coastal bend wellness foundation: Channel Kindness: Stories of Kindness and Community Born This Way Foundation Reporters, Lady Gaga, 2020-09-22 A New York Times Bestseller For Lady Gaga, kindness is the driving force behind everything she says and does. The quiet power of kindness can change the way we view one another, our communities, and even ourselves. She embodies this mission, and through her work, brings more kindness into our world every single day. Lady Gaga has always believed in the importance of being yourself, being kind to yourself, and being kind to others, no matter who they are or where they come from. With that sentiment in mind, she and her mother, Cynthia Germanotta, founded Born This Way Foundation, a nonprofit organization dedicated to making the world a kinder and braver place. Through the years, they've collected stories of kindness, bravery and resilience from young people all over the world, proving that kindness truly is the universal language. And now, we invite you to read these stories and follow along as each and every young author finds their voice just as Lady Gaga has found hers. Within these pages, you'll meet young changemakers who found their inner strength, who prevailed in the face of bullies, who started their own social movements, who decided to break through the mental health stigma and share how they felt, who created safe spaces for LGBTQ+ youth, and who have embraced kindness with every fiber of their being by helping others without the expectation of anything in return. In one story, you'll read about a young person with an autoimmune disease, who after being bullied at school, learned how to practice self-love and started an organization with the mission of educating others about the importance of self-love, too; and in another story, you'll meet a young person who decided to start a movement to help eliminate the stigma surrounding mental health and encouraged others to talk about their feelings openly and honestly, a reminder that kindness and mental wellness go hand in hand. Not only were we moved by these individual acts of kindness, but we were also touched by the many stories of organizations, neighborhoods, and entire communities that fully dedicated themselves to helping those in need and found new, innovative ways to make our world a kinder and braver place. Individually and collectively, these stories prove that kindness not only saves lives but builds community. Kindness is inclusion, it is pride, it is empathy, it is compassion, it is self-respect and it is the guiding light to love. Kindness is always transformational, and its never-ending ripples result in even more kind acts that can change our lives, our communities, and our world.

coastal bend wellness foundation: The Third Wave Alison Thompson, 2011-07-12 Alison Thompson, a filmmaker living in New York City, was enjoying Christmas with her boyfriend in 2004 when she saw the news reports online: a 9.3 magnitude earthquake had struck the sea near Indonesia, triggering a massive tsunami that hit much of southern Asia. As she watched the death toll climb, Thompson had one thought: She had to go help. A few years earlier, she had spent eight months volunteering at Ground Zero after 9/11. She'd learned then that when disaster strikes, it's not just the firemen and Red Cross who are needed—every single person can make a difference. With \$300 in cash, some basic medical supplies, and a vague idea that she'd go wherever she was needed, Thompson headed to Sri Lanka. Along with a small team of volunteers, she settled in a coastal town that had been hit especially hard and began tending to people's injuries, giving out food and water, playing games with the children, collecting dead bodies, and helping rebuild the local school and homes that had been destroyed. Thompson had intended to stay for two weeks; she ended up staying for fourteen months. She and her team helped start new businesses and set up the first tsunami early-warning center in Sri Lanka, which continues to save lives today. The Third Wave tells the inspiring story of how volunteering changed Thompson's life. It begins with her first real introduction to disaster relief after 9/11 and ends with her more recent efforts in Haiti, where she has helped create and run, with Sean Penn, an internally-displaced-person camp and field hospital for more than 65,000 Haitians who lost their homes in the 2010 earthquake. In The Third Wave, Thompson provides an invaluable inside glimpse into what really happens on the ground after a disaster—and a road map for what anyone can do to help. As Alison Thompson shows, with some resilience, a healthy sense of humor, and the desire to make a difference, we all have what it takes to change the world for the better.

