women in business conference: Knowledge-Based Dynamic Capabilities Vaneet Kaur, 2019-06-29 This book provides a knowledge-based view to the dynamic capabilities in an organization. The author integrates two existing views on gaining competitive advantage: the Knowledge View which suggests that the capability of organizations to learn faster than competitors is the only source of competitiveness; and the Dynamic Capability View which speculates that a firm's competitive advantage rests on dynamic capabilities which enable a firm to constantly renew the stock of ordinary organizational capabilities in accordance with the changes in the business environment. Using the IT sector in India as a case study, this book provides and tests a new framework--Knowledge-Based Dynamic Capabilities—in the prediction of competitive advantage in organizations.

women in business conference: How Ike Led Susan Eisenhower, 2020-08-11 How Dwight D. Eisenhower led America through a transformational time—by a DC policy strategist, security expert and his granddaughter. Few people have made decisions as momentous as Eisenhower, nor has one person had to make such a varied range of them. From D-Day to Little Rock, from the Korean War to Cold War crises, from the Red Scare to the Missile Gap controversies, Ike was able to give our country eight years of peace and prosperity by relying on a core set of principles. These were informed by his heritage and upbringing, as well as his strong character and his personal discipline, but he also avoided making himself the center of things. He was a man of judgment, and steadying force. He sought national unity, by pursuing a course he called the Middle Way that tried to make winners on both sides of any issue. Ike was a strategic, not an operational leader, who relied on a rigorous pursuit of the facts for decision-making. His talent for envisioning a whole, especially in the context of the long game, and his ability to see causes and various consequences, explains his success as Allied Commander and as President. After making a decision, he made himself accountable for it, recognizing that personal responsibility is the bedrock of sound principles. Susan Eisenhower's How Ike Led shows us not just what a great American did, but why—and what we can learn from him today.

women in business conference: Black Fatigue Mary-Frances Winters, 2020-09-15 This is the first book to define and explore Black fatigue, the intergenerational impact of systemic racism on the physical and psychological health of Black people—and explain why and how society needs to collectively do more to combat its pernicious effects. Black people, young and old, are fatigued, says award-winning diversity and inclusion leader Mary-Frances Winters. It is physically, mentally, and emotionally draining to continue to experience inequities and even atrocities, day after day, when justice is a God-given and legislated right. And it is exhausting to have to constantly explain this to white people, even—and especially—well-meaning white people, who fall prey to white fragility and too often are unwittingly complicit in upholding the very systems they say they want dismantled. This book, designed to illuminate the myriad dire consequences of “living while Black,” came at the urging of Winters's Black friends and colleagues. Winters describes how in every aspect of life—from economics to education, work, criminal justice, and, very importantly, health outcomes—for the most part, the trajectory for Black people is not improving. It is paradoxical that, with all the attention focused over the last fifty years on social justice and diversity and inclusion, little progress has been made in actualizing the vision of an equitable society. Black people are quite literally sick and tired of

being sick and tired. Winters writes that “my hope for this book is that it will provide a comprehensive summary of the consequences of Black fatigue, and awaken activism in those who care about equity and justice—those who care that intergenerational fatigue is tearing at the very core of a whole race of people who are simply asking for what they deserve.”

women in business conference: Know Your Value Mika Brzezinski, 2018-09-25 The bestselling motivational guide that TheAtlantic.com calls a rallying cry for women to get the money they deserve. Why are women so often overlooked and underpaid? What are the real reasons men get raises more often than women? How can women ask for -- and actually get--the money, the job, the recognition they deserve? Prompted by her own experience as cohost of Morning Joe, Mika Brzezinski asked a wide range of successful women to share the critical lessons they learned while moving up in their fields. Power players such as Facebook's Sheryl Sandberg, Senator Elizabeth Warren, Harvard's Victoria Budson, comedian Susie Essman, and many more shared their surprising personal stories. They spoke candidly about why women are paid less and the pitfalls women face -- and play into. Now expanded to address gender dynamics in the #MeToo era, Know Your Value blends compelling personal stories with the latest research on why many women don't negotiate their compensation, why negotiating aggressively usually backfires, and what can be done about it. For any woman who has ever wondered if her desire to be liked can be a liability (yes), if there is a way to reclaim her contribution after it's been co-opted in a meeting (yes), and if there are strategies men use to get ahead that women should too (yes!), Know Your Value provides vital advice to help women be their own best advocates.

