monkey business food express to go: *Monkey Business Theatre* Robert M. Laughlin, 2009-06-03 In 1983, a group of citizens in San Cristóbal de las Casas, Chiapas, formed Sna Jtz'ibajom, the Tzotzil-Tzeltal Maya writers' cooperative. In the two decades since, this group has evolved from writing and publishing bilingual booklets to writing and performing plays that have earned them national and international renown. Anthropologist Robert M. Laughlin has been a part of the group since its beginnings, and he offers a unique perspective on its development as a Mayan cultural force. The Monkey Business Theatre, or Teatro Lo'il Maxil, as this branch of Sna Jtz'ibajom calls itself, has presented plays in virtually every corner of the state of Chiapas, as well as in Mexico City, Guatemala, Honduras, Canada, and in many museums and universities in the United States. It has presented to the world, for the first time in drama, a view of the culture of the Mayas of Chiapas. In this work, Laughlin presents a translation of twelve of the plays created by Sna Jtz'ibajom, along with an introduction for each. Half of the plays are based on myths and half on the social, political, and economic problems that have confronted—and continue to confront—the Mayas of Chiapas.

With the 'land of snows' having some of the wildest and roughest road routes in high Asia, motoring, mountain-biking and trekking options are all given due attention in this new edition. High quality, numerous maps set this guide apart from other guides on Tibet and the trekking section has been expanded to include more on the main treks, including Everest Base Camp, Genden to Samye, Namtso trek and Kailash region treks. Particular attention has been paid to the Amdo and Kham regions, not usually covered in guidebooks. Political and cultural issues make Tibet a sensitive destination for Westerners, so Michael Buckley's authoritative advice includes guidelines on cultural etiquette, local customs, and travelling with minimum impact on the culture and environment. The chapter on language includes a section covering Tibetan script.

monkey business food express to go: *Herding Monkeys to Paradise* John Knight, 2011-05-27 This book is a study of the use of monkeys as a tourist attraction in Japan. Monkey parks are popular visitor attractions that display free-ranging troops of Japanese macaques to the paying public. The parks work by manipulating the movements of the monkey troop through the regular provision of food handouts at a fixed site where the monkeys can be easily viewed. This system of management leads to a variety of problems, including proliferating monkey numbers, park-edge crop-raiding, and the sedentarization of the troop. In addition to falling visitor numbers, these problems have led to the closure or fencing in of many parks, calling into question the future of the monkey park as an institution.

monkey business food express to go: Phenomenal Leigh Ann Henion, 2015-03-24 Elizabeth Gilbert, author of *The Signature of All Things* and *Eat, Pray, Love* “What a cool and fascinating ride. Leigh Ann Henion has tackled one of the great questions of contemporary, intelligent, adventurous women: Is it possible to be a wife and mother and still explore the world? Her answer seems to be that this is not only possible, but essential. This story shows how. I think it will open doors for many.” Heartfelt and awe-inspiring, Leigh Ann Henion’s *Phenomenal* is a moving tale of physical grandeur and emotional transformation, a journey around the world that ultimately explores the depths of the human heart. A journalist and young mother, Henion combines her own varied experiences as a parent with a panoramic tour of the world’s most extraordinary natural wonders. *Phenomenal* begins in hardship: with Henion deeply shaken by the birth of her beloved son, shocked at the adversity a young mother faces with a newborn. The lack of sleep, the shrinking social circle, the health difficulties all collide and force Henion to ask hard questions about our accepted wisdom on parenting and the lives of women. Convinced that the greatest key to happiness—both her own and that of her family—lies in periodically venturing into the wider world beyond home, Henion sets out on a global trek to rekindle her sense of wonder. Henion’s quest takes her far afield, but it swiftly teaches her that freedom is its own form of parenting—one that ultimately allows her to meet her son on his own terms with a visceral understanding of the awe he experiences every day at the fresh new world. Whether standing on the still-burning volcanoes of Hawai’i or in the fearsome lightning storms of Venezuela, amid the vast animal movements of Tanzania or the elegant butterfly migrations of Mexico, Henion relates a world of sublimity and revelation. Henion’s spiritual wanderlust puts her in the path of modern-day shamans, reindeer herders, and astrophysicists. She meets laypeople from all over the world, from all walks of life, going to great lengths to chase

migrations, auroras, eclipses, and other phenomena. These seekers trust their instincts, follow their passions, shape their days into the lives they most want to lead. And, somewhere along the way, Leigh Ann Henion becomes one of them. A breathtaking memoir, *Phenomenal* reveals unforgettable truths about motherhood, spirituality, and the beauty of nature. Oprah.com Part travel memoir, part parenting manifesto and part inquiry into those 'fleeting, extraordinary glimpses of something that left us groping for rational explanations in the quicksand of all-encompassing wonder.'

