aew bon secours wellness arena: Healthy Stadia Daniel Parnell, Kathryn Curran, Matthew Philpott, 2018-12-07 Public health is a key priority for developed and developing nations. Indeed, many countries have sought strategies to promote health and reduce health inequalities. A 'settings approach' to promoting health has been endorsed by the World Health Organization, which has seen settings such as workplaces, schools, hospitals and prisons utilised to promote health. Alongside this, sport has received increasing pressure to consider its social role within the societies and communities in which it operates. *Healthy Stadia* is a European focused initiative with lessons relevant for global audiences to develop: (i) healthier stadium environments for fans and non-matchday visitors (e.g. smoke-free environments), (ii) healthier club workforces (e.g. bike to work schemes) and (iii) healthier populations in local communities (e.g. child obesity interventions). This book outlines lessons and insight from practitioners and empirical research for those seeking to learn and research stadia as a settings approach to health promotion. The areas covered include: practical considerations for health promotion in sports stadia; empirical research on the sports stadia as a setting for public health promotion; research on physical activity and health promotion programmes delivered by the outward facing community trusts attached to sports clubs; an analysis of the policy considerations for health promotion by sports clubs in school based settings and critical insight and discussion surrounding the use of physical activity and sport interventions to promote physical activity and public health. The chapters in this book originally published in a special issue of *Sport in Society*.

aew bon secours wellness arena: The Gaithers and Southern Gospel Ryan P. Harper, 2017-04-26 In *The Gaithers and Southern Gospel*, Ryan P. Harper examines songwriters Bill and Gloria Gaither's Homecoming video and concert series--a gospel music franchise that, since its beginning in 1991, has outperformed all Christian and much secular popular music on the American music market. The Homecomings represent southern gospel. Typically that means a musical style popular among white evangelical Christians in the American South and Midwest, and it sometimes overlaps in style, theme, and audience with country music. The Homecomings' nostalgic orientation--their celebration of traditional kinds of American Christian life--harmonize well with southern gospel music, past and present. But amidst the backward gazes, the Homecomings also portend and manifest change. The Gaithers' deliberate racial integration of their stages, their careful articulation of a relatively inclusive evangelical theology, and their experiments with an array of musical forms demonstrate that the Homecoming is neither simplistically nostalgic, nor solely southern. Harper reveals how the Gaithers negotiate a tension between traditional and changing community norms as they seek simultaneously to maintain and expand their audience as well as to initiate and respond to shifts within their fan base. Pulling from his field work at Homecoming concerts, behind the scenes with the Gaithers, and with numerous Homecoming fans, Harper reveals the Homecoming world to be a dynamic, complicated constellation in the formation of American religious identity.

aew bon secours wellness arena: Investing in Interventions That Address Non-Medical, Health-Related Social Needs National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, 2019-09-27 With U.S. health care costs projected to grow at an average rate of 5.5 percent per year from 2018 to 2027, or 0.8 percentage points faster than the gross domestic product, and reach nearly \$6.0 trillion per year by 2027, policy makers and a wide range of stakeholders are searching for plausible actions the nation can take to slow this rise and keep health expenditures from consuming an ever greater portion of U.S. economic output. While health care services are essential to health, there is growing recognition that social determinants of health are important influences on population health. Supporting this idea are estimates that while health care accounts for some 10 to 20 percent of the determinants of health, socioeconomic factors and factors related to the physical environment are estimated to account for up to 50 percent of the determinants of health. Challenges related to the social determinants of health at the individual level include housing insecurity and poor housing quality, food insecurity, limitations in access to transportation, and lack of social support. These social needs affect access to care and health care utilization as well as health outcomes. Health care systems have begun exploring ways to address non-medical, health-related social needs as a way to reduce health care costs. To explore the potential effect of addressing non-medical health-related social needs on improving population health and reducing health care spending in a value-driven health care delivery system, the National Academies of Science, Engineering, and Medicine held a full-day public workshop titled Investing in Interventions that Address Non-Medical, Health-Related Social Needs on April 26, 2019, in Washington, DC. The objectives of the workshop were to explore effective practices and the supporting evidence base for addressing the non-medical health-related social needs of individuals, such as housing and food insecurities; review assessments of return on investment (ROI) for payers, health systems, and communities; and identify gaps and opportunities for research and steps that could help to further the understanding of the ROI on addressing non-medical health-related social needs. This publication summarizes the presentations and discussions from the workshop.

