Peters Township Health & Wellness Pavilion Photos: A Visual Tour of This Amazing Facility

Are you curious about the Peters Township Health & Wellness Pavilion? Perhaps you're considering a membership, planning a visit, or simply want to see what this state-of-the-art facility looks like. This blog post delivers! We'll take you on a virtual tour with stunning Peters Township Health & Wellness Pavilion photos, showcasing everything from the impressive fitness equipment and sparkling pools to the serene relaxation areas. Get ready to be inspired!

A Glimpse into the State-of-the-Art Fitness Center: Peters Township Health & Wellness Pavilion Photos

The Peters Township Health & Wellness Pavilion isn't just a gym; it's a comprehensive wellness center. Our photo gallery begins with the heart of the facility: the fitness center. Imagine rows of gleaming cardio equipment with individual screens displaying personalized workout data. We've captured images showcasing the variety of equipment available, from treadmills and ellipticals to stationary bikes and rowing machines. You'll also see photos highlighting the free weight area, meticulously organized with dumbbells, barbells, and weight plates. The lighting is bright and airy, creating a positive and energizing atmosphere. These Peters Township Health & Wellness Pavilion photos aim to give you a true sense of the space and its possibilities.

Immerse Yourself in Aquatic Wellness: Pool Photos from the Pavilion

Next, let's dive into the aquatic center! The Peters Township Health & Wellness Pavilion photos dedicated to the pools are breathtaking. We've captured images of the inviting lap pool, perfect for serious swimmers, and the more recreational leisure pool. You'll see crystal-clear water, spacious pool decks, and comfortable seating areas surrounding the pools. Pictures also showcase the family-friendly features, providing a glimpse into the fun and relaxation this area offers. These photos are designed to give you a feel for the atmosphere and the cleanliness maintained within the aquatic center.

Beyond the Fitness Floor: Exploring Other Pavilion

Amenities

The Peters Township Health & Wellness Pavilion is much more than just a gym and pool. Our photo collection also includes shots of the other incredible amenities. You'll find images of the spacious and well-equipped group fitness studios, perfect for a wide array of classes, from Zumba and yoga to spin and strength training. We've also captured the calming atmosphere of the relaxation areas, showcasing comfortable seating and quiet spaces for unwinding post-workout. Don't miss the photos of the locker rooms – modern, clean, and well-maintained. These Peters Township Health & Wellness Pavilion photos illustrate the holistic approach to wellness embraced by this facility.

Community and Connection: Capturing the Pavilion's Social Vibe

Beyond the individual workout spaces, we've taken care to capture the community aspect of the Pavilion. You'll see photos that reflect the friendly and welcoming atmosphere, highlighting social interactions within the facility. These Peters Township Health & Wellness Pavilion photos emphasize the sense of community fostered by the Pavilion, showcasing people enjoying their workouts and interacting with each other. This is more than just a place to work out; it's a place to connect and build a healthier lifestyle alongside like-minded individuals.

The Exterior and Surroundings: A Complete Picture

Finally, we wouldn't leave out the external aspects of the Pavilion. Our photo gallery also contains images of the building's exterior, showcasing its modern architecture and landscaping. We've included shots of the parking lot, entrance, and surrounding areas, to give you a complete picture of what to expect upon your arrival. These Peters Township Health & Wellness Pavilion photos provide a holistic view, allowing you to visualize your journey from parking to the facility's various amenities.

Conclusion: Your Peters Township Health & Wellness Journey Starts Here

We hope this visual tour, complete with high-quality Peters Township Health & Wellness Pavilion photos, has given you a comprehensive understanding of this impressive facility. Whether you're looking for a state-of-the-art fitness center, a relaxing pool environment, or a vibrant community of health-conscious individuals, the Peters Township Health & Wellness Pavilion seems to have it all. Take a moment to browse through the photos again, and imagine yourself enjoying the many benefits this exceptional facility offers. Now, go ahead and plan your visit!

