village creek wellness and rehabilitation photos: Every Man Did His Duty Wayne D. Jorgenson, 2012 The First Regiment Minnesota Volunteer Infantry was the first volunteer regiment offered in service to President Lincoln after the fall of Ft. Sumter. Men and boys attended patriotic rallies throughout the young state and signed their names to papers that pledged they would answer the president's call. They were strong men, toughened by rugged pioneer life, and in the next three years they drew on that strength time and again. The men of the First Minnesota served in nearly every major battle in the eastern campaign with the Army of the Potomac and were frequently cited for their professional conduct in the field and for their bravery--nowhere more so than at the Battle of Gettysburg, where their harrowing sacrifice saved the Union from defeat and helped turn the tide of the war. *Every Man Did His Duty* tells the individual stories of over a hundred men who served in the First Minnesota, from the regiment's commanders to its courageous, young privates. Each story includes a photograph of the soldier, allowing readers to put a face to the actions and history of the man. The included stories are a mix of courage, tragedy, and humor. Some men left the service for successful careers and loving families, whereas others were broken in their bodies and minds and Wayne Jorgenson's descriptions of the war's many ways of wounding sharpens our understanding of these soldiers' sacrifice, offering a worthy tribute to their valor--Jacket.

village creek wellness and rehabilitation photos: Health and Wellness Tourism Melanie K. Smith, László Puczkó, 2009 *Health and Wellness Tourism* takes an innovative look at this rapidly growing sector of today's thriving tourism industry. This book examines the range of motivations that drive this diverse sector of tourists, the products that are being developed to meet their needs and the management implications of these developments. A wide range of international case studies illustrate the multiple aspects of the industry and new and emerging trends including spas, medical wellness, life-coaching, meditation, festivals, pilgrimage and yoga retreats. The authors also evaluate marketing and promotional strategies and assess operational and management issues in the context of health and wellness tourism. This text includes a number of features to reinforce theory for advanced students of hospitality, leisure and tourism and related disciplines.

village creek wellness and rehabilitation photos: Architecture for Psychiatric Environments and Therapeutic Spaces E. Chrysikou, 2014-12-18 Therapeutic architecture can be described as the people-centered, evidence-based discipline of the built environment, which aims to identify and support ways of incorporating those spatial elements that interact with people physiologically and psychologically into design. Architecture is an important factor in people's lives when they are well; when they experience ill-health and are less able to cope it becomes even more important. This book explores the design of specialized residential architecture for people with mental health problems. It sets out to show how building design can support medical and health related procedures and practices, leading to better therapeutic outcomes and an enhanced quality of life. Based on almost two decades of research, it aims to understand how architectural design interacts with the therapeutic milieu, the care programs, and actually living in the spaces. The book is divided into two main parts covering theory and research. Part one consists of three chapters: a brief introduction to old practices, current medical psychosocial and architectural thinking, and alternative thinking. Part two explores the research and conclusions derived from fieldwork. This book provides a fascinating insight into the effect that architectural design can have on all of us, but particularly on those with mental health problems. Dr. Evangelia Chrysikou explains the many aspects of mental health and its relation to the quality of the built environment and I strongly recommend this very enjoyable book to

anyone who would like to find out more about this important topic. - Prof. Alan Dilani, Ph.D. , International Academy for Design and Health This book provides important, evidence-based data that will help to drive the design of new and refurbished psychiatric facilities and will no doubt become a highly-regarded resource for medical planners and architects. - Jo Makosinski , Editor, Building Better Healthcare

village creek wellness and rehabilitation photos: Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

village creek wellness and rehabilitation photos: Wellness Centers Joan Whaley Gallup, 1999-04-26 Bringing together the best aspects of ambulatory care, complementary medicine, and fitness clubs under one roof, wellness centers are poised to become an essential vehicle of healthcare delivery for the 21st century. Although wellness-based programs have been instituted by

nearly every hospital system in North America, very little has been published on this rapidly emerging building type. *Wellness Centers* enables design professionals and others to understand the fitness and healthcare requirements of these facilities, and to address them effectively in their work. Providing essential insights into balancing the healthcare and retail demands of wellness centers, Joan Whaley Gallup reviews every step of the planning and development process, addressing project assessment, financing, programming, and marketing. She draws on her extensive expertise in creating wellness centers to cover a full range of development and design considerations, including design guidelines for lobby/waiting areas, clinical space, administrative areas, pools, saunas, and indoor gardens. Finally, an inspiring project portfolio profiles an impressive roster of successful wellness centers from around the world. With useful information on code compliance, plus floor plans, schematic designs, and more, this book is a vital professional resource for anyone involved in wellness center design, planning, or management. The wellness center is the most positive, nurturing, life-affirming building type ever to evolve in the history of healthcare facilities design. . . . By turning inside out the trends of past centuries, we can now focus on wellness. We can create buildings that will nurture and sustain us, healing environments that will serve to support happy, life-enhancing activities. Centers for wellness are centers for life.-from the Preface

