Neighbour Running Car Repair Business from Home: Understanding the Legal and Practical Implications

Introduction:

Is your neighbour turning their driveway into a car repair shop?

This increasingly common scenario raises several important questions regarding zoning laws, noise pollution, insurance, and potential neighborhood disputes. This comprehensive guide explores the legal and practical implications of a neighbor running a car repair business from their home, providing homeowners with essential information to navigate this complex situation.

Article Outline:

I. Legal Considerations:

- a. Zoning regulations and permitted home-based businesses.
- b. Business licenses and permits required for auto repair.
- c. Environmental regulations and waste disposal.
- d. Insurance implications for both the neighbor and surrounding homeowners.

II. Practical Implications:

- a. Noise pollution and its impact on the neighborhood.
- b. Traffic congestion and parking issues.
- c. Potential for property value impacts.
- d. Building relationships and communication with your neighbor.

III. Addressing Concerns:

- a. Documenting issues and evidence.
- b. Formal complaints and dispute resolution.
- c. Mediation and negotiation strategies.

Explanatory Sentences:

I. Legal Considerations:

Understanding Zoning Regulations for Home-Based Businesses

Many municipalities have specific zoning ordinances that regulate home-based businesses. These regulations often restrict the type and scale of businesses permitted in residential areas, limiting the potential impact on the neighborhood. Auto repair shops, due to their potential for noise, traffic, and environmental concerns, are frequently subject to stricter regulations.

Obtaining Necessary Business Licenses and Permits for Auto Repair

Before operating any business, including a car repair service, your neighbor must secure the appropriate licenses and permits from local authorities. These may include a business license, a zoning permit, and possibly specialized permits related to auto repair practices, such as handling hazardous waste. Failure to obtain these permits could lead to legal penalties.

Environmental Regulations and Waste Disposal Practices in Car Repair

Auto repair often involves the handling of hazardous materials like oil, antifreeze, and solvents. Stringent environmental regulations govern the proper storage, disposal, and recycling of these materials. Your neighbor's business must comply with these regulations to prevent environmental contamination and potential health risks to the community.

Insurance Implications for Home-Based Auto Repair Businesses

Operating a car repair business from home necessitates adequate insurance coverage. This includes liability insurance to protect against accidents or damages caused to customers' vehicles or property, and potentially general liability insurance to cover other risks associated with the business operation. Homeowners in the vicinity may also want to review their own insurance policies to determine the level of coverage for potential damages related to their neighbor's business.

II. Practical Implications:

Noise Pollution from a Home-Based Auto Repair Shop

The constant noise of tools, engines, and vehicle movements can be a significant source of disturbance for neighbors. Excessive noise pollution can affect the quality of life, disrupting sleep, work, and relaxation. Consider the frequency, intensity, and duration of the noise to gauge its impact on the community.

Traffic Congestion and Parking Issues Created by the Business

A home-based auto repair business can lead to increased traffic and parking challenges in the neighborhood. Customers' vehicles, repair vehicles, and potentially parts delivery trucks may overcrowd the streets and make parking difficult for residents. This can pose a significant inconvenience and impact the flow of traffic in the area.

Potential Impact of a Home-Based Auto Repair Business on Property Values

Some studies suggest that the presence of certain types of home-based businesses, particularly those involving potential noise or environmental concerns, may negatively affect property values in the surrounding area. This impact, however, is not always uniform and depends on many factors, including the nature of the business, its scale of operation, and local market dynamics.

Building Positive Relationships and Communication with Your Neighbor

Open communication and a collaborative approach can often prevent conflicts from escalating. Attempt to address your concerns directly with your neighbor in a respectful and constructive manner. Early dialogue can lead to mutually acceptable solutions, minimizing potential friction and enhancing neighborhood harmony.

III. Addressing Concerns:

Documenting Issues and Gathering Evidence of Disturbances

If attempts at friendly communication fail, it's crucial to meticulously document any problems caused by your neighbor's business. This may include keeping a detailed log of noise levels, traffic congestion, or other issues, along with dates, times, and photographic or video evidence.

Formal Complaints and Dispute Resolution Processes

If the problems persist, you may need to file a formal complaint with your local authorities, such as your city council or zoning department. They may have established procedures for addressing noise complaints, zoning violations, or other issues related to home-based businesses.

Mediation and Negotiation Strategies for Resolving Disputes

Mediation can offer a neutral platform for resolving conflicts between you and your neighbor. A mediator can facilitate a discussion, help identify common ground, and assist in developing a mutually agreeable solution to the issues at hand. Negotiation, even without a mediator, can still be a valuable approach to finding a compromise.

