sac business journal capradio: [The Deeper the Roots](#) Michael Tubbs, 2021-11-16 “Insightful, emotional, and enraging. By sharing his story in gripping detail, Michael Tubbs embodies an old feminist tradition whereby the personal is political. He empowers us to fight for equal opportunities for our communities, and encourages us to amass the courage to overcome loss and injustice.” —Ibram X. Kendi, National Book Award-winning author of *Stamped from the Beginning* and *How to Be an Antiracist* The making of a visionary political leader—and a blueprint for a more equitable country “Don’t tell nobody our business,” Michael Tubbs’s mother often told him growing up. For Michael, that meant a lot of things: don’t tell anyone about the day-to-day struggle of being Black and broke in Stockton, CA. Don’t tell anyone the pain of having a father incarcerated for 25 years to life. Don’t tell anyone about living two lives, the brainy bookworm and the kid with the newest Jordans. And also don’t tell anyone about the particular joys of growing up with three “moms”—a Nana who never let him miss church, an Auntie who’d take him to the library any time, and a mother, “She-Daddy”, who schooled him in the wisdom of hip-hop and taught him never to take no for an answer. So for a long time Michael didn’t tell anyone his story, but as he went on to a scholarship at Stanford and an internship in the Obama White House, he began to realize the power of his experience, the need for his perspective in the halls of power. By the time he returned to Stockton to become, in 2016 at age 26, its first Black mayor and the youngest-ever mayor of a major American city, he knew his story meant something. *The Deeper the Roots* is a memoir astonishing in its candor, voice, and clarity of vision. Tubbs shares with us the city that raised him, his family of badass women, his life-changing encounters with Oprah Winfrey and Barack Obama, the challenges

of governing in the 21st century and everything in between—en route to unveiling his compelling vision for America rooted in his experiences in his hometown.

Clinton A rallying cry for revolutionizing democracy in the digital age, Citizenville reveals how ordinary Americans can reshape their government for the better. Gavin Newsom, the lieutenant governor of California, argues that today’s government is stuck in the last century while—in both the private sector and our personal lives—absolutely everything else has changed. Drawing on wide-ranging interviews with thinkers and politicians, Newsom shows how Americans can transform their government, taking matters into their own hands to dissolve political gridlock even as they produce tangible changes in the real world. Citizenville is a timely road map for restoring American prosperity and for reinventing citizenship in today’s networked age.

sac business journal capradio: The Great Dissenter Peter S. Canellos, 2022-06-28 The story of an American hero who stood against all the forces of Gilded Age America to help enshrine our civil rights and economic freedoms. Dissent. No one wielded this power more aggressively than John Marshall Harlan, a young union veteran from Kentucky who served on the US Supreme Court from the end of the Civil War through the Gilded Age. In the long test of time, this lone dissenter was proven right in case after case. They say history is written by the victors, but that is not Harlan's legacy: his views--not those of his fellow justices--ultimately ended segregation and helped give us our civil rights and our economic freedoms. Derided by many as a loner and loser, he ended up being acclaimed as the nation's most courageous jurist, a man who saw the truth and justice that eluded his contemporaries. Our Constitution is color blind and neither knows nor tolerates classes among citizens, he wrote in his famous dissent in *Plessy v. Ferguson*, one of many cases in which he lambasted his colleagues for denying the rights of African Americans. When the court struck down antitrust laws, Harlan called out the majority for favoring its own economic class. He did the same when the justices robbed states of their power to regulate the hours of workers and shielded the rich from the income tax. When other justices said the court was powerless to prevent racial violence, he took matters into his own hands: he made sure the Chattanooga officials who enabled a shocking lynching on a bridge over the Tennessee River were brought to justice. In this monumental biography, prize-winning journalist and bestselling author Peter S. Canellos chronicles the often tortuous and inspiring process through which Supreme Courts can make and remake the law across generations. But he also shows how the courage and outlook of one man can make all the difference. Why did Harlan see things differently? Because his life was different, He grew up alongside Robert Harlan, whom many believed to be his half brother. Born enslaved, Robert Harlan bought his freedom and became a horseracing pioneer and a force in the Republican Party. It was Robert who helped put John on the Supreme Court. At a time when many justices journey from the classroom to the bench with few stops in real life, the career of John Marshall Harlan is an illustration of the importance of personal experience in the law. And Harlan's story is also a testament to the vital

