lifeist wellness message board: From Marketing Mix to Relationship Marketing Christian Grönroos, 1993 The author of this paper believes that a paradigm shift is under way in marketing theory. For the past 40 years, marketing thought, research and practice has been dominated by the marketing mix paradigm, based on the four Ps of product, price, place and promotion. Now, however, it is challenged by relationship marketing, defined as a process of establishing, maintaining and enhancing relationships with customers and other partners, at a profit, so that the objectives of the parties involved are met through a mutual exchange and fulfilment of promises, and of trust between seller and customer. The author examines the characteristics of such relationships and discusses how relationship marketing has evolved from other contemporary marketing theories.

lifeist wellness message board: Awakening Earth Duane Elgin, 1993 Just as there are relatively distinct stages that characterize the development of an individual from infancy to early adulthood, so too are there discernible stages in the development of our species as we move toward a planetary-scale civilization. *Awakening Earth* brings together views from science and spirituality, East and West, the practical and the visionary, to present a compelling new picture of human evolution. Based upon twenty years of research, this book explores the human journey from the initial awakening of hunter-gatherers roughly 35,000 years ago, through the agrarian era and Industrial Revolution, and then goes on to describe three additional stages of development essential for realizing our initial maturity as a global species-civilization. A disoriented world civilization faced with dwindling resources, mounting pollution, and exploding population is a recipe for ecological collapse and social anarchy. It is imperative that the human family begin to make rapid and profound changes in how we live together on the Earth. To accomplish this, we must now ask ourselves fundamental questions: Who are we? What are we doing here? Where are we going as a species? *Awakening Earth* provides a catalyst for this conversation with its integrative vision and inspiring map of the journey toward a sustainable, compassionate, and creative future. While not predicting a sudden new age of social enlightenment, *Awakening Earth* does present the promising view that humanity is roughly halfway through seven major transformations in culture and consciousness required to build a planetary civilization that can endure into the deep future.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. lifeist wellness message board: Authenticity James H. Gilmore, B. Joseph Pine II, 2007-10-18 Contrived. Disingenuous. Phony. Inauthentic. Do your customers use any of these words to describe what you sell—or how you sell it? If so, welcome to the club. Inundated by fakes and sophisticated counterfeits, people increasingly see the world in terms of real or fake. They would rather buy something real from someone genuine rather than something fake from some phony. When deciding to buy, consumers judge an offering's (and a company's) authenticity as much as—if not more than—price, quality, and availability. In *Authenticity*, James H. Gilmore and B. Joseph Pine II argue that to trounce rivals companies must grasp, manage, and excel at rendering authenticity. Through examples from a wide array of industries as well as government, nonprofit, education, and religious sectors, the authors show how to manage customers' perception of authenticity by: recognizing how businesses fake it; appealing to the five different genres of authenticity; charting how to be true to self and what you say you are; and crafting and implementing business strategies for rendering authenticity. The first to explore what authenticity really means for businesses and how companies can approach it both thoughtfully and thoroughly, this book is a must-read for any organization seeking to fulfill consumers' intensifying demand for the real deal.

lifeist wellness message board: Oasis of Dreams Grace Feuerverger, 2013-08-21 Neve Shalom/Wahat Al-Salam (the Hebrew and Arabic words for Oasis of Peace) is a community founded by Jews and Palestinians that is aimed at demonstrating the possibilities for living in peace while maintaining their respective cultural heritages and languages. The village schools represent a unique educational experience: an opportunity for Jewish and Palestinian children to learn together in a Hebrew-Arabic bilingual, bicultural, binational setting. This book, a result of the author's nine year study of the schools in the village, explores the psychological and social dimensions of this important educational endeavor. Award-winning author Grace Feuerverger explores teaching and

learning in schools as a sacred life journey, a quest toward liberation. Written for teacher/educators who wish to make a real difference in the lives of their students, this book speaks to everyone who finds themselves, as she did, on winding and often treacherous paths, longing to discover the meaning and potential in their professional lives at school. A child of Holocaust survivors, Feuerverger wrote this book to tell how schools can be transformed into magical places where miracles happen. In an era of narrow agendas of 'efficiency' and 'control', this book dares to suggest that education is and should always be about uplifting the human spirit.

lifeist wellness message board: Guy Maddin's My Winnipeg Darren Wershler, 2010-09-04 Guy Maddin is Canada's most iconoclastic filmmaker. Through his reinvention of half-forgotten film genres, his remobilization of abandoned techniques from the early history of cinema, and his unique editing style, Maddin has created a critically successful body of work that looks like nothing else in Canadian film. *My Winnipeg* (2008), which Roger Ebert called one of the ten best films of the first decade of the twenty-first century, has consolidated Maddin's international reputation. In this sixth volume of the Canadian Cinema series, Darren Wershler argues that Maddin's use of techniques and media that fall outside of the normal repertoire of contemporary cinema require us to re-examine what we think we know about the documentary genre and even 'film' itself. Through an exploration of *My Winnipeg's* major thematic concerns - memory, the cultural archive, and how people and objects circulate through the space of the city - Wershler contends that the result is a film that is psychologically and affectively true without being historically accurate.

lifeist wellness message board: Voluntary Simplicity (rev) Duane Elgin, 1993 When *Voluntary Simplicity* was first published in 1981, it quickly became recognized as a powerful and visionary work in the emerging dialogue over sustainable ways of living. Now, more than ten years later and with many of the planet's environmental stresses having become more urgent than ever, Duane Elgin has revised and updated his revolutionary book. *Voluntary Simplicity* is not a book about living in poverty; it is a book about living with balance. It illuminates the pattern of changes that an increasing number of Americans are making in their everyday lives -- adjustments in day-to-day living that are an active, positive response to the complex dilemmas of our time. By embracing, either partially or totally, the tenets of voluntary simplicity -- frugal consumption, ecological awareness, and personal growth -- people can change their lives. And in the process, they have the power to change the world. First published in 1981, *Voluntary Simplicity* was instantly recognized as a visionary work. The *New York Times* called it seminal; the *Wall Street Journal* noted that it was considered the movement's Bible. Revised in 1993 to address the trend toward downshifting, this pertinent book helps us to adjust our thoughts, habits, and goals and embrace the key elements of simplicity: frugal consumption, ecological awareness and personal growth.

Highly cognisant of the central issues that have fractured, blocked and enhanced western feminism. - Bev Skeggs, Goldsmiths The comprehensiveness and the interdisciplinary range of themes are impressive, and they make the Handbook into a wonderful tool for teachers and students of women's and gender studies. - Nina Lykke, Linköping University Gender and women's studies is one of the most challenging fields within the social sciences - the dynamics of gender relations and the social and cultural implications of gender constructions offer a lively forum of debate. The Handbook of Gender and Women's Studies presents a comprehensive and engaging review of the most recent developments within the field, including the study of masculinity, the feminist implications of postmodernism, the 'cultural turn' and globalization. The authors review current research and offer

critical analyses of women's and gender studies in work, the welfare state, family, education, religion, violence and war and feminist global politics. Edited by three leading academics from Europe and the United States, and with 25 chapters written by scholars based throughout the world, the Handbook situates the most important debates in the field within a uniquely international and interdisciplinary context. The Handbook is a useful introduction to gender theory and an exciting starting-point for fresh debates.