Though the work is hard and often dangerous, Rae Lynn, who spent her childhood in an orphanage, is thankful for it--and for her kind if careless husband. When Warren falls victim to his own negligence, Rae Lynn undertakes a desperate act of mercy. To keep herself from jail, she disguises herself as a man named Ray and heads to the only place she can think of that might offer anonymity--a turpentine camp in Georgia named Swallow Hill. Swallow Hill is no easy haven. The camp is isolated and squalid, and commissary owner Otis Riddle takes out his frustrations on his browbeaten wife, Cornelia. Although Rae Lynn works tirelessly, she becomes a target for Crow, the ever-watchful woods rider who checks each laborer's tally. Delwood Reese, who's come to Swallow Hill hoping for his own redemption, offers Ray a small measure of protection, and is determined to improve their conditions. As Rae Lynn forges a deeper friendship with both Del and Cornelia, she begins to envision a path out of the camp. But she will have to come to terms with her past, with all its pain and beauty, before she can open herself to a new life and seize the chance to begin again. TIMES BESTSELLER • The master of military historical fiction turns his discerning eye to the Korean War in this riveting novel, which tells the dramatic story of the Americans and the Chinese who squared off in one of the deadliest campaigns in the annals of combat: the Battle of Chosin Reservoir, also known as Frozen Chosin. June 1950. The North Korean army invades South Korea, intent on uniting the country under Communist rule. In response, the United States mobilizes a force to defend the overmatched South Korean troops, and together they drive the North Koreans back to their border with China. But several hundred thousand Chinese troops have entered Korea, laying massive traps for the Allies. In November 1950, the Chinese spring those traps. Allied forces, already battling stunningly cold weather, find themselves caught completely off guard as the Chinese advance around the Chosin Reservoir in North Korea. A force that once stood on the precipice of victory now finds itself on the brink of annihilation. Assured by General Douglas MacArthur that they would be home by Christmas, the soldiers and Marines fight for their lives against the most brutal weather conditions imaginable—and an enemy that outnumbers them more than six to one. *The Frozen Hours* tells the story of Frozen Chosin from multiple points of view: Oliver P. Smith, the commanding general of the American 1st Marine Division, who famously redefined retreat as “advancing in a different direction”; Marine Private Pete Riley, a World War II veteran who now faces the greatest fight of his life; and the Chinese commander Sung Shi-Lun, charged with destroying the Americans he has so completely surrounded, ever aware that above him, Chairman Mao Tse-Tung watches his every move. Written with the propulsive force Jeff Shaara brings to all his novels of combat and courage, *The Frozen Hours* transports us to the critical moment in the history of America’s “Forgotten War,” when the fate of the Korean peninsula lay in the hands of a brave band of brothers battling both the elements and a determined, implacable foe. “A military story as dramatic and heroic as any that exists.”—*The American Interest* “*The Frozen Hours* . . . illustrates again Shaara’s mastery. . . . This is fiction and history at their blended best.”—*Marine Corps Gazette* “Marvelously effective storytelling . . . that shows us what warfare feels like both to those who plan campaigns and those who execute them . . . gripping, precisely detailed historical fiction.”—Booklist (starred review)

aew bon secours wellness arena: *Ireland and the Magdalene Laundries* Claire McGettrick, Katherine O'Donnell, Maeve O'Rourke, James M. Smith, Mari Steed, 2021-08-12 Between 1922 and 1996, over 10,000 girls and women were imprisoned in Magdalene Laundries, including those considered 'promiscuous', a burden to their families or the state, those who had been sexually abused or raised in the care of the Church and State, and unmarried mothers. These girls and women were subjected to forced labour as well as psychological and physical maltreatment. Using the Irish State's own report into the Magdalene institutions, as well as testimonies from survivors and independent witnesses, this book gives a detailed account of life behind the high walls of

