black mountain massage wellness: *The Trigger Point Therapy Workbook* Clair Davies, Amber Davies, 2013-09-01 Trigger point therapy is one of the fastest-growing and most effective pain

therapies in the world. Medical doctors, chiropractors, physical therapists, and massage therapists are all beginning to use this technique to relieve patients' formerly undiagnosable muscle and joint pain, both conditions that studies have shown to be the cause of nearly 25 percent of all doctor visits. This book addresses the problem of myofascial trigger points—tiny contraction knots that develop in a muscle when it is injured or overworked. Restricted circulation and lack of oxygen in these points cause referred pain. Massage of the trigger is the safest, most natural, and most effective form of pain therapy. Trigger points create pain throughout the body in predictable patterns characteristic to each muscle, producing discomfort ranging from mild to severe. Trigger point massage increases circulation and oxygenation in the area and often produces instant relief. The Trigger Point Therapy Workbook, Third Edition, has made a huge impact among health professionals and the public alike, becoming an overnight classic in the field of pain relief. This edition includes a new chapter by the now deceased author, Clair Davies' daughter, Amber Davies, who is passionate about continuing her father's legacy. The new edition also includes postural assessments and muscle tests, an illustrated index of symptoms, and clinical technique drawings and descriptions to assist both practitioners and regular readers in assessing and treating trigger points. If you have ever suffered from, or have treated someone who suffers from myofascial trigger point pain, this is a must-have book.

black mountain massage wellness: *Reclaiming Your Body* Suzanne Scurlock-Durana, 2017-05-15 A guided tour through the body's innate healing powers Many of us have learned to ignore, deny, or even mistrust the wise messages our bodies give us. The result is that when trauma strikes, a time when we need every aspect of our beings to master the challenge, we may find ourselves disconnected from our greatest strengths. Suzanne Scurlock-Durana, who has spent thirty years studying the gifts of the body and teaching thousands how to reclaim them, began to recognize this strength, which she likens to a GPS, when she herself experienced a life-threatening trauma. Here she walks readers through different areas of the body, revealing the wisdom they hold and how to reconnect with that wisdom. As she shows in this warm, compassionate book, the body's abilities are always available; we must simply reconnect with them.
