acac fitness wellness downtown: The University of Virginia Susan Tyler Hitchcock, 2012 In the nearly two centuries since the first building's completion in Thomas Jefferson's academical village, programs and facilities at the University of Virginia have been continually expanded and updated. This second edition of Susan Tyler Hitchcock's The University of Virginia: A Pictorial History, first published in 1999 and updated in 2003, traces Mr. Jefferson's favorite project through an appropriately rich pageant of images and text. The book's main chapters, arranged chronologically, follow the rise of the university from its founding to the accomplishments of John T. Casteen III's presidency and the appointment of Teresa A. Sullivan as the university's eighth, and first female, president. In this second edition, Casteen's legacy is considered, including AccessUVa, the university's groundbreaking full-need financial aid program; initiatives to position the University of Virginia as a global leader; and major expansion of the physical facilities, including the Arts Precinct, the South Lawn Project, John Paul Jones Arena, the Harrison Institute and Small Special Collections Library, and groundbreaking for the Emily Couric Clinical Cancer Center. The final chapter includes an essay on the historic preservation of the Academical Village and looks forward with new president Teresa A. Sullivan as Mr. Jefferson's university sits poised on the eve of its bicentennial celebration. Highlights include interviews with John T. Casteen III and Teresa A. Sullivan.

acac fitness wellness downtown: Lions of the Dan J.K. Brandau, 2019-06-04 "Tells the brigade's long history for the first time . . . captures the daily grind of soldiers striving and struggling in the ranks . . . A triumph" (Peter S. Carmichael, Robert C. Fluhrer Professor of Civil War Studies and Director of the Civil War Institute, Gettysburg College). This unique history chronicles those men of Pickett's Charge over the full course of the Civil War. While time-honored celebrations of Armistead and Pickett focus narrowly on moments at Gettysburg, primary sources declare the untold story of the best of men in the worst of times, and refutes Lost Cause myths surrounding

Armistead and Pickett. For the first time, *Lions of the Dan* widens the aperture to introduce real heroes and amazing deeds that have been suppressed until now. The author presents the experiences of real soldiers in their own words and highlights the much-ignored history of Southside Virginia, presenting the Civil War start to finish from a unique regional perspective. Readers will find their pedestrian notions of the founding of the South's peculiar institution challenged as they read an objective account of Virginia's secession and celebrate the courage and devotion of soldiers on both sides.

acac fitness wellness downtown: Becoming Dr. Seuss Brian Jay Jones, 2020-05-26 The definitive, fascinating, all-reaching biography of Dr. Seuss. Dr. Seuss is a classic American icon. Whimsical and wonderful, his work has defined our childhoods and the childhoods of our own children. The silly, simple rhymes are a bottomless well of magic, his illustrations timeless favorites because, quite simply, he makes us laugh. The Grinch, the Cat in the Hat, Horton, and so many more, are his troupe of beloved, and uniquely Seussian, creations. Theodor Geisel, however, had a second, more radical side. It is there that the allure and fasciation of his Dr. Seuss alter ego begins. He had a successful career as an advertising man and then as a political cartoonist, his personal convictions appearing, not always subtly, throughout his books—remember the environmentalist of *The Lorax*? Geisel was a complicated man on an important mission. He introduced generations to the wonders of reading while teaching young people about empathy and how to treat others well. Agonizing over word choices and rhymes, touching up drawings sometimes for years, he upheld a rigorous standard of perfection for his work. Geisel took his responsibility as a writer for children seriously, talking down to no reader, no matter how small. And with classics like *Green Eggs and Ham*, and *One Fish, Two Fish, Red Fish, Blue Fish*, Geisel delighted them while they learned. Suddenly, reading became fun. Coming right off the heels of George Lucas and bestselling Jim Henson, Brian Jay Jones is quickly developing a reputation as a master biographer of the creative geniuses of our time.