Frequently Asked Questions (FAQs)

Q1: Are there childcare services available at the Peters Township Health & Wellness Pavilion?

A1: The availability of childcare services should be confirmed directly with the Peters Township Health & Wellness Pavilion. Their website or a phone call to the facility will provide the most up-to-date and accurate information.

Q2: What are the membership options at the Pavilion?

A2: Membership options vary. It's best to visit the Peters Township Health & Wellness Pavilion website or contact them directly for the latest information on available memberships and pricing.

Q3: What types of group fitness classes are offered?

A3: The Pavilion offers a wide range of group fitness classes. To view the current schedule and class types, check their official website or contact the facility for detailed information.

Q4: Are there any age restrictions for using the facilities?

A4: Age restrictions might apply to certain areas or activities. Contact the Peters Township Health & Wellness Pavilion to clarify any age restrictions before your visit.

Q5: How can I book a tour of the Peters Township Health & Wellness Pavilion?

A5: The best way to arrange a tour is by contacting the Peters Township Health & Wellness Pavilion directly via phone or email. Their contact information should be readily available on their official website.

peters township health wellness pavilion photos: Minimally Invasive Neurosurgery Mark R. Proctor, Peter McL. Black, 2005-04-14 Recognized clinical leaders in neurosurgery and neuroradiology review the cutting-edge techniques and technologies now available and describe how minimally invasive techniques have influenced their subspecialties. On the radiology side, the authors explain the latest developments in magnetic resonance spectroscopy, functional imaging, and brain mapping, with emphasis on the application of image navigation directly in the operating room, using both preoperative and intraoperative systems. On the surgical side, some of the world's leading surgeons in pediatric neurosurgery, cerebrovascular surgery, neurosurgical oncology, spinal and peripheral nerve surgery, and trauma surgery detail how they use the powerful new minimally invasive techniques in the own practices. Among the novel approaches discussed are radiofrequency, radiosurgery, thermal therapy, and minimally invasive techniques that allow molecular neurosurgery via gene and viral vectors and local delivery systems.

peters township health wellness pavilion photos: Catheter Ablation of Atrial Fibrillation

Etienne Aliot, 2011-08-31 Catheter Ablation of Atrial Fibrillation Edited by Etienne Aliot, MD, FESC, FACC, FHRS Chief of Cardiology, Hôpital Central, University of Nancy, France Michel Haïssaguerre, MD Chief of Electrophysiology, Hôpital Cardiologique du Haut-Lévêque, France Warren M. Jackman, MD Chief of Electrophysiology, University of Oklahoma Health Science Center, USA In this text, internationally recognized authors explore and explain the advances in basic and clinical electrophysiology that have had the greatest impact on catheter ablation of atrial fibrillation (AF). Designed to assist in patient care, stimulate research projects, and continue the remarkable advances in catheter ablation of AF, the book covers: the fundamental concepts of AF, origin of signals, computer simulation, and updated reviews of ablation tools the present practical approaches to the ablation of specific targets in the fibrillating atria, including pulmonary veins, atrial neural network, fragmented electrograms, and linear lesions, as well as the strategies in paroxysmal or chronic AF or facing left atrial tachycardias the special challenge of heart failure patients, the impact of ablation on mortality, atrial mechanical function, and lessons from surgical AF ablation Richly illustrated by numerous high-quality images, Catheter Ablation of Atrial Fibrillation will help every member of the patient care team.

peters township health wellness pavilion photos: Forces for Good Leslie R. Crutchfield, Heather McLeod Grant, 2012-05-01 An updated edition of a groundbreaking book on best practices for nonprofits What makes great nonprofits great? In the original book, authors Crutchfield and McLeod Grant employed a rigorous research methodology derived from for-profit books like Built to Last. They studied 12 nonprofits that have achieved extraordinary levels of impact—from Habitat for Humanity to the Heritage Foundation—and distilled six counterintuitive practices that these organizations use to change the world. Features a new introduction that explores the new context in which nonprofits operate and the consequences for these organizations Includes a new chapter on applying the Six Practices to small, local nonprofits, including some examples of these organizations Contains an update on the 12 organizations featured in the original book—how they have fared, what they've learned, and where they are now in their growth trajectory This book has lessons for all readers interested in creating significant social change, including nonprofit managers, donors, and volunteers.