Conclusion:

Navigating the complexities of a neighbor running a car repair business from home requires a balanced approach. Understanding the legal frameworks, acknowledging the practical implications, and employing effective communication strategies are crucial. While conflict is always possible, proactive engagement and a focus on finding mutually acceptable solutions can significantly improve the situation and promote harmonious neighborhood relations.

Frequently Asked Questions (FAQs):

Q: Can I legally stop my neighbor from running a car repair business from home? A: Whether you can legally stop them depends entirely on local zoning laws and whether they are operating in accordance with permits and regulations. If they are violating these rules, you can file a formal complaint.

Q: What if my neighbor is causing significant noise pollution? A: Document the noise, and contact your local authorities to report the issue. They may investigate and take action.

Q: What if my property value decreases due to my neighbor's business? A: This is difficult to prove directly. However, if the business is operating illegally, it may support a legal claim.

Q: Can I sue my neighbor for damages related to their business? A: Possibly, if you can prove negligence or damages caused directly by their business operations and lack of proper insurance.

Robinson, 2021-05-11 A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

neighbour running car repair business from home: *The Sunset Strip Diaries* Amy Asbury, 2024-02-17 There comes a time in every girl's life, when she has to choose good or choose bad. Amy Asbury chose bad, hands down. Good meant wallflowers, secretaries and subservient wives. Bad meant power- and a possible escape from a life of secrets. At twelve years old she was trying to make sense of a drug-addicted father and his disturbing behavior. By fifteen she was dealing with horrendous depression, blackouts and rape. At sixteen she was in a mental institution for suicidal tendencies and violent behavior. She knew she could never be normal. The only place for a girl like her was Hollywood. Read the true story of the social ascent (and eventual decline) of a girl in the Sunset Strip music scene of the early 1990's. From crazy parties to glittered junkies and man-eating strippers, Amy has chronicled what life was like back in the days of excess and debauchery. It is not just a fascinating look into an amusing time in pop culture, but also details the mindset of a young woman trying to find confidence and self-worth in a life full of pain and chaos. The party came screeching to a halt when the Grunge movement took over and heroin became more prominent. How far off track can a person go before it's too late?

neighbour running car repair business from home: *Non-Contractual Liability Arising out of Damage Caused to Another* Christian von Bar, 2009-08-17 Non-contractual liability arising out of damage caused to another is one of the three main non-contractual obligations dealt with in the DCFR. The law of non-contractual liability arising out of damage caused to another (in the Common

Law known as tort law or the law of torts, but in most other jurisdictions referred to as the law of delict) is the area of law which determines whether one who has suffered a damage can on that account demand reparation (in money or in kind) from another with whom there may be no other legal connection than the causation of damage itself. Besides determining the scope and extent of responsibility for dangers of one's own or another's creation, this field of law serves to protect fundamental rights in the private law domain, that is to say horizontally between citizens inter se. Based on pan-European comparative research which annotates the work, this volume presents model rules on liability. Explanatory comments and illustrations amplify the policy decisions involved. During the drafting process, comparative material from over 25 different EU jurisdictions has been taken into account. The work therefore is not only a presentation of a future model for European rules to come but provides also a fairly detailed indication of the present legal situation in the Member States.

neighbour running car repair business from home: Quiet Neighbours Catriona McPherson, 2020-09-01 A woman on the run uncovers a series of deadly secrets in this gripping, twisty standalone psychological thriller from award-winning master storyteller Catriona McPherson. Lowland Glen is the oldest bookshop in a quiet Scottish town full of bookshops; rambling and disordered, full of hidden treasures. Londoner Jude fell in love with it when she visited last summer, the high point of a miserable holiday. Now, in the depths of winter, it seems a strange place to run away to - but Jude's tired and heartsick, and when the bookstore's charming but eccentric owner, Lowell, welcomes her with open arms, she knows she's made the right decision. Lowell needs an assistant, and the job comes with accommodation too. The isolated gravedigger's cottage isn't perfect for a woman alone, but it's a good place to hide from her troubles - and at least she has quiet neighbors. Quiet, but not silent. The long dead and the books they left behind have tales to tell, and the dusty bookshop is not the haven it seems. Lowell's past and Jude's present are a dangerous cocktail of secrets and lies - and someone is coming to light the taper that could burn everything down around them . . .

