Understanding Pet Agree's Holistic Approach to Wellness

At Pet Agree's, we believe in a holistic approach to pet wellness. This means we don't just treat symptoms; we address the root causes of health issues. We consider your pet's entire lifestyle – their diet, exercise, environment, and emotional state – to create a personalized wellness plan. Our team of experienced veterinarians, veterinary technicians, and animal behaviorists work collaboratively to ensure your pet receives the best possible care. This integrated approach sets us apart and allows us to deliver truly transformative results. We understand that your pet is more than just a pet; they're a cherished member of your family, and we treat them accordingly.

Preventative Care: The Foundation of a Healthy Pet

Preventative care is the cornerstone of a long and healthy life for your pet. At Pet Agree's, our preventative services are designed to identify potential problems early, before they become serious. This includes:

Comprehensive Physical Exams: Regular check-ups allow us to monitor your pet's growth, detect subtle changes, and address any concerns proactively. We'll assess everything from their weight and coat condition to their heart and lung function.

Vaccinations: We administer core and non-core vaccines tailored to your pet's age, breed, lifestyle, and risk factors. We believe in responsible vaccination practices, ensuring your pet receives the protection they need without unnecessary exposure.

Parasite Prevention: We offer a range of effective and safe parasite

prevention options, including flea, tick, heartworm, and intestinal worm treatments. We'll work with you to select the best option for your pet's individual needs and your local environment.

Dental Care: Dental disease is incredibly common in pets and can lead to serious health problems. We provide professional dental cleanings and offer guidance on maintaining your pet's oral hygiene at home.

Specialized Services: Addressing Unique Needs

Beyond preventative care, Pet Agree's offers a wide range of specialized services to address specific health concerns. These include:

Nutritional Counseling: Our veterinary nutritionists can help you choose the optimal diet for your pet, considering their age, breed, activity level, and any existing health conditions. We can guide you on everything from choosing commercial pet food to preparing homemade meals.

Senior Pet Care: As pets age, their needs change. We offer specialized care for senior pets, focusing on managing age-related conditions and maintaining their comfort and quality of life.

Behavioral Consultations: Our certified animal behaviorists can help address behavioral issues such as aggression, anxiety, separation anxiety, and destructive behaviors. We use positive reinforcement techniques to help your pet learn and thrive.

Alternative Therapies: We offer various alternative therapies, such as acupuncture, chiropractic care, and massage therapy, to complement traditional veterinary medicine and improve your pet's overall well-being. These therapies can be particularly beneficial for managing chronic pain and improving mobility.

Beyond the Basics: A Focus on Wellbeing

Pet Agree's goes beyond simply treating illness; we focus on fostering your pet's overall wellbeing. This includes:

Building a Strong Pet-Owner Bond: We encourage open communication and collaboration with our clients, fostering a strong pet-owner bond built on trust and mutual understanding.

Stress Reduction Techniques: We understand that stress can significantly impact a pet's health. We provide guidance on stress-reducing techniques, including creating a calming environment and engaging in enriching activities.

Personalized Wellness Plans: We don't believe in a one-size-fits-all approach. We create personalized wellness plans tailored to each pet's unique

needs and goals.

Choosing Pet Agree's: Your Partner in Pet Wellness

Choosing Pet Agree's means choosing a partnership dedicated to your pet's long-term health and happiness. pet agrees wellness services: Never Turn Your Back on an Angus Cow Dr. Jan Pol, David Fisher, 2014-08-14 The star of The Incredible Dr. Pol shares his amusing, and often poignant, tales from his four decades as a vet in rural Michigan. Dr. Jan Pol is not your typical veterinarian. Born and raised in the Netherlands on a dairy farm, he is the star of Nat Geo Wild's hit show The Incredible Dr. Pol and has been treating animals in rural Michigan since the 1970s. Dr. Pol's more than 20,000 patients have ranged from white mice to 2600-pound horses and everything in between. From the time he was twelve years old and helped deliver a litter of piglets on his family's farm to the incredible moments captured on his hit TV show, Dr. Pol has amassed a wealth of stories of what it's like caring for this menagerie of animals. He shares his own story of growing up surrounded by animals, training to be a vet in the Netherlands, and moving to Michigan to open his first practice in a pre-fab house. He has established himself as an empathetic yet no-nonsense vet who isn't afraid to make the difficult decisions in order to do what's best for his patients—and their hard-working owners. A sick pet can bring heartache, but a sick cow or horse could threaten the very livelihood of a farmer whose modest profits are dependent on healthy livestock. Reminiscent of the classic books of James Herriot, Never Turn Your Back on an Angus Cow is a charming, fascinating, and funny memoir that will delight animal lovers everywhere.

