xpress wellness urgent care garden city: *Cloud Atlas (20th Anniversary Edition)* David Mitchell, 2010-07-16 #1 INTERNATIONAL BESTSELLER • A timeless, structure-bending classic that explores how actions of individual lives impact the past, present and future—from a postmodern visionary and one of the leading voices in fiction Featuring a new afterword by David Mitchell and a new introduction by Gabrielle Zevin, author of *Tomorrow, and Tomorrow, and Tomorrow* One of the New York Times's 100 Best Books of the 21st Century • Shortlisted for the International Booker Prize *Cloud Atlas* begins in 1850 with Adam Ewing, an American notary voyaging from the Chatham Isles to his home in California. Ewing is befriended by a physician, Dr. Goose, who begins to treat him for a rare species of brain parasite. The novel careens, with dazzling virtuosity, to Belgium in 1931, to the West Coast in the 1970s, to an inglorious present-day England, to a Korean superstate of the near future where neocapitalism has run amok, and, finally, to a postapocalyptic Iron Age Hawaii in the last days of history. But the story doesn't end even there. The novel boomerangs back through centuries and space, returning by the same route, in reverse, to its starting point. Along the way, David Mitchell reveals how his disparate characters connect, how their fates intertwine, and how their souls drift across time like clouds across the sky. As wild as a video game, as mysterious as a Zen koan, *Cloud Atlas* is an unforgettable tour de force that, like its incomparable author, has transcended its cult classic status to become a worldwide phenomenon.

xpress wellness urgent care garden city: *Menstruation Matters* Bridget J. Crawford, Emily Gold Waldman, 2024-10 Explores the burgeoning menstrual advocacy movement and analyzes how law should evolve to take menstruation into account. Approximately half the population menstruates for a large portion of their lives, but the law is mostly silent about the topic. Until recently, most people would have said that periods are private matters not to be discussed in public. But the last few years have seen a new willingness among advocates and allies of all ages to speak openly about periods. Slowly around the globe, people are recognizing the basic fundamental human right to address menstruation in a safe and affordable way, free of stigma, shame, or barriers to access. *Menstruation Matters* explores the role of law in this movement. It asks what the law currently says about menstruation (spoiler alert: not much) and provides a roadmap for legal reform that can move society closer to a world where no one is held back or disadvantaged by menstruation. Bridget J. Crawford and Emily Gold Waldman examine these issues in a wide range of contexts, from schools to workplaces to prisons to tax policies and more. Ultimately, they seek to transform both law and society so that menstruation is no longer an obstacle to full participation in all aspects of public and private life.

xpress wellness urgent care garden city: Prevalence and Severity of Dental Fluorosis in the United States, 1999-2004 Eugenio D. Beltrán-Aguilar, 2010 Dental fluorosis refers to changes in the appearance of tooth enamel that are caused by long-term ingestion of fluoride during the time teeth are forming. Studies conducted in the 1930s showed that the severity of tooth decay was lower and dental fluorosis was higher in areas with more fluoride in the drinking water. In response to these findings, community water fluoridation programs were developed to add fluoride to drinking water to reach an optimal level for preventing tooth decay, while limiting the chance of developing dental fluorosis. By the 1980s, studies in selected U.S. communities reported an increase in dental fluorosis, paralleling the expansion of water fluoridation and the increased availability of other sources of ingested fluoride, such as fluoride toothpaste (if swallowed) and fluoride supplements. This report describes the prevalence of dental fluorosis in the United States and changes in the prevalence and severity of dental fluorosis among adolescents between 1986-1987 and 1999-2004. Data from the National Health and Nutrition Examination Survey, 1999-2004 and the 1986-1987 National Survey of Oral Health in U.S. School Children. - p. 1.

xpress wellness urgent care garden city: *Chinese Hinterland Capitalism and Shanxi Piaohao* Luman Wang, 2020-09-21 This book examines Shanxi piaohao—private financiers from the Chinese hinterland—in the economic and business history of late imperial China, forming the original theory of Chinese hinterland capitalism. Deepening the existing understanding of capitalist dynamics at work in the families and financial institutions of late imperial China, the book foregrounds the expansionist role played by Shanxi piaohao in transforming China's market and trade from an agrarian empire to a modern nation state. In a departure for economic history, it also focuses on the histories of the people and their lifeworlds behind financial institutions, which have previously been erased by universal capitalist narratives. Persistent binary oppositions between coastal areas and hinterland; state and market; and institutions and families are each transcended in recounting the local histories of global capital in the marginalized countryside and borderlands of China. Based on a wealth of archival material and correspondence with Shanxi piaohao offices and branches, *Chinese Hinterland Capitalism and Shanxi Piaohao* will appeal to students and scholars of Chinese and economic history, anthropology, and postcolonial studies more generally.

xpress wellness urgent care garden city: *New York City English* Michael Newman, 2014-10-09 *New York City English* is one of the most recognizable of US dialects, and research on it launched modern sociolinguistics. Yet the city's speech has never before received a comprehensive description and analysis. In this book, Michael Newman examines the differences and similarities among the ways English is spoken by the extraordinarily diverse population living in the NY dialect region. He uses data from a variety of sources including older dialectological accounts, classic and recent variationist studies, and original research on speakers from around the dialect region. All levels of language are explored including phonology, morphosyntax, lexicon, and discourse along with a history of English in the region. But this book provides far more than a dialectological and historical inventory of linguistic features. The forms used by different groups of New Yorkers are discussed in terms of their complex social meanings. Furthermore, Newman illustrates the varied forms of sociolinguistic significance with examples from the personal experiences of a variety of New Yorkers and includes links to sound files on the publisher's site and videos on YouTube. The result is a rigorous but accessible and compelling account of the English spoken in this great city.

xpress wellness urgent care garden city: *What is Critical Environmental Justice?* David Naguib Pellow, 2017-11-27 Human societies have always been deeply interconnected with our ecosystems, but today those relationships are witnessing greater frictions, tensions, and harms than ever before. These harms mirror those experienced by marginalized groups across the planet. In this novel book, David Naguib Pellow introduces a new framework for critically analyzing Environmental Justice scholarship and activism. In doing so he extends the field's focus to topics not usually associated with environmental justice, including the Israel/Palestine conflict and the Black Lives Matter movement in the United States. In doing so he reveals that ecological violence is first and foremost a form of social violence, driven by and legitimated by social structures and discourses. Those already familiar with the discipline will find themselves invited to think about the subject in a new way. This book will be a vital resource for students, scholars, and policy makers interested in transformative approaches to one of the greatest challenges facing humanity and the planet.
