best dentist leesburg the dental touch aesthetic wellness studio: *A Life Beyond Reason* Chris Gabbard, 2019-05-28 An unflinching and luminous memoir that explores a father's philosophical transformation when he must reconsider the questions what makes us human? and whose life is worth living? Before becoming a father, Chris Gabbard was a fast-track academic finishing his doctoral dissertation at Stanford. A disciple of Enlightenment thinkers, he was a devotee of reason, believed in the reliability of science, and lived by the dictum that an unexamined life is not worth living. That is, until his son August was born. Despite his faith that modern medicine would not fail him, August was born with a severe traumatic brain injury as a likely result of medical error and lived as a spastic quadriplegic who was cortically blind, profoundly cognitively impaired, and nonverbal. While Gabbard tried to uncover what went wrong during the birth and adjusted to his new role raising a child with multiple disabilities, he began to rethink his commitment to Enlightenment thinkers—who would have concluded that his son was doomed to a life of suffering. But August was a happy child who brought joy to just about everyone he met in his 14 years of life—and opened up Gabbard's capacity to love. Ultimately, he comes to understand that his son is undeniably a person deserving of life. *A Life Beyond Reason* will challenge readers to reexamine their beliefs about who is deserving of humanity.

Pearson, 2011-01-15 What happens to orphan diseases that aren't big enough profit centers for the pharmaceutical industry or get caught in the web of government funding and academic research? Augie Nieto found out in the spring of 2005: At forty-seven years old he was diagnosed with ALS. Devastated, Augie struggled with depression and attempted suicide. When he awoke from a coma, with friends and family surrounding him, his sense of faith and mission were renewed. Fast-forward one year: Augie and his wife, Lynne, were profiled as Real Heroes on the Today show. Their determination to beat the disease had already led to major overhauls in the way ALS research was conducted. In partnership with the Muscular Dystrophy Association, Augie had set up a foundation and lab to coordinate and oversee ALS research and testing across the globe. By centralizing operations and championing an entrepreneurial approach to medical research, Augie and his team accomplished remarkable results in less than two years. Part inspiration, part business innovation, Augie's Quest illustrates how one person can make a meaningful difference. Praise for Augie Nieto: George H. W. Bush, former U.S. president: Your contributions to the fitness industry are well known, and your dedication an inspiration. Lance Armstrong, seven-time Le Tour de France champion: I think it says a lot about Augie, the fact that everybody came together regardless of whether or not it's for competing gyms or competing companies that make equipment. They all say, this is one of our own; this is a guy who's committed his life to our industry and has been dealt a serious blow. We're going to be there for him, we're going to say, we're here for you and we're part of the Quest. Arnold Schwarzenegger, governor of California: Your success has been incredible. But you are so much more than just a successful businessman. You are the greatest husband, a great
