wareerak hot spring wellness: Byron Hot Springs Carol A. Jensen, East Contra Costa Historical Society, 2006-11 Byron Hot Springs is sometimes called the Carlsbad of the West, after the famed European health spas. The resort hosted the famous, the wealthy, the infirm, and the curious alike during the early 20th century. The 160-acre property, in eastern Contra Costa County near the San Joaquin River, featured three grand hotels designed by renowned San Francisco architect James Reid. Amidst this stylish backdrop were prominent guests in 19th-century finery, early Hollywood royalty, Prohibition entertainments, mineral water cures for various ailments, and secret interrogations of World War II POWs (when it was known as Camp Tracy). wareerak hot spring wellness: Olympic Hot Springs Teresa Schoeffel-Lingvall, 2013 The Olympic Hot Springs served as a destination resort in the Olympic Mountains near Port Angeles, Washington, for 60 years. Andrew Jacobsen is considered the first to discover the springs, nestled 2,100 feet up in the Elwha River valley, in 1892. Today, individuals still hike up the Elwha trail to soak in the earthen pools of mineral water, unaware that years ago it was home to a legendary resort. While on a hunting trip in 1907, Billy Everett, Slim Farrell, and Charlie Anderson rediscovered the springs and began work developing the site of Olympic Hot Springs, hewing logs into wood baths and building a cabin and bathhouse along the hillside. Everett went on to become proprietor of the enterprise, which opened to the public in 1909. In the years to follow, cabins, pools, and lodges were constructed along the hillside above Boulder Creek, and the beloved resort thrived with visitors. In 1940, the resort was annexed into the Olympic National Park, and it was later closed in 1966.

wareerak hot spring wellness: Hot Springs: From Capone to Costello Robert K. Raines, 2013-11-18 In the late 1800s, Hot Springs, Arkansas, was a small town with a big attraction: hot

thermal water. The federal government took possession of the downtown-area springs, and bathhouse row was born, along with the first property that would be considered a national park. Following not too far behind were great entrepreneurs who brought in gambling and prostitution to go with the area's leading industry: moonshining. By the time the 20th century rolled in, Hot Springs was booming with tourists and became America's first resort. In the early 1930s, former New York gangster Owen Madden took up residence in the spa city, and things became very organized. Gangland luminaries from Al Capone to Frank Costello made regular pilgrimages over the next few decades to what was referred to as the loose buckle in the Bible Belt.
