The Doctor, Healing, & Wellness: Your Journey to Holistic Health

Are you tired of the endless cycle of doctor's appointments, medications, and lingering health issues? Do you yearn for a more holistic, proactive approach to well-being that addresses the root causes of illness, not just the symptoms? Then you've come to the right place. This comprehensive guide dives deep into the world of "The Doctor, Healing, & Wellness," exploring how to forge a powerful partnership with your healthcare provider to achieve optimal health and vitality. We'll uncover the secrets to effective communication, explore diverse healing modalities, and empower you to take control of your wellness journey.

Understanding the Doctor-Patient Partnership: The Foundation of Healing & Wellness

The cornerstone of successful healing and wellness lies in a strong, collaborative relationship with your doctor. This isn't about blindly following orders; it's about open communication, shared decision-making, and mutual respect. This means:

Active Listening: Don't just passively listen during appointments. Ask clarifying questions, express your concerns openly and honestly, and actively participate in the conversation. Write down your questions beforehand to ensure you cover everything.

Shared Decision-Making: Your doctor's expertise is invaluable, but your experience with your body is equally important. Don't be afraid to voice your opinions, preferences, and concerns about treatment plans. A collaborative approach leads to better outcomes.

Honest Communication: Be completely transparent about your lifestyle, habits, and medical history. Withholding information, even unintentionally, can hinder diagnosis and treatment.

Finding the Right Doctor: Finding a doctor who aligns with your values and approach to healthcare is crucial. Look for doctors who prioritize patient education, encourage shared decision-making, and are open to exploring various treatment options.

Exploring Diverse Healing Modalities: Beyond Traditional Medicine

While traditional medicine plays a vital role in healthcare, many individuals find that incorporating complementary and alternative medicine (CAM) enhances their overall well-being. These modalities can complement traditional treatments, focusing on holistic healing:

Mindfulness and Meditation: Stress reduction techniques like mindfulness and meditation can significantly impact physical and mental health. They can lower blood pressure, improve sleep quality, and boost the immune system.

Acupuncture: This ancient Chinese practice involves inserting thin needles into specific points on the body to stimulate energy flow and alleviate pain. It can be effective for managing chronic pain, anxiety, and other conditions.

Yoga and Tai Chi: These gentle yet powerful practices combine physical postures, breathing techniques, and meditation to improve flexibility, strength, balance, and stress management.

Nutrition and Diet: A balanced diet rich in fruits, vegetables, whole grains, and lean protein is fundamental to health. Working with a registered dietitian can help you create a personalized nutrition plan tailored to your specific needs and health goals.

Herbal Remedies: While always consulting your doctor before using herbal remedies, many herbal supplements can support overall health and address specific health concerns. Research thoroughly and choose reputable brands.

Taking Control of Your Wellness Journey: Proactive Steps for Optimal Health

While your doctor plays a key role in your health journey, active participation is essential. This involves:

Regular Check-ups: Preventative care is key! Schedule regular check-ups and screenings to detect potential health problems early on.

Lifestyle Modifications: Incorporate healthy habits into your daily routine. Prioritize regular exercise, a balanced diet, sufficient sleep, and stress management techniques.

Self-Care Practices: Engage in activities that nurture your mind, body, and spirit. This could include hobbies, spending time in nature, or connecting with loved ones.

Continuous Learning: Stay informed about your health and wellness by reading reputable sources, attending workshops, and engaging in discussions with healthcare professionals.

Building a Support System: Surround yourself with supportive friends, family, and healthcare providers who encourage your health goals.

The Doctor, Healing, and Wellness: A Holistic Approach

The concept of "The Doctor, Healing, & Wellness" emphasizes a holistic approach to health, recognizing the interconnectedness of mind, body, and spirit. It's about building a strong partnership with your doctor, exploring diverse healing modalities, and actively participating in your wellness journey. By embracing a proactive and collaborative approach, you can achieve optimal health and vitality. Remember, your well-being is a journey, not a destination.

