joz beauty and wellness: The Map of Love Ahdaf Soueif, 2011-01-26 Booker Prize Finalist Here is an extraordinary cross-cultural love story that unfurls across Egypt, England, and the United States over the course of a century. Isabel Parkman, a divorced American journalist, has fallen in love with a gifted and difficult Egyptian-American conductor. Shadowing her romance is the courtship of her great-grandparents Anna and Sharif nearly one hundred years before. In 1900 the recently widows Anna Winterbourne left England for Egypt, an outpost of the Empire roiling with political sentiment. She soon found herself enraptured by the real Egypt and in love with Sharif Pasha al-Baroudi, an Egyptian nationalist. When Isabel, in an attempt to discover the truth behind her heritage, reenacts Anna's excursion to Egypt, the story of her great-grandparents unravels before her, revealing startling parallels for her own life. Combining the romance and intricate narrative of a nineteenth-century novel with a very modern sense of culture and politics—both sexual and international—Ahdaf Soueif has created a thoroughly seductive and mesmerizing tale.

In this short book, Dale Partridge assaults the watered-down, lukewarm Christianity that is harbored in many modern churches and replaces it with the raw, biblical Gospel found in the New Testament.

joz beauty and wellness: *Toms and Dees* Megan J. Sinnott, 2004-06-30 A vibrant, growing, and highly visible set of female identities has emerged in Thailand known as tom and dee. A tom (from tomboy) refers to a masculine woman who is sexually involved with a feminine partner, or dee (from lady). The patterning of female same-sex relationships into masculine and feminine pairs, coupled with the use of English derived terms to refer to them, is found throughout East and Southeast Asia. Have the forces of capitalism facilitated the dissemination of Western-style gay and lesbian identities throughout the developing world as some theories of transnationalism suggest? Is the emergence of toms and dees over the past twenty-five years a sign that this has occurred in Thailand? Megan Sinnott engages these issues by examining the local culture and historical context of female same-sex eroticism and female masculinity in Thailand. Drawing on a broad spectrum of anthropological literature, Sinnott situates Thai tom and dee subculture within the global trend of increasingly hybridized sexual and gender identities.

joz beauty and wellness: *Follow the Old Road* Jo Kerrigan, 2018-04-23 By turning off the main highway and discovering old routes, some of which have been travelled for thousands of years, you will see Ireland in an entirely different way. Follow the Old Road will take you on a tour of a variety of pathways from great river roads to lost railways. Long before records began, travellers arriving on our shores found safe havens, natural harbours, the estuaries of rivers, and settled there, in sight of the ocean that had brought them to this land. Gradually they moved inland to more fertile soil, usually along the course of a river that provided both guidance and essential water supplies. In later centuries, great lords built their castles and monks their abbeys upriver, at the tidal limit. Some of the routes are still used today while others lie ignored and overgrown. Villages, and, later on, towns grew up around these castles and abbeys to serve their needs; towns that still prosper today.

joz beauty and wellness: *You Are the Placebo* Dr. Joe Dispenza, 2015-09-08 Is it possible to heal by thought alone—without drugs or surgery? The truth is that it happens more often than you might expect. In *You Are the Placebo*, best-selling author, international speaker, chiropractor, and renowned researcher of epigenetics, quantum physics, & neuroscience, Dr. Joe Dispenza shares numerous documented cases of those who reversed cancer, heart disease, depression, crippling arthritis, and even the tremors of Parkinson's disease by believing in a placebo. Similarly, Dr. Joe tells of how others have gotten sick and even died the victims of a hex or voodoo curse—or after being misdiagnosed with a fatal illness. Belief can be so strong that pharmaceutical companies use double- and triple-blind randomized studies to try to exclude the power of the mind over the body when evaluating new drugs. "In his paradigm-altering book, *You Are the Placebo*, Dr. Joe Dispenza catapults us beyond thinking of the placebo effect as an anomaly. Through 12 concise chapters that read like a true-life scientific thriller, Dispenza gives us rock-solid reasons to accept the

game-changer of our lives: that the placebo effect is actually us, proving to ourselves the greatest possibilities of healing, miracles, and longevity! I love this book and look forward to a world where the secret of the placebo is the foundation of everyday life.” — Gregg Braden, New York Times best-selling author of *Deep Truth* and *The Divine Matrix* Chapters Include: Foreward by Dawson Church, Ph.D. Part I. Is It Possible? A Brief History of the Placebo The Placebo Effect in the Brain The Placebo Effect in the Body How Thoughts Change the Brain and the Body Suggestibility Attitudes, Beliefs, and Perceptions The Quantum Mind Three Stories of Personal Transformation Information to Transformation: Proof That You Are the Placebo Part II: Transformation Meditation Preparation Changing Beliefs and Perceptions Meditation Becoming Supernatural Dr. Joe does more than simply explore the history and the physiology of the placebo effect. He asks the question: Is it possible to teach the principles of the placebo, and without relying on any external substance, produce the same internal changes in a person’s health and ultimately in his or her life? Then he shares scientific evidence (including color brain scans) of amazing healings from his workshops, in which participants learn his consciousness shifting model of personal transformation, based on practical applications of the so-called placebo effect. The book ends with a how-to calming meditation for changing limiting beliefs and mental perceptions that hold us back—the first step in healing. *You Are the Placebo* combines the latest research in neuroscience, biology, psychology, hypnosis, behavioral conditioning, and quantum physics to demystify the workings of the placebo effect . . . and show how the seemingly impossible can become possible. “I discovered that if I could teach people the scientific model of transformation (bringing in a little quantum physics to help them understand the science of possibility); combine it with the latest information in neuroscience, neuroendocrinology, epigenetics, and psychoneuroimmunology; give them the right kind of instruction; and provide the opportunity to apply that information, then they would experience a transformation... This book is about: empowering you to realize that you have all the biological and neurological machinery to do exactly that. My goal is to demystify these concepts with the new science of the way things really are so that it is within the reach of more people to change their internal states in order to create positive changes in their health and in their external world.” — Dr. Joe Dispenza

joz beauty and wellness: Threads Julia Blackburn, 2015 Winner of the East Anglian Book of the Year 2015 John Craske, a Norfolk fisherman, was born in 1881 and in 1917, when he had just turned thirty-six, he fell seriously ill. For the rest of his life he kept moving in and out of what was described as 'a stuporous state'. In 1923 he started making paintings of the sea and boats and the coastline seen from the sea, and later, when he was too ill to stand and paint, he turned to embroidery, which he could do lying in bed. His embroideries were also the sea, including his masterpiece, a huge embroidery of The Evacuation of Dunkirk. Very few facts about Craske are known, and only a few scattered photographs have survived, together with accounts by the writer Sylvia Townsend Warner

and her lover Valentine Ackland, who discovered Craske in 1937. So - as with all her books - Julia Blackburn's account of his life is far from a conventional biography. Instead it is a quest which takes her in many strange directions - to fishermen's cottages in Sheringham, a grand hotel fallen on hard times in Great Yarmouth and to the isolated Watch House far out in the Blakeney estuary; to Cromer and the bizarre story of Einstein's stay there, guarded by dashing young women in jodhpurs with shotguns. *Threads* is a book about life and death and the strange country between the two where John Craske seemed to live. It is also about life after death, as Julia's beloved husband Herman, a vivid presence in the early pages of the book, dies before it is finished. In a gentle meditation on art and fame; on the nature of time and the fact of mortality; and illustrated with Craske's paintings and embroideries, *Threads* shows, yet again, that Julia Blackburn can conjure a magic that is spellbinding and utterly her own.