women in business conference: Work. Love. Body. Jamila Rizvi, Helen McCabe, 2021-09-15 In 2020, the lives of Australian women changed irrevocably. With insight, intelligence and empathy, Jane Gilmore, Santilla Chingaipe and Emily J. Brooks explore this through the lenses of work, love and body, and ask: Will the Australia of tomorrow be more equal than the one we were born into? Or will women and girls remain left behind? While our country was shrouded in smoke in the early months of 2020, Australian women went about their daily business. They worked, studied, cleaned, did school runs, made meals. And they postponed looking after themselves because life got in the way. Then, in March, Australians were told to lock down. For all the talk of equality, it was primarily women who held the health of our communities in their hands as they took on the essential jobs to care, to nurse and to teach, despite an invisible danger. One year later, women across the country would march on behalf of those who were not safe in workplaces and their own homes. Never before has change been thrust so abruptly on modern Australian women - 2020 impacted our working lives, relationships and our health and wellbeing. And as a growing number of women agitate for change,

it is time to demand what women want. So where do we go from here? One thing is very clear: the future is now, and it is female.

women in business conference: The Loudest Duck Laura A. Liswood, 2009-11-16 Diversity in the workplace is a wonderful thing—but it also challenges many of today's business leaders. For managers and team-members alike, it can be difficult to navigate in a truly diverse workplace made up of people of different cultures, races, creeds, body types, hobbies, genders, religions, styles, and sexual orientations. But understanding our cultural and social differences is a major key to a high-performing, merit-based work environment. The Loudest Duck is a business guide that explores workplace diversity and presents new ideas for getting the most business and organizational benefit from it. In the Chinese children's parable, the loudest duck is the one that gets shot. In America, we like to say that the squeaky wheel gets the grease. Comparing the two, it's easy to see that our different cultures teach us different sets of values, and those values often translate into different ways of doing business that may subtly advantage one culture at work and disadvantage another. In the global marketplace, it's more important than ever that we understand and are conscious of our differences to work together effectively. It is not enough to create Noah's Ark, bringing in two of each kind. We all bring our unconscious beliefs and personal narratives about who we are and who others are with us to work and, with diversity in place, we can no longer ignore them. Truly effective leaders can't pretend that we're all the same or that our preferences and preconceptions don't exist. The Loudest Duck offers a way to move beyond traditional diversity efforts that ignore our differences and toward modern diversity practices that embrace those differences—and profit from them. Diverse organizations require more sophisticated leadership, conscious awareness of diversity issues, new behavioral patterns, and effective tools for reaping the benefits of true diversity. This book will help you develop the skills you need and the tools you can use to go beyond what Grandma taught you to make diversity work in your business. More than just an enlightening tale about diversity, The Loudest Duck is a powerful resource for any manager, business owner, team leader, or employee who wants to meet the challenges of the modern heterogeneous workplace. It's not simply about accepting others—it's about ensuring a level playing field for everyone and building an organization that gets the best from all its people.

You'll consider new ways of leading others, with a strong emphasis on tactics and strategies employed by successful Elephant and Mouse leaders, including women leaders. The book also includes: Realistic explanations for the slow progress in diversity, equity, inclusion and social justice in society and organizations Examinations of the concept and myths of meritocracy and how to conduct a Meritocracy Stress Test on your firm How organizations often have an illusion of inclusion but find their efforts not creating the inclusive, equitable teams they say they want How safety efforts can provide a roadmap for diversity missions An exploration of both the human interventions and non-human roles of technology in DE&I initiatives, including the use of people analytics to de-bias organizations What tools are needed to go beyond awareness of unconscious bias to de-bias processes and what traits the new Elephant and Mouse leader has An indispensable resource for managers, executives, and other business leaders who seek to recreate truly diverse, inclusive, and equitable organizations, The Elephant and the Mouse is also a must-read for human resources professionals, individuals who want successful careers in diverse teams, and anyone involved in the hiring, retaining, and promoting processes. This book offers a way to move beyond traditional diversity efforts towards more modern practices that embrace—and profit from—the differences between people.

