This technique is more intense than Swedish massage and requires a higher level of pressure.

promote deep relaxation. The warmth of the stones penetrates deep into the tissues, relieving tension and promoting a sense of calm.

1. Sports Massage: Designed specifically for athletes and active individuals, our sports massage helps prevent injuries, reduce muscle soreness, and improve athletic performance. This technique utilizes various techniques to address specific muscle groups and improve flexibility.

vrc massage and wellness: Far Outside the Ordinary Prissy Elrod, 2015-07-20 If anybody had told Prissy, a conservative Southern housewife, she would one day be driving around town with a stoned, drunk black man named Willie in her backseat while she begged--no, ordered--him into her house for the night, she would have told them they were nuts. But it happened. An emotionally honest account, *Far Outside the Ordinary* chronicles the period in Prissy's life when, during a routine physical, her fifty-year-old husband is given less than a year to live. Southern black caregivers move into her home and work around the clock to aid her family. Soon, Prissy finds herself a spectator in her own home, observing events far outside the boundaries of her once ordinary life. *Far Outside the Ordinary* is also a story of happily ever after, a romantic fairy tale. When her high school boyfriend reappears in her life, Prissy learns love has no expiration date. Sometimes a second chance at love can come disguised, and when least expected.

vrc massage and wellness: *The Good Psychologist* Noam Shpancer, 2010-08-03 Noam Shpancer portrays the oft-hidden world of psychotherapy with unparalleled authenticity, compassion, and wit . . . An astonishing debut.—Jonathan Kellerman Noam Shpancer's stunning debut novel opens as a psychologist reluctantly takes on a new client—an exotic dancer whose severe anxiety is keeping her from the stage. The psychologist, a solitary professional who also teaches a lively night class, helps the client confront her fears. But as treatment unfolds, her struggles and secrets begin to radiate onto his life, upsetting the precarious balance in his unresolved relationship with Nina, a married former colleague with whom he has a child—a child he has never met. As the shell of his detachment begins to crack, he suddenly finds himself too deeply involved, the boundary lines between professional and personal, between help and harm, blurring dangerously. With its wonderfully distinctive narrative voice, rich with humor and humanity, *The Good Psychologist* leads the reader on a journey into the heart of the therapy process and beyond, examining some of the fundamental questions of the soul: to move or be still; to defy or obey; to let go or hold on.
