"—Sri Swami Satchidananda Creators of the extremely popular Jivamukti Yoga method and cofounders of the New York City studios where it is taught, Sharon Gannon and David Life present their unique style of

yoga for the first time in book form. As they explain their intensely physical and spiritual system of flowing postures, they provide inspiring expert instruction to guide you in your practice. Unlike many books about yoga, Jivamukti Yoga focuses not only on the physical postures but also on how they evolved—the origins of the practices in yoga’s ancient sacred texts and five-thousand-year-old traditions—the psychotherapeutic benefits that accrue with a steady practice, and the spiritual power that is set free when energy flows throughout the mind and body. Jivamukti Yoga, which means “soul liberation,” guides your body and soul into spiritual freedom, physical strength, peace of mind, better health, and Self-realization—the ultimate goal of any practice. Gannon and Life help you understand each of the practices that comprise the yoga path to enlightenment: AHIMSA—The Way of Compassion: choosing nonviolence, respecting all life, practicing vegetarianism, living free of prejudice ASANA—The Way of Connection to the Earth: postures and sequences, breathing, transforming energy, understanding the bandhas KARMA—The Way of Action: creating good karma, giving thanks NADAM—The Way of Sacred Music: appreciating the sacred sounds of yoga MEDITATION—The Way of the Witness: how to sit still and move inward BHAKTI—The Way of Devotion to God: living with love, grace, and peace Whatever yoga you practice, Jivamukti Yoga will help you to strengthen and deepen that practice and lead you onto a path of spiritual clarity and self-discovery. “If there is only one book you read about the practice of Yoga, this should be the one. . . . This book is for anyone who wishes to find transformation through Yoga. I’m grateful for their work and teaching.”—Stephan Rechtschaffen, MD, Co-founder & CEO, Omega Institute

nurture wellness village tagaytay cavite philippines: Neoliberalizing Spaces in the Philippines Arnisson Andre Ortega, 2016-09-09 Amidst the recent global financial crisis and housing busts in various countries, the Philippines' booming housing industry has been heralded as "Southeast Asia's hottest real estate hub" and the saving grace of a supposedly resilient Philippine economy. This growth has been fueled by demand from balikbayan (returnee) Overseas Filipinos and has facilitated the rise of gated suburban communities in Manila's sprawling peri-urban fringe. But as the "Filipino dreams" of successful balikbayans are built inside these new gated residential developments, the lives of marginalized populations living in these spaces have been upended and thrown into turmoil as they face threats of expulsion. Based on almost four years of research, this book examines the tumultuous geographies of neoliberalization that link suburbanization, transnational mobilities, and accumulation by dispossession. Through an accounting of real estate and new suburban landscapes, it tells of a Filipino transnationalism that engenders a market-based and privatized suburban political economy that reworks socio-spatial relations and class dynamics. In presenting the literal and discursive transformations of spaces in Manila's peri-urban fringe, the book details life inside new gated suburban communities and discusses the everyday geographies of "privileged" new property owners—mainly comprised of balikbayan families—and exposes the contradictions of gated suburban life, from resistance to Home Owner Association rules to alienating

feelings of loss. It also reveals the darker side of the property boom by mapping the volatile spaces of the Philippines' surplus populations comprised of the landless farmers, informal settler residents, and indigenous peoples. To make way for gated communities and other profitable developments in the peri-urban region, marginalized residents are systematically dispossessed and displaced while concomitantly offered relocation to isolated socialized housing projects, the last frontier for real estate accumulation. These compelling accounts illustrate how the territorial embeddedness of neoliberalization in the Philippines entails the consolidation of capital by political-economic elites and privatization of residential space for an idealized transnational property clientele. More than ever, as the Philippines is being reshaped by diaspora and accumulation by dispossession, the contemporary moment is a critical time to reflect on what it truly means to be a nation.