necessity of dissent--and of how a flame lit in one era can light the world in another. --

sac business journal capradio: *For the Love of Cities* Peter Kageyama, 2011 The mutual love affair between people and their place is one of the most powerful influences in our lives, yet rarely thought of in terms of a relationship. As cities begin thinking of themselves as engaged in a relationship with their citizens, and citizens begin to consider their emotional connections with their places, we open up new possibilities in community, social and economic development by including the most powerful of motivators--the human heart--in our toolkit of city-making. The book explores what makes cities lovable, what motivates ordinary citizens to do extraordinary things for their places and how some cities, such as New Orleans, Detroit, and Cleveland are using that energy to fill in the gaps that official city makers have left as resources have disappeared. Meet those amazing people who are truly in love with their cities and learn how they are key to the future development of our communities. Praise for the book: What Kageyama has done is to introduce the vital piece into the urban discussion-- the matter of love; the piece without which all city building must fail, for love the corner stone of civic citizenship. It takes some bravura and acumen to champion the subject of love in the urban forum that wants to quantify, when only love qualifies and justifies the discussion of cities. Mr. Kageyama goes one step further. He provides precious indicators. Many city thinkers will follow suit, but for the time being, this is the essential book. Pier Giorgio Di Cicco Poet Laureate Emeritus, Toronto, Ontario Author of *Municipal Mind: Manifestos for The Creative City* *For the Love of Cities* succeeds in putting an exclamation point on the exceptional value of deepening the relationship that city dwellers feel for their neighborhoods by adding amenities such as parks, outdoor cafes, art galleries, trees, flowers and even sidewalks to create a meaningful sense of place. It also explores the often hidden added value of creative entrepreneurs in creating a sense of place that attracts, nurtures and retains citizens. The book is a love note from Author Peter Kageyama to cities everywhere that will prompt you to more closely examine your own relationship with where you live, work and play. Diane Egner Publisher and Managing Editor, 83 Degrees Media Former Book Editor, The Tampa Tribune *For the Love of Cities* is a must read for city changemakers. Jeff Slobotski Silicon Prairie News & Founder, Big Omaha Peter has captured something very important... love. When we love a city, we are committed to it, we engage with it, we care for it, we give our best to it. A city that is loved also gives back. It makes those who live there feel enriched. And so you have a virtuous cycle. Charles Landry Author of *The Creative City: A Toolkit for Urban Innovators* and *The Art of City Making*

sac business journal capradio: Ungoverned and Out of Sight Charley E. Willison, 2021-01-09 If health policy truly seeks to improve population health and reduce health disparities, addressing homelessness must be a priority Homelessness is a public health problem. Nearly a decade after the great recession of 2008, homelessness rates are once again rising across the United States, with the number of persons experiencing homelessness surpassing the number of individuals suffering from opioid use disorders annually. Homelessness presents serious adverse consequences for physical and mental health, and ultimately worsens health disparities for already at-risk low-income and minority populations. While some state-level policies have been implemented to address homelessness, these services are often not designed to target chronic homelessness and subsequently fail in policy implementation by engendering barriers to local homeless policy solutions. In the face of this crisis, Ungoverned and Out of Sight seeks to understand the political processes influencing adoption of best-practice solutions to reduce chronic homelessness in US municipalities. Drawing on unique research from three exemplar municipal case studies in San Francisco, CA, Atlanta, GA, and Shreveport, LA, this volume explores conflicting policy solutions in the highly decentralized homeless policy space and provides recommendations to improve homeless governance systems and deliver policies that will successfully diminish chronic homelessness. Until issues of authority and fragmentation across competing or misaligned policy spaces are addressed through improved coordination and oversight, local and national policies intended to reduce homelessness may not succeed.