women in business conference: Grit Angela Duckworth, 2016-05-03 In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-geniuses everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among *Grit*'s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

In the wake of the coronavirus pandemic and a pandemic of racial injustice that together shook our world to its core and revealed deep fault lines in our culture, Gloria Feldt, New York Times best-selling author, speaker, commentator, international leadership expert, successful CEO, and feminist icon, shows how we can seize the once-in-a-lifetime opportunity created by massive disruption to build back stronger with diverse women at the center of the recovery. In *Intentioning: Sex, Power, Pandemics, and How Women Will Take The Lead for (Everyone's) Good*, Feldt inspires diverse women to embrace their personal power to lead with intention, confidence, and joy. It comes as no surprise to her that women flexed their formidable muscles when needed most, representing a disproportionate number of essential workers during the darkest days of the coronavirus global outbreak and leading the charge against racism in the United States. But this book is decidedly about the future, taking the leadership lessons learned from this disruption and creating a better world for all. Feldt not only unveils the next step in advancing gender parity in all spheres of business and life, but she also lays out the vital next steps in the overall advancement of our economy and our civilization. The "Lead Like a Woman" framework and the "9 Leadership Intentioning Tools" she presents in this book will prepare, motivate, and propel women of all diversities and intersectionalities now so that by 2025, women will have attained their fair and equal share of leadership positions across all sectors of industry and society. women in business conference: *The Fix* Michelle P. King, 2020-03-03 In the vein of #Girlboss and *Nice Girls Don't Get the Corner Office*, discover how to thrive at work from the head of the Global Innovation Coalition for Change at UN Women with this "passionate, practical roadmap for addressing inequality and finally making our workplaces work for women" (Arianna Huffington). For years, we've been telling women that in order to succeed at work, they have to change themselves first—lean in, negotiate like a man, don't act too nice or you'll never get the corner office. But after sixteen years working with major Fortune 500 companies as a gender equality expert, Michelle King has realized one simple truth—the tired advice of fixing women doesn't fix anything. The truth is that workplaces are gendered; they were designed by men for men. Because of this, most organizations unconsciously carry the idea of an "ideal worker," typically a straight, white man who doesn't have to juggle work and family commitments. Based on King's research and exclusive interviews with major companies and thought leaders, *The Fix* reveals why denying the fact that women are held back just because they are women—what she calls gender denial—is the biggest obstacle holding women back at work and outlines the hidden sexism and invisible barriers women encounter at work every day. Women who speak up are seen as pushy. Women who ask for a raise are seen as difficult. Women who spend hours networking don't get the same career benefits as men do. Because women don't look like the ideal worker and can't behave like the ideal worker, they are passed over for promotions, paid less, and pushed out of the workforce, not because they aren't good enough, but because they aren't men. In this fascinating and empowering book, King outlines the invisible barriers that hold women back at all stages of their careers, and provides readers with a clear set of takeaways to thrive despite the sexist workplace, as they fight for change from within. Gender equality is not about women, and it is not about men—it is about making workplaces work for everyone. Together, we can fix work, not women.

Successful entrepreneur Julia Pimsleur provides an invaluable guide for any woman who wants to make a big jump” (Gretchen Rubin, author of *Better Than Before* and *The Happiness Project*). Over the past twenty years, women in the US have started nearly twice as many businesses as men, but only three percent of all women business owners ever make revenues of one million dollars or more. Most are stuck running kitchen-table businesses, just getting by, or in many cases, running out of cash. Julia Pimsleur aims to change that with *Million Dollar Women*, which will show you how to take your business to that million-dollar mark and beyond. *Million Dollar Women* introduces you to Pimsleur and seven other women who have raised capital, developed powerful networks, and built multimillion-dollar companies from scratch. It teaches you the concepts and the vocabulary you need to secure funding and scale up. It explains how to make the right connections, when to delegate, and when to seek coaching and support. Drawing on her own experience of becoming a CEO, Pimsleur also provides help for overcoming the hurdles you have to clear to leap to that next level. “With thought-provoking interviews of women entrepreneurs and other business experts and important exercises at the end, this resourceful book is rich in ideas and valuable insight” (Booklist).