Second Thoughts, Second Edition Tom Flanagan, 2008-09-12 Flanagan shows that this orthodoxy enriches a small elite of activists, politicians, administrators, and well-connected entrepreneurs, while bringing further misery to the very people it is supposed to help. Controversial and thought-provoking, *First Nations? Second Thoughts* dissects the prevailing ideology that determines public policy towards Canada's aboriginal peoples.

acac fitness wellness downtown: Things Beyond Resemblance James Welling, 2015 As a conceptual artist who is deeply interested in the genesis of representation, Welling began this series of photographs as an examination of Andrew Wyeth's influence on his own work, from Welling's earliest watercolors in the 1960s through his recent photographs. Shot on location in Pennsylvania and Maine - in the same areas where Wyeth painted throughout his life - this major series includes photographs from 2010 through 2014. In addition to including never-before-seen works from the completed Wyeth series, the book explores the mechanisms of influence of one artist upon another - even across media-ranging from subconscious borrowings to more direct appropriations.

acac fitness wellness downtown: Charlottesville 2017 Claudrena N. Harold, Louis P. Nelson, 2018-08-10 When hate groups descended on Charlottesville, Virginia, triggering an eruption of racist violence, the tragic conflict reverberated throughout the world. It also had a profound effect on the University of Virginia's expansive community, many of whose members are involved in teaching issues of racism, public art, free speech, and social ethics. In the wake of this momentous incident, scholars, educators, and researchers have come together in this important new volume to thoughtfully reflect on the historic events of August 11 and 12, 2017. How should we respond to the moral and ethical challenges of our times? What are our individual and collective responsibilities in

advancing the principles of democracy and justice? Charlottesville 2017: The Legacy of Race and Inequity brings together the work of these UVA faculty members catalyzed by last summer's events to examine their community's history more deeply and more broadly. Their essays—ranging from John Mason on the local legacy of the Lost Cause to Leslie Kendrick on free speech to Rachel Wahl on the paradoxes of activism—examine truth telling, engaged listening, and ethical responses, and aim to inspire individual reflection, as well as to provoke considered and responsible dialogue. This prescient new collection is a conversation that understands and owns America's past and—crucially—shows that our past is very much part of our present. Contributors: Asher D. acac fitness wellness downtown: Muscogee Daughter Susan Supernaw, 2020-05-01 How American is Miss America? For Susan Supernaw, a Muscogee (Creek) and Munsee Native American, the question wasn't just academic. Throughout a childhood clouded by poverty, alcoholism, abuse, and a physical disability, Supernaw sought escape in school and dance and the Native American Church. She became a presidential scholar, won a scholarship to college, and was crowned Miss Oklahoma in 1971. Supernaw might not have won the Miss America pageant that year, but she did call attention to the Native peoples living largely invisible lives throughout their own American land. And she did at long last earn her Native American name. Chronicling a quest to escape poverty and find meaning, Supernaw's story is revealing, humorous, and deeply moving. *Muscogee Daughter* is the story of finding a Native American identity among the distractions and difficulties of American life and of discerning an identity among competing notions of what it is to be a woman, a Native American, and a citizen of the world.

acac fitness wellness downtown: You Look Like That Girl Lisa Jakub, 2015-06-15 At the age of twenty-two, Lisa Jakub had what she was supposed to want: she was a working actor in Los Angeles. She had more than forty movies and TV shows to her name, she had been in blockbusters like *Mrs. Doubtfire* and *Independence Day*, she walked the red carpet and lived in the house she bought when she was fifteen. But something was missing. Passion. Purpose. Happiness. Lisa had been working since the age of four, after a man approached her parents at a farmer's market and asked her to audition for a commercial. That chance encounter dictated the next eighteen years of her unusual—and frequently awkward—life. She met Princess Diana... and almost fell on her while attempting to curtsy. She filmed in exciting locations... and her high school asked her not to come back. She went to fancy parties... and got kind of kidnapped that one time. Success was complicated. Making movies, traveling the world, and meeting intriguing people was fun for a while, but Lisa eventually realized she was living a life based on momentum and definitions of success that were not her own. She battled severe anxiety and panic attacks while feeling like she was living someone else's dream. Not wanting to become a child actor stereotype, Lisa retired from acting and left L.A. in search of a path that felt more authentic to her. In this funny and insightful book, Lisa chronicles the adventures of growing up in the film industry and her difficult decision to leave behind the only life she had ever known, to examine her priorities, and write the script for her own life. She explores the universal question we all ask ourselves: what do I want to be when I grow up?