The first book of its kind, *Wellness Centers* offers design professionals and others complete cutting-edge coverage of these complex new facilities, from planning and development issues to design guidelines and case examples of successful wellness centers from around the world. Written by an architect with extensive experience in the field, this book provides a firm foundation in wellness center design, planning, and management-essential reading for anyone involved in this rapidly growing area of healthcare design.

village creek wellness and rehabilitation photos: *Defending Air Bases in an Age of Insurgency* Shannon Caudill, Air University Press, 2014-08 This anthology discusses the converging operational issues of air base defense and counterinsurgency. It explores the diverse challenges associated with defending air assets and joint personnel in a counterinsurgency environment. The authors are primarily Air Force officers from security forces, intelligence, and the office of special investigations, but works are included from a US Air Force pilot and a Canadian air force officer. The authors examine lessons from Vietnam, Iraq, Afghanistan, and other conflicts as they relate to securing air bases and sustaining air operations in a high-threat counterinsurgency environment. The essays review the capabilities, doctrine, tactics, and training needed in base defense operations and recommend ways in which to build a strong, synchronized ground defense partnership with joint and combined forces. The authors offer recommendations on the development of combat leaders with the depth of knowledge, tactical and operational skill sets, and counterinsurgency mind set necessary to be effective in the modern asymmetric battlefield.

Often compared to the Kennedy clan because of the tragedies and scandals that had befallen both wealthy and powerful families, This book, based on scores of exclusive, candid, on-the-record interviews, reveals how the dynasty's vast fortune was both intoxicating and toxic through the generations of a family that gave the world Band-Aids and Baby Oil. At the same time, they have been termed perhaps the most dysfunctional family in the Fortune 500.

village creek wellness and rehabilitation photos: *Biology Education for Social and Sustainable Development* Mijung Kim, C. H. Diong, 2012-10-20 In an era of globalization and urbanization, various social, economic, and environmental challenges surround advances in modern biological sciences. Considering how biological knowledge and practice are intrinsically related to building a sustainable relationship between nature and human society, the roles of biology education need to be rethought to respond to issues and changes to life in this biocentury. This book is a compilation of selected papers from the Twenty Third Biennial Conference of the Asian Association for Biology Education 2010. The title, Biology Education for Social and Sustainable Development, demonstrates how rethinking and reconstruction of biology education in the Asia-Pacific region are increasingly grounded in deep understandings of what counts as valuable local knowledge, practices, culture, and ideologies for national and global issues, and education for sustainable development. The 42 papers by eminent science educators from Australia, China, Philippines, Singapore, Taiwan, and the U.S., represent a diversity of views, understandings, and practices in biology education for sustainable development from school to university in diverse education systems and social-cultural settings in the Asia-Pacific region and beyond. The book is an invaluable resource and essential reference for researchers and educators on Asian perspectives and practices on biology education for social and sustainable development.

village creek wellness and rehabilitation photos: *Make It Zero* Mary Frances Bowley, 2015-12-22 When we correct the factors that keep children at risk, we can make a difference in the lives of those children and the adults they'll grow up to be.— Mary Frances Bowley Children are meant to imagine bright futures and chase them. But for the millions of at-risk children in America, hope is lost in the heavy fog of trauma. Make It Zero is a call to bring it back. Tying shocking statistics to real stories, Make It Zero explores various forms of childhood vulnerability and offers specific ways for everyone to end them. It reveals the world of opportunity behind a single moment of compassion, and it teaches us that when we help the hopeless dream again, we ourselves come more alive. A book for everyone—moms, dads, teachers, bus drivers, nurses, whomever—it calls us to fulfill our responsibility to children and build a world that is safe for every last one. Each of us is only one person, but one person determined to act is powerful. Moments can multiply into movements and create groundswells of change. Make It Zero is your moment. Be inspired. Be empowered. Help bring hope to every child.

village creek wellness and rehabilitation photos: *Palmetto-Leaves* Harriet Beecher Stowe,