sac business journal capradio: Already Toast Kate Washington, 2021-03-16 The story of one woman's struggle to care for her seriously ill husband—and a revealing look at the role unpaid family caregivers play in a society that fails to provide them with structural support. Already Toast shows how all-consuming caregiving can be, how difficult it is to find support, and how the social and literary narratives that have long locked women into providing emotional labor also keep them in unpaid caregiving roles. When Kate Washington and her husband, Brad, learned that he had cancer, they were a young couple: professionals with ascending careers, parents to two small children. Brad's diagnosis stripped those identities away: he became a patient and she his caregiver. Brad's cancer quickly turned aggressive, necessitating a stem-cell transplant that triggered a

massive infection, robbing him of his eyesight and nearly of his life. Kate acted as his full-time aide to keep him alive, coordinating his treatments, making doctors' appointments, calling insurance companies, filling dozens of prescriptions, cleaning commodes, administering IV drugs. She became so burned out that, when she took an online quiz on caregiver self-care, her result cheerily declared: "You're already toast!" Through it all, she felt profoundly alone, but, as she later learned, she was in fact one of millions: an invisible army of family caregivers working every day in America, their unpaid labor keeping our troubled healthcare system afloat. Because our culture both romanticizes and erases the realities of care work, few caregivers have shared their stories publicly. As the baby-boom generation ages, the number of family caregivers will continue to grow. Readable, relatable, timely, and often raw, *Already Toast*—with its clear call for paying and supporting family caregivers—is a crucial intervention in that conversation, bringing together personal experience with deep research to give voice to those tasked with the overlooked, vital work of caring for the seriously ill.

sac business journal capradio: I Ain't Studdin' Ya Bobby Rush, 2021-06-22 Experience music history with this memoir by one of the last of the genuine old school Blues and R&B legends, the Grammy-winning dynamic showman Bobby Rush. This memoir charts the extraordinary rise to fame of living blues legend, Bobby Rush. Born Emmett Ellis, Jr. in Homer, Louisiana, he adopted the stage name Bobby Rush out of respect for his father, a pastor. As a teenager, Rush acquired his first real guitar and started playing in juke joints in Little Rock, Arkansas, donning a fake mustache to trick club owners into thinking he was old enough to gain entry. He led his first band in Arkansas between Little Rock and Pine Bluff in the 1950s. It was there he first had Elmore James play in his band. Rush later relocated to Chicago to pursue his musical career and started to work with Earl Hooker, Luther Allison, and Freddie King, and sat in with many of his musical heroes, such as Howlin' Wolf, Muddy Waters, Jimmy Reed and Little Walter. Rush eventually began leading his own band in the 1960s, crafting his own distinct style of funky blues, and recording a succession of singles for various labels. It wasn't until the early 1970s that Rush finally scored a hit with *Chicken Heads*. More recordings followed, including an album which went on to be listed in the Top 10 blues albums of the 1970s by Rolling Stone and a handful of regional jukebox favorites including *Sue* and *I Ain't Studdin' Ya*. And Rush's career shows no signs of slowing down now. The man once beloved for performing in local jukejoints is now headlining major music/blues festivals, clubs, and theaters across the U.S. and as far as Japan and Australia. At age eighty-six, he is still on the road for over 200 days a year. His lifelong hectic tour schedule has earned him the affectionate title King of the Chitlin' Circuit, from Rolling Stone. In 2007, he earned the distinction of being the first blues artist to play at the Great Wall of China. His renowned stage act features his famed shake dancers, who personify his funky blues and his ribald sense of humor. He was featured in Martin Scorsese's *The Blues* docuseries on PBS, a documentary film called *Take Me to the River*, performed with Dan Aykroyd on *The Tonight Show Starring Jimmy Fallon*, and most recently had a cameo in the Golden Globe nominated Netflix film, *Dolemite Is My Name*, starring Eddie Murphy. He was recently given the

highest Blues Music Award honor of B.B. King Entertainer of the Year. His songs have also been featured in TV shows and films including HBO's *Ballers* and major motion pictures like *Black Snake Moan*, starring Samuel L. Jackson. Considered by many to be the greatest bluesman currently performing, this book will give readers unparalleled access into the man, the myth, the legend: Bobby Rush.