One day fourteen-year-old Sophie Amundsen comes home from school to find in her mailbox two notes, with one question on each: Who are you? and Where does the world come from? From that irresistible beginning, Sophie becomes obsessed with questions that take her far beyond what she knows of her Norwegian village. Through those letters, she enrolls in a kind of correspondence course, covering Socrates to Sartre, with a mysterious philosopher, while receiving letters addressed to another girl. Who is Hilde? And why does her mail keep turning up? To unravel this riddle, Sophie must use the philosophy she is learning—but the truth turns out to be far more complicated than she could have imagined.

Marohn, Jr., 2019-10-01 A new way forward for sustainable quality of life in cities of all sizes *Strong Towns: A Bottom-Up Revolution to Build American Prosperity* is a book of forward-thinking ideas that breaks with modern wisdom to present a new vision of urban development in the United States. Presenting the foundational ideas of the Strong Towns movement he co-founded, Charles Marohn explains why

cities of all sizes continue to struggle to meet their basic needs, and reveals the new paradigm that can solve this longstanding problem. Inside, you'll learn why inducing growth and development has been the conventional response to urban financial struggles—and why it just doesn't work. New development and high-risk investing don't generate enough wealth to support itself, and cities continue to struggle. Read this book to find out how cities large and small can focus on bottom-up investments to minimize risk and maximize their ability to strengthen the community financially and improve citizens' quality of life. Develop in-depth knowledge of the underlying logic behind the "traditional" search for never-ending urban growth Learn practical solutions for ameliorating financial struggles through low-risk investment and a grassroots focus Gain insights and tools that can stop the vicious cycle of budget shortfalls and unexpected downturns Become a part of the Strong Towns revolution by shifting the focus away from top-down growth toward rebuilding American prosperity Strong Towns acknowledges that there is a problem with the American approach to growth and shows community leaders a new way forward. The Strong Towns response is a revolution in how we assemble the places we live.

neighbour running car repair business from home: Eat Thy Neighbour Daniel Diehl, Mark P Donnelly, 2012-05-30 Cannibalism is unquestionably one of the oldest and deepest-seated taboos. Even in an age when almost nothing is sacred, religious, moral and social prohibitions surround the topic. But even as our minds recoil at the mention of actual acts of cannibalism there is some dark fascination with the subject. Appalling crimes of humans eating other humans are blown into major news stories and gory movies: both Hitchcock's 'Psycho' and 'The Texas Chainsaw Massacre' were based on the crimes of Ed Gein, who is profiled, along with others, in this book. In 'Eat Thy Neighbour' the authors put the subject of cannibalism into its social and historical perspective.

neighbour running car repair business from home: Foundations of Business Thought Calvin Boardman, Alan Sandomir, Harris Sondak, 2023-03-15 Now published by Sage Foundations of Business Thought, Ninth Edition presents the writings of great contemporary and historical thinkers in an effort to develop the conceptual foundation for commercial activity in general and the ideals of accounting, finance, management, marketing, and operations/production in particular. This unique approach of using classical works of authorship reinforces the importance of clear, critical, and integrative thinking. Since 1993, many thousands of students across the United States have been introduced to the world of commerce and business through a process that makes business concepts at once understandable and intimately personal. Business is presented as a series of human connections designed to address the personal needs and wants of individuals based on sets of values and codes of ethics that guide our thoughts and actions in a market setting. Business techniques and tools may change over time but the essential goals and concepts of commercial activity remain unchanged across both geography and time. Inspired by a four volume set of books produced by the Harvard Business School in 1962, entitled The World of Business, this course and the book upon which it rests present the writings of great contemporary and historical thinkers in order to develop the conceptual foundation for commercial activity in general and the ideals of accounting, finance, management, marketing and operations/production in particular. This unique approach of using classical works of authorship reinforces the importance of clear, critical and integrative thinking. These works first outline the motivations for the development of commercial activity and, then, present the fundamental elements important to the foundation of a commercial society. These foundational concepts are followed by sections devoted to the various functional areas of business, again introduced by classical works that have both passed the test of time and provide unique insights into each of the areas. Faculty are provided with detailed instructions on methods of relating the material to contemporary business concepts and practice. While this roadmap provides structure for the material, faculty are encouraged to take advantage of their individual specialization and creativity. This could end up being one of the most enjoyable courses a faculty member will teach. Students are encouraged to be critical of the readings, of the concepts and, most particularly, their own notions about business and, at the same time, open to new ideas, the thoughts of others and the opportunities for personal growth. Through careful reading of the text, participating in classroom discussions, expanding knowledge through individual research and by writing position papers on contemporary business topics, this course has the potential to be one of the most impactful undergraduate or graduate courses students will take in their college career.

neighbour running car repair business from home: Love Thy Neighbor Ayaz Virji, M.D., Alan Eisenstock, 2019-06-11 A powerful true story about a Muslim doctor's service to small-town

