sanctuary wellness institute lakeland: Proverbs of Ashes Rita Nakashima Brock, Rebecca Ann Parker, 2015-06-23 Rebecca Parker was a young minister in Seattle when a woman walked into her church and asked if God really wanted her to accept her husband's beatings and bear them gladly, as Jesus bore the cross. Parker knew, at that moment, that if she were to answer the woman's question truthfully she would have to rethink her theology. And she would have to think hard about some of the choices she was making in her own life. When Rita Nakashima Brock was a young child growing up in Kansas, kids taunted her viciously, calling her names like Chink or Jap. She learned to pretend that she did not feel the sting of scorn and the humiliation of contempt. The solitude and silence of her suffering-decreed by both her mother's Japanese culture and her father's Christian heritage-kept the wound alive. It was the gap between knowledge born of personal experience and traditional theology that led Rita Brock and Rebecca Parker to write this emotionally gripping and intellectually rich exploration of the doctrine of the atonement. Using an unusual combination of memoir and theology in the tradition of Augustine's Confessions, they lament the inadequacy of how Christian tradition has interpreted the violence that happened to Jesus. Ultimately, they argue, the idea that the death of Jesus on the cross saves us reveals a sanctioning of violence at the heart of Christianity. Brock and Parker draw on a wide array of intimate stories about family violence, the sexual abuse of children, racism, homophobia, and war to reveal how they came to understand the widespread damage being done by this theology. But the authors also undertake their own arduous and unexpected journeys to recover from violence and to assist others to do so. On these journeys they discover communities that begin to give them the strength to question the destructive ideas they have internalized, and the strength to seek out an alternative vision of Christianity, one based on healing and love. Proverbs of Ashes is both a condemnation of bad theology and a passionate search for what truly saves us.

sanctuary wellness institute lakeland: Augie's Quest Augie Nieto, T.R. Pearson, 2011-01-15 What happens to orphan diseases that aren't big enough profit centers for the pharmaceutical

industry or get caught in the web of government funding and academic research? Augie Nieto found out in the spring of 2005: At forty-seven years old he was diagnosed with ALS. Devastated, Augie struggled with depression and attempted suicide. When he awoke from a coma, with friends and family surrounding him, his sense of faith and mission were renewed. Fast-forward one year: Augie and his wife, Lynne, were profiled as Real Heroes on the Today show. Their determination to beat the disease had already led to major overhauls in the way ALS research was conducted. In partnership with the Muscular Dystrophy Association, Augie had set up a foundation and lab to coordinate and oversee ALS research and testing across the globe. By centralizing operations and championing an entrepreneurial approach to medical research, Augie and his team accomplished remarkable results in less than two years. Part inspiration, part business innovation, Augie's Quest illustrates how one person can make a meaningful difference. Praise for Augie Nieto: George H. W. Bush, former U.S. president: Your contributions to the fitness industry are well known, and your dedication an inspiration. Lance Armstrong, seven-time Le Tour de France champion: I think it says a lot about Augie, the fact that everybody came together regardless of whether or not it's for competing gyms or competing companies that make equipment. They all say, this is one of our own; this is a guy who's committed his life to our industry and has been dealt a serious blow. We're going to be there for him, we're going to say, we're here for you and we're part of the Quest. Arnold Schwarzenegger, governor of California: Your success has been incredible. But you are so much more than just a successful businessman. You are the greatest husband, a great father, and a terrific friend. So,

sanctuary wellness institute lakeland: *Newtown Alive* Rosalyn Howard Ph D, 2017-03-15 This book chronicles the history of Sarasota, Florida's African American community - Newtown - that celebrated its 100-year anniversary in 2014. It answers questions about many aspects of community life: why the earliest African Americans who came to Sarasota, then a tiny fishing village, first settled in areas near downtown called -Black Bottom- and -over town;- their transition from there to Newtown; how they developed Newtown from swampland into a self-contained community to ensure their own survival during the Jim Crow era; the ways they earned a living, what self-help organizations they formed; their religious and educational traditions; residents' military service, the strong emphasis placed on education; how they succeeded in gaining political representation after filing a federal lawsuit; and much more. sanctuary wellness institute lakeland: *Seeing Gray in a World of Black and White* 35012 Adam Hamilton, 2010-07-01 Everyone agrees that America is polarized, with ever-hardening positions held by people less and less willing to listen to one another. No one agrees on what to do about it. One solution that hasn't yet been tried, says Adam Hamilton, is for thinking persons of faith to model for the rest of the country a richer, more thoughtful conversation on the political, moral, and religious issues that divide us. Hamilton rejects the easy assumptions and sloppy analysis of black and white thinking, seeking instead the truth that resides on all sides of the issues, and offering a faithful and compassionate way forward. He writes, I don't expect you to agree with everything I've written. I expect that in the future even I won't agree with everything I've written here. The point is not to get you to agree with me, but to encourage you to think about what you believe. In the end I will be inviting those of you who find this book resonates with what you feel is true, to join the movement to pursue a middle way between the left and the right - to make your voices heard - and to model for our nation and for the church, how we can listen, learn, see truth as multi-sided, and love those with whom we disagree.
