bhava beauty and wellness: Inner Engineering Sadhguru, 2016-09-20 NEW YORK TIMES BESTSELLER • Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. "A loving invitation to live our best lives and a profound reassurance of why and how we can."—Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual

affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means “dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life.” The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy.

bhava beauty and wellness: Scientific Basis for Ayurvedic Therapies Lakshmi C. Mishra, 2003-09-29 Arguably the oldest form of health care, Ayurveda is often referred to as the Mother of All Healing. Although there has been considerable scientific research done in this area during the last 50 years, the results of that research have not been adequately disseminated. Meeting the need for an authoritative, evidence-based reference, *Scientific Basis for Ayurvedic Therapies* is the first book to analyze and synthesize current research supporting Ayurvedic medicine. This book reviews the latest scientific information, evaluates the research data, and presents it in an easy to use format. The editor has carefully selected topics based on the availability of scientific studies and the prevalence of a disease. With contributions from experts in their respective fields, topics include Ayurvedic disease management, panchkarma, Ayurvedic bhasmas, the current status of Ayurveda in India, clinical research design, and evaluation of typical clinical trials of certain diseases, to name just a few. While there are many books devoted to Ayurveda, very few have any in-depth basis in scientific studies. This book provides a critical evaluation of literature, clinical trials, and biochemical and pharmacological studies on major Ayurvedic therapies that demonstrates how they are supported by scientific data. Providing a natural bridge from Ayurveda to Western medicine, *Scientific Basis for Ayurvedic Therapies* facilitates the integration of these therapies by health care providers.

bhava beauty and wellness: *Deep Healing* Emmett E. Miller, M.D., 1996-12-01 *Deep Healing* brings new hope to every reader. It awakens even the most skeptical among us to the miraculous inborn, self-healing capacities of our mind-body. Emmett Miller, M.D., practicing as a traditional family doctor for 20 years, discovered that when a part of your body is sick, the whole body system is out of balance. He saw that how his patients thought about and saw life, affected and seemed to create whatever their current state of health was. He has stated that it is not enough to heal the particular illness without understanding the emotional and psychological basis for the ailment or problem. We must heal the entire person...not just a specific part. Dr. Miller has had great success with guided imagery to promote physical health and emotional well-being. He has even been successful using guided imagery to do minor surgery without any anesthetic, again proving the mind/body connection, and the control of our bodies by our thoughts. Through the presentation of stories, reflections, and case studies, Dr. Miller presents his wonderful, deep healing theories that will instill a new sense of hope and optimism into all who read this book.

bhava beauty and wellness: Fasting the Mind Jason Gregory, 2017-05-25 Combines cognitive psychology with Zen, Taoist, and Vedic practices to empty the mind • Explains how eliminating external stimulation can alleviate stress and anxiety for a calmer state of mind • Details meditation practices, such as open-awareness meditation, contemplation of Zen koans, and Vipassana meditation, and explores methods of digital detox • Draws on classical yoga, Hinduism, Buddhism, and Taoism as well as cognitive science to explain how and why to fast the mind Stop planning, stop comparing, stop competing, stop thinking, and just breathe deeply for a minute . . . Our undivided attention is something we are rarely able to give for reasons ranging from digital overload to the cultural conditioning of equating busyness with purpose. Just as you might choose a fast from eating to detoxify the body, the best way to overcome this modern mental overload is to periodically fast the mind. Drawing on the spiritual philosophies and meditative practices of classical yoga, Hinduism, Buddhism, and Taoism, Jason Gregory explains how fasting the mind directly impacts your habits and way of being in the world to create peace and calmness in your life as well as allow you to build a firm psychological defense against the increasing bombardment of distractions in our world. Applying psychology and cognitive science to samsara--the cycle of suffering created by our attachment to the impermanent--he explains how overreliance on the rational mind causes imbalances in the autonomic nervous system and suppresses our natural spontaneity, feelings, and intuition. When we are unable to relax the mind deeply, we enter a destabilizing state of stress and anxiety and are unable to liberate the true Self from the impermanence and limitations of the material world. Sharing Zen, Taoist, and Vedic practices to help you empty your mind and gradually restore your natural rhythms, the author shows how to give the mind time to truly relax from stimulation so it can repair itself and come back into equilibrium. He details simple meditation practices that are easy to implement in daily life, such as open-awareness meditation and contemplation of Zen koans, as well as the advanced techniques of Vipassana, a Theravadic Buddhist discipline centered on seclusion from all worldly stimuli. He also offers methods for digital detox and ensuring a good night's sleep, a major support for healing cognitive impairment and restoring a state of equanimity. By fasting the mind we strip away the distractions and stresses of modern life and return to our original nature as it exists deep within. We become more consciously awake in every moment, allowing us to feel the real beauty of the world and, in turn, to live life more fully, authentically, and peacefully.

bhava beauty and wellness: Sit Down and Shut Up Brad Warner, 2010-10-05 In 2003, Brad Warner blew the top off the Buddhist book world with his irreverent autobiography/manifesto, *Hardcore Zen: Punk Rock, Monster Movies, and the Truth about Reality*. Now in his second book, *Sit Down and Shut Up*, Brad tackles one of the great works of Zen literature, the *Shobogenzo*, by thirteenth-century Zen master Dogen. Illuminating Dogen's enigmatic teachings in plain language, Brad intertwines musings on sex, meditation, death, God, sin, and happiness with an exploration of the punk rock ethos. In chapters such as "Evil Is Stupid," "Kill Your Anger," and "Enlightenment Is for Sissies," Brad melds the antiauthoritarianism of punk with that of Zen, mixing in a travelogue of his triumphant return to Ohio to play in a reunion concert of Akron punk bands. For those drawn to Buddhist teachings but scared off by their stiff austerity, Brad writes with a sharp smack of truth, in teachings and stories that cut to the heart of reality.