And no one is particularly happy to see him again when he's released after The Exoneration Initiative uncovered evidence that pinned the crime on someone else. At a loss, Farrell and Hardy ask PI Abe Glitsky to track down the potentially lethal defendant. The search takes Glitsky through an investigative hall of mirrors populated by wounded parents, crooked cops, cheating spouses, and single-minded vigilantes. Their crime: miscegenation, punished by exile from their home state of Virginia. The resulting landmark decision of *Loving v. Virginia* ended bans on interracial marriage and remains a signature case—the first to use the words “white supremacy” to describe such racism. Drawing from the earliest chapters in US history, legal scholar Sheryll Cashin reveals the enduring legacy of America’s original sin, tracing how we transformed from a country without an entrenched construction of race to a nation where one drop of nonwhite blood merited exclusion from full citizenship. In vivid detail, she illustrates how the idea of whiteness was created by the planter class of yesterday and is reinforced by today’s power-hungry dog-whistlers to divide struggling whites and people of color, ensuring plutocracy and undermining the common good. Not just a hopeful treatise on the future of race relations in America, *Loving* challenges the notion that trickle-down progressive politics is our only hope for a more inclusive society. Accessible and sharp, Cashin reanimates the possibility of a future where interracial understanding serves as a catalyst of a social revolution ending not in artificial color blindness but in a culture where acceptance and difference are celebrated.

sac business journal capradio: *Engineering Eden* Jordan Fisher Smith, 2016-06-07 The fascinating story of a trial that opened a window onto the century-long battle to control nature in the national parks. When twenty-five-year-old Harry Walker was killed by a bear in Yellowstone Park in 1972, the civil trial prompted by his death became a proxy for bigger questions about American wilderness management that had been boiling for a century. At immediate issue was whether the Park Service should have done more to keep bears away from humans, but what was revealed as the trial unfolded was just how fruitless our efforts to regulate nature in the parks had always been. The proceedings drew to the witness stand some of the most important figures in twentieth century wilderness management, including the eminent zoologist A. Starker Leopold, who had produced a landmark conservationist document in the 1950s, and all-American twin researchers John and Frank Craighead, who ran groundbreaking bear studies at Yellowstone. Their testimony would help decide whether the government owed the Walker family restitution for Harry's death, but it would also illuminate decades of patchwork efforts to preserve an idea of nature that had never existed in the first place. In this remarkable excavation of American environmental history, nature writer and former park ranger Jordan Fisher Smith uses Harry Walker's story to tell the larger narrative of the futile, sometimes fatal, attempts to remake wilderness in the name of preserving it. Tracing a course from the founding of the national parks through the tangled twentieth-century growth of the conservationist movement, Smith gives the lie to the portrayal of national parks as Edenic wonderlands unspoiled until the arrival of Europeans, and shows how virtually every attempt to manage nature in the parks has only created cascading effects that require even more management. Moving across time and between Yellowstone, Yosemite, and Glacier national parks, *Engineering Eden* shows how efforts at wilderness management have always been undone by one fundamental problem--that the idea of what is wild dissolves as soon as we begin to examine it, leaving us with little framework to say what wilderness should look like and which human interventions are

acceptable in trying to preserve it. In the tradition of John McPhee's *The Control of Nature* and Alan Burdick's *Out of Eden*, Jordan Fisher Smith has produced a powerful work of popular science and environmental history, grappling with critical issues that we have even now yet to resolve.

sac business journal capradio: Don't Burp in the Boardroom Rosalinda Oropeza Randall, 2014-11-04 Sassy, funny, blunt, and definitely not sugar coated, *Don't Burp in the Boardroom* examines etiquette in the workplace, from the warehouse to the top floor. While the outerwear may be different, the dilemmas from cubicle to corner office are the same. Rosalinda Randall delves into common predicaments like food, the break room, social media and electronics, office romances, or how to make a good impression when you're new on the job. She also delves into the uncommonly common like catching your boss in an unfortunate position and how to avoid that one co-worker who always wants a hug. In today's modern, fast-paced, crazy lifestyle we think we don't have time for etiquette. We might believe that it is outdated, irrelevant, or even pretentious. But *Don't Burp in the Boardroom* talks about etiquette without mentioning etiquette! How's that possible? Because Rosalinda defines etiquette as an attitude. What's yours like?

