bernard accounting and travel: Out of Istanbul Bernard Ollivier, 2019-06-18 Acclaimed journalist Bernard Ollivier begins his epic journey on foot across the Silk Road. Upon retirement at the age of sixty-two, and grieving his deceased wife, renowned journalist Bernard Ollivier felt a sense of profound emptiness: What do I do now? While some see retirement as a chance to cash in their chips and settle into a comfy armchair, Ollivier still longed for more. Searching for inspiration, he strapped on his gear, donned his hat, and headed out the front door to hike the Way of St. James, a 1400-mile journey from Paris to Compostela, Spain. At the end of that road, with more questions

than answers, he decided to spend the next few years hiking another of history's great routes: the Silk Road. Out of Istanbul is Ollivier's stunning account of the first part of that 7,200-mile journey. The longest and perhaps most mythical trade route of all time, the Silk Road is in fact a network of routes across Europe and Asia, some going back to prehistoric times. During the Middle Ages, the transcribed travelogue of one Silk Road explorer, Marco Polo, helped spread the fame of the Orient throughout Europe. Heading east out of Istanbul, Ollivier takes readers step by step across Anatolia and Kurdistan, bound for Tehran. Along the way, we meet a colorful array of real-life characters: Selim, the philosophical woodsman; old Behçet, elated to practice English after years of self-study; Krishna, manager of the Lora Pansiyon in Polonez, a village of Polish immigrants; the hospitable Kurdish women of Dogutepe, and many more. We accompany Ollivier as he explores bazaars, mosques, and caravansaries—true vestiges of the Silk Road itself—and through these encounters and experiences, gains insight into the complex political and social issues facing modern-day Turkey. Ollivier's journey, far from bragging about some tremendous achievement, humbly takes the reader on a colossal adventure of human proportions, one in which walking itself, through a kind of alchemy, fosters friendships and fellowship.

bernard accounting and travel: *Mark Rothko* James E. B. Breslin, 1993 A book of heroic dimensions, this is the first full-length biography of one of the greatest artists of the twentieth century—a man as fascinating, difficult, and compelling as the paintings he produced. Drawing on exclusive access to Mark Rothko's personal papers and over one hundred interviews with artists, patrons, and dealers, James Breslin tells the story of a life in art—the personal costs and professional triumphs, the convergence of genius and ego, the clash of culture and commerce. Breslin offers us not only an enticing look at Rothko as a person, but delivers a lush, in-depth portrait of the New York art scene of the 1930s, '40s, and '50s—the world of Abstract Expressionism, of Pollock, Rothko, de Kooning, and Klein, which would influence artists for generations to come. In Breslin, Rothko has the ideal biographer—thorough but never tedious, a good storyteller with an ear for the spoken word, fond but not fawning, and possessed of a most rare ability to comment on non-representational art without sounding preposterous.—Robert Kiely, Boston Book Review Breslin impressively recreates Mark Rothko's troubled nature, his tormented life, and his disturbing canvases. . . . The artist's paintings become almost tangible within Breslin's pages, and Rothko himself emerges as an alarming physical force.—Robert Warde, Hungry Mind Review This remains beyond question the finest biography so far devoted to an artist of the New York School.—Arthur C. Danto, Boston Sunday Globe Clearly written, full of intelligent insights, and thorough.—Hayden Herrera, Art in America Breslin spent seven years working on this book, and he has definitely done his homework.—Nancy M. Barnes, Boston Phoenix He's made the tragedy of his subject's life the more poignant.—Eric Gibson, The New Criterion Mr. Breslin's book is, in my opinion, the best life of an American painter that has yet been written . . . a biographical classic. It is painstakingly researched, fluently written and unfailingly intelligent in tracing the tragic course of its subject's tormented character.—Hilton Kramer, New York Times Book Review, front page review James E. B. Breslin (1936-1996) was professor of English at the University of California, Berkeley, and author of *From Modern to Contemporary: American Poetry, 1945-1965* and *William Carlos Williams: An American Artist*.