acac fitness wellness downtown: Revolution in the Street Andrew Grant Wood, 2001 Winner of the 1999 Michael C. Meyer Manuscript Prize! This new book examines the social protests of popular groups in urban Mexico during and after the Mexican Revolution and also shows how the revolution inspired women to become activists in these movements. Andrew Grant Wood's well-researched narrative focuses specifically on the complex negotiation between elites and popular groups over the issue of public housing in post-revolutionary Veracruz, Mexico. Wood then compares the Veracruz experience with other tenant movements throughout Mexico and Latin America. He analyzes what the popular groups wanted, what they got, how they got it, and how the changes wrought by the revolution facilitated their actions. Grassroots organizing by house-renters in Veracruz began at a time of 'multiple sovereignty' when ruling elites found themselves in a process

of regime change and political realignment. As the movement took shape, tenants expanded their opportunities through a dynamic repertoire of public demonstration, direct action, networking, and constant negotiation with landlords and public officials. During the height of the movement, protesters forced revolutionary elites to respond by requiring them either to negotiate, co-opt, and/or repress members of independent grassroots organizations in order to maintain their rule. The tenant movements demonstrate how ordinary women and men contributed to the remaking of state and civil society relations in post-revolutionary Mexico. This book analyzes the critical roles that women played as leaders and as rank-and-file agitators to keep the movements alive. The author has used a wide variety of primary sources to provide a vibrant portrayal of these urban social protesters. On a larger scale, this book shows that the voices of the urban poor were able to become part of the revolutionary dialogue and ideology. While others have highlighted the role of rural folk such as the Zapatistas, this work allows readers to appreciate the urban side of the po

acac fitness wellness downtown: *The Last Breath* Danny Lopez, 2018-10-02 For fans of John D. MacDonald and his coastal Florida mysteries, *The Last Breath* by Danny Lopez will rekindle the flame. Unemployed newspaper reporter Dexter Vega is hired to investigate the drowning of Liam Fleming, the son of a wealthy real estate investor in Siesta Key. Vega's search for clues takes him from one end of this picturesque barrier island off the coast of Sarasota to the other. But nothing adds up. Liam was young, an experienced swimmer, apparently healthy—and drowned in four feet of water. And why was Liam living in a beach shack? Why was he buying properties and not selling them? The police are getting nowhere as they identify every beach bum on Siesta Key as a suspect. But Vega narrows his investigation to two—one who disappears, and the other he's falling in love with. Beach bums and hippies go missing, while greed, beachfront property, and drugs swirl in vicious loops—and when they converge, Vega puts his life on the line to find the truth.

acac fitness wellness downtown: *Women Coauthors* Holly A. Laird, 2000 Until recently, collaborative authorship has barely been considered by scholars; when it has, the focus has been on discovering who contributed what and who dominated whom in the relationship and in the writing. In *Women Coauthors*, Holly Laird reads coauthored texts as the realization of new kinds of relationship. Through close scrutiny of literary collaborations in which women writers have played central roles, *Women Coauthors* shows how partnerships in writing - between two women or between a woman and a man - provide a paradigm of literary creativity that complicates traditional views of both author and text and makes us revise old habits of thinking about writing. Focusing on the social dynamics of literary production, including the conversations that precede and surround collaborative writing, *Women Coauthors* treats its coauthored texts as representations as well as acts of collaboration. Holly A. Laird discusses a wide array of partial and full coauthorships to reveal how these texts blur or remap often uncanny boundaries of self, status, race, reason, and culture. that of the Delany sisters and Amy Hill Hearth on *Having Our Say*; lesbian couples whose lives and writings were intertwined, including Katherine Bradley and Edith Cooper (Michael Field) and Gertrude Stein and Alice B. Toklas; and the Native American wife-and-husband authors Louise Erdrich and Michael Dorris. Framed in time by the feminist and abolitionist movements of the mid-nineteenth century and the ongoing social struggles surrounding gender, race, and sexuality in the late twentieth century, the partnerships and texts observed in *Women Coauthors* explore collaboration as a path toward equity, both socioliterary and erotic. For the authors here who collaborate most fully with each other, two are much better than one.

acac fitness wellness downtown: *Kierkegaard and Socrates* Jacob Howland, 2006-04-24 This volume is a study of the relationship between philosophy and faith in Søren Kierkegaard's *Philosophical Fragments*. It is also the first book to examine the role of Socrates in this body of writings, illuminating the significance of Socrates for Kierkegaard's thought. Jacob Howland argues that in the *Fragments*, philosophy and faith are closely related passions. A careful examination of the role of Socrates demonstrates that Socratic, philosophical eros opens up a path to faith. At the same time, the work of faith - which holds the self together with that which transcends it - is essentially

erotic in the Socratic sense of the term. Chapters on Kierkegaard's Johannes Climacus and on Plato's Apology shed light on the Socratic character of the pseudonymous author of the Fragments and the role of 'the god' in Socrates' pursuit of wisdom. Howland also analyzes the Concluding Unscientific Postscript and Kierkegaard's reflections on Socrates and Christ.

