6. Utilizing Advanced Search Options (if available): Exploring any advanced filtering capabilities offered by the SCC's search portal for more refined results.
7. Potential Challenges and Troubleshooting: Addressing common issues encountered during searches and offering solutions.
8. Alternative Resources for Business Information in Virginia: Highlighting other potential sources of business data if the SCC search proves insufficient.

1. Understanding the Virginia State Corporation Commission (SCC) and its Role

The SCC is the primary agency responsible for regulating businesses in Virginia.

It oversees the registration and licensing of various business entities, maintaining a comprehensive database of registered businesses within the state. This database serves as a crucial resource for individuals and organizations needing information on Virginia companies.

2. Accessing the Online Business Search Portal

Navigate to the Virginia State Corporation Commission (SCC) website.

The official SCC website is the starting point for all business searches. You'll typically find a prominent link or section dedicated to business entity searches, often under a heading like "Business Search," "Corporations," or "Entities."

Locate the business search tool within the SCC website.

Once on the SCC website, look for a clear search bar or interface designed for business lookups. This tool typically allows searches by business name, entity number, or registered agent name.

Follow the on-screen prompts to initiate your search.

The website will guide you through entering your search criteria. Ensure accuracy to avoid inaccurate or incomplete results.

3. Different Search Methods Available

Search by Business Name:

This is the most common method, using the legal name of the business as your search term.

Search by Registered Agent:

If you know the name of the business's registered agent, you can search using this information to find associated businesses.

Search by Entity Number:

If you possess the entity number (a unique identifier assigned to each registered business), this is the fastest and most precise method.

4. Information Retrieved During a Search

Business Name and Type:

The search will reveal the legal name of the entity and its type (e.g., corporation, LLC, partnership).

Registered Agent Information:

Details about the registered agent, including their name and address, will be provided.

Business Address:

The principal business address as registered with the SCC will be displayed.

Status:

The current status of the business (active, inactive, dissolved, etc.) will be indicated, providing crucial information about its operational status.

Filing History:

Access to the business's filing history, including documents like articles of incorporation or organization, may be available for a fee, depending on the level of access permitted.

5. Interpreting Search Results and Understanding Business Status

Active:

Indicates the business is currently registered and in operation.

Inactive:

Suggests the business is temporarily not operating but still maintains its registration.

Dissolved:

This signifies the business has been formally dissolved and is no longer legally operating.

Forfeited:

This generally means the business failed to comply with state requirements (like annual report filings) and has lost its good standing.

6. Utilizing Advanced Search Options (if available)

Some portals offer advanced search filters.

Look for options to narrow your results by date of incorporation, business type, or other relevant criteria to refine your search.

7. Potential Challenges and Troubleshooting

Incorrect Spelling:

Double-check your spelling when entering search criteria. Minor errors can lead to no results.

Outdated Information:

While the SCC strives for accuracy, there might be a slight delay in updating information.

8. Alternative Resources for Business Information in Virginia

Virginia Department of Taxation:

May offer additional financial information about businesses.

County or City Clerk's Offices:

May have local business records.

Conclusion:

The Virginia State Corporation Commission provides a user-friendly platform for conducting effective "va sec of state business search" operations. By understanding the available search methods, interpreting the results accurately, and exploring supplementary resources, you can efficiently gather crucial information on Virginia businesses.

Frequently Asked Questions (FAQs)

Q: Is the SCC business search free?

A: Access to basic search information is typically free, but some detailed filings or historical records may require a fee.

Q: How accurate is the information provided?

A: The SCC strives for accuracy, but it's crucial to remember that information reflects the data submitted by the businesses themselves.

Q: What if I can't find a business using the online search?

A: Try alternative spellings or contact the SCC directly for assistance.

Q: Can I use this information for marketing purposes?