FAQs

1. How do I find a doctor who aligns with my holistic approach to health? Look for doctors who mention integrative or holistic medicine in their profiles. Check online reviews and ask for recommendations from friends or family who share your values.
1. Are all complementary and alternative therapies safe? Not all CAM therapies are safe or effective. It's crucial to consult your doctor before trying any new therapy, especially if you have pre-existing health conditions or are taking medication.
1. How can I improve communication with my doctor? Prepare a list of questions beforehand, actively listen during appointments, and don't hesitate to ask for clarification if you don't understand something.
1. What if my doctor isn't open to discussing alternative therapies? Consider seeking a second opinion from a doctor who is more open to integrative approaches. You can also explore CAM therapies independently but always inform your primary doctor.
1. How can I stay motivated to maintain a healthy lifestyle? Set realistic goals, celebrate small victories, find a support system, and focus on the positive benefits of healthy habits rather than solely on restrictions.

the doctor healing wellness: A Path to Healing Andrea D. Sullivan, 1998 Twenty years ago, at age twenty-nine, Andrea Sullivan was a high-level executive at HUD in a state of what she now calls dis-ease: stressed out, thirty-pounds overweight, with a face full of acne. Moved by a desire to help her community and herself in a meaningful way, she quit her job and decided to become a doctor. She applied and was accepted to Bastyr Medical School for Alternative Medicine and became a naturopathic physician. Since then, Dr. Sullivan has been at the vanguard of naturopathic medicine and has helped hundreds of African Americans create dramatic and lasting lifestyle changes. Unlike traditional doctors, naturopathic physicians, with the aid of herbs, roots, and other natural remedies, treat the patient, not the disease. Here, in easy-to-understand language, Dr. Sullivan provides an overview of alternative medicine (paying close attention to naturopathy), discusses the African American tradition and its link to naturopathic medicine, and delves into stress, high blood pressure, arthritis, obesity, depression, and diabetes (all problems that plague African Americans), and prescribes an overall guide to maintaining health and keeping disease at

bay. In *A Path to Healing*, Dr. Sullivan makes a convincing case for naturopathic medicine as the best way to prevent disease and treat chronic illnesses, while not discounting the use of traditional Western medicine, especially in cases of traumatic injury.

the doctor healing wellness: *A Doctor's Dozen* Catherine Florio Pipas, MD, MPH, 2018-09-04 Burnout affects a third of our population and over half of our health professionals. For the second group, the impact is magnified, as consequences play out not only on a personal level, but also on a societal level and lead to medical errors, suboptimal care, low levels of patient satisfaction, and poor clinical outcomes. Achieving wellbeing requires strategies for change. In this book, Dr. Pipas shares twelve lessons and strategies for improved health that she has learned from patients, students, and colleagues over her twenty years working as a family physician. Each lesson is based on observation and research, and begins with a story of an exemplary patient whose challenges and successes reflect the theme of the lesson. Along with the lessons, the author offers plans for action, which taken together create the framework for a healthy life. Each lesson concludes with resources and a health challenge.

the doctor healing wellness: *How Healing Works* Wayne Jonas, M.D., 2018-01-09 Drawing on 40 years of research and patient care, Dr. Wayne Jonas explains how 80 percent of healing occurs organically and how to activate the healing process. In *How Healing Works*, Dr. Wayne Jonas lays out a revolutionary new way to approach injury, illness, and wellness. Dr. Jonas explains the biology of healing and the science behind the discovery that 80 percent of healing can be attributed to the mind-body connection and other naturally occurring processes. Jonas details how the healing process works and what we can do to facilitate our own innate ability to heal. Dr. Jonas's advice will change how we consume health care, enabling us to be more in control of our recovery and lasting wellness. Simple line illustrations communicate statistics and take-aways in a memorable way. Stories from Dr. Jonas's practice and studies further illustrate his method for helping people get well and stay well after minor and major medical events.