pet agrees wellness services: The Ultimate Pet Food Guide Liz Palika, 2009-04-29 The 2007 pet food recalls followed a multitude of pets getting sick and dying from contaminated food; now pet owners must take charge of what they feed their dogs and cats. With The Ultimate Pet Food Guide, veteran dog trainer, behaviorist, and author Liz Palika focuses on nutritional needs and covers every type of feeding, including controversial raw diets, homemade cooked food, and commercial foods. Palika also addresses introducing new foods; what "human foods" pets shouldn't eat; free-feeding; responsibility for food safety; where ingredients come from; and red flags in ingredients. Included are over fifty veterinarian- and pet-nutritionist-approved recipes and diets tailored to special-needs pets, such as puppies/kittens and pregnant, older, overweight and/or more sedentary animals.

pet agrees wellness services: Lions and Tigers and Hamsters Mark Goldstein, 2019-05-07

From the time Dr. Mark Goldstein was a little boy—even before he had his first dog—he was fascinated by creatures both domestic and wild. After graduating veterinary school at Cornell University, he became a veterinarian in clinical practice, then director of zoos in Boston and Los Angeles, then head of a progressive humane society where he advocated for animal welfare. During his extraordinary 30-year career, Dr. Mark has accrued a lifetime of experiences working with all sorts of animals and the people who care for them. Dr. Mark's life with animals taught him more than how to be a great doctor, it taught him how to live life. The stories in this book reflect those lessons; they will make you laugh and cry as they entertain and amaze you. Each real-life experience sheds light on the challenges and hard work of the talented individuals who work in the world of animal welfare. These are stories that illustrate the tremendous impact animals have on our daily lives—they are hallmarks of the sacred importance of the human-animal bond. On your journey through the exhilarating life of Dr. Mark, you'll meet some of the finned, furred, and feathered animals who offered him invaluable insights—Harold the hamster, Sasha the Siberian tiger, St. Francis the German Shepherd, Ralph the buffalo, Gus the stallion, Frank the goldfish, and many more fascinating creatures!

pet agrees wellness services: Big Kibble Shawn Buckley, Oscar Chavez, 2020-12-01 A big, inside look at the shocking lack of regulation within the pet food industry, and how readers can dramatically improve the quality of their dogs' lives through diet. What's really going into commercial dog food? The answer is horrifying. Big Kibble is big business: \$75 billion globally. A handful of multi-national corporations dominate the industry and together own as many as 80% of all brands. This comes as a surprise to most people, but what's even more shocking is how lax the regulations and guidelines are around these products. The guidelines—or lack thereof—for pet food allow producers to include ever-cheaper ingredients, and create ever-larger earnings. For example, “legal” ingredients in kibble include poultry feces, saw dust, expired food, and diseased meat, among other horrors. Many vets still don't know that kibble is not the best food for dogs because Big Kibble funds the nutrition research. So far, these corporations have been able to cut corners and still market and promote feed-grade food as if it were healthful and beneficial—until now. Just as you are what you eat, so is your dog. Once you stop feeding your dog the junk that's in kibble or cans, you have taken the first steps to improving your dog's health, behavior and happiness. You know the unsavory side of Big Tobacco and Big Pharma. Now Shawn Buckley, Dr. Oscar Chavez, and Wendy Paris explain all you need to know about unsavory Big Kibble—and offer a brighter path forward for you and your pet.