sac business journal capradio: Ripples from the Zambezi Ernesto Sirotli, 1999-04-01 After six years of economic development work in Africa, Ernesto Sirotli witnessed how little most foreign aid programs were actually doing for the people they hoped to help—from creating a communal tomato field on the banks of the Zambezi river (only to be demolished by the river's hippos at harvest time) to donating snow-plows to African nations! However well intentioned, Sirotli points out, inappropriate development often creates more problems than it solves. Thus was the genesis of this exciting and unique alternative to traditional economic development termed Enterprise Facilitation—where depressed communities can build hope and prosperity by first helping individuals to recognize their talents and business passion, and then providing the skills to transform their dreams into meaningful and rewarding work.

sac business journal capradio: Peace on Our Terms Mona L. Siegel, 2020-01-07 In the watershed year of 1919, world leaders met in Paris, promising to build a new international order rooted in democracy and social justice. Female activists demanded that statesmen live up to their word. Excluded from the negotiating table, women met separately, crafted their own agendas, and captured global headlines with a message that was both straightforward and revolutionary: enduring peace depended as much on recognition of the fundamental humanity and equality of all people—regardless of sex, race, class, or creed—as on respect for the sovereignty of independent states. *Peace on Our Terms* follows dozens of remarkable women from Europe, the Middle East, North America, and Asia as they crossed oceans and continents; commanded meeting halls in Paris, Zurich, and Washington; and marched in the streets of Cairo and Beijing. Mona L. Siegel's sweeping global account of international organizing highlights how Egyptian and Chinese nationalists, Western and Japanese labor feminists, white Western suffragists, and African American civil rights advocates worked in tandem to advance women's rights. Despite significant resistance, these pathbreaking women left their mark on emerging democratic constitutions and new institutions of global governance. Drawing on a wide range of sources, *Peace on Our Terms* is the first book to demonstrate the centrality of women's activism to the Paris Peace Conference and the critical diplomatic events of 1919. Siegel tells the timely story of how female activists transformed women's rights into a global rallying cry, laying a foundation for generations to come.

sac business journal capradio: Clean Rail Transportation Options Ibrahim Dincer, Janette Høgerwaard, Calin Zamfirescu, 2015-09-18 This book will assess and compare several options for ammonia co-fueling of diesel locomotives with integrated heat recovery, multigeneration (including on-board hydrogen fuel production from ammonia), and emission reduction subsystems from energy, exergy, and environmental perspectives. Economic considerations will be presented to compare the cost of the proposed systems for different scenarios such as carbon-tax rates, diesel fuel cost and

ammonia cost. Fossil fuel consumption and the associated negative environmental impact of their combustion is a significant global concern that requires effective, practical, and sustainable solutions. From a Canadian perspective, the Transportation Sector contributes more than 25% of national greenhouse gas emissions due to fossil fuel combustion, largely due to road vehicles (cars, light and heavy duty trucks). This is a complex and critical challenge to address, particularly in urban areas with high population density. There is a need to develop alternative energy solutions for mass passenger and freight transportation systems that will reduce both the traffic-volume of road vehicles as well as the emissions from the mass transportation systems. The book will be helpful to students in senior-level undergraduate and graduate level courses related to energy, thermodynamics, thermal sciences, combustion, HVAC&R, etc. The quantitative comparative assessment of such alternative energy systems provided by this book will be useful for researchers and professionals interested sustainable development.

