emotional and candid, *Feel Your Way Through* explores the challenges and celebrates the experiences faced by Kelsea Ballerini as she navigates the twists and turns of growing into a woman today. In this book of original poetry, Ballerini addresses themes of family, relationships, body image, self-love, sexuality, and the lessons of youth. bon secours wellness arena photos: *The Frozen Hours* Jeff Shaara, 2018-05-22 NEW YORK TIMES BESTSELLER • The master of military historical fiction turns his discerning eye to the Korean War in this riveting novel, which tells the dramatic story of the Americans and the Chinese who squared off in one of the deadliest campaigns in the annals of combat: the Battle of Chosin Reservoir, also known as Frozen Chosin. June 1950. The North Korean army invades South Korea, intent on uniting the country under Communist rule. In response, the United States mobilizes a force to defend the overmatched South Korean troops, and together they drive the North Koreans back to their border with China. But several hundred thousand Chinese troops have entered Korea, laying massive traps for the Allies. In November 1950, the Chinese spring those traps. Allied forces, already battling stunningly cold weather, find themselves caught completely off guard as the Chinese advance around the Chosin Reservoir in North Korea. A force that once stood on the precipice of victory now finds itself on the brink of annihilation. Assured by General Douglas MacArthur that they would be home by Christmas, the soldiers and Marines fight for their lives against the most brutal weather conditions imaginable—and an enemy that outnumbers them more than six to one. *The Frozen Hours* tells the story of Frozen Chosin from multiple points of view: Oliver P. Smith, the commanding general of the American 1st Marine Division, who famously redefined retreat as "advancing in a different direction"; Marine Private Pete Riley, a World War II veteran who now faces the greatest fight of his life; and the Chinese commander Sung Shi-Lun, charged with destroying the Americans he has so completely surrounded, ever aware that above him, Chairman Mao Tse-Tung watches his every move. Written with the propulsive force Jeff Shaara brings to all his novels of combat and courage, *The Frozen Hours* transports us to the critical moment in the history of America's "Forgotten War," when the fate of the Korean peninsula lay in the hands of a brave band of brothers battling both the elements and a determined, implacable foe. "A military story as dramatic and heroic as any that exists."—*The American Interest* "The Frozen Hours . . . illustrates again Shaara's mastery. . . . This is fiction and history at their blended best."—*Marine Corps Gazette* "Marvelously effective storytelling . . . that shows us what warfare feels like both to those who plan campaigns and those who execute them . . . gripping, precisely detailed historical fiction."—Booklist (starred review)

This captivating story of friendship, survival, and three vagabonds' intersecting lives will stay with readers long after turning the final page. It takes

courage to save yourself... In the dense pine forests of North Carolina, turpentiners labor, hacking into tree trunks to draw out the sticky sap that gives the Tar Heel State its nickname, and hauling the resin to stills to be refined. Among them is Rae Lynn Cobb and her husband, Warren, who run a small turpentine farm together. Though the work is hard and often dangerous, Rae Lynn, who spent her childhood in an orphanage, is thankful for it--and for her kind if careless husband. When Warren falls victim to his own negligence, Rae Lynn undertakes a desperate act of mercy. To keep herself from jail, she disguises herself as a man named Ray and heads to the only place she can think of that might offer anonymity--a turpentine camp in Georgia named Swallow Hill. Swallow Hill is no easy haven. The camp is isolated and squalid, and commissary owner Otis Riddle takes out his frustrations on his browbeaten wife, Cornelia. Although Rae Lynn works tirelessly, she becomes a target for Crow, the ever-watchful woods rider who checks each laborer's tally. Delwood Reese, who's come to Swallow Hill hoping for his own redemption, offers Ray a small measure of protection, and is determined to improve their conditions. As Rae Lynn forges a deeper friendship with both Del and Cornelia, she begins to envision a path out of the camp. But she will have to come to terms with her past, with all its pain and beauty, before she can open herself to a new life and seize the chance to begin again. bon secours wellness arena photos: Songs of America Jon Meacham, Tim McGraw, 2019-06-11 NEW YORK TIMES BESTSELLER • A celebration of American history through the music that helped to shape a nation, by Pulitzer Prize winner Jon Meacham and music superstar Tim McGraw "Jon Meacham and Tim McGraw form an irresistible duo—connecting us to music as an

unsung force in our nation's history."—Doris Kearns Goodwin Through all the years of strife and triumph, America has been shaped not just by our elected leaders and our formal politics but also by our music—by the lyrics, performers, and instrumentals that have helped to carry us through the dark days and to celebrate the bright ones. From "The Star-Spangled Banner" to "Born in the U.S.A.," Jon Meacham and Tim McGraw take readers on a moving and insightful journey through eras in American history and the songs and performers that inspired us. Meacham chronicles our history, exploring the stories behind the songs, and Tim McGraw reflects on them as an artist and performer. Their perspectives combine to create a unique view of the role music has played in uniting and shaping a nation. Beginning with the battle hymns of the revolution, and taking us through songs from the defining events of the Civil War, the fight for women's suffrage, the two world wars, the Great Depression, the civil rights movement, the Vietnam War, and into the twenty-first century, Meacham and McGraw explore the songs that defined generations, and the cultural and political climates that produced them. Readers will discover the power of music in the lives of figures such as Harriet Tubman, Franklin Roosevelt, Eleanor Roosevelt, and Martin Luther King, Jr., and will learn more about some of our most beloved musicians and performers, including Marian Anderson, Elvis Presley, Sam Cooke, Aretha Franklin, Bob Dylan, Duke Ellington, Carole King, Bruce Springsteen, and more. *Songs of America* explores both famous songs and lesser-known ones, expanding our understanding of the scope of American music and lending deeper meaning to the historical context of such songs as "My Country, 'Tis of Thee," "God Bless America," "Over There," "We Shall Overcome," and "Blowin' in the Wind." As Quincy Jones says, Meacham and McGraw have "convened a concert in *Songs of America*," one that reminds us of who we are, where we've been, and what we, at our best, can be.

