**michael grand canyon university business:** *Canyon Dreams* Michael Powell, 2019-11-19 The inspiration for the Netflix film *Rez Ball*—produced by LeBron James The moving story of a Navajo high school basketball team, its members struggling with the everyday challenges of high school, adolescence, and family, and the great and unique obstacles facing Native Americans living on reservations. Deep in the heart of northern Arizona, in a small and isolated patch of the vast 17.5-million-acre Navajo reservation, sits Chinle High School. Here, basketball is passion, passed from grandparent to parent to child. *Rez Ball* is a sport for winters where dark and cold descend fast and there is little else to do but roam mesa tops, work, and wonder what the future holds. The town has 4,500 residents and the high school arena seats 7,000. Fans drive thirty, fifty, even eighty miles to see the fast-paced and highly competitive matchups that are more than just games to players and fans. Celebrated Times journalist Michael Powell brings us a narrative of triumph and hardship, a moving story about a basketball team on a Navajo reservation that shows how important sports can be to youths in struggling communities, and the transcendent magic and painful realities that confront Native Americans living on reservations. This book details his season-long immersion in the team, town, and culture, in which there were exhilarating wins, crushing losses, and conversations on long bus rides across the desert about dreams of leaving home and the fear of the same.

**michael grand canyon university business: Journal of Biblical and Theological Studies**

Daniel S. Diffey, Ryan A. Brandt, 2016-10-12 The Journal of Biblical and Theological Studies (JBTS) is an academic journal focused on the fields of Bible and Theology from an inter-denominational point of view. The journal is comprised of an editorial board of scholars that represent several academic institutions throughout the world. JBTS is concerned with presenting high-level original scholarship in an approachable way. Academic journals are often written by scholars for other scholars. They are technical in nature, assuming a robust knowledge of the field. There are fewer journals that seek to introduce biblical and theological scholarship that is also accessible to students. JBTS seeks to provide high-level scholarship and research to both scholars and students, which results in original scholarship that is readable and accessible. As an inter-denominational journal JBTS is broadly evangelical. We accept contributions in all theological disciplines from any evangelical perspective. In particular, we encourage articles and book reviews within the fields of Old Testament, New Testament, Biblical Theology, Church History, Systematic Theology, Practical Theology, Philosophical Theology, Philosophy, and Ethics.

**michael grand canyon university business: *Leadership*** Ronald R. Sims, Scott A. Quatro, 2005 Whether in the for-profit, not-for-profit, or government sector, organizations today face tough new challenges posed by changing global and domestic environments using diverse workforces. Leaders have to practice different styles appropriate to more complex and dynamic situations than ever before. They need to inspire trust, gain credibility, and implement innovations through others while remaining flexible and adaptable. The contributors to this comprehensive volume seek to define exactly what leadership is or should be, and how to effectively develop it. Guided by a unique framework that looks at leadership across different sectors and functions, they examine what they view as the major leadership challenges in highly visible for-profit, not-for-profit, and government organizations throughout the world. Their insights will prove equally useful as a general survey of leadership problems and solutions for executive policy makers, as well as a text for advanced undergraduate and graduate students.

**michael grand canyon university business: *Understanding New Security Threats*** Michel Gueldry, Gigi Gokcek, Lui Hebron, 2019-02-21 This textbook examines non-traditional forms of security and expands the notion of security to include non-state actors and non-human actors. Proposing an expansive view of non-traditional forms of security that go beyond traditionally recognized issues of threats to state and national territory, this new textbook rests on the following premises: traditional state-centered threats, such as nuclear proliferation and espionage, remain a concern; old and new threats combine and create interlocking puzzles—a feature of wicked problems and wicked messes; because of the global erosion of borders, new developments of unconventional insecurity interact in ways that frustrate traditional conceptual definitions, conceptual maps, and national policies; unconventional security challenges which have traditionally been seen as low politics or soft issues are now being recognized as hard security challenges in the twenty-first century; many of the so-called new threats detailed here are in fact very old: diseases, gender violence, food insecurity, under-development, and crime are all traditional security threats, but deeply modified today by globalization. The chapters offer local and global examples and engage with various theoretical approaches to help readers see the bigger picture. Solutions are also suggested to these problems. Each chapter contains discussion questions to help readers understand the key points and facilitate class discussion. This book will be of great interest to students of international security studies, human security, global politics, and international relations.

