**lelite medispa and wellness bk:** [Still Here](#) Matthias Kliefoth, Mafalda Millies, Roya Sachs, 2021-06-04 What has been on artists' and creatives' minds during the Covid-19 pandemic and the waves of quarantine orders that have washed over the planet? That has been the question animating the initiative STILL HERE: Moments in Isolation. Since March 2020, co-curators Roya Sachs and Mafalda Millies, alongside producer Lizzie Edelman, have invited prominent denizens in the worlds of art and culture to submit a still life image with an accompanying text, or thought, sharing their experience. Originally conceived as a digital campaign the project in collaboration with DISTANZ is now spanning across six continents. STILL HERE is rooted in the still life, with its iconic depictions of inanimate objects, finding 'beauty' in banality. The book presents a selection of one hundred

submissions for the project and illustrates that, despite the current restrictions, a profound sense of community and creativity is still alive and pulsing in the private spaces of many. With contributions by the artists such as Monica Bonvicini, Tosh Basco fka Boychild, Katherine Bernhardt, Simon Denny, Marcel Dzama, Issy Wood, Shirin Neshat, Adam Pendleton, Laure Prouvost, Wolfgang Tillmans, Raphaela Vogel, Paul Mpagi Sepuya, among many more, alongside authors such as Chris Kraus, ballet dancer David Hallberg, neuroscientist Mendel Kaelen, auctioneer Simon de Pury and sexual anthropologist Betony Vernon. An essay by the art critic Jennifer Higgie relates personal encounters with iconic still lifes to sketch the genre's history from antiquity to the present. Each book includes a bookmark with a custom scent attached to it, developed by renowned olfactory artist and smell researcher Sissel Tolaas. The visual diary will also come to life through a selection of commissioned augmented reality videos and sound pieces using the DISTANZ App.

**lelite medispa and wellness bk: Elements of Architecture** Rem Koolhaas, 2017-10-14 Une mine d'or à parcourir encore et toujours, un de ces livres qui fournira aux bâtisseurs actuels et futurs de notre monde tout le savoir dont ils ont besoin pour aborder les questions actuelles et celles auxquelles ils seront confrontés. ArchDaily Architecture is a compelling mixture of stability and flux. In its solid forms, time and space collide, amalgamating distant influences, elements that have been around for over 5, 000 years and others that were (re-)invented yesterday. Elements of Architecture focuses on the fragments of the rich and complex architectural collage. Window, facade, balcony, corridor, fireplace, stair, escalator, elevator : The book seeks to excavate the micro-narratives of building detail. The result is no single history, but rather the web of origins, contaminations, similarities, and differences in architectural evolution, including the influence of technological advances, climactic adaptation, political calculation, economic contexts, regulatory requirements, and new digital regimes. Derived from Koolhaas' exhaustive and much-lauded exhibition at the 2014 Venice Architecture Biennale, this is an essential toolkit to understanding the pieces, parts, and fundamentals that comprise structure around the globe. Designed by Irma Boom, the book contains essays from Rem Koolhaas, Stephan Trueby, Manfredo di Robilant, and Jeffrey Inaba; interviews with Werner Sobek and Tony Fadell (of Nest); and an exclusive photo essay by Wolfgang Tillmans.

**lelite medispa and wellness bk: The Hidden World** Marc-Olivier Wahler, 2014 Graphics and propaganda from secret societies, evangelical and fundamentalist movements, new-age spiritualists, Scientologists, Freemasons, ultraconservatives and all kinds of conspirators; encyclopedias for children and even Dr. Netter's famous medical illustrations--with The Hidden World, Los Angeles-based artist Jim Shaw (born 1952) exhibits the incredible collection of didactic graphic art that is the main source of inspiration for his diversely informed art. Renowned for his striking paintings, drawings, videos, installations and performances, Shaw is also a compulsive collector, constantly on the hunt for pop-culture arcana in thrift stores or on the Internet. The Hidden World gives the reader the chance to dive into an overflowing world of paintings, sculptures, brochures, t-shirts, books, vinyl and educational material that recycles the myriad myths and beliefs of America. A lengthy interview with Shaw elucidates his fascination with this visual world.
