surterra wellness port orange fl: Grass Roots Emily Dufton, 2017-12-05 How earnest hippies, frightened parents, suffering patients, and other ordinary Americans went to war over marijuana In the last five years, eight states have legalized recreational marijuana. To many, continued progress seems certain. But pot was on a similar trajectory forty years ago, only to encounter a fierce backlash. In Grass Roots, historian Emily Dufton tells the remarkable story of marijuana's crooked path from acceptance to demonization and back again, and of the thousands of grassroots activists who made changing marijuana laws their life's work. During the 1970s, pro-pot campaigners with roots in the counterculture secured the drug's decriminalization in a dozen states. Soon, though,

concerned parents began to mobilize; finding a champion in Nancy Reagan, they transformed pot into a national scourge and helped to pave the way for an aggressive war on drugs. Chastened marijuana advocates retooled their message, promoting pot as a medical necessity and eventually declaring legalization a matter of racial justice. For the moment, these activists are succeeding -- but marijuana's history suggests how swiftly another counterrevolution could unfold.

surterra wellness port orange fl: Swine Not? Jimmy Buffett, 2008-05-13 Bestselling writer Jimmy Buffett weaves an irresistible tale filled with colorful characters, wry humor, and the pursuit of a very clever pig. When Southern belle Ellie McBride moves her twins from Vertigo, to New York City, they wouldn't dream of leaving behind the family pig Rumpy. But the posh hotel where Ellie has found work (and living space) has No Pets writ large on its portal. So hiding Rumpy from the hotel staff -- -especially the ultra-carnivorous hotel chef, who would like nothing better than to transform their pet into pork roast -- -becomes imperative.

surterra wellness port orange fl: Jacksonville on Wheels: A Car Culture Retrospective Dorothy K. Fletcher, 2018 Jacksonville has long been a mecca for car enthusiasts and collectors, due in part to the city's unique automotive history. Bystanders gazed in wonder as John Einig drove Florida's very first steam-powered horseless carriage through the streets in 1889. Fred Gilbert opened the first automobile dealership in 1903, just before the city's first automobile parade, and people were soon clamoring to buy cars of their own. Claude Nolan, whose local dealership has been in business for well over a century, gained fame for racing his Cadillac against an airplane at the Jacksonville Fairgrounds. NASCAR held races at the Jacksonville Speedway in the '50s and '60s. Author Dorothy K. Fletcher explores the rich history and memories of car culture in the River City.

The aim of this book is to provide up-to-date reviews of the rapidly growing field of gene therapy. Chapters cover a large range of topics including methods of gene delivery, and identification of targets with several papers on cancer gene therapy. If more people become aware of the true nature and potential of gene therapy, perhaps we can achieve the full benefit of such an innovative approach for the treatment of a range of diseases, including cancer.

surterra wellness port orange fl: Excellent Letters For Every Occasion Excellent Letters For Every Occasion Derek Hall,

surterra wellness port orange fl: Buying Gay David K. Johnson, 2019-03-12 In 1951, a new type of publication appeared on newsstands—the physique magazine produced by and for gay men. For many men growing up in the 1950s and 1960s, these magazines and their images and illustrations of nearly naked men, as well as articles, letters from readers, and advertisements, served as an initiation into gay culture. The publishers behind them were part of a wider world of “physique entrepreneurs”: men as well as women who ran photography studios, mail-order catalogs, pen-pal services, book clubs, and niche advertising for gay audiences. Such businesses have often been seen as peripheral to the gay political movement. In this book, David K. Johnson shows how gay commerce was not a byproduct but rather an important catalyst for the gay rights movement. Offering a vivid look into the lives of physique entrepreneurs and their customers, and presenting a wealth of illustrations, *Buying Gay* explores the connections—and tensions—between the market and the movement. With circulation rates many times higher than the openly political “homophile” magazines, physique magazines were the largest gay media outlets of their time. This network of producers and consumers helped foster a gay community and upend censorship laws, paving the way for open expression. Physique entrepreneurs were at the center of legal struggles, especially against the U.S. Post Office, including the court victory that allowed full-frontal male nudity and open homoeroticism. *Buying Gay* reconceives the history of the gay rights movement and shows how consumer culture helped create community and a site for resistance.

With color photos throughout, this is the must-have book on the subject, perfect for home cooks, bartenders, and those who just want to know more about tequila and mezcal. "A Lime and a Shaker showcases the full spectrum of flavors you can achieve when mixing with agave spirits." —Jim Meehan, author of The PDT Cocktail Book

surterra wellness port orange fl: Disaster Health Management Gerry FitzGerald, Mike Tarrant, Marie Fredriksen, Peter Aitken, 2016-09-13 Disaster health is an emerging field that focuses on developing prevention, preparation, response and recovery systems for dealing with health problems that result from a disaster. As disasters worldwide differ in their nature, scope and cultural context, a thorough understanding of the fundamental tenets of sound disaster health management is essential for both students and practitioners to participate confidently and effectively in the field. Disaster Health Management is the first comprehensive textbook to provide a standard guide to terminology and management systems across the entire spectrum of disaster health. Authored by experienced educators, researchers and practitioners in disaster health management, this textbook provides an authoritative overview of: The conceptual basis for disaster management Systems and structures for disaster management Managing disasters through the continuum of preparedness, response and recovery The variations associated with both natural and technological disasters The strategic considerations associated with leadership, research, education and future directions. Using Australasian systems and structures as examples of generic principles which will find application globally, Disaster Health Management is an essential text for both undergraduate and postgraduate students, as well as for professionals involved in all aspects of disaster management.

surterra wellness port orange fl: Le Pigeon Gabriel Rucker, Meredith Erickson, Lauren Fortgang, Andrew Fortgang, 2013-09-17 This debut cookbook from James Beard Rising Star Chef Gabriel Rucker features a serious yet playful collection of 150 recipes from his phenomenally popular Portland restaurant. In the five years since Gabriel Rucker took the helm at Le Pigeon, he has catapulted from culinary school dropout to award-winning chef. Le Pigeon is offal-centric and meat-heavy, but by no means dogmatic, offering adventures into delicacies unknown along with the chance to order a vegetarian mustard greens quiche and a Miller High Life if that's what you're craving. In their first cookbook, Rucker and general manager/sommelier Andrew Fortgang celebrate high-low extremes in cooking, combining the wild and the refined in a unique and progressive style. Featuring wine recommendations from sommelier Andrew Fortgang, stand-out desserts from pastry chef Lauren Fortgang, and stories about the restaurant's raucous, seat-of-the-pants history by writer Meredith Erickson, Le Pigeon combines the wild and the refined in a unique, progressive, and delicious style.