the doctor healing wellness: *The Clarity Cleanse* Habib Sadeghi, 2016-07-12 A liberating 12-step guide to recognizing the emotional issues that hold us back, with strategies to increase our energy and help us reach our potential by the health and spiritual advisor to Gwyneth Paltrow. Based on the powerful mind-body strategy Dr. Habib Sadegh developed to help himself recover from cancer more than twenty years ago, *The Clarity Cleanse* will enable you to help your mind clear and your body heal. A regular Goop contributor in health and spirituality, Dr. Sadeghi shows you how to turn obstacles into healing and energizing opportunities. Because negative emotions actually do damage on the cellular level, *The Clarity Cleanse* offers guidance for cleansing both your body and your mind. You will learn how to: Create a clear intention Purge negative emotions Practice compassionate self-forgiveness Refocus negative energy to move beyond doubt and fear Ask the kind of questions that will help your relationships. *The Clarity Cleanse* includes Dr. Sadeghi's Intentional Unsaturation Diet, which helps support emotional cleansing by removing the residue of repressed negative emotions. The diet is designed to reduce congestion in the liver, gallbladder, lungs, kidneys, and pancreas-the organs most affected by feelings such as resentment and anger. Dr. Sadeghi's friends at Goop have offered eighteen recipes to help make this cleanse delicious. Following the twelve steps in this book will help you to achieve a sense of peace and control, raise

your self-esteem, and assert yourself in new ways to achieve positive and lasting change. Then, finally, you will be able to express your true, authentic self.

the doctor healing wellness: Life Is Your Best Medicine Tieraona Low Dog, M.D., 2012-09-04 The division between conventional and traditional medicine is as artificial as the division between science and nature. They can be woven together in a fashion that meets our physical, emotional, and spiritual needs. This is the foundation upon which integrative medicine is built. -- Tieraona Low Dog, M.D. In *Life Is Your Best Medicine*, Dr. Low Dog weaves together the wisdom of traditional medicine and the knowledge of modern-day medicine into an elegant message of health and self-affirmation for women of every age. This is a book that can be read cover to cover but also dipped into for inspiration or insight about a particular physical or mental health issue or remedy. We learn that, despite the widespread availability of pharmaceutical medications, advanced surgical care, and state-of-the-art medical technology, chronic illness now affects more than 50% of the American population. The evidence is overwhelmingly clear that much of the chronic disease we are confronting in the United States has its roots in the way we live our lives. Research shows that if Americans embraced a healthier lifestyle, which includes a balance between rest and exercise; wholesome nutrition; healthy weight; positive social interactions; stress management; not smoking; limited alcohol use; and no or limited exposure to toxic chemicals; then 93% of diabetes, 81% of heart attacks, 50% of strokes, and 36% of all cancers could be prevented! This means that each one of us has the power to shift the odds of being healthy in our favor. And if you do get sick, being fit gives you a much better chance for getting well. Your health has a great deal more to do with your lifestyle and a lot less to do with taking prescription drugs than most people realize. Part I. The Medicine of My Life is a personal and passionate introduction to the book Part II. Honoring the Body includes Food, Supplements, Illness, Wholeness Part III. Awakening the Senses includes Nature, Garden, Music Part IV. Listening to Spirit includes Humor, Relationships, Play, Meditation, Animals Epilogue. Contentment

the doctor healing wellness: Yoga as Medicine Yoga Journal, Timothy McCall, 2007-07-31 The definitive book of yoga therapy, this groundbreaking work comes to you from the medical editor of the country's premier yoga magazine, who is both a practicing yogi and a Western-trained physician. Beginning with an overview of the history and science of yoga, Dr. McCall describes the many different techniques in the yoga tool kit; explains what yoga does and who can benefit from it (virtually everyone!); and provides lavishly illustrated and minutely detailed instructions on starting a yoga practice geared to your fitness level and your health status. *Yoga as Medicine* offers a wealth of practical information, including how to: •Utilize yogic tools, including postures, breathing techniques, and meditation, for both prevention and healing of illness •Master the art of becoming more in tune with your body •Communicate more effectively with your doctor •Adopt therapeutic yoga practices as either an alternative or a complement to surgery and to expensive, sometimes dangerous medications •Practice safely Find an instructor and a style of yoga that are right for you. With twenty chapters devoted to the work of individual master teachers, including such well-known figures as Patricia Walden, John Friend, and Rodney Yee, *Yoga as Medicine* shows how these experts have applied the wisdom of this ancient holistic practice to twenty different conditions, ranging from arthritis to chronic fatigue, depression, heart disease, HIV/AIDS, infertility, insomnia, multiple sclerosis, and obesity. Defining yoga as "a systematic technology to improve the body, understand the mind, and free the spirit," Dr. McCall shows the way to a path that can truly alter your life. An indispensable guide for the millions who now practice yoga or would like to begin, as well as for yoga teachers, body workers, doctors, nurses, and other health professionals.