peters township health wellness pavilion photos: Cartilage Restoration Jack Farr, Andreas H. Gomoll, 2013-08-15 Attempting to bridge the gap between the science and art of cartilage restoration, Cartilage Restoration: Practical Clinical Applications combines an overview of clinical research and methodologies with clinical cases to help guide the orthopedic treatment and care of patients presenting with cartilage issues. With chapters written by internationally-renowned orthopedic surgeons, topics include an overview of current surgical options, debridement and marrow stimulation, autograft plug transfer, allografts, cell therapy, and meniscal issues. Cartilage Restoration is a valuable resource for orthopedic surgeons, residents, and fellows.

peters township health wellness pavilion photos: Within Our Reach Rosalynn Carter, Susan K. Golant, Kathryn E. Cade, 2010-04-27 In Within Our Reach, Rosalynn Carter and coauthors Susan K. Golant and Kathryn E. Cade render an insightful, unsparing assessment of the state of mental health. Mrs. Carter has been deeply invested in this issue since her husband, former

President Jimmy Carter, campaigned for governor of Georgia, when she saw firsthand the horrific, dehumanizing treatment of people with mental illnesses. Using stories from her 35 years of advocacy to springboard into a discussion of the larger issues at hand, Carter crafts an intimate and powerful account of a subject previously shrouded in stigma and shadow, surveying the dimensions of an issue that has affected us all. She describes a system that continues to fail those in need, even though recent scientific breakthroughs with mental illness have potential to help most people lead more normal lives. *Within Our Reach* is a seminal, searing, and ultimately optimistic look at how far we've come since Jimmy Carter's days on the campaign trail and how far we have yet to go.

peters township health wellness pavilion photos: *Hurry Up!* Kate Dopirak, 2020-05-19 A busy boy and his dog learn to slow down and enjoy life together in this lyrical, rhyming picture book perfect for hurried families everywhere. For one busy boy, life is all hurry up, hurry down, hurry round and round and round! That is until he takes a big breath...and a big break...and slows down to see all the wonderful things in the world around him. From celebrated picture book creators Kate Dopirak and Christopher Silas Neal, this playful yet powerful picture book reminds us to be present, to be mindful, and to appreciate each moment.

peters township health wellness pavilion photos: *Tombstone Town* Jane Keon, 2015-11-26 A memoir of the first 16 years of the Pine River Superfund Citizen Task Force, a Community Advisory Group (CAG) in St. Louis, Michigan. Jane Keon chaired the group for 12 years as they volunteered as citizen overseers of sites contaminated with chemicals and radioactive waste. EPA is working with the town to end the deaths of robins from DDT poisoning, and to clean up a failed Superfund site that is leaking into the Pine River.

peters township health wellness pavilion photos: *Political Economies of Landscape Change* James L. Jr Wescoat, Douglas M. Johnston, 2007-12-05 This hugely important and timely work asks how politics and economics transform the landscapes we inhabit. It explores the connections between political economy and landscape change through a series of conceptual essays and case studies. In so doing, it speaks to a broad readership of landscape architects, geographers, and related fields of social and environmental research.