**michael grand canyon university business: *Evaluating Online Teaching*** Thomas J. Tobin, B.

Jean Mandernach, Ann H. Taylor, 2015-05-13 Create a more effective system for evaluating online faculty Evaluating Online Teaching is the first comprehensive book to outline strategies for effectively measuring the quality of online teaching, providing the tools and guidance that faculty members and administrators need. The authors address challenges that colleges and universities face in creating effective online teacher evaluations, including organizational structure, institutional governance, faculty and administrator attitudes, and possible budget constraints. Through the integration of case studies and theory, the text provides practical solutions geared to address challenges and foster effective, efficient evaluations of online teaching. Readers gain access to rubrics, forms, and worksheets that they can customize to fit the needs of their unique institutions. Evaluation methods designed for face-to-face classrooms, from student surveys to administrative observations, are often applied to the online teaching environment, leaving reviewers and instructors with an ill-fitted and incomplete analysis. Evaluating Online Teaching shows how strategies for evaluating online teaching differ from those used in traditional classrooms and vary as a function of the nature, purpose, and focus of the evaluation. This book guides faculty members and administrators in crafting an evaluation process specifically suited to online teaching and learning, for more accurate feedback and better results. Readers will: Learn how to evaluate online teaching performance Examine best practices for student ratings of online teaching Discover methods and tools for gathering informal feedback Understand the online teaching evaluation life cycle The book concludes with an examination of strategies for fostering change across campus, as well as structures for creating a climate of assessment that includes online teaching as a component. Evaluating Online Teaching helps institutions rethink the evaluation process for online teaching, with the end goal of improving teaching and learning, student success, and institutional results.

**michael grand canyon university business: Laurel Canyon** Michael Walker, 2010-05-01 A “richly anecdotal” account of the secluded LA neighborhood’s legendary music scene, a tale of groupies, cocaine, and California dreaming (Salon). Finalist, SCBA Book Award for Nonfiction A Los Angeles Times Bestseller In the late sixties and early seventies, an impromptu collection of musicians colonized a eucalyptus-scented canyon deep in the Hollywood Hills of Los Angeles and melded folk, rock, and savvy American pop into a sound that conquered the world as thoroughly as the songs of the Beatles and the Rolling Stones had before them. Decades later, the music made in Laurel Canyon continues to pour from radios, earbuds, and concert stages around the world. In Laurel Canyon, veteran journalist Michael Walker draws on interviews with those who were there to tell the inside story of this unprecedented gathering of some of the era’s leading musical lights—including Joni Mitchell; Jim Morrison; Crosby, Stills, and Nash; John Mayall; the Mamas and the Papas; Carole King; the Eagles; and Frank Zappa, to name just a few—who turned Los Angeles into the music capital of the world and forever changed the way popular music is recorded, marketed, and consumed. “An exhaustively researched and richly anecdotal book that will fascinate both rock aficionados and cultural historians.” —Salon “Captures all the magic and lyricism of an almost mythological geographical spot in the history of pop music . . . the story of a more melodious time in rock and roll where the great talents of the ‘60s and ‘70s cloistered together in a sort of enchanted valley populated by an all-star cast of characters.” —Steven Gaines, author of *Philistines at the Hedgerow*

**michael grand canyon university business: Michael Heizer: The Once and Future Monuments** William L. Fox, 2019-09-24 The most comprehensive account available of Michael Heizer's art by a writer and curator who has critical experience with the artist and his work. Michael Heizer is among the greatest, and often least accessible, American artists. As one of the last living figures who launched the Land Art movement, his legacy of works that are literally and metaphorically monumental has an incalculable influence on the world of sculpture and environmental art. But his seclusion in the remote Nevada desert, as well as his notorious obduracy, have resulted in significant gaps in our critical understanding. *Michael Heizer: The Once and Future Monuments* spans the breadth of Heizer's career, uniquely combining fieldwork, personal narrative, and biographical research to create the first major assessment in years of this titan of American art. Author William L. Fox, founding director of the Center for Art + Environment at the Nevada Museum of Art, has alternately been a sponsor, advocate, and critic of Heizer's work for decades. Fox's understanding of the artist's history and connection to landscape, his time spent with Heizer at the remote ranch where Heizer is finishing his magnum opus--the mile-long sculpture *City*--and his access to some of Heizer's key associates give him a unique position from which to discuss the artist's work. Fox has also made numerous site visits to Heizer's work--including early pieces in the Nevada desert now largely lost to the elements--to correct the often inconsistent accounts of their locations. Last, Fox imparts a crucial new understanding of Heizer's work by elaborating on the artist's bond with his father, the famed archaeologist and cultural ecologist Robert Heizer, who enlisted his son on important digs in Mexico and Peru, providing the young man with an appreciation of site, landscape, and geology that would thoroughly inform his work. *Michael Heizer: The Once and Future Monuments* is a long overdue addition to the critical and biographical literature of this major figure in American art.

**michael grand canyon university business:** *Indefinite* Michael L. Walker, 2022 *Indefinite* is the first major ethnographic study of American jails since the advent of racialized mass incarceration. The author was confined in a southern California county jail system during which time, he conducted what he calls an organic ethnography of jail life. The resulting study is an investigation of the vagaries of jail living, the relationship between custodial deputies and penal residents, the endurance strategies residents employed to protect their emotional selves from being overwhelmed by the nature of jail punishment, and consequences of extremes of vulnerability, uncertainty, and penal time. *Indefinite* toggles between what is peculiar to jail time and what is familiar in broader social life to develop general concepts, sensitizing schemes, and theories about social life that expand beyond the specifics of jail without reducing jail to a mere case study--