acac fitness wellness downtown: Ending Obama's War David Cortright, 2015-12-03 Now in its tenth year, the US-led military campaign in Afghanistan continues with no foreseeable end in sight. Ending Obama's War is intended to help and hold President Obama to his policy of beginning military withdrawals in July 2011 - and sooner if possible. Renowned peace scholar David Cortright offers realistic alternatives for ending the war whilst continuing to help the Afghan people, especially women, with development and human rights. Ending Obama's War outlines a responsible military disengagement strategy and links it to agreements on security cooperation, political power sharing, and a regional diplomatic compact. This is a timely, informed study which offers a way forward for one of the world's worst conflict zones.

acac fitness wellness downtown: Inspector Oldfield and the Black Hand Society William Oldfield, Victoria Bruce, 2019-08-06 The "fascinating...great-grandson's account" (The Wall Street Journal) of the US postal inspector who brought to justice the deadly Black Hand is "unputdownable" (Library Journal, starred review). Before the emergence of prohibition-era gangsters like Al Capone and Lucky Luciano, there was the Black Hand: an early twentieth-century Sicilian-American crime ring that preyed on immigrants from the old country. In those days, the FBI was in its infancy, and local law enforcement were clueless against the dangers. Terrorized victims rarely spoke out, and the criminals ruled with terror—until Inspector Frank Oldfield came along. In 1899, Oldfield became America's 156th Post Office Inspector—joining the ranks of the most powerful federal law enforcement agents in the country. Based in Columbus, Ohio, the unconventional Oldfield brilliantly took down train robbers, murderers, and embezzlers from Ohio to New York to Maryland. Oldfield was finally able to penetrate the dreaded Black Hand when a tip-off put him onto the most epic investigation of his career, culminating in the 1909 capture of sixteen mafiosos in a case that spanned four states, two continents—and ended in the first international organized crime conviction in the country. Hidden away by the Oldfield family for one hundred years and covered-up by rival factions in the early 20th century Post Office Department, this incredible true story out of America's turn-of-the-century heartland will captivate all lovers of history and true crime. "I tip my hat to Inspector Oldfield. He was way ahead of his time and his efforts are magnificently relived in this book" (Daniel L. Mihalko, former Postal Inspector in Charge, Congressional & Public Affairs).

acac fitness wellness downtown: Between the Real and the Ideal Susan M. Dixon, 2006 This book examines the Accademia degli Arcadi in its heyday, a little known phenomenon in Italian history in the first part of the eighteenth century. The Roman academy aimed for a peninsula-wide cultural renewal induced by literary reform. Operating within a papal-court society, it eschewed extant patronage systems and social hierarchies and introduced enlightened ideas to its members. By about 1730, the Arcadi was on the wane, the reform largely unmet. It was an easy target for critics, both its proponents and opponents, in part because of the visible role it assigned to women. By attending to the institution's policies, this book provides a rich understanding of the Arcadi's goals. It locates the organization's interest in theater, including the physical environment of the theatrical drama, as central to its operations. It is argued that, like a stage set, the Bosco Parrasio, the garden that the Arcadi built for its literary presentations, is a visual manifestation of Arcadian goals.

acac fitness wellness downtown: Designing Architecture Andrew Pressman, 2012-05-04 Designing Architecture is an indispensable tool to assist both students and young architects in formulating an idea, transforming it into a building, and making effective design decisions. This book

promotes integrative and critical thinking in the preliminary design of buildings to inspire creativity, innovation, and design excellence. This compendium of individual wisdom and collective experience offers explicit guidance to students and young professionals on how to approach, analyze, and execute specific tasks; develop and refine a process to facilitate the best possible design projects; and create meaningful architectural form. Here the design process – from orchestrating client participation to finalizing schematic design – is explored and illuminated. The following material is presented to make the book a useful didactic tool for professional development: explicit strategies for doing design rather than simply reviewing principles and precedents creative ideas in approaching and framing problems in design terms specific methods to translate ideas to culturally significant, socially responsive, and environmentally sensitive buildings techniques to integrate all levels of cognition from analysis to epiphany counsel on developing a personalized process for engaging design projects case studies augment the text and chronicle fascinating applications of the design process. The essence of this book lies in an integrated and holistic approach to each unique project as well as fostering curiosity and exploration – a departure from algorithms, easy generalities, or a formula for design. Designing Architecture will inspire readers to elevate the quality of preliminary designs and unravel some of the mystery of creating the most beautiful, responsive, and responsible architectural design possible.