2019-11-10 In 1867, Stowe settled in a small cottage in Mandarin, Florida, overlooking the St. Johns River. She had promised her Boston publisher another novel but was so taken with northeast Florida that she produced instead a series of sketches of the land and the people which she submitted in 1872 under the title *Palmetto Leaves*. Stowe describes life in Florida in the latter half of the 19th century—a tumble-down, wild, panicky kind of life—this general happy-go-luckiness which Florida inculcates. Her idyllic sketches of picnicking, sailing, and river touring expeditions and simple stories of events and people in this tropical winter summer land became the first unsolicited promotional writing to interest northern tourists in Florida.

village creek wellness and rehabilitation photos: *Not Another Second* Ines Newby, 2021-01-11 *Not Another Second* tells the stories of 12 LGBT+ seniors. It details the years they lost to societal constraints, years where they were not able to be their authentic selves or openly express their love. It also tells of the triumphs they experienced over these constraints. This book acknowledges and celebrates the sacrifices, bravery and contributions of these seniors and offers wisdom to future generations in the hopes that not one person will lose another second. LGBT+ seniors born in the 1930s, '40s and '50s are the brave pioneers who stood up and pushed back, refusing to be treated as social outcasts, criminals and sinners or seen as mentally ill. Their living legacy includes hard-won federal rights for LGBT+ members to legally marry, adopt, work and seek housing and health care without discrimination. Now in their sixties, seventies and eighties, the 3 million LGBT+ seniors currently living in the United States want subsequent generations to learn from their living history, to be inspired to stand on their shoulders and to continue to fight for what's right. A collaboration between the trailblazing nonprofit SAGE and Watermark Retirement Communities, this book gives readers a candid glimpse into the private and public lives of Pearl, Nick, Mark, Paul, Paulette, Pat, Lujira, Ellie, Reverend Kennedy, Ronnie, Ray and Richard. They are lesbian, gay, bisexual and transgender. Their generation led the Stonewall Uprising, founded Act Up and helped end don't ask, don't tell. These seniors are presented through a series of more than 100 portraits interspersed with stories of their experiences as members of the LGBT+ community. Each moving portrait, captured by noted German photographer Karsten Thormaehlen, is accompanied by the number of years lost, years when they could not live as their true self beyond their inner circle of trusted friends and family. All proceeds collected from the sale of this book will be donated to Watermark for Kids, a nonprofit organization, in support of LGBT+ young people.

village creek wellness and rehabilitation photos: *The Other End of the Leash* Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates

how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

village creek wellness and rehabilitation photos: *Under Fire with ARVN Infantry* Bob Worthington, 2018-10-10 From 1945 to 1973, more than 100,000 members of the U.S. military were advisors in Vietnam. Of these, 66,399 were combat advisors. Eleven were awarded the Medal of Honor, 378 were killed and 1393 were wounded. Combat advisors lived and fought with South Vietnamese combat units, advising on tactics and weapons and liaising with local U.S. military support. Bob Worthington's first tour (1966-1967) began with training at the Army Special Warfare School in unconventional warfare, Vietnamese culture and customs, advisor responsibilities and Vietnamese language. Once in-country, he acted as senior advisor to infantry defense forces and then an infantry mobile rapid reaction force. Worthington worked alongside ARVN forces, staging operations against Vietcong and North Vietnamese Army units, and coordinated actions with the U.S. Marines. He describes a night helicopter assault by a 320-man ARVN battalion against a 1,200-man NVA regiment. On another night, the Vietcong ceased fire while Worthington arranged a Marine helicopter to medevac a wounded baby.

village creek wellness and rehabilitation photos: *Trauma and Recovery* Judith Lewis Herman, 2015-07-07 In this groundbreaking book, a leading clinical psychiatrist redefines how we think about and treat victims of trauma. A stunning achievement that remains a classic for our generation. (Bessel van der Kolk, M.D., author of *The Body Keeps the Score*). *Trauma and Recovery* is revered as the seminal text on understanding trauma survivors. By placing individual experience in a broader political frame, Harvard psychiatrist Judith Herman argues that psychological trauma is inseparable from its social and political context. Drawing on her own research on incest, as well as a vast literature on combat veterans and victims of political terror, she shows surprising parallels between private horrors like child abuse and public horrors like war. Hailed by the *New York Times* as one of the most important psychiatry works to be published since Freud, *Trauma and Recovery* is essential reading for anyone who seeks to understand how we heal and are healed.
