airdrie winter yoga wellness festival: Mourning Nature Ashlee Cunsolo, Karen Landman, 2017-05-17 We are facing unprecedented environmental challenges, including global climate change, large-scale industrial development, rapidly increasing species extinction, ocean acidification, and deforestation – challenges that require new vocabularies and new ways to express grief and sorrow over the disappearance, degradation, and loss of nature. Seeking to redress the silence around ecologically based anxiety in academic and public domains, and to extend the concepts of sadness, anger, and loss, Mourning Nature creates a lexicon for the recognition and expression of emotions related to environmental degradation. Exploring the ways in which grief is experienced in numerous contexts, this groundbreaking collection draws on classical, philosophical, artistic, and poetic elements to explain environmental melancholia. Understanding that it is not just how we mourn but what we mourn that defines us, the authors introduce new perspectives on conservation, sustainability, and our relationships with nature. An ecological elegy for a time of climatic and environmental upheaval, Mourning Nature challenges readers to turn devastating events into an opportunity for positive change. airdrie winter yoga wellness festival: Famous Scots and the Supernatural Ron Halliday, 2012-09-27 Scotland is often seen as a land of mystery, a place where reality collides with the world of spirits and phantoms. But what effect does that have on the individuals who call it their home? And, in particular, on those people who have in one way or another earned a place in history? Famous Scots and the Supernatural examines the achievements of famous Scots through the ages and shows how their lives and decisions have been affected by unusual and unlikely influences. For example, William Wallace was seen at one time as much as a mystic as a soldier. Hugh Dowding, who masterminded Britain's Battle of Britain victory, was fascinated by the spirit world and became a leading exponent of the New Age movement. And John Logie Baird, the father of television, had a number of supernatural experiences and attended séances where he received messages from dead inventors. Famous Scots and the Supernatural reveals how, from the earliest times to the present, politicians, scientists, writers and artists have been influenced not only by the world around them but by less obvious and more mystical beliefs and experiences which have changed their lives and altered the course of history.

airdrie winter yoga wellness festival: Wild Comfort Kathleen Dean Moore, 2010-03-09 In an effort to make sense of the deaths in quick succession of several loved ones, Kathleen Dean Moore turned to the comfort of the wild, making a series of solitary excursions into ancient forests, wild rivers, remote deserts, and windswept islands to learn what the environment could teach her in her time of pain. This book is the record of her experiences. It's a stunning collection of carefully observed accounts of her life—tracking otters on the beach, cooking breakfast in the desert, canoeing in a snow squall, wading among migrating salmon in the dark—but it is also a profound meditation on the healing power of nature. airdrie winter yoga wellness festival: Daditude Chris Erskine, 2017-04-17 Wise, wry, and witty essays on fatherhood from Chris Erskine, the beloved columnist for the Los Angeles Times and Chicago Tribune. "Charming, well written, concise, and to the point. Perfect for anyone who enjoys stories of fatherhood." — Library Journal Life is never peaceful in Chris Erskine's house, what with the four kids, 300-pound beagle, chronically leaky roof, and long-suffering wife, Posh. And that's exactly the way he likes it, except when he doesn't. Every week in the Los Angeles Times and Chicago Tribune (and now and then in many other papers), Erskine distills, mocks, and makes us laugh at the absurdities of suburban fatherhood. And now, he's gathered the very best of these witty and wise essays—and invited his kids (and maybe even Posh) to annotate them with updated commentary, which they promise won't be too snarky. This handsome book is the perfect gift for the father who would have everything—if he hadn't already given it all to his kids.

airdrie winter yoga wellness festival: Affective Ecocriticism Kyle Bladow, Jennifer Ladino, 2018-11-01 Scholars of ecocriticism have long tried to articulate emotional relationships to environments. Only recently, however, have they begun to draw on the complex interdisciplinary body of research known as affect theory. *Affective Ecocriticism* takes as its premise that ecocritical scholarship has much to gain from the rich work on affect and emotion happening within social and cultural theory, geography, psychology, philosophy, queer theory, feminist theory, narratology, and neuroscience, among others. This vibrant and important volume imagines a more affective—and consequently more effective—ecocriticism, as well as a more environmentally attuned affect studies. These interdisciplinary essays model a range of approaches to emotion and affect in considering a variety of primary texts, including short story collections, films, poetry, curricular programs, and contentious geopolitical locales such as Canada's Tar Sands. Several chapters deal skeptically with familiar environmentalist affects like love, hope, resilience, and optimism; others consider what are often understood as negative emotions, such as anxiety, disappointment, and homesickness—all with an eye toward reinvigorating or reconsidering their utility for the environmental humanities and environmentalism. *Affective Ecocriticism* offers an accessible approach to this theoretical intersection that will speak to readers across multiple disciplinary and geographic locations.