bhava beauty and wellness: A Red-necked Green Bird Ambai, 2021-03-09 Myths and legends jostle with the contemporary in these stories where social issues of our times resonate with the inevitability of the past. There is the woman who reinvents the notion of love in a unique way that amalgamates technology and spirituality through the internet; a man full of love who can sing Bulleh Shah and the woman who has lost her all in the 1984 anti-Sikh riots; the woman in the title story who stands by her deaf daughter but understands why her husband must leave the home they have built with love all these years; the man who finds out what it is to be a woman after a dip in the pond... These short stories are shorn of sentimentality but have a deep understanding of what it means to live, to love and to die. CS Lakshmi, writing under the pseudonym Ambai, has been a significant voice in Indian literature for the past four decades. *A Red-necked Green Bird* is the writer's seventh collection of short stories.

In this hands-on guide based on 15 years of research and workshops in maternity wards, movement teachers and health professionals Blandine Calais-Germain and Núria Vives Parés detail the anatomical intricacies of the female pelvis and its capabilities for expansion and return to its original form. Providing fully illustrated exercises to help the expectant mother prepare for this pelvic transformation and gain confidence in her body's innate ability to birth her child, they also present a variety of movements and positions for use during the different stages of labor to ease discomfort, enhance the productivity of contractions, aid the internal expansion of the pelvis, and prevent and treat issues that may arise such as "failure to progress." Ideal for the expectant mother and her birthing partner, this book will be a welcome addition to the library of every midwife, obstetrician, doula, and movement professional who teaches pregnant women.

bhava beauty and wellness: The Art of Giving Birth Frédérick Leboyer, 2009-01-26 A guide to help women find the joy and confidence needed for successful childbirth • Provides breathing and vocalizing exercises for use during pregnancy and labor • Contains inspiring stories from women who successfully applied these techniques • Includes links to 26-minute audio tracks of tamburã music to accompany the singing exercises Giving birth is a veritable “explosion” of joy. The baby arrives when the life force surges up so strongly in the woman that it breaks all limitations in order to spring forth. But in our modern culture, women often do not feel empowered to give birth by themselves. They want the “experts” to handle the birth for them, out of fear of the pain or the possible safety risks to them or the baby. Dr. Frédérick Leboyer, author of the groundbreaking book Birth without Violence, which looks at birth from the baby's point of view, now explores the birth process from the mother's perspective. Through the heartfelt letters of women sharing their experiences, which are accompanied by his advice and commentary, he reveals how women can develop the skills needed to create a successful and joyful birth. Dr. Leboyer stresses that proper breathing is the most important component for women going through childbirth. The breathing should come from the lower belly and the exhalation should be accompanied by a musical tone. Without this musical dimension, breathing is merely a physical exercise. Dr. Leboyer found that by using the music of the tambura, an Indian stringed instrument whose tones represent the embodiment of universal harmony, women are transported to a place of inner peace. The Art of Giving Birth includes breathing and singing exercises and gentle movements to be practiced throughout pregnancy and during labor. Also included are links to 26-minute audio tracks of tamburã music to accompany the exercises.

bhava beauty and wellness: Cowherd Boys Nectar Nayananda Thakura, 2018-11-20 This unique work was composed in 1731 A.D. by Sri Nayananda Thakur. The word preyo is used in the Bhakti-rasamrita-sindhu as a synonym for sakhya (fraternity). Nayananda Thakura was a resident of Mangala-dihi village, and hailed from the disciplic branch of the famous Sri Parni Gopal, who was the direct disciple of Lord Nityananda's personal associate known as SriSundarananda Gopal. Sundarananda is celebrated as the incarnation of Sudama, one of the principal cowherd boys, who are eternal associates of Lord Balarama. These dear boyfriends incarnate on earth in order to sport with Balarama when He descends as Lord Nityananda during the performance of Gauranga-lila. This is described in the Sri Chaitanya- Charitamrita, Adi-lila, 11.13-48. The author's composition naturally follows in the footsteps of Sudama. Therefore we find the ecstatic descriptions of a day in the life of the cowherd boys of Vraja.

bhava beauty and wellness: The Animal Dialogues Craig Childs, 2007-12-12 From one of the finest nature writers at work in America today-a lyrical, dramatic, illuminating tour of the hidden domain of wild animals. Whether recalling the experience of being chased through the Grand Canyon by a bighorn sheep, swimming with sharks off the coast of British Columbia, watching a peregrine falcon perform acrobatic stunts at 200 miles per hour, or engaging in a tense face-off with

a mountain lion near a desert waterhole, Craig Childs captures the moment so vividly that he puts the reader in his boots. Each of the forty brief, compelling narratives in *The Animal Dialogs* focuses on the author's own encounter with a particular species and is replete with astonishing facts about the species' behavior, habitat, breeding, and lifespan. But the glory of each essay lies in Childs's ability to portray the sometimes brutal beauty of the wilderness, to capture the individual essence of wild creatures, to transport the reader beyond the human realm and deep inside the animal kingdom

It's the price of being a supernaturally gifted female in the sexist, narrow-minded 1970s. That is, until they join the Stanford Research Institute, where a team of scientists are conducting experiments on people like them, people with the ability to see the future, read minds, move objects without lifting a finger. A page-turning paranormal mystery about family and friendship, *Extraordinary Lies* is a feminist-focused look into what happens when two young women fight for their voice and search for the truth.