solution is found when a little girl dreams of getting a pet. Gwendolyn longs for a pet. What kind? Any kind! How many legs? Two, four, ten--she's not picky! But her parents have other ideas, and instead they give her . . . a box of dirt. It smells of swamp, Gwendolyn says--but her parents say it smells of possibilities. And once Gwendolyn gets savvy about seeds and soil, sun and shade, she finds they are right. The dirt starts performing some amazing tricks, and soon she has a whole pet garden of her very own--it might not have any legs at all, but it was alive, and Gwendolyn could talk to it, care for it, and watch it grow. Dynamic illustrations full of funny details show the love Gwendolyn puts into caring for her pet, and her enthusiasm and pride are sure to inspire gardeners and aspiring gardeners alike.

pet agrees wellness services: Management of Animal Care and Use Programs in Research, Education, and Testing Robert H. Weichbrod, Gail A. (Heidbrink) Thompson, John N. Norton, 2017-09-07 AAP Prose Award Finalist 2018/19 Management of Animal Care and Use Programs in Research, Education, and Testing, Second Edition is the extensively expanded revision of the popular Management of Laboratory Animal Care and Use Programs book published earlier this century. Following in the footsteps of the first edition, this revision serves as a first line management resource, providing for strong advocacy for advancing quality animal welfare and science worldwide, and continues as a valuable seminal reference for those engaged in all types of programs involving animal care and use. The new edition has more than doubled the number of chapters in the original volume to present a more comprehensive overview of the current breadth and depth of the field with applicability to an international audience. Readers are provided with the latest information and resource and reference material from authors who are noted experts in their field. The book: - Emphasizes the importance of developing a collaborative culture of care within an animal care and use program and provides information about how behavioral management through animal training can play an integral role in a veterinary health program - Provides a new section on Environment and Housing, containing chapters that focus on management considerations of housing and enrichment delineated by species - Expands coverage of regulatory oversight and compliance, assessment, and assurance issues and processes, including a greater discussion of globalization and harmonizing cultural and regulatory issues - Includes more in-depth treatment throughout the book of critical topics in program management, physical plant, animal health, and husbandry. Biomedical research using animals requires administrators and managers who are knowledgeable and highly skilled. They must adapt to the complexity of rapidly-changing technologies, balance research goals with a thorough understanding of regulatory requirements and guidelines, and know how to work with a multi-generational, multi-cultural workforce. This book is the ideal resource for these professionals. It also serves as an indispensable resource text for certification exams and credentialing boards for a multitude of professional societies Co-publishers on the second edition are: ACLAM (American College of Laboratory Animal Medicine); ECLAM (European College of Laboratory Animal Medicine); IACLAM (International Colleges of Laboratory Animal Medicine); JCLAM (Japanese College of Laboratory Animal Medicine); KCLAM (Korean College of Laboratory Animal Medicine); CALAS (Canadian Association of Laboratory Animal Medicine); LAMA (Laboratory Animal Management Association); and IAT (Institute of Animal Technology).

Butterbean knew she wasn't always a good dog. Still, she'd never considered herself a BAD dog—until the morning that her owner, Mrs. Food, fell in the hallway. Admittedly the tile was slipperier than usual, mostly because Butterbean had just thrown up on it. Now Butterbean and her fellow pets have to come up with a grand plan to support themselves in case Mrs. Food is unable to keep taking care of them. When they discover a mysterious man in their building who seems to have lots of loot, they plan a heist. Oscar the mynah bird is the brains of the operation. Walt the cat has the necessary slyness and slink. Marco and Polo are the reconnaissance rats. And Butterbean...well, no one would ever suspect a cute little wiener dog, right? Can these animal friends can pull off the heist of the century?

