lights out wellness rosamond: The Uninhabitable Earth David Wallace-Wells, 2019-02-19 #1 NEW YORK TIMES BESTSELLER • “The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon.”—Andrew Solomon, author of *The Noonday Demon* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The New Yorker* • *The New York Times Book Review* • *Time* • *NPR* • *The Economist* • *The Paris Review* • *Toronto Star* • *GQ* • *The Times Literary Supplement* • *The New York Public Library* • *Kirkus Reviews* It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (*The Guardian*) and “this generation’s *Silent Spring*” (*The Washington Post*), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today’s. **LOGLISTED FOR THE PEN/E.O. WILSON LITERARY SCIENCE WRITING AWARD** “The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet.”—Farhad Manjoo, *The New York Times* “Riveting. . . . Some readers will find Mr. Wallace-Wells’s outline of possible futures alarmist. He is indeed alarmed. You should be, too.”—*The Economist* “Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the ‘eerily banal language of climatology’ in favor of lush, rolling prose.”—Jennifer Szalai, *The New York Times* “The book has potential to be this generation’s *Silent Spring*.”—*The Washington Post* “The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book.”—Alan Weisman, *The New York Review of Books*

lights out wellness rosamond: Spirits of Wickland Mansion Dixie P. Hibbs, 2014 Visitors to historic Wickland Mansion in Bardstown, Kentucky are impressed by the striking beauty and stately elegance of this family estate. Built between 1825-28 and home to three state governors, it is considered one of the best remaining examples of Georgian-style architecture in the state and an important tourist destination. Although no one has lived at Wickland for nearly 20 years, it still serves as home to resident spirits who have been drawn back to visit this magical place. Although members of the Wickliffe family, who originally lived in the residence, still frequent the grounds, two of their slaves from the 1860s are more commonly heard, plus other spirits just passing through. Led by historian Dixie Hibbs with the help of twin mediums, special tours have been given since 2009 to converse with Wickland's resident spirits and learn about 19th-century life, and insights into the afterlife. Spirits of Wickland Mansion is a permanent record of these guided tours from 2009-2013, transcribed from audio and handwritten notes of the conversations between the living and those now passed on.

lights out wellness rosamond: Small Great Things Jodi Picoult, 2016-10-11 #1 NEW YORK TIMES BESTSELLER • With richly layered characters and a gripping moral dilemma that will lead readers to question everything they know about privilege, power, and race, *Small Great Things* is the stunning new page-turner from Jodi Picoult. SOON TO BE A MAJOR MOTION PICTURE "[Picoult] offers a thought-provoking examination of racism in America today, both overt and subtle. Her many readers will find much to discuss in the pages of this topical, moving book."—Booklist (starred review) Ruth Jefferson is a labor and delivery nurse at a Connecticut hospital with more than twenty years' experience. During her shift, Ruth begins a routine checkup on a newborn, only

to be told a few minutes later that she's been reassigned to another patient. The parents are white supremacists and don't want Ruth, who is African American, to touch their child. The hospital complies with their request, but the next day, the baby goes into cardiac distress while Ruth is alone in the nursery. Does she obey orders or does she intervene? Ruth hesitates before performing CPR and, as a result, is charged with a serious crime. Kennedy McQuarrie, a white public defender, takes her case but gives unexpected advice: Kennedy insists that mentioning race in the courtroom is not a winning strategy. Conflicted by Kennedy's counsel, Ruth tries to keep life as normal as possible for her family—especially her teenage son—as the case becomes a media sensation. As the trial moves forward, Ruth and Kennedy must gain each other's trust, and come to see that what they've been taught their whole lives about others—and themselves—might be wrong. With incredible empathy, intelligence, and candor, Jodi Picoult tackles race, privilege, prejudice, justice, and compassion—and doesn't offer easy answers. *Small Great Things* is a remarkable achievement from a writer at the top of her game. Praise for *Small Great Things* "Small Great Things is the most important novel Jodi Picoult has ever written. . . . It will challenge her readers . . . [and] expand our cultural conversation about race and prejudice."—The Washington Post "A novel that puts its finger on the very pulse of the nation that we live in today . . . a fantastic read from beginning to end, as can always be expected from Picoult, this novel maintains a steady, page-turning pace that makes it hard for readers to put down."—San Francisco Book Review