the doctor healing wellness: *Heal Thyself* Pieter De Wet, 2010-06-29 With our health care system at its breaking point, it is incumbent upon each of us to learn how to better take care of ourselves. Is it conceivable that disease is a blessing, not a curse—a biological solution to internal imbalances created by unresolved inner conflicts, lifestyle, environmental toxins, and infectious agents? Author and doctor Pieter J. De Wet sheds new light on why and how you get sick and guides you through the most critical steps on how to gain your health back in *Heal Thyself: Transform Your Life, Transform Your Health*. 'Every patient should read this book in order to gain optimum health. *Heal Thyself* helps even the novice patient understand how most illnesses actually develop and how the patient can take responsibility for their own recovery using safe, effective, noninvasive techniques.' —William Lee Cowden, MD, MD(H) By understanding the purpose of disease and its root causes, the solutions become readily apparent. Follow Dr. De Wet's twelve-week plan, and let *Heal Thyself* empower you to embrace these solutions and no longer feel that you are at the mercy of unpredictable and devastating scourges.

the doctor healing wellness: *The Doctors Book of Herbal Home Remedies* Prevention Health Books, 1999 The advice of experts is applied to over 100 health problems, from everyday complaints, such as back pain and toothaches, to more serious disorders, including arrhythmia and depression.

the doctor healing wellness: *Healing* Thomas Insel, MD, 2022-02-22 A bold, expert, and actionable map for the re-invention of America's broken mental health care system. "Healing is truly one of the best books ever written about mental illness, and I think I've read them all. —Pete Earley, author of *Crazy As* director of the National Institute of Mental Health, Dr. Thomas Insel was giving a presentation when the father of a boy with schizophrenia yelled from the back of the room, "Our house is on fire and you're telling me about the chemistry of the paint! What are you doing to put out the fire?" Dr. Insel knew in his heart that the answer was not nearly enough. The gargantuan American mental health industry was not healing millions who were desperately in need. He left his position atop the mental health research world to investigate all that was broken—and what a better path to mental health might look like. In the United States, we have treatments that work, but our

system fails at every stage to deliver care well. Even before COVID, mental illness was claiming a life every eleven minutes by suicide. Quality of care varies widely, and much of the field lacks accountability. We focus on drug therapies for symptom reduction rather than on plans for long-term recovery. Care is often unaffordable and unavailable, particularly for those who need it most and are homeless or incarcerated. Where was the justice for the millions of Americans suffering from mental illness? Who was helping their families? But Dr. Insel also found that we do have approaches that work, both in the U.S. and globally. Mental illnesses are medical problems, but he discovers that the cures for the crisis are not just medical, but social. This path to healing, built upon what he calls the three Ps (people, place, and purpose), is more straightforward than we might imagine. Dr. Insel offers a comprehensive plan for our failing system and for families trying to discern the way forward. The fruit of a lifetime of expertise and a global quest for answers, *Healing* is a hopeful, actionable account and achievable vision for us all in this time of mental health crisis.