sac business journal capradio: *The Impossible City* Karen Cheung, 2022-02-15 A boldly rendered—and deeply intimate—account of Hong Kong today, from a resilient young woman whose stories explore what it means to survive in a city teeming with broken promises. “[A] pulsing debut . . . about what it means to find your place in a city as it vanishes before your eyes.”—The New York Times Book Review ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post Hong Kong is known as a place of extremes: a former colony of the United Kingdom that now exists at the margins of an ascendant China; a city rocked by mass protests, where residents rally—often in vain—against threats to their fundamental freedoms. But it is also misunderstood, and often romanticized. Drawing from her own experience reporting on the politics and culture of her hometown, as well as interviews with musicians, protesters, and writers who have watched their home transform, Karen Cheung gives us a rare insider’s view of this remarkable city at a pivotal moment—for Hong Kong and, ultimately, for herself. Born just before the handover to China in 1997, Cheung grew up questioning what version of Hong Kong she belonged to. Not quite at ease within the middle-class, cosmopolitan identity available to her at her English-speaking international school, she also resisted the conservative values of her deeply traditional, often dysfunctional family. Through vivid and character-rich stories, Cheung braids a dual narrative of her own coming of age alongside that of her generation. With heartbreaking candor, she recounts her yearslong struggle to find reliable mental health care in a city reeling from the traumatic aftermath of recent protests. Cheung also captures moments of miraculous triumph, documenting Hong Kong’s vibrant counterculture and taking us deep into its indie music and creative scenes. Inevitably, she brings us to the protests, where her understanding of what it means to belong to Hong Kong finally crystallized. An exhilarating blend of memoir and reportage, *The Impossible City* charts the parallel journeys of both a young woman and a city as they navigate the various, sometimes contradictory paths of coming into one’s own. sac business journal capradio: *Betraying Big Brother* Leta Hong Fincher, 2021-04-27 A feminist movement clashing with China’s authoritarian government. Featured in the Washington Post and the New York Times. On the eve of International Women’s Day in 2015, the Chinese government arrested five feminist activists and jailed them for thirty-seven days. The Feminist Five became a global cause célèbre, with Hillary Clinton speaking out on their behalf and activists inundating social media with #FreetheFive messages. But the Five are only symbols of a much larger feminist movement of civil rights lawyers, labor activists, performance artists, and online warriors prompting an unprecedented awakening among China’s educated, urban women. In *Betraying Big Brother*, journalist and scholar Leta Hong Fincher argues that the popular, broad-based movement poses the greatest challenge to China’s authoritarian regime today. Through

interviews with the Feminist Five and other leading Chinese activists, Hong Fincher illuminates both the difficulties they face and their “joy of betraying Big Brother,” as one of the Feminist Five wrote of the defiance she felt during her detention. Tracing the rise of a new feminist consciousness now finding expression through the #MeToo movement, and describing how the Communist regime has suppressed the history of its own feminist struggles, *Betraying Big Brother* is a story of how the movement against patriarchy could reconfigure China and the world.

sac business journal capradio: *Unfairly Labeled* Jessica Kriegel, 2016-02-29 A blueprint for managing people, not generations *Unfairly Labeled* challenges the very concept of generational differences as an unfair generalization, and offers a roadmap to intergenerational understanding. While acknowledging that generational stereotypes exist, author Jessica Kriegel argues that they are wrong—and that it's unreasonable to assume that the millions of people born in the same 20-year time span are motivated by the same things, attracted to the same things, and should be dealt with in the same way. Kriegel's experience as Organizational Developer at Oracle puts her squarely in the talent strategy realm, where she works to optimize leadership development, team effectiveness, and organizational design. Drawing upon her experiences with workers of all ages and types, she shows how behaviors know no generational boundaries and how to work with people based on their talents, strengths, and weaknesses rather than simply slapping on a generational label and fitting them into an arbitrary slot. There are 80 million Millennials in America, yet there are myriad books on managing Millennials and working with Millennials and the problem with Millennials. This book shows that whether you're working with Millennials, Generation X, or Baby Boomers, age is not the issue—it's the interpersonal dynamics that matter most. Examine the concept of generational issues Explore the disparate reality of each 20-year generational span Learn to understand and work effectively with other generations Facilitate intergenerational understanding sessions The human mind craves categorization, so the tendency to lump people together is natural. It may, however, be holding your organization back. The members of each generation have only one thing in common—their age—and even that varies by two whole decades. Why assume that they should all be managed the same way? *Unfairly Labeled* shows you a better way, and provides a roadmap to a more effective organizational strategy.

After an entire young life of enslavement, twelve-year-old Homer escapes Southerland Plantation with his little sister Ada, leaving his beloved mother behind. Much as he adores her and fears for her life, Homer knows there's no turning back, not with the overseer on their trail. Through tangled vines, secret doorways, and over a sky bridge, the two find a secret community called Freewater, deep in the recesses of the swamp. In this new, free society made up of escaped slaves and some born-free children, Homer cautiously embraces a set of spirited friends, almost forgetting where he came from. But when he learns of a threat that could destroy Freewater, he hatches a plan to return to Southerland plantation, overcome his own cautious nature, and free his mother from enslavement.
