luxury business card holder: *Jackpot* Michael Mechanic, 2021-04-13 A senior editor at Mother Jones dives into the lives of the extremely rich, showing the fascinating, otherworldly realm they inhabit—and the insidious ways this realm harms us all. Have you ever fantasized about being ridiculously wealthy? Probably. Striking it rich is among the most resilient of American fantasies, surviving war and peace, expansions and recessions, economic meltdowns and global pandemics. We

dream of the jackpot, the big exit, the life-altering payday, in whatever form that takes. (Americans spent \$81 billion on lottery tickets in 2019, more than the GDPs of most nations.) We would escape “essential” day jobs and cramped living spaces, bury our debts, buy that sweet spread, and bail out struggling friends and relations. But rarely do we follow the fantasy to its conclusion—to ponder the social, psychological, and societal downsides of great affluence and the fact that so few possess it. What is it actually like to be blessed with riches in an era of plagues, political rancor, and near-Dickensian economic differences? How mind-boggling are the opportunities and access, how problematic the downsides? Does the experience differ depending on whether the money is earned or unearned, where it comes from, and whether you are male or female, white or black? Finally, how does our collective lust for affluence, and our stubborn belief in social mobility, explain how we got to the point where forty percent of Americans have literally no wealth at all? These are all questions that Jackpot sets out to explore. The result of deep reporting and dozens of interviews with fortunate citizens—company founders and executives, superstar coders, investors, inheritors, lottery winners, lobbyists, lawmakers, academics, sports agents, wealth and philanthropy professionals, concierges, luxury realtors, Bentley dealers, and even a woman who trains billionaires’ nannies in physical combat, Jackpot is a compassionate, character-rich, perversely humorous, and ultimately troubling journey into the American wealth fantasy and where it has taken us.

luxury business card holder: Golden Light: The Interior Design of Nickey Kehoe Todd Nickey, Amy Kehoe, 2020-10-13 A masterful combination of traditional inspiration with contemporary elegance. The sensibility of interior design firm Nickey Kehoe ranges from minimal to maximal, quiet to baroque, but always seeks to express the ephemeral feeling of a space. Designers Todd Nickey and Amy Kehoe are fascinated by how a room can come together to express its own persona, as though the design just happened. Describing themselves as object-obsessed observers, Nickey and Kehoe pay keen attention to their clients' passions, preferences, and beloved pieces, juxtaposing elements and styles in deceptively simple ways. The result is interior design that appears as if it were a personal collection randomly put together, when in fact it is the product of their very mindful curating. Nickey Kehoe's studied but unfussy design is elegant but never staid, proud but humble, full of detail but resplendent with negative space. And then they add a bit of the unexpected—a combination of layered patterns and palettes, different time periods, humorous gestures, clever lighting—any element that keeps their impeccable sense of balance from becoming predictable or formulaic. This collection of residential interiors is for the curious, for lovers of studied but unfussy design, and for those who appreciate being surrounded by beautiful things with a story to tell.