A: Review the SCC's terms of service for guidelines on the permissible use of retrieved information.

va sec of state business search: United States Code United States, 2013 The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted

between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited U.S.C. 2012 ed. As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office--Preface.

va sec of state business search: *Malcolm and Me* Robin Farmer, 2020-11-17 Philly native Roberta Forest is a precocious rebel with the soul of a poet. The thirteen-year-old is young, gifted, black, and Catholic—although she's uncertain about the Catholic part after she calls Thomas Jefferson a hypocrite for enslaving people and her nun responds with a racist insult. Their ensuing fight makes Roberta question God and the important adults in her life, all of whom seem to see truth as gray when Roberta believes it's black or white. An upcoming essay contest, writing poetry, and reading *The Autobiography of Malcolm X* all help Roberta cope with the various difficulties she's experiencing in her life, including her parent's troubled marriage. But when she's told she's ineligible to compete in the school's essay contest, her explosive reaction to the news leads to a confrontation with her mother, who shares some family truths Roberta isn't ready for. Set against the backdrop of Watergate and the post-civil rights movement era, *Malcolm and Me* is a gritty yet graceful examination of the anguish teens experience when their growing awareness of themselves and the world around them unravels their sense of security—a coming-of-age tale of truth-telling, faith, family, forgiveness, and social activism.

va sec of state business search: Standards for Internal Control in the Federal Government United States Government Accountability Office, 2019-03-24 Policymakers and program managers are continually seeking ways to improve accountability in achieving an entity's mission. A key factor in improving accountability in achieving an entity's mission is to implement an effective internal control system. An effective internal control system helps an entity adapt to shifting environments, evolving demands, changing risks, and new priorities. As programs change and entities strive to

improve operational processes and implement new technology, management continually evaluates its internal control system so that it is effective and updated when necessary. Section 3512 (c) and (d) of Title 31 of the United States Code (commonly known as the Federal Managers' Financial Integrity Act (FMFIA)) requires the Comptroller General to issue standards for internal control in the federal government.

va sec of state business search: Directory of Business Information Lawrence Rasie, 1995-06-02 It is one of the great ironies of the Information Age: we know a vast ocean of information now lies open to us, but it's all 'out there' somewhere; in fact, information often seems less accessible than ever before. And in business, where important judgments, decisions, and opportunities ride on timely access to crucial information, the irony becomes painful. Now, with the Directory of Business Information, businesspeople can access the vital information they need quickly and directly. Written by business journalist Lawrence Rasie, this valuable guide describes thousands of sources of information—and then links them directly to business databanks. It includes a framework of information on major industries and companies to help you narrow your search to the specific data you need. It also provides a network of sources for business research in any part of the country—without leaving your home, office, or school. The Directory of Business Information is divided into four major parts: Part 1 describes general sources of business information, including printed sources, online databases, CD ROM databases, microfilm, and telephone sources. Here you'll find a wealth of good starting points for your research: broad indexes to business news and trends, comprehensive directories for industries and companies, yearbooks, business newspapers and periodicals, major business broadcasts, and major business databases. Part 2 helps you focus in on three essential business topics: the economy, industries, and leading companies. In this part, which in itself would be worth the price of the book, the author summarizes the current status and future prospects of 350 major industries and the top 2,500 companies in those industries—complete with addresses, phone numbers, and approximate sales levels. Sources for further research include specialized indexes, periodicals, trade associations, and more. Part 3 opens up sources on specific business topics and functions, including new and small businesses, international business, and the federal government, among others. Part 4 shows you how to get valuable state and regional information, including—for each state—a description of its economy, key government offices, data centers and libraries, local publications, and a list of its largest companies and largest in-state employers. To make it even easier to use, the Directory of Business Information is supported by thorough, carefully prepared indexes, and by the inclusion of thousands of phone numbers of business experts in government, corporations, industry associations, publications, and libraries. For anyone involved with business in the United States—executives, investors, salespeople, librarians, and researchers—the Directory of Business Information is indispensable: it's the first place to look. Quick Access to All the Business Information You Need Lawrence Rasie's Directory of Business Information gives anyone doing business research quick and direct access to vast amounts of information in all media. Based on sources developed during the author's twelve years as a business journalist, the Directory: Describes major sources of business information in the United States, including online databases, CD ROM sources, periodicals, newspapers, and broadcasts, and shows you how to access them easily Summarizes the current status and future prospects of 2,500 top companies in 350 industries—complete with names, addresses, phone numbers, and sales levels. Over 10,000 sources in all Opens new sources of information for specialized topics, such as new and small businesses, international business, and the federal government Provides key information and sources for each of the 50 states—allows you to research state and regional business environments without having to travel there Is thoroughly and carefully indexed for greater efficiency—a feature not found in many other, more expensive business reference books Business executives, market researchers, investors, librarians, entrepreneurs, students, and other professionals—anyone who needs immediate access to business information will find the Directory of Business Information an indispensable time and money-saving resource.
