mommy answers: The Mother of All Questions Rebecca Solnit, 2017-02-12 A collection of feminist essays steeped in "Solnit's unapologetically observant and truth-speaking voice on toxic, violent masculinity" (The Los Angeles Review). In a timely and incisive follow-up to her national bestseller *Men Explain Things to Me*, Rebecca Solnit offers sharp commentary on women who refuse to be silenced, misogynistic violence, the fragile masculinity of the literary canon, the gender binary, the recent history of rape jokes, and much more. In characteristic style, "Solnit draw[s] anecdotes of female indignity or male aggression from history, social media, literature, popular culture, and the news . . . The main essay in the book is about the various ways that women are silenced, and Solnit focuses upon the power of storytelling—the way that who gets to speak, and about what, shapes how a society understands itself and what it expects from its members. *The Mother of All Questions* poses the thesis that telling women's stories to the world will change the way that the world treats women, and it sets out to tell as many of those stories as possible" (The New Yorker). "There's a new feminist revolution—open to people of all genders—brewing right now and Rebecca Solnit is one of its most powerful, not to mention beguiling, voices."—Barbara Ehrenreich, New York Times—bestselling author of *Natural Causes* "Short, incisive essays that pack a powerful punch."—Publishers Weekly "A keen and timely commentary on gender and feminism. Solnit's voice is calm, clear, and unapologetic; each essay balances a warm wit with confident, thoughtful analysis, resulting in a collection that is as enjoyable and accessible as it is incisive." —Booklist

mommy answers: The Presence of the Absent Carlos E. Sluzki, 2015-06-26 Where live our

most cherished (or painful) memories? Where do our beloved (or dreaded) exist when departed? In the gray zone between our self and our world, they can exist as internal reminiscences for some and striking images for others; individually or collectively perceived and interacted; vividly or as tenuous presences. This book familiarizes us with six examples of individuals and families in therapy who live and interact with the presence of their absent, pivotal people in their lives who either died or disappeared, but are still there. It familiarizes us with their plight in a tender, compassionate style, describing in detail interviews and therapeutic transformations and, in several cases, follow-ups as well as echoes of those processes. It teaches us to respect those presences as well as how to help families and individuals treasure them...and in many cases to let them go. Written in a vivid, intense language, *The Presence of the Absent* offers a marvelous insight into these processes that may prove transformative for the therapist (both family and individually-oriented), as well as enlightening to the general public.

mommy answers: Ostrich Legs Alicia Kozameh, 2013 Partially autobiographical, this translation of the Spanish *Patas de Avestruz* is a masterpiece of introspective, linguistically innovative fiction about the relationship between two sisters--one severely handicapped, the other gifted yet overlooked. Mariana is four years older than her sister Alcira, but Mariana is seriously disabled and slowly dying. Conveying the experience of a physically messy process, this account points out the flaws in adult society through the point-of-view of its child protagonist. At its core, the novel is about the abuse of power and its consequences--whether that abuse is by a government, a parent, or a child.

mommy answers: Social Development as Preference Management Rachel Karniol, 2010-04-12 Karniol engagingly presents social development in children through the language of preference management. Conversational excerpts garnered from around the world trace how parents talk about preferences, how infants' and children's emergent language conveys their preferences, how children themselves are impacted by others' preferences, and how they in turn influence the preferences of adults and peers. The language of preferences is used to crack into altruism, aggression, and morality, which are ways of coming to terms with other people's preferences. Behind the scenes is a cognitive engine that uses transformational thought - conducting temporal, imaginal, and mental transformations - to figure out other people's preferences and to find more sophisticated means of outmanoeuvring others by persuading them and playing with one's own mind and other people's minds when preferences are blocked. This book is a unique and sometimes amusing must-read for anyone interested in child development, language acquisition, socialisation, and communication.

