state of nh business name lookup: Holy Hell Gail Tredwell, 2013-10-31 Amma, universally known as The Hugging Saint, went through a two-decade transformation from a simple fisherman's daughter to an international wonder worshiped by millions. Gail Gayatri Tredwell was there every step of the way--from early devotee to head female disciple, ever-present personal attendant, handmaiden, whipping post, and unwilling keeper of some devastating secrets. Because she became fluent in the Malayalam language and had continual intimate proximity to Amma for twenty years,

Tredwell is uniquely capable of portraying this famous woman. She tells her tale with straightforward honesty, fairness, and a dash of Aussie snap and wit. Although the guru's flaws are a necessary part of her story and awakening, she strives to be factual throughout, digging deep to eschew victim frameworks and take responsibility for her own role in accepting the abuse and perpetuating the lies. Tredwell takes us vividly through her varying stages, starting with naïveté and innocent devotion, then on to dawning awareness and confusion, finally to emotional breakdown and her shocking enlightenment--her realization that the liberation she urgently required was in fact liberation from her own guru

state of nh business name lookup: Our Will to Live: the Terezín Music Critiques of Viktor Ullmann Mark Ludwig, 2021-10-20 Concert reviews, posters and ephemera from a Nazi concentration camp--a tribute to the defiant spirit of the creative will In Terezín, a Nazi camp where 33,000 people died, imprisoned musicians and artists created a remarkable cultural community that persevered against all odds. Our Will to Live brings us into this astonishing world. It presents the first full translation of concert critiques written by accomplished musician, scholar--and Terezín prisoner--Viktor Ullmann (1898-1944). Ullmann describes Terezín performances by ensembles, youth choirs and solo artists including luminaries of European cabaret and opera, plus works by a generation of promising composers silenced too soon: Gideon Klein, Pavel Haas, Hans Krása and others. Paired with Ullmann's critiques are more than 250 rarely seen concert posters, programs, portraits and scenes rendered by imprisoned artists; these are from a trove of hidden artworks recovered after liberation. Our Will to Live also offers an original collection of vintage and modern recordings performed by Terezín survivors and contemporary masters. Essays and annotations by scholar Mark Ludwig set the historical context, introduce the artists and deepen what we know of this extraordinary chapter in World War II history. Terezín survivors helped guide this project, the

result of more than 30 years of research and writing. Shortly after Ullmann authored his final concert critique, Terezín's cultural community was decimated: nearly all the artists were murdered in Auschwitz. Mark Ludwig is a Fulbright scholar of Terezín, a member of the Pamatník Terezín Advisory Board and director of the Terezín Music Foundation. He produces recordings, concerts and Holocaust and genocide education programs worldwide. Ludwig is a violist emeritus of the Boston Symphony Orchestra, adjunct professor of Holocaust music at Boston College and editor of the poetry anthology *Liberation* (2015).

state of nh business name lookup: Story Genius Lisa Cron, 2016-08-09 Following on the heels of Lisa Cron's breakout first book, *Wired for Story*, this writing guide reveals how to use cognitive storytelling strategies to build a scene-by-scene blueprint for a riveting story. It's every novelist's greatest fear: pouring their blood, sweat, and tears into writing hundreds of pages only to realize that their story has no sense of urgency, no internal logic, and so is a page one rewrite. The prevailing wisdom in the writing community is that there are just two ways around this problem: pantsing (winging it) and plotting (focusing on the external plot). Story coach Lisa Cron has spent her career discovering why these methods don't work and coming up with a powerful alternative, based on the science behind what our brains are wired to crave in every story we read (and it's not what you think). In *Story Genius* Cron takes you, step-by-step, through the creation of a novel from the first glimmer of an idea, to a complete multilayered blueprint—including fully realized scenes—that evolves into a first draft with the authority, richness, and command of a riveting sixth or seventh draft.