Kim dives deep into the concept of removing unwanted influences from ones spiritual practice and even shares a banishment spell that has worked for her. Readers will learn about realms, realities, dimensions, crystal charging in the moonlight (readers will be shocked by the truth), intuition, universal consciousness, two portals of Gaia, and the difference between human time and spirit time. Kim also provides a detailed breakdown of the essential characteristics of many of the archangels, shares the thirteen aspects of human spiritual character, and enters a thoughtful discussion on her own infinity healing philosophy. Kims book ends with a formula for an oil to protect against lower frequency energy, but her journey doesnt end far from it. Readers will enjoy this conversation with Kim and come away learning many new things and refine their perspective on accepted conventions.

airdrie winter yoga wellness festival: Exiled for Love Arsham Parsi, Marc Colbourne, 2015-05-01T00:00:00Z To be gay in Iran means to live in the shadow of death. The country's harsh Islamic code of Lavat is used to execute gay men, and LGBT individuals who avoid execution are often subjected to severe lashings, torture and imprisonment. It was in this unforgiving environment that Arsham Parsi came to terms with his identity as a gay man. When a close friend committed suicide after his family learned he was gay, Arsham felt compelled to act. Risking his life as well as the safety of his family, he used the anonymity of the Internet to speak out about the human rights abuses against LGBT people in his country. In 2005 Parsi learned that an order had been issued for his arrest and execution. He was forced to seek refuge in neighbouring Turkey until, thirteen months later, he was granted asylum in Canada. *Exiled for Love* follows Parsi's incredible journey from his first understanding of his sexual orientation to his eventual exile. It explores the reality for LGBT people in Iran through the deeply personal and inspiring story of his life, escape and continuing work.

airdrie winter yoga wellness festival: Refuge Terry Tempest Williams, 1992-09-01 In the spring of 1983 Terry Tempest Williams learned that her mother was dying of cancer. That same season, The Great Salt Lake began to rise to record heights, threatening the Bear River Migratory Bird Refuge and the herons, owls, and snowy egrets that Williams, a poet and naturalist, had come to gauge her life by. One event was nature at its most random, the other a by-product of rogue technology: Terry's mother, and Terry herself, had been exposed to the fallout of atomic bomb tests in the 1950s. As it interweaves these narratives of dying and accommodation, *Refuge* transforms tragedy into a document of renewal and spiritual grace, resulting in a work that has become a classic.

airdrie winter yoga wellness festival: *Small Arguments* Souvankham Thammavongsa, 2023-05-02 A beautiful re-issued edition of poetry from the Scotiabank Giller Prize-winning author of *How To Pronounce Knife* FEATURING A NEW INTRODUCTION BY THE AUTHOR The language of *Small Arguments* is simple, yet there is nothing simple in its ideas. Reminiscent of Pablo Neruda's *Elemental Odes*, these poems explore the structures of argument, orchestrating material around repetition, variation, and contrast. Thammavongsa's approach is like that of a scientist or philosopher, delicately probing material for meaning and understanding. The poet collects small lives and argues for a larger belonging: a grain of dirt, a crushed cockroach, the eyes of a dead dragonfly. It is a work that suggests we can create with what we know and with that alone. First published in 2003, *Small Arguments* announced the arrival of a distinct and utterly original new voice.

After all, as a 30-year Silicon Valley mainstay, he can phish your passwords, bust firewalls, and has developed software used by millions to circumvent government censorship. And now, he thinks he has stumbled upon a cabal who is pushing to misuse his own technology for world domination. Ralph helps create an educational Tool that maps a learner's neurological processes and pinpoints the exact moment a student learns. But the Tool can also manipulate people's beliefs. At least, that what several influential people think. Soon, Ralph finds himself the target of increasingly complex attacks on his businesses, reputation, freedom, and life. Ralph enlists an eclectic group of 'frenemies' to thwart this nefarious plot. McKenna may or may not still work for the CIA. airdrie winter yoga wellness festival: *Under Siege* Jasmin Zine, 2022-04-05 The 9/11 attacks in the United States, the subsequent global "war on terror," and the proliferation of domestic security policies in Western nations have had a profound impact on the lives of young Muslims, whose identities and experiences have been shaped within and against these conditions. The millennial generation of Muslim youth has come of age in these turbulent times, dealing with the aftermath and backlash associated with these events. *Under Siege* explores the lives of Canadian Muslim youth belonging to the 9/11 generation as they navigate these fraught times of global war and terror. While many studies address contemporary manifestations of Islamophobia and anti-Muslim racism, few have focused on the toll this takes on Muslim communities, especially among younger generations. Based on in-depth interviews with more than 130 young people, youth workers, and community leaders, Jasmin Zine's ethnographic study unpacks the dynamics of Islamophobia as a system of oppression and examines its impact on Canadian Muslim youth. Covering topics such as citizenship, identity and belonging, securitization, radicalization, campus

culture in an age of empire, and subaltern Muslim counterpublics and resistance, *Under Siege* provides a unique and comprehensive examination of the complex realities of Muslim youth in a post-9/11 world. Twenty years after the 9/11 attacks, Zine reveals how the global war on terror and heightened anti-Muslim racism have affected a generation of Canadians who were socialized into a world where their faith and identity are under siege.

airdrie winter yoga wellness festival: *Parenting Right from the Start* Vanessa Lapointe, 2019-10-08 The baby and toddler years are the most important period for any child's emotional and psychological development. Parents naturally want to do what's best for their kids, but they often struggle to know what that is, especially when dealing with the big battlegrounds of sleep, feeding, and managing aggression. The latest scientific research indicates that it is through a strong and stable sense of connection to their parents that children learn how to regulate their emotions, master social skills, and develop a sense of identity. Unfortunately, many of the currently accepted parenting practices and traditional attitudes disrupt healthy connection rather than foster it, leading to behavioral issues and emotional problems that can last into adulthood. --