monkey business food express to go: Just Food James E. McWilliams, 2009-08-26 We suffer today from food anxiety, bombarded as we are with confusing messages about how to eat an ethical diet. Should we eat locally? Is organic really better for the environment? Can genetically modified foods be good for you? *Just Food* does for fresh food what *Fast Food Nation* did for fast food, challenging conventional views, and cutting through layers of myth and misinformation. For instance, an imported tomato is more energy-efficient than a local greenhouse-grown tomato. And farm-raised freshwater fish may soon be the most sustainable source of protein. Informative and surprising, *Just Food* tells us how to decide what to eat, and how our choices can help save the planet and feed the world.

monkey business food express to go: Portnoy's Complaint Philip Roth, 2011-04-13 The groundbreaking novel from the Pulitzer Prize-winning author of *American Pastoral* that originally propelled its author to literary stardom: told in a continuous monologue from patient to psychoanalyst, this masterpiece draws us into the turbulent mind of one lust-ridden young Jewish bachelor named Alexander Portnoy. One of *The Atlantic's* Great American Novels of the Past 100 Years "Deliciously funny . . . absurd and exuberant, wild and uproarious . . . a brilliantly vivid reading experience"—*The New York Times Book Review* "Touching as well as hilariously lewd . . . Roth is vibrantly talented"—*New York Review of Books* *Portnoy's Complaint* n. [after Alexander Portnoy (1933-)] A disorder in which strongly-felt ethical and altruistic impulses are perpetually warring with extreme sexual longings, often of a perverse nature. Spielvogel says: 'Acts of exhibitionism, voyeurism, fetishism, auto-eroticism and oral coitus are plentiful; as a consequence of the patient's morality, however, neither fantasy nor act issues in genuine sexual gratification, but rather in overriding feelings of shame and the dread of retribution, particularly in the form of castration.' (Spielvogel, O. *The Puzzled Penis*, *Internationale Zeitschrift für Psychoanalyse*, Vol. XXIV, p. 909.) It is believed by Spielvogel that many of the symptoms can be traced to the bonds obtaining in the mother-child relationship.

monkey business food express to go: Think Like a Monk Jay Shetty, 2020-09-08 Jay Shetty, social media superstar and host of the #1 podcast *On Purpose*, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has

become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

monkey business food express to go: The Brothers Mankiewicz Sydney Ladensohn Stern, 2019-10-02 Winner of the 2020 Peter C. Rollins Book Award Longlisted for the 2020 Moving Image Book Award by the Kraszna-Krausz Foundation Named a 2019 Richard Wall Memorial Award Finalist by the Theatre Library Association Herman J. (1897-1953) and Joseph L. Mankiewicz (1909-1993) wrote, produced, and directed over 150 pictures. With Orson Welles, Herman wrote the screenplay for Citizen Kane and shared the picture's only Academy Award. Joe earned the second pair of his four Oscars for writing and directing All About Eve, which also won Best Picture. Despite triumphs as diverse as Monkey Business and Cleopatra, and Pride of the Yankees and Guys and Dolls, the witty, intellectual brothers spent their Hollywood years deeply discontented and yearning for what they did not have—a career in New York theater. Herman, formerly an Algonquin Round Table habitué, New York Times and New Yorker theater critic, and playwright-collaborator with George S. Kaufman, never reconciled himself to screenwriting. He gambled away his prodigious earnings, was fired from all the major studios, and drank himself to death at fifty-five. While Herman drifted downward, Joe rose to become a critical and financial success as a writer, producer, and director, though his constant philandering with prominent stars like Joan Crawford, Judy Garland, and Gene Tierney distressed his emotionally fragile wife who eventually committed suicide. He wrecked his own health using uppers and downers in order to direct Cleopatra by day and finish writing it at night, only to be very publicly fired by Darryl F. Zanuck, an experience from which Joe never fully recovered. For this award-winning dual portrait of the Mankiewicz brothers, Sydney Ladensohn Stern draws on interviews, letters, diaries, and other documents still in private hands to provide a uniquely intimate behind-the-scenes chronicle of the lives, loves, work, and relationship between these complex men.