women in business conference: *Divided We Stand* Marjorie J. Spruill, 2018-08-28 The fascinating true story of the characters in Hulu's *Mrs. America* and a broader portrait of the two women's movements that spurred an enduring rift between liberals and conservatives. The many admirers of 'Mrs. America' . . . will find great satisfaction in [*Divided We Stand*] . . . a clear, compelling and deeply insightful volume. —The Washington Post One of Smithsonian Magazine's Ten Best History Books of the Year In the early 1970s, an ascendant women's rights movement enjoyed strong support from both political parties and considerable success, but was soon challenged by a conservative women's movement formed in opposition. Tensions between the two would explode in 1977 at the congressionally funded National Women's Conference in Houston, Texas. As Bella Abzug, Gloria Steinem, and other feminists endorsed hot-button issues such as abortion rights, the ERA, and gay rights, Phyllis Schlafly and Lottie Beth Hobbs rallied with conservative women to protest federally funded feminism and launch a pro-family movement. *Divided We Stand* reveals how crucial women and women's issues have been in the shaping of today's political culture. After the National Women's Conference, Democrats continued to back women's rights in cooperation with a more diverse feminist movement while the GOP abandoned its previous support for women's rights and defined itself as the party of family values, irrevocably affecting the course of American politics.

women in business conference: Positive Organizational Scholarship Kim Cameron, Jane Dutton, 2003-08-09 Scholarship establishes a new field of study in the organizational sciences. Just as positive psychology focuses on exploring optimal individual psychological states rather than pathological ones, Positive Organizational Scholarship focuses attention on optimal organizational states --- the dynamics in organizations that lead to the development of human strength, foster resiliency in employees, make healing, restoration, and reconciliation possible, and cultivate extraordinary individual and organizational performance. While the concept of positive organizational scholarship encompasses the examination of typical and even dysfunctional patterns of behavior, it emphasizes positive deviance from expected patterns. Positive Organizational Scholarship examines the enablers, motivations, and effects associated with remarkably positive phenomena --- how they are facilitated, why they work, how they can be identified, and how researchers and managers can capitalize on them. The contributors do not adopt one particular theory or framework but draw from the full spectrum of organizational theories to understand, explain, and predict the occurrence, causes, and consequences of positivity. Positive Organizational Scholarship rigorously seeks to understand what represents the best of the human condition based on scholarly research and theory. This book invites organizational scholars to build upon and extend the positive organizational phenomena being examined. It provides the definitional, theoretical, and empirical foundations for what will become a cumulative body of enduring work.

women in business conference: Dare to Lead Brené Brown, 2018-10-09 #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she’s showing us how to put those ideas into practice so we can step up and lead. Don’t miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don’t pretend to have the right answers; we stay curious and ask the right questions. We don’t see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don’t avoid difficult conversations and situations; we lean into vulnerability when it’s necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we’re choosing not to invest in

developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

women in business conference: Big Potential Shawn Achor, 2018-01-30 "With cutting-edge research, penetrating insights, and practical examples, Shawn Achor describes a new conception of 'success,' and in doing so, reveals exciting new strategies we can use to meet our highest potential."—Gretchen Rubin, bestselling author of *The Happiness Project* "A vibrant book on how to bring out the best in others—and how they can bring out the best in us."—Adam Grant, #1 New York Times bestselling author of *Think Again* and host of the podcast *WorkLife* In a world that thrives on competition and individual achievement, we're measuring and pursuing potential incorrectly. Pursuing success in isolation—pushing others away as we push ourselves too hard—not only limits our potential but makes us more stressed and disconnected than ever. Harvard-trained researcher Shawn Achor reveals a better approach. With exciting new research combining neuroscience and psychology with Big Data, Achor shows that our potential is not limited by what we alone can achieve. Instead, it is determined by how we complement, contribute to, and benefit from the abilities and achievements of people around us. When we—as individuals, leaders, and parents—chase only individual achievement, we leave vast sources of potential untapped. But once we put "others" back into the equation, and work to make others better, we ignite a Virtuous Cycle of cascading successes that amplify our own. The dramatic shifts in how we approach work today demand an equally dramatic shift in our approach to success. In *Big Potential*, Achor draws on cutting-edge original research as well as his work with nearly half of the Fortune 100 and with places like NASA, the NFL and the NBA, and offers a new path to thriving in the modern world.

