inherent

strengths of the local traditional food systems, how people think about and use these foods, the influx of industrial and purchased food, and the circumstances of the nutrition transition in indigenous communities. The unique styles of conceptualising food systems and writing about them were preserved. Photographs and tables accompany each chapter.

ivy creek healthcare and wellness centre: Remaking the American Patient Nancy Tomes, 2016-01-06 In a work that spans the twentieth century, Nancy Tomes questions the popular--and largely unexamined--idea that in order to get good health care, people must learn to shop for it. *Remaking the American Patient* explores the consequences of the consumer economy and American medicine having come of age at exactly the same time. Tracing the robust development of advertising, marketing, and public relations within the medical profession and the vast realm we now think of as health care, Tomes considers what it means to be a good patient. As she shows, this history of the coevolution of medicine and consumer culture tells us much about our current predicament over health care in the United States. Understanding where the shopping model came from, why it was so long resisted in medicine, and why it finally triumphed in the late twentieth century helps explain why, despite striking changes that seem to empower patients, so many Americans remain unhappy and confused about their status as patients today.

ivy creek healthcare and wellness centre: **Ask a Manager** Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what

to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you’re being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate’s loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

ivy creek healthcare and wellness centre: Pediatric Palliative Care Betty Ferrell, 2016 Pediatric palliative care is a field of significant growth as health care systems recognize the benefits of palliative care in areas such as neonatal intensive care, pediatric ICU, and chronic pediatric illnesses. *Pediatric Palliative Care*, the fourth volume in the HPNA Palliative Nursing Manuals series, highlights key issues related to the field. Chapters address pediatric hospice, symptom management, pediatric pain, the neonatal intensive care unit, transitioning goals of care between the emergency department and intensive care unit, and grief and bereavement in pediatric palliative care. The content of the concise, clinically focused volumes in the HPNA Palliative Nursing Manuals series is one resource for nurses preparing for specialty certification exams and provides a quick-reference in daily practice. Plentiful tables and patient teaching points make these volumes useful resources for nurses.

ivy creek healthcare and wellness centre: Rethinking Education Across Borders Uttam Gaulee, Shyam Sharma, Krishna Bista, 2021-02-15 This book focuses on critical issues and perspectives concerning globally mobile students, aspects that have grown in importance thanks to major geopolitical, economic, and technological changes around the globe (i.e., in and across major origins and destinations of international students). Over the past few decades, the field of international higher education and scholarship has developed robust areas of research that guide current policy, programs, and pedagogy. However, many of the established narratives and wisdoms that dominate research agendas, scope, and foci have become somewhat ossified and are unable to reflect recent political upheavals and other changes (e.g. the Brexit, Trump era, and Belt and Road Initiative) that have disrupted a number of areas including mobility patterns and recruitment practices, understanding and supporting students, engagement of global mobile students with their local counterparts, and the political economy of international education at large. By re-assessing established issues and perspectives in light of the emerging global/local situations, the contributing authors – all experts on international education – share insights on policies and practices that can help adapt to emerging challenges and opportunities for institutions, scholars, and other stakeholders in international higher education. Including theoretical, empirical, and practitioner-based methods and perspectives provided by scholars from around the world, the book offers a unique and intriguing resource.

ivy creek healthcare and wellness centre: History, Power, Text Timothy Neale, Crystal McKinnon, Eve Vincent, 2014-01-01 *History, Power, Text: Cultural Studies and Indigenous Studies* is a collection of essays on Indigenous themes published between 1996 and 2013 in the journal known first as *UTS Review* and now as *Cultural Studies Review*. This journal opened up a space for new kinds of politics, new styles of writing and new modes of interdisciplinary engagement. *History, Power, Text* highlights the significance of just one of the exciting interdisciplinary spaces, or

meeting points, the journal enabled. 'Indigenous cultural studies' is our name for the intersection of cultural studies and Indigenous studies showcased here. This volume republishes key works by academics and writers Katelyn Barney, Jennifer Biddle, Tony Birch, Wendy Brady, Gillian Cowlshaw, Robyn Ferrell, Bronwyn Fredericks, Heather Goodall, Tess Lea, Erin Manning, Richard Martin, Aileen Moreton-Robinson, Stephen Muecke, Alison Ravenscroft, Deborah Bird Rose, Lisa Slater, Sonia Smallacombe, Rebe Taylor, Penny van Toorn, Eve Vincent, Irene Watson and Virginia Watson—many of whom have taken this opportunity to write reflections on their work—as well as interviews between Christine Nicholls and painter Kathleen Petyarre, and Anne Brewster and author Kim Scott. The book also features new essays by Birch, Moreton-Robinson and Crystal McKinnon, and a roundtable discussion with former and current journal editors Chris Healy, Stephen Muecke and Katrina Schlunke.