**michael grand canyon university business: Eating in US National Parks** Kathleen

LeBesco, 2024-02-26 This book presents a fascinating exploration of eating experiences within US national parks, explaining how, on what, and why people eat in national parks and how this has changed over the last century. National parks are enjoying unprecedented popularity, and they are especially popular sites for the expression of cosmopolitanism, an ideological outlook descended from the Romantics on whose vision the parks were originally founded. The book explores the constructed foodscape within US national parks, situating the romantic consumption ethos within the context of sociological work on distinction, culinary tourism, and culinary capital. It analyzes and problematizes elements of cosmopolitan taste and desire, examining food tourism in wilderness spaces that satisfies cosmopolitan hunger for authenticity and a certain type of self-making. Weaving together strands of research that have not been previously integrated, the book gleans meaning from concessions menus and park restaurant web pages and employs audience analysis to take stock of park restaurant visitors' contributions to restaurant review websites, as well as to understand how they represent their park eating experiences on social media. The book examines how satisfying cosmopolitan tastes in the parks creates profit for corporate concessioners, but also may produce bioregionalist successes and a recentering of Indigenous foodways. It concludes by exploring inroads to a better food experience in the parks, involving food products and processes that are regionally/locally specific, where tourists witness and participate in food production and enjoy commensality, but that are also non-extractive and show care for the environment and the people who inhabit it. This book will be of great interest to students and scholars of food studies, tourism and hospitality, sociology of culture, parks and recreation, American studies, and environmental studies. The book will also be of interest to parks and recreation decision makers, sustainable tourism leaders, and hospitality managers.

**michael grand canyon university business: The Christian Cross in American Public Life**

John R. Vile, 2024-01-23 The cross is one of Christianity's most distinctive symbols, increasingly cutting across Catholic/Protestant and other denominational divides. Although the US acknowledges no official religion, a variety of both Christian and non-Christian denominations have flourished. Crosses dot the landscape, sometimes towering over it and at other times simply marking a grave or the site of a traffic accident, or providing a place for contemplation. Courts continue to decide whether it is better to remove long-standing crosses on public property to protect the separation of church and state, or whether removing such symbols might be misinterpreted as expressing hostility towards religion. Whether marking identity, triumph, love, grief, or sacrifice, the cross remains important in American life and continues to be the subject of works of art, music, literature, and political, religious, and social rhetoric, all of which this volume addresses in an accessible A-to-Z format.

**michael grand canyon university business: The Law Book** Michael H. Roffer, 2015-11-03 Which was the last country to abolish slavery? Which is the only amendment to the U.S. Constitution ever to be repealed? How did King Henry II of England provide a procedural blueprint for criminal law? These are just a few of the thought-provoking questions addressed in this beautifully illustrated book. Join author Michael H. Roffer as he explores 250 of the most fundamental, far-reaching, and often-controversial cases, laws, and trials that have profoundly changed our world—for good or bad. Offering authoritative context to ancient documents as well as today's hot-button issues, The Law Book presents a comprehensive look at the rules by which we live our lives. It covers such diverse topics as the Code of Hammurabi, the Ten Commandments, the Trial of Socrates, the Bill of Rights, women's suffrage, the insanity defense, and more. Roffer takes us around the globe to ancient Rome and medieval England before transporting us forward to contemporary accounts that tackle everything from civil rights, surrogacy, and assisted suicide to the 2000 U.S. presidential election, Google Books, and the fight for marriage equality. Organized chronologically, the entries each consist of a short essay and a stunning full-color image, while the "Notes and Further Reading"

section provides resources for more in-depth study. Justice may be blind, but this collection brings the rich history of the law to light.

**\*\*Winner of the 2021 Texas Institute of Letters Carr P. Collins' Award for Best Book of Nonfiction\*\***

One part Columbine, one part God Save Texas, Joe Holley's riveting, compassionate book examines the 2017 mass shooting at a church in a small Texas town, revealing the struggles and triumphs of these fellow Texans long after the satellite news trucks have gone. Sutherland Springs was the last place anyone would have expected to be victimized by our modern-day scourge of mass shootings. Founded in the 1850s along historic Cibolo Creek, the tiny community, named for the designated physician during the siege of the Alamo, was once a vibrant destination for wealthy tourists looking to soak up the cures of its namesake mineral springs. By November 5, 2017, however, the day a former Air Force enlistee opened fire in the town's First Baptist Church, Sutherland Springs was a shadow of its former self. Twenty-six people died that Sunday morning, in the worst mass shooting in a place of worship in American history. Holley, who roams the Lone Star State as the Native Texan columnist for the Houston Chronicle and earned a Pulitzer- Prize nomination for his editorials about guns, spent more than a year embedded in the community. Long after most journalists had left, he stayed with his fellow Texans, getting to know a close-knit group of people - victims, heroes, and survivors. Holley shows how they work to come to terms with their loss and to rebuild shattered lives, marked by their deep faith in God and in guns. He also uses Sutherland Springs' unique history and its decades-long decline as a prism for understanding how an act of unspeakable violence reflects the complicated realities of Texas and America in the twenty-first century.