America and the hope of overcoming our country's climate of hostility and fear. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY In 2013, Ayaz Virji left a comfortable job at an East Coast hospital and moved to a town of 1,400 in Minnesota, feeling called to address the shortage of doctors in rural America. But in 2016, this decision was tested when the reliably blue, working-class county swung for Donald Trump. Virji watched in horror as his children faced anti-Muslim remarks at school and some of his most loyal patients began questioning whether he belonged in the community. Virji wanted out. But in 2017, just as he was lining up a job in Dubai, a local pastor invited him to speak at her church and address misconceptions about what Muslims practice and believe. That invitation has grown into a well-attended lecture series that has changed hearts and minds across the state, while giving Virji a new vocation that he never would have expected. In *Love Thy Neighbor*, Virji relates this story in a gripping, unforgettable narrative that shows the human consequences of our toxic politics, the power of faith and personal conviction, and the potential for a renewal of understanding in America's heartland.

Fred Rogers was an enormously influential figure in the history of television and in the lives of tens of millions of children. Through his long-running television program, he was a champion of compassion, equality, and kindness. Rogers was fiercely devoted to children and to taking their fears, concerns, and questions about the world seriously. *The Good Neighbor*, the first full-length biography of Fred Rogers, tells the story of this utterly unique and enduring American icon. Drawing on original interviews, oral histories, and archival documents, Maxwell King traces Rogers's personal, professional, and artistic life through decades of work. King explores Rogers's surprising decision to walk away from his show to make television for adults, only to return to the neighborhood with increasingly sophisticated episodes, written in collaboration with experts on childhood development. An engaging story, rich in detail,

The Good Neighbor is the definitive portrait of a beloved figure, cherished by multiple generations.

Bricklaying was one of those trades where there was little in the way of mechanical assistance, as they either didn't exist yet, or were expensive to hire. For example, elevators, forklift trucks and cranes. There were advantages to this way of life as you will see when reading this book.

neighbour running car repair business from home: Fish & Ships Alfred Pickup, 2011 A not quite sixteen-year-old Alfred Pickup is declared healthy, and after a simple written exam, joins the Royal Navy as a Junior Electrical Mechanic 2nd class in 1961. Pickup would serve on numerous ships from the HMS Wakeful, a decaying WW II era Destroyer to the HMS Cardiff, a brand new destroyer in 1979. Before joining any ship, a sixteen-year-old must learn many new skills. From minor obstacles of embroidering his name on his uniforms to learning to use a rifle, Pickup is readied for duty in strict Navy tradition. He puts together a string of first round knockouts as a member of the boxing team before seemingly meeting his match in a local ranked amateur. He would see incredible storms, on board fires, mechanical breakdowns, and the threat of war when the Falklands conflict began in 1982. Different ports-of-call would offer a range of shore leave possibilities. Strict navy regulations would not deter some crew from overindulging, nor would it protect them from unscrupulous individuals looking to separate them from their pay. While in foreign ports, Pickup would meet a remarkable number of Navy-friendly locals happy to show him the sights or take him into their homes for a home cooked meal. Raising a family of four on a meager Navy pay would see Pickup and his wife running a bed & breakfast, and later a fish and chips shop. Pickup worked odd jobs ashore and during a lengthy station in Gibraltar, operated a booming automotive repair and paint shop. Fish and Ships chronicles with humour and fine detail a twenty-five year career in the RN that would see Pickup rise to the rank of Chief Petty Officer and retire from service in his early forties to life as a restaurateur.

While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of

hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

neighbour running car repair business from home: *Hitler, My Neighbor* Edgar Feuchtwanger, Bertil Scali, 2017-11-07 An eminent historian recounts the Nazi rise to power from his unique perspective as a young Jewish boy in Munich, living with Adolf Hitler as his neighbor. Edgar Feuchtwanger came from a prominent German-Jewish family--the only son of a respected editor and the nephew of a best-selling author, Lion Feuchtwanger. He was a carefree five-year-old, pampered by his parents and his nanny, when Adolf Hitler, the leader of the Nazi Party, moved into the building opposite theirs in Munich. In 1933 the joy of this untroubled life was shattered. Hitler had been named Chancellor. Edgar's parents, stripped of their rights as citizens, tried to protect him from increasingly degrading realities. In class, his teacher had him draw swastikas, and his schoolmates joined the Hitler Youth. Watching events unfold from his window, Edgar bore witness to the Night of the Long Knives, the Anschluss, and Kristallnacht. Jews were arrested; his father was imprisoned at Dachau. In 1939 Edgar was sent on his own to England, where he would make a new life, a career, have a family, and strive to forget the nightmare of his past--a past that came rushing back when he decided, at the age of eighty-eight, to tell the story of his buried childhood and his infamous neighbor.