peters township health wellness pavilion photos: *Global Health Nursing* Michele J. Upvall, PhD, RN, CRNP, Jeanne Leffers, PhD, RN, 2014-04-14 Primarily, the book covers different global health partnerships and initiatives, focusing on what works/what doesn't work and providing guidance for future partnerships. This is ideal for readers who focus their work in this area.--Doody's Medical Reviews This innovative text for graduate and undergraduate nursing students fills a void in global health nursing literature by providing essential tools and strategies for building and sustaining productive international partnerships. Based on the premise that partnership is paramount for sustainable outcomes, the book demonstrates how nurses can build sustainable health programs that will improve health outcomes worldwide. Written by two highly experienced global nurses, the book offers expert guidance gained from many years of successful involvement in international collaboration that is supported by detailed real-life examples. It will be of particular interest to nurse educators who undertake projects with their students to ensure that both students and host partners are able to meet their collaborative goals. Additionally, the text provides information that will help nurse educators to perpetuate a successful educational program even after they depart or funding ends. Case studies from many different perspectives demonstrate positive change effected by nurses working across international boundaries and within their own countries. The text builds on the Conceptual Framework for Partnership and Sustainability in Global Health Nursing developed by Leffers and Mitchell (2010). Additionally, the book reflects the focus on global health competence for nurses in the future (IOM, 2011) as well as that of the American Academy's of Nursing's recently established committee on Global Health. Key Features: Provides expert, essential guidance for nurses who work internationally to build successful partnerships for sustainable programs Recommends global solutions to the challenges facing international nursing collaboration Includes detailed case studies of successful collaboration Based on the Conceptual Framework for Partnership and Sustainability in Global Health Nursing Chapters end with reflective questions

challenging the reader to apply lessons learned.†

peters township health wellness pavilion photos: Living with Polio Daniel J. Wilson, 2005-04-11 Polio was the most dreaded childhood disease of twentieth-century America. Every summer during the 1940s and 1950s, parents were terrorized by the thought that polio might cripple their children. They warned their children not to drink from public fountains, to avoid swimming pools, and to stay away from movie theaters and other crowded places. Whenever and wherever polio struck, hospitals filled with victims of the virus. Many experienced only temporary paralysis, but others faced a lifetime of disability. Living with Polio is the first book to focus primarily on the personal stories of the men and women who had acute polio and lived with its crippling consequences. Writing from personal experience, polio survivor Daniel J. Wilson shapes this impassioned book with the testimonials of more than one hundred polio victims, focusing on the years between 1930 and 1960. He traces the entire life experience of the survivors—from the alarming diagnosis all the way to the recent development of post-polio syndrome, a condition in which the symptoms of the disease may return two or three decades after they originally surfaced. Living with Polio follows every physical and emotional stage of the disease: the loneliness of long separations from family and friends suffered by hospitalized victims; the rehabilitation facilities where survivors spent a full year or more painfully trying to regain the use of their paralyzed muscles; and then the return home, where they were faced with readjusting to school or work with the aid of braces, crutches, or wheelchairs while their families faced the difficult responsibilities of caring for and supporting a child or spouse with a disability. Poignant and gripping, Living with Polio is a compelling history of the enduring physical and psychological experience of polio straight from the rarely heard voices of its survivors.

peters township health wellness pavilion photos: A Call to Action Jimmy Carter, 2014-03-25 In the highly acclaimed bestselling A Call to Action, President Jimmy Carter addresses the world's most serious, pervasive, and ignored violation of basic human rights: the ongoing discrimination and violence against women and girls. President Carter was encouraged to write this book by a wide coalition of leaders of all faiths. His urgent report covers a system of discrimination that extends to every nation. Women are deprived of equal opportunity in wealthier nations and "owned" by men in others, forced to suffer servitude, child marriage, and genital cutting. The most vulnerable and their children are trapped in war and violence. A Call to Action addresses the suffering inflicted upon women by a false interpretation of carefully selected religious texts and a growing tolerance of violence and warfare. Key verses are often omitted or quoted out of context by male religious leaders to exalt the status of men and exclude women. And in nations that accept or even glorify violence, this perceived inequality becomes the basis for abuse. Carter draws upon his own experiences and the testimony of courageous women from all regions and all major religions to demonstrate that women around the world, more than half of all human beings, are being denied equal rights. This is an informed and passionate charge about a devastating effect on economic prosperity and unconscionable human suffering. It affects us all.