She shares her journey through conquering fears that nearly kept her from the high-profile, high-stakes world of broadcast journalism, and then the dangers when that world threatened to consume her. She burned out and faced public humiliation, physical breakdowns, and family struggles. But along the way, she heard God gently calling her out of that dangerous place. As she struggled to find who she was outside of what she did, she discovered her true purpose and true calling. Today, she is the host of ABC's popular podcast *Journeys of Faith*. After becoming multimillion-selling, Grammy-winning superstars with their 1970 breakthrough hit (They Long to Be) Close to You, Richard and Karen Carpenter would win over millions of fans worldwide with a record-breaking string of hits including We've Only Just Begun, Top of the World, and Yesterday Once More. By 1975, success was taking its toll. Years of jam-packed work schedules, including hundreds of concert engagements, proved to be just too much for the Carpenters to keep the hits coming—and, ultimately, to keep the music playing at all. However, Richard and Karen never took their adoring public, or each other, for granted. In *Carpenters: The Musical Legacy*, Richard Carpenter tells his story for the first time. With candor, heart, and humor, he sheds new light on the Carpenters' trials and triumphs—work that remains the gold standard for melodic pop. This beautifully illustrated definitive biography, with exclusive interviews and never-before-seen photographs, is a must-have for any Carpenters fan.

bon secours wellness arena photos: *Forging a Poison Prevention and Control System* Institute of Medicine, Board on Health Promotion and Disease Prevention, Committee on Poison Prevention and Control, 2004-09-16 Poisoning is a far more serious health problem in the U.S. than has generally been recognized. It is estimated that more than 4 million poisoning episodes occur annually, with approximately 300,000 cases leading to hospitalization. The field of poison prevention provides some of the most celebrated examples of successful public health interventions, yet surprisingly the current poison control system is little more than a loose network of poison control centers, poorly integrated into the larger spheres of public health. To increase their effectiveness, efforts to reduce poisoning need to be linked to a national agenda for public health promotion and injury prevention. *Forging a Poison Prevention and Control System* recommends a future poison control system with a strong public health infrastructure, a national system of regional poison control centers, federal funding to support core poison control activities, and a national poison information system to track major poisoning epidemics and possible acts of bioterrorism. This framework provides a complete system that could offer the best poison prevention and patient care services to meet the needs of the nation in the 21st century.

Based on hours of interviews with Young and those close to him, the book puts the reader alongside Young as he struggles with life as a paralyzed veteran, suffering frustration and humiliation as he attempts to reenter society and resume as normal an existence as possible. It shows his fight to balance his precarious health with his drive to speak out for veterans care and against the war, and the impact his catastrophic injuries had on his family and his relationships. This emotional and powerful book sheds light on many crucial but often overlooked issues such as veterans' care, public attitudes toward the disabled, medical marijuana, and the terminally ill. Tomas Young's War shares everything, as unflinchingly honest as Tomas himself: the depression, the pain, the love, and laughter . . . the life of this man whose world was turned upside down by an Iraqi bullet more than ten years ago. Throughout, it serves as a powerful testament to the true cost of war.

Nurses live and work at the intersection of health, education, and communities. Nurses work in a wide array of settings and practice at a range of professional levels. They are often the first and most frequent line of contact with people of all backgrounds and experiences seeking care and they represent the largest of the health care professions. A nation cannot fully thrive until everyone - no matter who they are, where they live, or how much money they make - can live their healthiest possible life, and helping people live their healthiest life is and has always been the essential role of nurses. Nurses have a critical role to play in achieving the goal of health equity, but they need robust education, supportive work environments, and autonomy. Accordingly, at the request of the Robert Wood Johnson Foundation, on behalf of the National Academy of Medicine, an ad hoc committee under the auspices of the National Academies of Sciences, Engineering, and Medicine conducted a study aimed at envisioning and charting a path forward for the nursing profession to help reduce inequities in people's ability to achieve their full health potential. The ultimate goal is the achievement of health equity in the United States built on strengthened nursing capacity and expertise. By leveraging these attributes, nursing will help to create and contribute comprehensively to equitable public health and health care systems that are designed to work for everyone. The Future of Nursing 2020-2030: Charting a Path to Achieve Health Equity explores how nurses can work to reduce health disparities and promote equity, while keeping costs at bay, utilizing technology, and maintaining patient and family-focused care into 2030. This work builds on the foundation set out by The Future of Nursing: Leading Change, Advancing Health (2011) report.