neighbour running car repair business from home: *The Art of Neighboring* Jay Pathak, Dave Runyon, 2012-08-01 Once upon a time, people knew their neighbors. They talked to them, had cook-outs with them, and went to church with them. In our time of unprecedented mobility and increasing isolationism, it's hard to make lasting connections with those who live right outside our front door. We have hundreds of friends through online social networking, but we often don't even know the full name of the person who lives right next door. This unique and inspiring book asks the question: What is the most loving thing I can do for the people who live on my street or in my apartment building? Through compelling true stories of lives impacted, the authors show readers how to create genuine friendships with the people who live in closest proximity to them. Discussion questions at the end of each chapter make this book perfect for small groups or individual study.

neighbour running car repair business from home: *The Other End of the Leash* Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with

your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

neighbour running car repair business from home: *The New Neighbor* Leah Stewart, 2015-07-07 In the tradition of Zoe Heller’s *What Was She Thinking? Notes on a Scandal*, *The New Neighbor* is “a chilling page-turner” (People) with “simple, elegant language” (The New York Times Book Review) about an old woman’s curiosity turned into a dangerous obsession as she becomes involved in her mysterious new neighbor’s complicated life. How much can you really know about the woman next door? Ninety-year-old Margaret Riley is content hiding from the world. Stoic and independent, she rarely leaves the Tennessee mountaintop where she lives, finding comfort in the mystery novels that keep her company—until she spots a woman who’s moved into the long-empty house across the pond. Her neighbor, Jennifer Young, is also looking to hide. On the run from her old life, she and her four-year-old son, Milo, have moved to a quiet town where no one from her past can find her. In Jennifer, Margaret sees both a potential companion for her loneliness and a mystery to be solved. She thinks if she says the right thing, tells the right story, Jennifer will open up, but Jennifer refuses to talk about herself, her son, his missing father, or her past. Frustrated, Margaret crosses more and more boundaries in pursuit of the truth, threatening to unravel the new life Jennifer has so painstakingly created—and reveal some secrets of her own... From the critically acclaimed author of *The History of Us* and *The Myth of You and Me*, *The New Neighbor* is “a promising exploration of the secrets we all carry and our refusal to forgive ourselves” (Publishers Weekly).

He does not abandon us, he does not leave us alone, for he has united himself definitively to our earth, and his love constantly impels us to find new ways forward. Praise be to him!” – Pope Francis, *Laudato Si’* In his second encyclical, *Laudato Si’*: On the Care of Our Common Home, Pope Francis draws all Christians into a dialogue with every person on the planet about our common home. We as human beings are united by the concern for our planet, and every living thing that dwells on it, especially the poorest and most vulnerable. Pope Francis’ letter joins the body of the Church’s social and moral teaching, draws on the best scientific research, providing the foundation for “the ethical and spiritual itinerary that follows.” *Laudato Si’* outlines: The current state of our “common home” The Gospel message as seen through creation The human causes of the ecological crisis Ecology and the common good Pope Francis’ call to action for each of us Our Sunday Visitor has included discussion questions, making it perfect for individual or group study, leading all Catholics and Christians into a deeper understanding of the importance of this teaching.

neighbour running car repair business from home: *The Neighbor* Joseph Souza, 2018-04-24 Two neighboring couples are caught in a dangerous tangle of betrayal and deception in this “taut, twisty psychological thriller. Totally riveting” (James Hayman, New York Times bestselling author of *The Girl on the Bridge*). When Leah and her husband, Clay, move from Seattle to Maine, she envisions a vibrant new neighborhood packed with families—playmates for the twins and new couple friends to bond with. But while Clay works long hours to establish his brewery, Leah is left alone each day in a nearly deserted housing development where the only other occupants prefer to keep to themselves. Bored and adrift, Leah finds herself watching Clarissa and Russell Gaines next door, envying their stylishly decorated home and their university careers. But Leah’s obsession with the intriguing, elegant Clarissa grows until she’s not just spying from afar but sneaking into their house, taking small objects...and reading Clarissa’s diary. It contains clues to a hidden turmoil Leah never guessed at—and a connection to a local college girl who’s disappeared. “Scary and disturbing with

dark psychological twists and turns, it horrifies while it fascinates. I couldn't turn away!"—Lisa Jackson, # 1 New York Times bestselling author