peters township health wellness pavilion photos: Get Up and Ride Jim Shea, 2020-12-11 In the summer of 2010, brothers-in-law Marty and Jim embark on a cycling trip along the Great Allegheny Passage and C&O Canal, a 335-mile trek from their home in Pittsburgh, Pennsylvania to Jim's boyhood home in Washington, DC. Chance encounters with colorful local characters and other surprising escapades during five days on the trail make for nonstop laughs. As they travel through forests and along winding rivers, they experience the breathtaking scenery of western Pennsylvania, Maryland and West Virginia, exploring early American history while learning more about each other as well as themselves. This true story is for adventurers and cyclists as well as couch potatoes looking for a lighthearted take on friendship and some hilarious fun.

peters township health wellness pavilion photos: The Kaiju Preservation Society John Scalzi, 2022-03-15 The Kaiju Preservation Society is John Scalzi's first standalone adventure since

the conclusion of his New York Times bestselling Interdependency trilogy. When COVID-19 sweeps through New York City, Jamie Gray is stuck as a dead-end driver for food delivery apps. That is, until Jamie makes a delivery to an old acquaintance, Tom, who works at what he calls “an animal rights organization.” Tom’s team needs a last-minute grunt to handle things on their next field visit. Jamie, eager to do anything, immediately signs on. What Tom doesn't tell Jamie is that the animals his team cares for are not here on Earth. Not our Earth, at least. In an alternate dimension, massive dinosaur-like creatures named Kaiju roam a warm, human-free world. They're the universe's largest and most dangerous panda and they're in trouble. It's not just the Kaiju Preservation Society who have found their way to the alternate world. Others have, too. And their carelessness could cause millions back on our Earth to die. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

peters township health wellness pavilion photos: Start Without Me Gary Janetti, 2022-04-26 The New York Times Bestseller! Named one of Vulture's “10 Best Comedy Books of 2022” From New York Times bestselling author, and Family Guy writer Gary Janetti comes Start Without Me, a collection of hilarious, laugh out loud, true life stories about the small moments that add up to a big life. Gary Janetti is bothered. By a lot of things. And thank God he’s here to tell us. In Start Without Me, Gary returns with his acid tongue firmly in cheek to the moments and times that defined him. He takes us by the hand as we follow him through the summers he spends in his twenties, pursuing both the perfect tan and the perfect man to no avail and much regret. At his Catholic high school, he strikes up an unlikely friendship with a nun who shares Gary's love of soap operas, which becomes a salvation to them both. And don't get him started on how a bad hotel room can ruin even the best vacation. This laugh-out-loud collection of true-life stories from the man “behind his generation’s greatest comedy” (The New York Times) is for anyone who has felt the joy in holding a decade-long grudge. Whether you are a new convert to Janetti or one of the million who follow him on social media for a daily laugh, Start Without Me will have you howling at Gary's frustrations and nodding along in agreement at the outrages of life's small slights. It's the literary equivalent of a night out with your funniest friend that you wish would never end.

peters township health wellness pavilion photos: Therapeutic Modalities Chad Starkey, 2013-01-23 The 4th Edition of the field’s premier text on therapeutic modalities reflects evidence-based practice research and technologies that are impacting professional practice today. Step by step, you’ll build a solid foundation in the theory and science that underlie today’s best practices and then learn how to treat a wide range of orthopedic injuries.

peters township health wellness pavilion photos: Autism's Hidden Blessings Kelly Langston, 2011-06-07 Encouragement and inspiration for special needs families God has a unique and magnificent purpose for every child—a purpose that is no less important for special-needs children. Through the story of her own ongoing struggles and victories raising her autistic son, Kelly Langston brings to light God's promises for exceptional kids and highlights covenants that assure special-needs parents of their children's potential and beauty.

