bye bye barry analysis: *Educational Psychology* Barry J. Zimmerman, Dale H. Schunk, 2014-08-13 *Educational Psychology: A Century of Contributions*--the first comprehensive book-length treatment of this topic--looks at the historic contributions of 16 leading psychologists, as well as others, who influenced the field of educational psychology from its philosophical moorings in the late 19th century to its current scientific status at the dawn of the 21st. It presents information regarding these individuals' ideas and scientific discoveries, along with a sense of the historical context in which they lived. The book is divided into three sections that correspond to three eras in the history of the discipline: *the founding period (1880s to 1920); *the rise to prominence period (1920 to 1960); and *the modern period (1960 to the present). Each section begins with an overview chapter describing the period in terms of key social, political, and historical events affecting educational theory, research, and practice. In addition, the overview chapters discuss major theoretical, methodological, and instructional contributions of the period and how they changed the course of educational psychology. The biographical chapters describe the scholar's major contribution in terms of theory, research, and practice and his or her legacy and impact. These descriptions portray these individuals as real human beings responding to historical events and social influences of their time in personal and collective ways that changed the nature and direction of the field. *Educational Psychology: A Century of Contributions* is a cohesive collection appropriate for graduate and advanced undergraduate students in educational psychology.

Using data collected with the approval from the senior judiciary of the Court of Protection and the Ministry of Justice, this innovative book combines empirical data with theoretical and normative analysis. It takes a socio-legal approach to understanding how the Mental Capacity Act operates in practice to achieve access to justice and situates current debates within an international context, showing how other jurisdictions have been guided by the United Nations Convention on the Rights of Persons with Disabilities. Furthering scholarship across several fields including access to justice, healthcare law and procedural justice theory, this is a timely and pioneering book that argues for a reimagining of the Court of Protection.

bye bye barry analysis: A Passion for Ignorance Renata Salecl, 2022-11-29 An original and provocative exploration of our capacity to ignore what is inconvenient or traumatic Ignorance, whether passive or active, conscious or unconscious, has always been a part of the human condition, Renata Salecl argues. What has changed in our post-truth, postindustrial world is that we often feel overwhelmed by the constant flood of information and misinformation. It sometimes seems impossible to differentiate between truth and falsehood and, as a result, there has been a backlash against the idea of expertise, and a rise in the number of people actively choosing not to know. The dangers of this are obvious, but Salecl challenges our assumptions, arguing that there may also be a positive side to ignorance, and that by addressing the role of ignorance in society, we may also be able to reclaim the role of knowledge. Drawing on philosophy, social and psychoanalytic theory, popular culture, and her own experience, Salecl explores how the passion for ignorance plays out in many different aspects of life today, from love, illness, trauma, and the fear of failure to genetics, forensic science, big data, and the incel movement—and she concludes that ignorance is a complex phenomenon that can, on occasion, benefit individuals and society as a whole. The result is a fascinating investigation of how the knowledge economy became an ignorance economy, what it means for us, and what it tells us about the world today.