monkey business food express to go: How The Ship Changed My Life Goran Žganec, 2023-09-15 Due to the difficulty to find a job in his city, Goran chooses the type of career that changed his life. He started to work on a cruise ship in the hospitality industry in 2013. He has three contracts in three different cruise ships. He considers this experience the most difficult but also the most valuable that life has taught him. Working on a vessel requires huge sacrifices like being miles away for more than half a year from family and friends, working with different nationalities and cultures, brutally heavy pace of minimal ten working hours every day and often even more without normal sleeping hours but on the other hand a piece of relaxation that makes it very special such as traveling to various attractive world tourist destinations and creating unforgettable friendships and adventures. Because of his soccer dream, he left the cruiser in 2016 together with Elizabeth from Peru (back then his girlfriend, today his wife) and since 2017 they live in Munich, Germany. From the first day spent on the ship, during all the rich experiences and adventures until the last disembarkation, through magical Peru and a special proposal on the beautiful Machu Picchu to the current life in Germany, he continues to explore new places and shares his soccer passion. Ship life inspired him to write this book and motivate people in achieving their biggest goals because he strongly believes that everything is possible if the person really wants it.

monkey business food express to go: *Apple* Marcia Reiss, 2014-11-15 Gala and Honeycrisp. Pink Lady and Pacific Rose. King Luscious and Winesap. The names of apples are as juicy as the fruit itself. One of the most widely distributed fruits on the planet, apples have always meant something beyond food and drink—their seeds have been planted deep within the myths, religion, and art of nearly every culture. They are symbols of beauty, desire, and sin; signs of hidden poisons and healthy eating; emblems of computers, phones, and music. Exploring the symbolism, art, and literature of the apple, as well as its botanical background, Marcia Reiss follows this iconic fruit from its origins to its now-ubiquitous presence in our world. Journeying back to the apple's germination in the mountains of Central Asia, Reiss travels along the Silk Road to Europe and the New World. She reveals that, from Charlemagne to Johnny Appleseed to the colonization of South Africa, where settlers were required to plant apple orchards that led to the development of new towns, apples have become a global commodity. In addition to delving into the latest debates about chemical sprays, Reiss looks at the rise of heirloom orchards and the hopes and fears of genetic developments. She also tells the parallel tale of apple cider, its decline during the Temperance Movement and its return as an artisanal alternative to wine. Beautifully illustrated with historic and contemporary images and containing a directory of popular and heirloom varieties, *Apple* is a book ripe for devouring.

monkey business food express to go: *That's The Way It Crumbles* Matthew Engel, 2017-06-08 Are we tired of hearing that fall is a season, sick of being offered fries and told about the latest movie? Yeah. Have we noticed the sly interpolation of Americanisms into our everyday speech? You betcha. And are we outraged? Hell, yes. But do we do anything? Too much hassle. Until now. In *That's The Way It Crumbles* Matthew Engel presents a call to arms against the linguistic impoverishment that happens when one language dominates another. With dismay and wry amusement, he traces the American invasion of our language from the early days of the New World, via the influence of Edison, the dance hall and the talkies, right up to the Apple and Microsoft-dominated present day, and explores the fate of other languages trying to fend off linguistic takeover bids. It is not the Americans' fault, more the result of their talent for innovation and our own indifference. He explains how America's cultural supremacy affects British gestures, celebrations and way of life, and how every paragraph and conversation includes words the British no longer even think of as Americanisms. Part battle cry, part love song, part elegy, this book celebrates the strange, the banal, the precious and the endangered parts of our uncommon common language.

One out of 12 people in the world are employed by the tourism industry which contributes \$6.5 trillion to the world's economy. To investigate the size and effect of this new industry, Elizabeth Becker traveled the globe. She speaks to the Minister of Tourism of Zambia who thinks licensing foreigners to kill wild animals is a good way to make money and then to a Zambian travel guide who takes her to see the rare endangered sable antelope. She travels to Venice where community groups are fighting to stop the tourism industry from pushing them out of their homes, to France where officials have made tourism their number one industry to save their cultural heritage; and on cruises speaking to waiters who earn \$60 a month--then on to Miami to interview their CEO. Becker's sharp depiction reveals travel as a product; nations as stewards.
