royalty massage wellness co: Spin the Bottle Service Kirsten Moxness, Paul Moxness, 2021-06-23 Airports, hotels, bars, and restaurants all present opportunities for hospitality to touch the life of a stranger. In our increasingly data-driven world, we've created systems to quantify, digitize, and calculate how to get the most out of these moments of interaction, but is data really the only way to know if we're truly being of service? Smart hoteliers and restaurateurs understand the power of personal interactions, and as the drive to digital speeds up, the ability to craft a meaningful human interaction will be a big differentiator in the market battle for guest satisfaction and retention. Using examples from over thirty years of international travel and experience in the hospitality industry, Kirsten and Paul Moxness explore key elements of creating personal experiences for guests, including: - Making genuine gratitude a natural and contagious habit - Respecting upgrades and freebies, and handling necessary downgrades - Encouraging supportive teams and empowering each employee to provide exceptional experiences - Taking a compassionate and proactive approach to safety and crisis management and resolving problems Digital cannot replace human interaction, and hospitality is all about making memorable moments of personal experience. Spin the Bottle Service is here to show you that making the most of the touchpoints beyond digital can be as easy as a twist of the wrist.

It is informed by a humanistic approach, showing how health and place are socially and culturally constructed and how health is embodied, experienced and enacted in place. In addition, the work argues that an understanding of health and place must also consider the historical, societal and cultural orthodoxies that shape and produce those places.