ivy creek healthcare and wellness centre: Volume Control David Owen, 2019-10-29 The surprising science of hearing and the remarkable technologies that can help us hear better Our sense of hearing makes it easy to connect with the world and the people around us. The human system for processing sound is a biological marvel, an intricate assembly of delicate membranes, bones, receptor cells, and neurons. Yet many people take their ears for granted, abusing them with loud restaurants, rock concerts, and Q-tips. And then, eventually, most of us start to go deaf. Millions of Americans suffer from hearing loss. Faced with the cost and stigma of hearing aids, the natural human tendency is to do nothing and hope for the best, usually while pretending that nothing is wrong. In Volume Control, David Owen argues this inaction comes with a huge social cost. He demystifies the science of hearing while encouraging readers to get the treatment they need for hearing loss and protect the hearing they still have. Hearing aids are rapidly improving and becoming more versatile. Inexpensive high-tech substitutes are increasingly available, making it possible for more of us to boost our weakening ears without bankrupting ourselves. Relatively soon, physicians may be able to reverse losses that have always been considered irreversible. Even the insistent buzz of tinnitus may soon yield to relatively simple treatments and techniques. With wit and clarity, Owen explores the incredible possibilities of technologically assisted hearing. And he proves that ears, whether they're working or not, are endlessly interesting.

ivy creek healthcare and wellness centre: Nazis of Copley Square Charles Gallagher, 2021-09-28 The forgotten history of American terrorists who, in the name of God, conspired to overthrow the government and formed an alliance with Hitler. On January 13, 1940, FBI agents burst into the homes and offices of seventeen members of the Christian Front, seizing guns, ammunition, and homemade bombs. J. Edgar Hoover's charges were incendiary: the group, he alleged, was planning to incite a revolution and install a temporary dictatorship in order to stamp out Jewish and communist influence in the United States. Interviewed in his jail cell, the front's ringleader was unbowed: "All I can say is 'long live Christ the King! Down with communism!'" In Nazis of Copley Square, Charles Gallagher provides a crucial missing chapter in the history of the American far right. The men of the Christian Front imagined themselves as crusaders fighting for the spiritual purification of the nation, under assault from godless communism, and they were hardly alone in their beliefs. The front traced its origins to vibrant global Catholic theological movements of the early twentieth century, such as the Mystical Body of Christ and Catholic Action. The front's anti-Semitism was inspired by Sunday sermons and by lay leaders openly espousing fascist and Nazi beliefs. Gallagher chronicles the evolution of the front, the transatlantic cloak-and-dagger intelligence operations that subverted it, and the mainstream political and religious leaders who shielded the front's activities from scrutiny. Nazis of Copley Square offers a grim tale of faith perverted to violent ends, and its lessons provide a warning for those who hope to stop the spread of far-right violence today.

ivy creek healthcare and wellness centre: Liminal Spaces: Migration and Women of the Guyanese Diaspora Grace Aneiza Ali, 2020-09-29 Liminal Spaces is an intimate exploration into the migration narratives of fifteen women of Guyanese heritage. It spans diverse inter-generational perspectives - from those who leave Guyana, and those who are left - and seven seminal decades of Guyana's history - from the 1950s to the present day - bringing the voices of women to the fore. The volume is conceived of as a visual exhibition on the page; a four-part journey navigating the contributors' essays and artworks, allowing the reader to trace the migration path of Guyanese women from their moment of departure, to their arrival on diasporic soils, to their reunion with Guyana. Eloquent and visually stunning, Liminal Spaces unpacks the global realities of migration, challenging and disrupting dominant narratives associated with Guyana, its colonial past, and its post-colonial present as a 'disappearing nation'. Multimodal in approach, the volume combines memoir, creative non-fiction, poetry, photography, art and curatorial essays to collectively examine the mutable notion of 'homeland', and grapple with ideas of place and accountability. This volume is a welcome contribution to the scholarly field of international migration, transnationalism, and diaspora, both in its creative methodological approach, and in its subject area - as one of the only studies published on Guyanese diaspora. It will be of great interest to those studying women and migration, and scholars and students of diaspora studies. Grace Aneiza Ali is a Curator and an Assistant Professor and Provost Fellow in the Department of Art & Public Policy, Tisch School of the Arts, New York University. Her curatorial research practice centers on socially engaged art practices, global contemporary art, and art of the Caribbean Diaspora, with a focus on her homeland Guyana.