acac fitness wellness downtown: Solemate Lauren Mackler, 2009-06 In Solemate, Lauren Mackler provides a groundbreaking road map to help people achieve mastery of their lives. Drawing from her own experiences; those of her clients; and the fields of psychology, physiology, sociology, holistic healing, and strategic business practices, Mackler provides the practical information, tools, and exercises to show you how to be independent and stand on your own two feet. Mastering the art of aloneness is about becoming the person you were meant to be, treating yourself well, and shedding the old beliefs and behaviors that limit your ability to live a healthy, happy, secure, and satisfying life. Quizzes and guided journal writing help you identify the core limiting beliefs and fears that keep you from being whole and happy with yourself. Mackler teaches you to overcome these beliefs through deliberate living exercises that help align your actions with your desired results. She then helps you liberate your authentic self, so you know exactly who you are. Finally, she leads you through the process of creating a life vision to help you achieve any goal you set for yourself. Solemate is not about being alone: it is about developing the self-awareness, life skills, and emotional intelligence needed to live a full, happy, successful, and financially secure life.

acac fitness wellness downtown: *The Mountains Within* Ram Thakur, 2021-11-22 The story of 'The Mountains Within' is prototypical of the people who grew into first-ever consciousness of their own identities from the obscurity of innumerable socio-cultural microcosms that had existed at the subterranean level for centuries and millennia over the length and breadth of India before the Independence. The story moves from present to past to future with the main protagonist's grand-daughter setting out to reconstruct the life story of her grand-father she admires. The story is contemporary and relevant to a whole lot of Indians who finished their journeys of existence at the beginning of the new millennium. As they sit back, vacuous and dazed after the 'retirement', they cannot help ruminating over the past vis-à-vis their own lives. No matter how objective their self-appraisal, they cannot escape being dubbed a generation of ineffectual crusaders who fell from grace by succumbing to hypocrisies both personal and collective. They cannot exonerate themselves from the stigma of making a mess of a newly liberated country through moral turpitude and lack of individual will. They cannot face up to the younger generation of today and convince them they had no role to play in the fabrication of myths such 'Mera Bharat Mahaan'. There are no Nuremberg

Trials for the crimes we commit within our minds and souls. However, if history is continuity between the past and the present, then 'The Mountains Within' does leave some doors open for Nuremberg Trials of the mind and the souls for these Indians.

acac fitness wellness downtown: Surgical Oncology Nursing Gail Wych Davidson, Joanne L. Lester, Meghan Routt, 2014-01-01 Although surgery remains the mainstay of treatment for the patient diagnosed with a solid tumour, how a patient is cared for before and after surgery has undergone dramatic changes in recent years. Where once surgical patients with cancer were placed in specialized care centres staffed with specially trained and certified oncology nurses, surgical oncology patients are now often found on mixed units housing similar surgical patient populations and often in the care of nurses who are not specialized in oncology. In today's changing climate, oncology nurses work much more closely with a diverse team of healthcare professionals and having an intimate knowledge of the surgical oncology patient and treatment process has become even more important. Surgical Oncology Nursing provides you a detailed examination of surgical patients with cancer from diagnosis to survivorship. The care of the surgical patient with cancer involves a diverse healthcare team with many hands touching the patient at different stages, and the editors of this new book bring a varied set of backgrounds, from nurse navigation to advanced practice nursing. Chapters provide you with a full view of the process for a variety of patients with cancer. You'll gain details in areas such as diagnosis, preoperative and perioperative care, nutritional care, surgical wounds and ostomy care, as well as survivorship issues. In addition, you'll gain insight into implications for pediatric and geriatric patients. You'll also get details on surgical procedures used on patients with cancer, including robotic minimally invasive surgery, interventional radiology, intraoperative radiation therapy, and reconstructive surgery. The core of the book focuses on the surgical care needed for patients with different types of tumours. Surgical Oncology Nursing reviews a variety of tumour types, from breast cancer to skin cancer, and details the specifics for the care of each patient population. In all, 11 types of cancers are reviewed, providing you the comprehensive information you need. Whether care is provided in a dedicated, oncology setting or within a diverse patient care environment, you'll need the type of knowledge found in Surgical Oncology Nursing to provide the best care possible for this unique patient population.