peters township health wellness pavilion photos: Keep This Toss That Jamie Novak, 2015-03-03 Are you afraid to open your kitchen cabinet because you know food storage containers are going to come pouring out like an erupting volcano? Do you spend hours searching for the email you need? Will you regret it tomorrow if you give away all your old concert T-shirts? And how many tote bags will you really use? Keep This, Toss That answers all of these questions and much more. Featuring dozens of illustrated Keep/Toss Checklists, the book shows you exactly what you need—and what you can safely toss, regret-free (even if you’re a sentimentalist or saver)—in every room of your house, for each hobby or activity, and even online. It also includes: • quick tips on clever storage solutions • tools and utensils that can do double duty • advice on how to customize the lists to suit your house, your family, and your lifestyle Answering the one key question you need to get organized and live happily with just the stuff you love, Keep This, Toss That is the one

organizing book you must have.

peters township health wellness pavilion photos: *The Architecture of Ruins* Jonathan Hill, 2019-03-25 *The Architecture of Ruins: Designs on the Past, Present and Future* identifies an alternative and significant history of architecture from the sixteenth century to the twenty-first century, in which a building is designed, occupied and imagined as a ruin. This design practice conceives a monument and a ruin as creative, interdependent and simultaneous themes within a single building dialectic, addressing temporal and environmental questions in poetic, psychological and practical terms, and stimulating questions of personal and national identity, nature and culture, weather and climate, permanence and impermanence and life and death. Conceiving a building as a dialogue between a monument and a ruin intensifies the already blurred relations between the unfinished and the ruined and envisages the past, the present and the future in a single architecture. Structured around a collection of biographies, this book conceives a monument and a ruin as metaphors for a life and means to negotiate between a self and a society. Emphasising the interconnections between designers and the particular ways in which later architects learned from earlier ones, the chapters investigate an evolving, interdisciplinary design practice to show the relevance of historical understanding to design. Like a history, a design is a reinterpretation of the past that is meaningful to the present. Equally, a design is equivalent to a fiction, convincing users to suspend disbelief. We expect a history or a novel to be written in words, but they can also be delineated in drawing, cast in concrete or seeded in soil. The architect is a 'physical novelist' as well as a 'physical historian'. Like building sites, ruins are full of potential. In revealing not only what is lost, but also what is incomplete, a ruin suggests the future as well as the past. As a stimulus to the imagination, a ruin's incomplete and broken forms expand architecture's allegorical and metaphorical capacity, indicating that a building can remain unfinished, literally and in the imagination, focusing attention on the creativity of users as well as architects. Emphasising the symbiotic relations between nature and culture, a building designed, occupied and imagined as a ruin acknowledges the coproduction of multiple authors, whether human, non-human or atmospheric, and is an appropriate model for architecture in an era of increasing climate change.

peters township health wellness pavilion photos: *Cancer Registries Amendment Act* United States, 1992

peters township health wellness pavilion photos: *Farming Cuba* Carey Clouse, 2014-05-27 Following the collapse of the Soviet Union in the early 1990s, Cuba found itself solely responsible for feeding a nation that had grown dependent on imports and trade subsidies. With fuel, fertilizers, and pesticides disappearing overnight, citizens began growing their own organic produce anywhere they could find space— on rooftops, balconies, vacant lots, and even school playgrounds. By 1998 there were more than 8,000 urban farms in Havana producing nearly half of the country's vegetables. What began as a grassroots initiative had, in less than a decade, grown into the largest sustainable agriculture initiative ever undertaken, making Cuba the world leader in urban farming. Featuring a wealth of rarely seen material and intimate portraits of the environment, *Farming Cuba* details the innovative design strategies and explores the social, political, and environmental factors that helped shape this pioneering urban farming program.

peters township health wellness pavilion photos: *Partners 4 Life* Jim Uhrig, 2014-03-26 Early in 2008, doing ordinary, mundane things like tying his shoes and walking up steps literally took author Jim Uhrig's breath away. He had trouble breathing, and it seemed as though he could never catch his breath. That was the beginning of a long journey for Uhrig, who shares his story in *Partners 4 Life*. In this memoir, he narrates the path his life took after being diagnosed with the incurable idiopathic pulmonary fibrosis and undergoing a subsequent lung transplant in April of 2009. Uhrig not only discusses his diagnosis and treatment, but also places special emphasis on the partners from his personal life, his business, and his sports activities who provided him with inspiration and help and played an integral role in his survival. He includes his partners in medicine, the donor and her family, caregivers, and special angels. Uhrig's story relates how he tackled his lung disease and transplant with the same fervor he lived life. *Partners 4 Life* communicates the

saving grace of an organ transplant as well as the power of positive thinking.

