shadowheart answers circus: The River in the Sky Clive James, 2018-09-11 Clive James has

been close to death for several years, and he has written about the experience in a series of deeply moving poems. In *Sentenced to Life*, he was clear-sighted as he faced the end, honest about his regrets. In *Injury Time*, he wrote about living well in the time remaining, focusing our attention on the joys of family and art, and celebrating the immediate beauty of the world. When *The River in the Sky* opens, we find James in ill health but high spirits. Although his body traps him at home, his mind is free to roam, and this long poem is animated by his recollection of what life was and never will be again; as it resolves into a flowing stream of vivid images, his memories are emotionally supercharged 'by the force of their own fading'. In this form, the poet can transmit the felt experience of his exceptional life to the reader. As ever with James, his enthusiasm is contagious; he shares his wide interests with enormous generosity, making brilliant and original connections, sparking passion in the reader so that you can explore the world's treasures yourself. Because this is not just a reminiscence, it's a wise and moving preparation for and acceptance of death. As James realizes that he is only one bright spot in a galaxy of stars, he passes the torch to the poets of the future, to his young granddaughter, and to you, his reader. A book that could not have been written by anyone else, this is Clive James at the height of his considerable powers: funny, wise, deeply felt, and always expressed with an unmatched power for clarity of expression and phrase-making that has been his hallmark.

Despite these authors branching off to places far from Tar Heel soil, their writing roots are deep in North Carolina, and North Carolina has left its mark. shadowheart answers circus: Aliens in Wonderland Alpha, 2010-02 An informative in-depth look at the lives of several extraterrestrials (E.T.'s), Extraterrestrial Biological Entities (E.B.E.'s), and aliens, what their lives are like on their planets in their galaxies, what their spaceships are like, and how they are connected to us here on Earth. In addition, the book delves into how they are important to our religion and military strength. This novel also looks at some historical revelations, future predictions, and current happenings including an interesting collection of anecdotes regarding an ex-CIA agent who gets his wishes granted. It's the author's intention to, at the very least, bridge the gaps that exist between the religions of our generation. One gap is between our present long standing accepted knowledge of our concept of God, and our comprehensible real God. As well, a gap exists between how we are told we should interpret and demonstrate the meaning of God and how we show our faith and prove our belief in the living Creator. These are some things that the author thinks everyone needs to know about God, Satan, and UFOs. This book has been a long time in the making, twenty years, but somehow it still manages to remain ahead of its time, in most cases.