mommy answers: *Jasmine in My Hand* Mus White, 2006 In *Jasmine In My Hand*, first-time author Mus White captures the world of Pia, a young Danish girl who whirls through time like a space traveler, alternating between an impoverished childhood in Copenhagen and what becomes a privileged married life in Los Angeles. Bringing a bold and original voice to her novel, White suspends the reader between rage and a state of grace. One moment Pia is an expectant granny, looking in terror toward old age. The next, she is the child tiptoeing past the dragon father. Then she is a twelve-year old minigolf champ; a young, depressed mother in Sweden; a middle-aged matron driving a Jaguar; and, in the end, the queen of the light switches, her metaphor for being in command of her own life.

mommy answers: *Daddy's Little Girl and Mommy's Little Boy* Zester Hatfield, 2005-05-04 Mr. Hatfield with all of his years of experience in marriage, parenting, family, missions and in the Church pulls no punches in calling Christ's Bride to return to His Truth (God's revealed Law-Word) regarding discipleship (men and women of faith and grace) in Manhood and Womanhood, outrageously successful spousal relations, parenting with training in romance, sexual satisfaction, love and marriage! He is calling all believers, especially men, to confession and repentance and to receive, understand and apply these Truths in the Power of the Holy Spirit as the only acceptable response in which God will revive and reform the Family and the Church in the 21st Century! Not for the weak-kneed, weak-minded or humanistically influenced, this is for Christ's Bride as we prepare for and anticipate His return! These applications of God's revealed Law-Word and His uncommon common sense in the lives of America's postmodern Christian culture and especially the promise of duplicating of these successes for love and marriage in our children, is exciting and challenging to the point of precedent setting magnitudes. The reader will experience riveting and exciting challenges to the status quo of our present day Christian culture. Based on interviews with more than 1000 adults nationwide, the survey discovered that less than one out of every five adults believes that children under the age of 13 are being superbly or pretty well prepared for life emotionally, physically, spiritually, intellectually or physically. Fewer than one out of every twenty adults believes that America's youngsters are receiving above average preparation in all five of those areas of life. Americans Agree: Kids Are Not Being Prepared for Life, The Barna Group-October 26, 2004 The couples, who discover the answers to the moral morass of our postmodern Christian culture, are those who know that the future of their children is in jeopardy and that we are in a war for the control of that future! Sadly, the statistics of broken homes, divorces, adultery, domestic violence, drugs and promiscuity - to mention only some of the ills of our culture - are almost equally divided between Christian families and non-Christian families. This is unacceptable as a comparison and must change. Consequently, fathers and mothers of faith and grace are those - who are and or who will experience - God's promise of victory over these fruits of our fallen nature and live a marriage experience that captures the best of God's gifts of love, sex and romance in marriage. *Daddy's Little Girl and Mommy's Little Boy* brings us clear evidence of just how America's Christian couples can have this victory in their marriage and how to duplicate this success in their sons and daughters.

mommy answers: *Sleeping Like a Baby* Avi Sadeh, 2008-10-01 div "Why doesn't my baby sleep better?" weary parents ask. "How can we get more sleep?" There are as many answers to these questions as there are babies and families, says Dr. Avi Sadeh in this helpful and reassuring (some may say indispensable) book. Based on his years of research with sleep-disturbed babies and their sleep-deprived parents, Dr. Sadeh suggests a wide variety of practical solutions to babies' and young children's sleep problems. Other experts may recommend one strict approach to changing a

baby's sleep habits, but a single remedy fails to take into account a baby's uniqueness and the dynamics of his or her family, Dr. Sadeh contends. He helps parents first to understand the natural sleep patterns of babies, and then to consider their own family's situation and needs. In an accessible style designed to ease anxious parents' worries, Dr. Sadeh describes the various sleep problems of early childhood, outlines treatment possibilities, and details the pros and cons of each of these choices. This book will appeal not only to sleepless parents seeking relief but also to those who are curious about the most recent findings in children's sleep research. Dr. Sadeh addresses a full range of questions: What is the importance of sleep to a baby? How do babies in different cultures sleep? How is sleep related to development? What causes Sudden Infant Death Syndrome? How do babies calm themselves? What are the advantages and disadvantages of communal sleeping? With up-to-date answers to these questions and more, Dr. Sadeh offers parents and professionals all the information they need to help babies—and their families—sleep better. /DIV