the doctor healing wellness: How to Do the Work Dr. Nicole LePera, 2021-03-09 #1 NEW YORK TIMES BESTSELLER · INSTANT INTERNATIONAL BESTSELLER From Dr. Nicole LePera, creator of the holistic psychologist—the online phenomenon with more than two million Instagram followers—comes a revolutionary approach to healing that harnesses the power of the self to produce lasting change. As a clinical psychologist, Dr. Nicole LePera often found herself frustrated by the limitations of traditional psychotherapy. Wanting more for her patients—and for herself—she began a journey to develop a united philosophy of mental, physical and spiritual wellness that equips people with the interdisciplinary tools necessary to heal themselves. After experiencing the life-changing results herself, she began to share what she'd learned with others—and soon “The Holistic Psychologist” was born. Now, Dr. LePera is ready to share her much-requested protocol with the world. In *How to Do the Work*, she offers both a manifesto for SelfHealing as well as an essential guide to creating a more vibrant, authentic, and joyful life. Drawing on the latest research from a diversity of scientific fields and healing modalities, Dr. LePera helps us recognize how adverse experiences and trauma in childhood live with us, resulting in whole body dysfunction—activating harmful stress responses that keep us stuck engaging in patterns of codependency, emotional immaturity, and trauma bonds. Unless addressed, these self-sabotaging behaviors can quickly become cyclical, leaving people feeling unhappy, unfulfilled, and unwell. In *How to Do the Work*, Dr. LePera offers readers the support and tools that will allow them to break free from destructive behaviors to reclaim and recreate their lives. Nothing short of a paradigm shift, this is a celebration of empowerment that will forever change the way we approach mental wellness and self-care.

the doctor healing wellness: Mind Over Medicine Lissa Rankin, M.D., 2013-05-07 We've been led to believe that when we get sick, it's our genetics. Or it's just bad luck—and doctors alone hold the keys to optimal health. For years, Lissa Rankin, M.D., believed the same. But when her own health started to suffer, and she turned to Western medical treatments, she found that they not only failed to help; they made her worse. So she decided to take matters into her own hands. Through her research, Dr. Rankin discovered that the health care she had been taught to practice was missing something crucial: a recognition of the body's innate ability to self-repair and an appreciation for how we can control these self-healing mechanisms with the power of the mind. In an attempt to better understand this phenomenon, she explored peer-reviewed medical literature and found evidence that the medical establishment had been proving that the body can heal itself for over 50 years. Using extraordinary cases of spontaneous healing, Dr. Rankin shows how thoughts, feelings, and beliefs can alter the body's physiology. She lays out the scientific data proving that loneliness, pessimism, depression, fear, and anxiety damage the body, while intimate relationships, gratitude, meditation, sex, and authentic self-expression flip on the body's self-healing processes. In the final section of the book, you'll be introduced to a radical new wellness model based on Dr. Rankin's scientific findings. Her unique six-step program will help you uncover where things might be out of whack in your life—spiritually, creatively, environmentally, nutritionally, and in your professional and personal relationships—so that you can create a customized treatment plan aimed at bolstering

these health-promoting pieces of your life. You'll learn how to listen to your body's whispers before they turn to life-threatening screams that can be prevented with proper self-care, and you'll learn how to trust your inner guidance when making decisions about your health and your life. By the time you finish *Mind Over Medicine*, you'll have made your own Diagnosis, written your own Prescription, and created a clear action plan designed to help you make your body ripe for miracles.

the doctor healing wellness: Faith & Wellness R. J. Rushdoony, 2016-12-27 Abortion, Euthanasia. Socialized Healthcare. Statist regulations. Quackery. Addiction. These are the modern symptoms of a disease that has infected Western medicine for thousands of years: the disease of humanism. In a series of thirteen Medical Reports, R. J. Rushdoony traced the Christian and pagan roots of Western medicine in history, and demonstrated how humanist thought has produced vicious fruit in both modern medical practices and in the expectations of patients. How do we heal the medical profession? Rushdoony understood that finger-pointing will not solve our problems. Because the plague of humanism will inevitably lead to death and no wellness, it is the responsibility of the Church - and the Christian medical professionals with her - to develop a thoroughly Biblical theology of medicine and to teach it. Rushdoony lays foundations for this by explaining the connection between salvation and healing, establishing the vital importance of treating the whole man (body and spirit), and renewing the vision for doctors to embrace their priestly callings. This is an essential read for anyone who wants to reform health care. This paperback books includes all the Medical Reports once part of the *Roots of Reconstruction*.