Ireland's Magdalene institutions. The book offers an overview of the social, cultural and political contexts of institutional survivor activism, the Irish State's response culminating in the McAleese Report, and the formation of the Justice for Magdalenes campaign, a volunteer-run survivor advocacy group. Ireland and the Magdalene Laundries documents the ongoing work carried out by the Justice for Magdalenes group in advancing public knowledge and research into Magdalene Laundries, and how the Irish State continues to evade its responsibilities not just to survivors of the Magdalenes but also in providing a truthful account of what happened. Drawing from a variety of primary sources, this book reveals the fundamental flaws in the state's investigation and how the treatment of the burials, exhumation and cremation of former Magdalene women remains a deeply troubling issue today, emblematic of the system of torture and studious official neglect in which the Magdalene women lived their lives. The Authors are donating all royalties in the name of the women who were held in the Magdalenes to EPIC (Empowering People in Care).

aew bon secours wellness arena: *Forging a Poison Prevention and Control System* Institute of Medicine, Board on Health Promotion and Disease Prevention, Committee on Poison Prevention and Control, 2004-09-16 Poisoning is a far more serious health problem in the U.S. than has generally been recognized. It is estimated that more than 4 million poisoning episodes occur annually, with approximately 300,000 cases leading to hospitalization. The field of poison prevention provides some of the most celebrated examples of successful public health interventions, yet surprisingly the current poison control system is little more than a loose network of poison control centers, poorly integrated into the larger spheres of public health. To increase their effectiveness, efforts to reduce poisoning need to be linked to a national agenda for public health promotion and injury prevention. Forging a Poison Prevention and Control System recommends a future poison control system with a strong public health infrastructure, a national system of regional poison control centers, federal funding to support core poison control activities, and a national poison information system to track major poisoning epidemics and possible acts of bioterrorism. This framework provides a complete system that could offer the best poison prevention and patient care services to meet the needs of the nation in the 21st century.

aew bon secours wellness arena: *Rhapsody in Blue* George Gershwin, Herman Wasserman, 1994-11-02 To provide greater availability for a work of such importance, the original publishers secured from Gershwin a solo piano version wherein the orchestral parts are fused together with the solo piano part (PS0047). Due to concerns that the composer's arrangement presented too many technical demands to pianists not possessing the requisite technique, a modified arrangement was delicately solicited from pianists of the time. (Gershwin's untimely death precluded any modification from the composer himself.) Many attempts at technical modifications were rejected on ethical grounds until Herman Wasserman—who taught Gershwin to play the piano—submitted a manuscript which became this edition. Several prominent pianists who reviewed the score all attested to the amazing reduction in technical demands while retaining the clarity, sonority, and brilliance of the original. This edition is designed for Early Advanced pianists, although some sections, including the well-known Moderato middle section, are accessible to those performing at less-advanced levels.

aew bon secours wellness arena: *The Palmetto State* Jack Bass, W. Scott Poole, 2012-06-05 A concise approach to the major themes and events that define contemporary South Carolina The captivating, colorful, and controversial history of South Carolina continues to warrant fresh explorations. In this sweeping story of defining episodes in the state's history, accomplished historians Jack Bass and W. Scott Poole trace the importance of race relations, historical memory, and cultural life in the progress of the Palmetto State from its colonial inception to the present day. In the discussion of contemporary South Carolina that makes up the majority of this volume, the authors map the ways through which hard-won economic and civil rights advancements, a succession of progressive state leaders, and federal court mandates operated in tandem to bring a largely peaceful end to the Jim Crow era in South Carolina, in stark contrast to the violence wrought elsewhere in the South. This volume speaks directly to the connections between the state's past, present, and future, and it serves as a valuable point of entrance for new inquiries into South Carolina's diverse and complex heritage.
