las brisas rehabilitation and wellness suites photos: Wait No More Benjamin Roseth,

Angela Reyes, Pedro Farias, Miguel Porrúa, Harold Villalba, Sebastián Acevedo, Norma Peña, Elsa Estevez, Sebastián Linares Lejarraga, Pablo Fillotrani, 2018-06-06 This book is about the smallest unit of public policy: the government transaction. Government transactions—requesting a birth certificate, registering a property, or opening a business, for example—are the way that citizens and companies connect with the government. Efficient transactions enhance the business climate, citizen perception of government, and access to crucial public programs and services. In Latin America and the Caribbean, however, government transactions are often headaches. Public institutions rarely coordinate with each other, still rely on paper, and are more concerned about fulfilling bureaucratic requirements than meeting citizens' needs. Wait No More empirically confirms a reality known anecdotally but previously unquantified and offers a path to escape the bureaucratic maze.

las brisas rehabilitation and wellness suites photos: Connecting Continents Krish Seetah, 2018-06-07 In recent decades, the vast and culturally diverse Indian Ocean region has increasingly attracted the attention of anthropologists, historians, political scientists, sociologists, and other researchers. Largely missing from this growing body of scholarship, however, are significant contributions by archaeologists and consciously interdisciplinary approaches to studying the region's past and present. Connecting Continents addresses two important issues: how best to promote collaborative research on the Indian Ocean world, and how to shape the research agenda for a region that has only recently begun to attract serious interest from historical archaeologists. The archaeologists, historians, and other scholars who have contributed to this volume tackle important topics such as the nature and dynamics of migration, colonization, and cultural syncretism that are central to understanding the human experience in the Indian Ocean basin. This groundbreaking work also deepens our understanding of topics of increasing scholarly and popular interest, such as the ways in which people construct and understand their heritage and can make use of exciting new technologies like DNA and environmental analysis. Because it adopts such an explicitly comparative approach to the Indian Ocean, Connecting Continents provides a compelling model for multidisciplinary approaches to studying other parts of the globe. Gibson, 2006-09 South of Phoenix's South Mountain, west of Interstate 10, north of the Gila River Indian Community, and east of Arizona state land lies the picturesque village of Ahwatukee-Foothills, home to some 87,000 people. Its proximity to adjacent cities, cultural centers, shopping, and dining combines with these natural boundaries to give the area its beautiful topography, sense of peaceful isolation, and high desirability as a great place to live, work, and play. But long before there was a freeway, the area was part of the Kyrene farming community, a rural patchwork of hardy pioneer families typifying the country's agricultural way of life during the first half of the 20th century.

las brisas rehabilitation and wellness suites photos: Hemingway's Second War Alex Vernon, 2011-05-15 In 1937 and 1938, Ernest Hemingway made four trips to Spain to cover its civil war for the North American News Alliance wire service and to help create the pro-Republican documentary film *The Spanish Earth*. Hemingway's *Second War* is the first book-length scholarly work devoted to this subject. Drawing on primary sources, Alex Vernon provides a thorough account of Hemingway's involvement in the Spanish Civil War, a messy, complicated, brutal precursor to World War II that inspired Hemingway's great novel *For Whom the Bell Tolls*. Vernon also offers the most sustained history and consideration to date of *The Spanish Earth*. Directed by Joris Ivens, this film was a landmark work in the development of war documentaries, for which Hemingway served as screenwriter and narrator. Contributing factual, textual, and contextual information to Hemingway studies in general and his participation in the war specifically, Vernon has written a critical biography for Hemingway's experiences during the Spanish Civil War that includes discussion of the left-wing politics of the era and the execution of José Robles Pazos. Finally, the book provides readings of *For Whom the Bell Tolls* both in historical context and on its own terms. Marked by both impressive breadth and accessibility, *Hemingway's Second War* will be an indispensable resource for students of literature, film, journalism, and European history and a landmark work for readers of Ernest Hemingway.

las brisas rehabilitation and wellness suites photos: By Nightfall Michael Cunningham, 2010-09-28 Peter and Rebecca Harris: mid-forties denizens of Manhattan's SoHo, nearing the apogee of committed careers in the arts—he a dealer, she an editor. With a spacious loft, a college-age daughter in Boston, and lively friends, they are admirable, enviable contemporary urbanites with every reason, it seems, to be happy. Then Rebecca's much younger look-alike brother, Ethan (known in the family as Mizzy, the mistake), shows up for a visit. A beautiful, beguiling twenty-three-year-old with a history of drug problems, Mizzy is wayward, at loose ends, looking for direction. And in his presence, Peter finds himself questioning his artists, their work, his career—the

entire world he has so carefully constructed. Like his legendary, Pulitzer Prize-winning novel, *The Hours*, Michael Cunningham's masterly new novel is a heartbreaking look at the way we live now. Full of shocks and aftershocks, it makes us think and feel deeply about the uses and meaning of beauty and the place of love in our lives.

las brisas rehabilitation and wellness suites photos: Heads You Lose Lisa Lutz, David Hayward, 2011-04-05 Dave, I just finished the first chapter of a new novel—a real crime novel with a dead body and all—and I thought of you... Paul and Lacey Hansen are pot-growing, twentysomething siblings sharing a modest rambler of a home in rural Northern California. When they find a headless corpse on their property they can't exactly call 911, so they simply move the body to another location. Let somebody else find it. Instead, the corpse reappears on their land. Clearly, someone is sending them a message, and it's getting riper by the day. But that's only half of the story... Enter authors Lisa Lutz and David Hayward—former real-life partners (professionally and personally) who have agreed to reunite for a tag-team mystery novel written in alternating chapters. One little problem: they disagree on pretty much every detail of how their novel should unfold. While the body count rises in Paul and Lacey's wildly unpredictable fictional world, so too does the intensity of Lisa and David's rivalry. The result is a literary brawl like no other, and a murder mystery every bit as unanticipated (and bloody).

las brisas rehabilitation and wellness suites photos: ARTEC Architects Arno Ritter, 2018 In their concepts, buildings, and designs submitted for competitions, as well as in theory in their teaching, Bettina Götz and Richard Manahl investigate the relationship between architecture and the creation of high-quality urban environments. They give special attention to typologies and structures, social aspects. Strong building concepts and their interplay with the urban context and the inhabitants' individual spatial demands are also of great importance in the work of their firm ARTEC Architekten. Ever since founding their firm in 1987, Götz and Manahl have contributed significantly to architectural discourse in Austria and abroad. Housing, a typology fundamentally shaping the city, is the core of their work. This manifesto-like book introduces the reader to the thinking and visions of ARTEC Architekten. It features a vast selection of projects, built and unrealized ones, through images and floor plans and sections, alongside six programmatic essays by Götz and Manahl. The book's design demonstrates visually what the texts elaborate upon in theory: their attitude to architecture's core topics, their design methods, and their ongoing engagement with history and present of habitation.