the doctor healing wellness: *Dr. Judith Orloff's Guide to Intuitive Healing* Judith Orloff, 2012-05-09 Through 5 practical steps, Dr. Judith Orloff's guide will show you how to recapture, nurture, and affirm your intuitive ability, so that you can utilize it to help heal yourself. In her groundbreaking book, Dr. Orloff leads readers to the heart of a radical revolution in health care: the union of medicine and intuition, of body, mind, and soul. Intuition plays an indispensable role in self-diagnosis, pain control, immune response, and recovery from acute and chronic illness; it can lead you to breakthroughs in anxiety, panic, depression, and other emotional blockages, even when traditional psychotherapy has failed. Intuition also offers insights into the use of medications and the selection of the right healer for your needs. Further, it is integral for sexual healing, since sexuality is a potent connector and energy source for clarifying spirituality and improving vitality. With Dr. Orloff's five practical steps, you'll learn to clarify your beliefs, listen to your body's messages, access inner guidance, sense subtle energy, and interpret your dreams. Practicing the steps, you'll recognize early warning signals and act on them to help prevent illness. You'll have skills to uncover important information from meditation and remote viewing (a way of intuitively tuning in) to make sense of confusing signals. The insights you'll gain from these tools will lend reason, compassion,

and meaning to events such as illness, loss, or despair. Following Dr. Orloff's simple, clear instructions, illustrated with examples from her own experience and psychiatric practice, you'll recapture a sense of vision that will bring vibrance to all that you do. Our intuition can open us up to our spirituality and show us how to be more healthy and whole, writes Dr. Orloff. If you're in good health, you'll want to know about intuition because it can help you stay well and recognize messages that prevent illness. If you or your loved ones need healing, you'll also want intuition to show the way. Written with abundant warmth, humor, and compassion, this guide is your companion to a healthier, more fulfilling life.

the doctor healing wellness: Conscious Health Davisson Edmond M.D., 2021-06-29 You can have all the money in the world but ask yourself this: What's the point of having wealth if you don't have your health? In everything you do, it is imperative to put your health first. It should be the one nonnegotiable in everyday life. Strong health is the foundation of any responsible living—and once you have it, you can conquer anything. Davisson Edmond, a board-certified family medicine physician, focuses on how mind, body, and spirit interact to play a role in our health. Learn how to: • cultivate a mindset that enables you to overcome challenges; • build awareness of the conscious and subconscious mind; • take actions that will produce the results you want. It is time that we stop ignoring the connections between mind, body, and spirit when it comes to health. We need to approach the individual as a whole: mind, body, and spirit. It is time that we get back on track, back on the path set by Hippocrates, who argued that disease was not a punishment inflicted by the gods but rather the product of environmental factors, diet, and living habits.

the doctor healing wellness: Wellness East & West Kathleen F. Phalen, 2012-10-23 In *Wellness East & West: Achieving Optimum Health through Integrative Medicine*, Kathleen F. Phalen explores the blending of the most effective aspects of medical practices from both sides of the globe. And it is not in curing but rather in healing discovered through integrating these polar medical practices that leads those suffering to a more peaceful place, a place where the heart is healed. Phalen gives us case studies on survivors of AIDS and ovarian cancer. Yoga, guided imagery, and meditation are combined with a daily dose of medication or a weekly session of chemotherapy to provide healing beyond what western medicine alone can offer. Kathleen masterfully joins the hemispheres by revealing the herbs and diet to ease everything from the common cold to cancer. Practical as well as informative, Phalen urges us to be active participants in our own health care. Here you can learn how to take your superficial and deep pulse to discover the efficiency of your organs. To gain further insight into your condition, read the color of your tongue. Most importantly, return to the basics of looking, listening and feeling to lead you and your physician to diagnosis and treatment.

the doctor healing wellness: Maximize Your Healing Power Sharon E. Martin, 2023-05-23