of genius.”—The New York Times Book Review Asher Lev is a Ladover Hasid who keeps kosher, prays three times a day and believes in the Ribbono Shel Olom, the Master of the Universe. He grows up in a cloistered Hasidic community in postwar Brooklyn, a world suffused by ritual and revolving around a charismatic Rebbe. He is torn between two identities, the one consecrated to God, the other devoted only to art and his imagination, and in time, his artistic gift threatens to estrange him from that world and the parents he adores. lights out wellness rosamond: *Behind the Mask* Matthew Dennison, 2015-06-09 A dazzling

new biography of Vita Sackville-West, the 20th century aristocrat, literary celebrity, devoted wife, famous lover of Virginia Woolf, recluse, and iconoclast who defied categorization. In this stunning new biography of Vita Sackville-West, Matthew Dennison's *Behind the Mask* traces the triumph and contradictions of Vita's extraordinary life. His narrative charts a fascinating course from Vita's lonely childhood at Knole, through her affectionate but 'open' marriage to Harold Nicolson (during which both husband and wife energetically pursued homosexual affairs, Vita most famously with Virginia Woolf), and through Vita's literary successes and disappointments, to the famous gardens the couple created at Sissinghurst. The book tells how, from her privileged world of the aristocracy, Sackville-West brought her penchant for costume, play-acting and rebellion to the artistic vanguard of modern Britain. Dennison is the acclaimed author of many books including a biography of Queen Victoria. Here, in the first biography to be written of Vita for thirty years, he reveals the whole story and gets behind 'the beautiful mask' of Vita's public achievements to reveal an often troubled persona which heroically resisted compromise on every level. Drawing on wideranging sources and the extensive letters that sustained her marriage, this is a compelling story of love, loss and jealousy, of high-life and low points, of binding affection and illicit passion - a portrait of an extraordinary, 20th-century life.

lights out wellness rosamond: *Restoring the Balance* Gail Guthrie Valaskakis, Madeleine Dion Stout, Eric Guimond, 2009 First Nations peoples believe the eagle flies with a female wing and a male wing, showing the importance of balance between the feminine and the masculine in all aspects of individual and community experiences. Centuries of colonization, however, have devalued the traditional roles of First Nations women, causing a great gender imbalance that limits the abilities of men, women, and their communities in achieving self-actualization. *Restoring the Balance* brings to light the work First Nations women have performed, and continue to perform, in cultural continuity and community development. It illustrates the challenges and successes they have had in the areas of law, politics, education, community healing, language, and art, while suggesting significant options for sustained improvement of individual, family, and community well-being. Written by fifteen Aboriginal scholars, activists, and community leaders, *Restoring the Balance* combines life histories and biographical accounts with historical and critical analyses grounded in traditional thought and approaches. It is a powerful and important book.

lights out wellness rosamond: Swallow Mary Cappello, 2010-11 An American half-dollar. A beaded crucifix. Tooth roots shaped like a tiny pair of pants. A padlock. Scads of peanut kernels and scores of safety pins. A metallic letter Z. A toy goat and tin steering wheel. A Perfect Attendance Pin. One of the most popular attractions in Philadelphia's world-famous Mütter Museum is the Chevalier Jackson Foreign Body Collection; a beguiling set of drawers filled with thousands of items that had been swallowed or inhaled, then extracted nonsurgically by a pioneering laryngologist using rigid instruments of his own design. How do people's mouths, lungs, and stomachs end up filled with inedible things, and what do they become once arranged in Jackson's aura-laden cabinet? What drove Dr. Chevalier Jackson's peculiar obsession not only with removing foreign bodies from people's upper torsos but also with saving and cataloging the items that he retrieved? Animating the space between interest and terror, curiosity and dread, award-winning author Mary Cappello explores what seems beyond understanding; the physiology of the human swallow, and the poignant and baffling psychology that compels people to ingest non-nutritive things. On a quest to restore the narratives that haunt Jackson's uncanny collection, she discovers that all things are secretly edible. Combining original research with a sympathetic and evocative sensibility, Cappello uncovers a history of racism and violence, of forced ingestion and hysteria, of class and poverty that left children to bank their family's last quarters in their mouths. Here, the seemingly disparate but equally marvelous worlds of the circus and the medical amphitheater meet in characters ranging from sword swallows and women who lunched on hardware to the sensitive, bullied boy who grew up to be the father of endoscopy.