Her chapters, packed with close observations about canine cognition and behavior, are mini-mood lifters. —NPR, Maureen Corrigan on *Fresh Air* What is it like to be a puppy? Author of the classic *Inside of a Dog*, Alexandra Horowitz tries to find out, spending a year scrutinizing her puppy's daily existence and poring over the science of early dog development Few of us meet our dogs at Day One. The dog who will, eventually, become an integral part of our family, our constant companion and best friend, is born without us into a family of her own. A puppy's critical early development into the dog we come to know is usually missed entirely. Dog researcher Alexandra Horowitz aimed to change that with her family's new pup, Quiddity (Quid). In this scientific memoir, she charts Quid's growth from wee grub to boisterous sprite, from her birth to her first birthday. Horowitz follows Quid's first weeks with her mother and ten roly-poly littermates, and then each week after the puppy joins her household of three humans, two large dogs, and a wary cat. She documents the social and cognitive milestones that so many of us miss in our puppies' lives, when caught up in the housetraining and behavioral training that easily overwhelms the first months of a dog's life with a new family. In focusing on training a dog to behave, we mostly miss the radical development of a puppy into themselves—through the equivalent of infancy, childhood, young adolescence, and teenager-hood. By slowing down to observe Quid from week to week, *The Year of the Puppy* makes new sense of a dog's behavior in a way that is missed when the focus is only on training. Horowitz keeps a lens on the puppy's point of view—how they (begin to) see and smell the world, make meaning of it, and become an individual personality. She's there when the puppies first open their eyes, first start to recognize one another and learn about cats, sheep, and people; she sees them from their first play bows to puberty. Horowitz also draws from the ample research in the fields of dog and human development to draw analogies between a dog's first year and the growing child—and to note where they diverge. *The Year of the Puppy* is indispensable for anyone navigating their way through the frustrating, amusing, and ultimately delightful first year of a puppy's life.

pet agrees wellness services: Run, Spot, Run Jessica Pierce, 2016-05-06 "A thoughtful book" about how to ensure that the animals we love benefit from the relationship as much as we do (Kirkus Reviews). We feel love for our companions, and happiness that we're providing them with a safe, healthy life. But sometimes we also feel guilt. When we see our cats gazing wistfully out the window, or watch a goldfish swim lazy circles in a bowl, we can't help but wonder: Are we doing the right thing, keeping these independent beings locked up, subject to our control? Is keeping pets actually good for the pets themselves? That's the question that animates Jessica Pierce's powerful *Run, Spot, Run*. A bioethicist and a lover of pets herself (including, over the years, dogs, cats, fish, rats, hermit crabs, and more), Pierce explores the ambiguous ethics at the heart of this relationship, and through a mix of personal stories, philosophical reflections, and scientifically informed analyses of animal behavior and natural history, she puts pet-keeping to the test. Is it ethical to keep pets at all? Are some species more suited to the relationship than others? Are there species one should never attempt to own? And are there ways that we can improve our pets' lives, so that we can be confident that we are giving them as much as they give us? "With gentle humor, clear compelling language, and always in search of the physically and emotionally healthiest lives possible for our animal companions, *Run, Spot, Run* moved me all the more because it's written from the inside looking out. Pierce herself lives with three pets and understands the deep urge so many of us feel to connect across species lines."—Barbara King, author of *How Animals Grieve*

Some signs that might not trigger your concern can be important indicators that your dog needs to see a veterinarian right away. Other symptoms, while hard to miss, such as diarrhea, vomiting, or limping, are easy to spot but can have a laundry list of potential causes, some of them serious or even life-threatening. *Symptoms to Watch for in Your Dog* is a dog health advocacy guide 101. It covers a variety of common symptoms, including when each of them might be an emergency. *Symptoms to Watch for in Your Dog* has won the following awards: 2017 Maxwell Award from the Dog Writers Association of America for a book on health, behavior, or general care. 2017 Morris Animal Foundation Canine Health Award for the best science-based book about canine health issues.

pet agrees wellness services: Scared Poopless Jan Rasmusen, 2006 Jan RasmusenOs investigation into her dogOs illness led her to the startling conclusion that almost everything she

knew about dog care was myth, outdated information or advertising propaganda. After two years of research and interviews with eighteen innovative veterinarians, Jan and her opinionated four-pound dog Chiclet Oco-authored O Scared Poopless, a book destined to change the way we all care for our dogs.