Bridging the mystical and the scientific for Maximum Medicine • Shows how applying shamanic and energy medicine techniques alongside allopathic medicine can shift your health and allow you to increase your life force • Reveals how to sense the energy body in order to understand imbalances and develop greater control over your health • Looks at new ways of viewing health challenges and visualizing the potential for healing using symbolic medicine wheels and the Andean symbol of the Chacana For more than 20 years, Dr. Sharon E. Martin has been blending allopathic medicine with ancient shamanic knowledge to help her patients not only heal but also increase their vitality. In this practical guide to her Maximum Medicine program, Dr. Martin shows how understanding the energetics behind health imbalances and applying shamanic and energy medicine techniques can shift not only our perspective but our health, change the course of illness, and allow us to increase our life force. Bridging the mystical and the scientific, Maximize Your Healing Power helps us visualize our potential for healing using symbolic medicine wheels based on the elements, the compass directions, the four perspectives, and the inner tasks of intuitive exploration, amplification, intention setting, and ritual. Viewing our organ systems through the Andean symbol of the Chacana can help us understand and overcome health challenges. Change and healing is enacted through the process of the Four As—become aware, allow, act, affirm—with a new mindfulness matrix amplifying and deepening the process toward a greater ability to self-reflect. Presenting a clear, stepwise approach to attaining mastery of your health through many case studies as well as simple practices and methods to gain control over illness, Dr. Martin shows how anyone can support their own healing and experience being more fully alive.

the doctor healing wellness: The Creation of Health Caroline Myss, C. Norman Shealy, M.D., 2009-09-23 A collaboration between a traditionally trained physician and a medical intuitive, The Creation of Health illuminates the deep connection between emotional dysfunction and physical illness. It describes the role that emotional disturbances play in the most common diseases and ailments from the common cold to arthritis, diabetes, heart disease, and cancer. After providing an introduction to intuitive medicine and its history, method of diagnosis, and relationship to traditional medicine, Myss and Shealy detail the deeper emotional and psychic reasons why illness develops in the body. Dr. Shealy offers a traditional account of a particular disease or ailment, while Dr. Myss sheds light on the deeper causes through her corresponding energy analysis. Confirming the link between illness and emotion, The Creation of Health puts forth a groundbreaking vision of holistic healing.

the doctor healing wellness: *Hope and Health through Dela's Wellness: Overcoming Chronic Illnesses such as Cancer, Obesity, and Cardiovascular Disease* Dela Williamson, HHP, CHC, 2014-11-24 Many people don't know that to achieve health and wellness, it takes much more than eating healthy and exercising; we need to look at the different dimensions of health that affect our well-being, Williamson says. In her book, she discusses these aspects of well-being as well as information about how sleep, food and stress affect a person's overall health. She also points out how different healing modalities can work together. Don't give up. There's hope. Readers of this book will find themselves joining Dela's insightful journey through her experiences with cancer. This book is more about the journey and the choices we can make along that journey. The book covers a broad spectrum of important healthy living related topics, and its spirit pays homage to the fundamental holistic principle that has been echoed throughout the ages: In living nature, the whole is more (or different) than the sum of its parts. Dr. Rainer Diriwächter, CLU

the doctor healing wellness: Consumer Health & Integrative Medicine: A Holistic View of Complementary and Alternative Medicine Practices Linda Baily Synovitz, Karl L. Larson, 2018-10-01 Today, being a health consumer encompasses more than being knowledgeable about traditional medicine and health practice but also includes the necessity to be well informed about the expanding field of complementary and alternative medicine. *Consumer Health and Integrative Medicine: Holistic View of Complementary and Alternative Medicine Practices*, Second Edition was written to expand upon the many alternative modalities that many other consumer health texts overlook. It includes chapters on the major alternative medicine systems and healing modalities, including Ayurvedic medicine, traditional Chinese medicine, naturopathy, homeopathic medicine, chiropractic medicine, massage, reflexology, and herbals or botanicals. The authors mission is to increase reader's knowledge base, not make up their mind, as we all make better choices related to our own personal health care practices when we are informed consumers.

the doctor healing wellness: Using Alternative Health Therapies Jacqueline Low, 2004-05-03 This book provides a distinctive sociological inquiry into the perspectives and social issues surrounding the use of alternative therapies. Dr. Low presents the experiences of twenty-one Canadians who use alternative approaches to health care. Her study foregrounds the lay perspective by using a symbolic interactionist approach, which emphasizes individuals' own understanding of reality as a basis for their actions. Dr. Low analyses why the participants in the study came to use alternative therapies; the ideologies informing the models of health and healing they espouse; the impact these beliefs have on them, and the implications of their experiences for Canadian health care policy.