coastal bend wellness foundation: The Rabbit Hutch Tess Gunty, 2023-06-27 NATIONAL BOOK AWARD WINNER • The standout literary debut that everyone is talking about • Inventive, heartbreaking and acutely funny.—The Guardian A BEST BOOK OF THE YEAR: The New York Times, TIME, NPR, Oprah Daily, People Blandine isn't like the other residents of her building. An

online obituary writer. A young mother with a dark secret. A woman waging a solo campaign against rodents — neighbors, separated only by the thin walls of a low-cost housing complex in the once bustling industrial center of Vacca Vale, Indiana. Welcome to the Rabbit Hutch. Ethereally beautiful and formidably intelligent, Blandine shares her apartment with three teenage boys she neither likes nor understands, all, like her, now aged out of the state foster care system that has repeatedly failed them, all searching for meaning in their lives. Set over one sweltering week in July and culminating in a bizarre act of violence that finally changes everything, *The Rabbit Hutch* is a savagely beautiful and bitingly funny snapshot of contemporary America, a gorgeous and provocative tale of loneliness and longing, entrapment and, ultimately, freedom. Gunty writes with a keen, sensitive eye about all manner of intimacies—the kind we build with other people, and the kind we cultivate around ourselves and our tenuous, private aspirations.—Raven Leilani, author of *Luster*

coastal bend wellness foundation: Best Care Anywhere Phillip Longman, 2012-03-05 Phillip Longman tells the amazing story of the turnaround of the Department of Veterans Affairs health-care system from a dysfunctional, scandal-prone bureaucracy into the benchmark for high-quality medicine in the United States. Best Care Anywhere shows that vast swaths of what we think we know about health, health care, and medical economics are just plain wrong. And the book demonstrates how this extraordinarily cost-effective model, which has proven to be highly popular with veterans, can be made available to everyone. New to this edition is an analysis of how the shortcomings of both so-called Obamacare and Republican plans to privatize Medicare reinforce the need for applying the lessons of the VA. Also included are completely updated statistics and research, as well as examples of how the private sector is already beginning to learn from the VA's example.

coastal bend wellness foundation: Refuge Recovery Noah Levine, 2014-06-10 Bestselling author and renowned Buddhist teacher Noah Levine adapts the Buddha's Four Noble Truths and Eight Fold Path into a proven and systematic approach to recovery from alcohol and drug addiction—an indispensable alternative to the 12-step program. While many desperately need the help of the 12-step recovery program, the traditional AA model's focus on an external higher power can alienate people who don't connect with its religious tenets. Refuge Recovery is a systematic method based on Buddhist principles, which integrates scientific, non-theistic, and psychological insight. Viewing addiction as cravings in the mind and body, Levine shows how a path of meditative awareness can alleviate those desires and ease suffering. Refuge Recovery includes daily meditation practices, written investigations that explore the causes and conditions of our addictions, and advice and inspiration for finding or creating a community to help you heal and awaken. Practical yet compassionate, Levine's successful Refuge Recovery system is designed for anyone interested in a

non-theistic approach to recovery and requires no previous experience or knowledge of Buddhism or meditation.

The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. coastal bend wellness foundation: Last Stand Todd Wilkinson, Ted Turner, 2013-03-21 Entrepreneur and media mogul Ted Turner has commanded global attention for his dramatic personality, his founding of CNN, his marriage to Jane Fonda, and his company's merger with Time Warner. But his green resume has gone largely ignored, even while his role as a pioneering eco-capitalist means more to Turner than any other aspect of his legacy. He currently owns more than two million acres of private land (more than any other individual in America), and his bison herd exceeds 50,000 head, the largest in history. He donated \$1 billion to help save the UN, and has recorded dozens of other firsts with regard to wildlife conservation, fighting nukes, and assisting the poor. He calls global warming the most dire threat facing humanity, and says that the tycoons of the future will be minted in the development of green, alternative renewable energy. Last Stand goes behind the scenes into Turner's private life, exploring the man's accomplishments and his motivations, showing the world a fascinating and flawed, fully three-dimensional character. From barnstorming the country with T. Boone Pickens on behalf of green energy to a pivotal night when he considered suicide, Turner is not the man the public believes him to be. Through Turner's eyes, the reader is asked to consider another way of thinking about the environment, our obligations to help others in need, and the grave challenges threatening the survival of civilization.
