After they both contracted Lyme in 2001, Vir McCoy and Kara Zahl embarked on standard antibiotic protocols. Soon they both began to have intuitive or sensory impressions about specific remedies their bodies needed, the nature of the disease, and why they were chronically ill. Backing up their intuitive impressions with scientific evidence, they developed a protocol that brought them each a full recovery after nearly 10 years battling chronic Lyme. In this medical intuitive approach to Lyme, the authors share their personal Lyme journeys and their integrative healing protocol that bridges the scientific and the spiritual. They explore the peculiarities of Lyme disease, including how Lyme is often misdiagnosed, giving it time to establish itself deep within the body's organs and nervous system, and examine in detail new and standard remedies, with thorough scientific references. They share the spiritual/psychological strategies they successfully employed against Lyme and its coinfections and explain how to increase your sensitivity to what your body is telling you to discover natural remedies and healing actions unique to your individual symptoms. Outlining a program of herbs, diet, and exercise that can work in tandem with traditional Lyme treatments, they also explore how to help the body get rid of this pathogen that possesses an incredible ability to adapt to various treatments and thwart their effectiveness. Expanding beyond Lyme, the authors offer self-help meditations to help you heal on a deeper level and explain how to access the "holographic medicine chest" to draw on for stronger immunity, energetic healing, and support at any time.

wellness formula source naturals: Super Gut William Davis, 2022-02-01 The bestselling author of the Wheat Belly books brings his next big, game-changing idea—how the human microbiome is evolving, and potentially wrecking, our health, and how we can fix it. Because of our highly processed diet, pesticides, and overuse of antibiotics, our guts are now missing so many of the good bacteria that we require to be healthy. As a result, many of us have lost control over our health, weight, mood, and even behavior. The ancient bacteria that keep our digestion moving have been dying, replaced by harmful microbes that don't keep us physically and mentally fit. With cutting-edge research, Dr. Davis connects the dots between gut health and modern ailments. There are entire species of microbes that have disappeared, which creates health issues that were uncommon one hundred, or even fifty, years ago. The result is SIBO (small intestinal bacterial overgrowth), a silent and profound epidemic, which affects one out of three people and is responsible for an astounding range of human health conditions. Super Gut shows us how to eliminate bad bacteria and bring back the "good" bacteria with a four-week plan to reprogram your microbiome. This not only gets to the root of many diseases, but also improves levels of oxytocin (the bonding/happy hormone), brain health, anti-aging, weight loss, mental clarity, and restful sleep. Also included are more than forty recipes, a diet plan, and resources so you can pinpoint your gut issues,

correct them, and maintain your long-term health and well-being.

wellness formula source naturals: The Corona Transmissions Sherri Mitchell, Richard Grossinger, Kathy Glass, 2020-11-17 • Includes contributions from 35 well-known authors, doctors, herbalists, First Nations teachers, economists, astrologers, and others, such as Richard Strozzi-Heckler, Annabel Lee, Matthew Wood, Gabriel Cousens, M.D., Rob Brezсны, and Robert Simmons • All royalties for this book go to the Land Peace foundation, serving First Nations tribes in Maine The pandemic of Coronavirus Disease 2019 (COVID-19) is the biggest event of our lifetimes. This global experience has affected human history, ecology, epidemiology, and supply chains with the suddenness of 9/11, yet with a far greater extent, duration, and toll--the end of which is not yet in sight. Exploring a broad spectrum of new perspectives on COVID-19, from the physical to the metaphysical, from ecological to political, from apocalyptic to proto-utopian, and from scientific facts and health tips to imaginings, visionings, poems, and awakenings, this anthology offers an antidote to the barrage of data and speculation from the mainstream. The 35 contributors, including Laura Aversano, Charles Eisenstein, Zoe Brezсны, Meryl Nass, M.D., Bobby Byrd, and Joel and Michelle Levey, address the virus as a fellow being, allowing it to speak to us and through us. They attempt to describe, understand, interpret, and decipher the virus at biological, serological, epidemiological, social, political, astrological, and ontological levels. The virus is explored in terms of cultural critique, divination, prophecy, warning, elucidation, and opportunity. Medical doctors, herbalists, naturopaths, indigenous healers, and homeopathic physicians tell us about coronavirus history, treatments, and prevention protocols; yoga teachers about cultivating inner balance and harmony; and economists, poets, psychotherapists, and First Nations teachers about the vast effects of the virus and the way forward. They explore how the disease speaks directly and how it meticulously addresses our relationship to Gaia, to its animal, plant, and mineral kingdoms, to each other, and to

the economies and dystopia we have created. As a visionary whole, The Corona Transmissions asks you to respond, to engage your wisdom and creative imagination, to resist easy categorization and resolutions, and to participate in a collective dance and chant for healing, peace, equality, and a habitable future. Viruses do not live except by virtue of us carrying them. We are the living ones and our bodies, minds, hearts, and spirits will prevail.