peters township health wellness pavilion photos: Raritan M. Frieda Helmstetter, Jo-Ann Liptak, 2003 Raritan documents the growth of a Raritan River town from the 1800s through the 1970s. With intriguing photographs and text, it explores the emergence of a quiet farming area as, first, a bustling industrial town with mills and factories and, later, the modern suburb it is today. Working together, resourceful residents enriched life by harnessing the waterpower of the river, organizing the first fire department in the area, and opening schools, churches, and organizations. Worldwide recognition came when President Warren G. Harding, while visiting at the Raritan home of his friend Senator Joseph Frelinghuysen, signed the Knox-Porter Resolution, officially ending World War I.

peters township health wellness pavilion photos: Constitutional Democracy and Judicial Supremacy Jerome C. Foss, 2016-05-31 The best books on politics offer us fresh insight into the way things are, and powerful arguments about how things ought to be. Jerome Foss's superb book accomplishes both of these ends, rescuing John Rawls's work from the dusty corners of overly abstract theorizing by emphasizing Rawls's dedication to a very practical reinvention of the American political experiment. This approach has the virtue not only of according with Rawls's mature interpretation of his work, but also of setting up a lively contrast between the constitutional republicanism of the framers and Rawls's constitutional democracy. This book is a trustworthy guide to the American constitutional tradition as well as Rawls's innovative alternative, offering a respectful treatment of the latter while providing an engaging and persuasive defense of the former. -Micah J. Watson, William Spoelhof Teacher-Scholar Chair in Political Science, Calvin College Foss's careful study of the transformative intention of Rawls's political theory brings extraordinary insights to our academic debates, and to the real causes of our polarized, dysfunctional politics. The analysis of Rawls's pragmatism reveals its breathtaking goal to elevate progressive-liberal judges as epitomes of public reason, seeking to construct a rationalist, egalitarian-minded democracy to replace the framers' complex republicanism. Rawls has partially succeeded; we increasingly are ruled by living judicialism rather than the rule of law, under novel power wielded by federal courts, law professors, and lawyers. Foss gives Rawls a fair hearing, but insists we confront the arbitrary and utopian bases of this radical project, and the costs of elevating equality and constructed theory at the expense of liberty, self-government, and natural rights. Those who care about the fate of constitutional self-government, and whether utopian theories produce sustainable polities or political-social disorder, must confront this book. -Paul Carrese, Professor of Political Science, U.S. Air Force Academy

peters township health wellness pavilion photos: Brownsville to Braddock Ron Donoughe, 2021-03-09 The Monongahela River Valley in Southwestern Pennsylvania is steeped with a rich industrial history. Starting with iron, brass, tin, and glass production, the river towns--from Brownsville to Braddock--ultimately helped make Pittsburgh the one-time steelmaking capital of the world. With this industrial legacy in mind, artist Ron Donoughe set out to document the small towns in this region, one painting at a time. Over a twelve-month period, he explored the forgotten towns of Brownsville, California, Donora, Charleroi, Monessen, Monongahela, Clairton, Duquesne, McKeesport, Braddock, and the Monongahela River itself. Brownsville to Braddock provides key insight on a forty-mile stretch of river towns. The post-industrial economy led to a decline in manufacturing, and with it, substantial job losses. These towns face many significant challenges, yet there is still beauty to be found. Donoughe finds it as he paints the human spirit through the mills, factories, parks, and homes. The people he meets share their stories of family joy and sorrows, along with a genuine love for the area they call the Mon Valley.