women in business conference: Take the Lead Betsy Myers, John David Mann, 2011-09-13 "Why is it that some people challenge us and motivate us to rise to our best abilities, while others seem to drain our energy and spirit? What is that particular quality certain people have that causes those around them to engage fully and feel connected?" You are a leader. You do not need to be in a boardroom, on a battlefield, or on a ballot to have a profound impact on everyone around you. In this life-changing book, Betsy Myers—senior adviser to two US presidents and former executive director of Harvard's Center for Public Leadership—demonstrates how each of us has opportunities to take the lead every day and shares seven core principles that will enable us to be more productive, engaged, and successful. From the Oval Office to the playground, cabinet meetings to kitchen tables, in public life and private, Betsy Myers has seen firsthand the emergence of a new leadership model

where having all the answers up front is less important than asking the right questions, where strength is derived less from the power you wield than from how you make the people around you feel. With personal stories from her time in government, in academia, and on the campaign trail, as well as her experiences as a wife, daughter, and mother, Myers helps all of us learn to set the right priorities for ourselves; to connect on a deeper level with the people around us; to uncover problems early when they are still easy to fix; to collaborate with those whose points of view are different from our own; and to push through our fears and live our most authentic lives. Myers demonstrates that more than simply making people feel good, this kind of leadership can have a profound effect on the results achieved: it is how initiatives are launched, profits are made, and work gets done. Personal, practical, and profoundly inspiring, *Take the Lead* is a book for anyone who wonders where all the great leaders have gone. Betsy Myers helps us see that true leadership is all around us—and within us.

women in business conference: Speaking of Race Celeste Headlee, 2021-11-02 A Boston Globe Most Anticipated Fall Book In this urgently needed guide, the PBS host, award-winning journalist, and author of *We Need to Talk* teaches us how to have productive conversations about race, offering insights, advice, and support. A self-described "light-skinned Black Jew," Celeste Headlee has been forced to speak about race—including having to defend or define her own—since childhood. In her career as a journalist for public media, she's made it a priority to talk about race

proactively. She's discovered, however, that those exchanges have rarely been productive. While many people say they want to talk about race, the reality is, they want to talk about race with people who agree with them. The subject makes us uncomfortable; it's often not considered polite or appropriate. To avoid these painful discussions, we stay in our bubbles, reinforcing our own sense of righteousness as well as our division. Yet we gain nothing by not engaging with those we disagree with; empathy does not develop in a vacuum and racism won't just fade away. If we are to effect meaningful change as a society, Headlee argues, we have to be able to talk about what that change looks like without fear of losing friends and jobs, or being ostracized. In *Speaking of Race*, Headlee draws from her experiences as a journalist, and the latest research on bias, communication, and neuroscience to provide practical advice and insight for talking about race that will facilitate better conversations that can actually bring us closer together. This is the book for people who have tried to debate and educate and argue and got nowhere; it is the book for those who have stopped talking to a neighbor or dread Thanksgiving dinner. It is an essential and timely book for all of us.

But this fact has been overlooked in most organizations. In this brilliant and strongly argued new book, Sally Helgesen and Julie Johnson demonstrate why "the female vision"—what women notice, what they value, how they connect the dots—constitutes women's most powerful asset in the workplace. Drawing on multiple strands of research, including their own Satisfaction Profile Assessment, they show what companies must do to engage, energize, and support talented women.
