Trattner Sherman, 2011-01-19 Over the past fifteen years, there has been a great increase in the knowledge of eating disorders in sport and effective means of treatment. In this book, the authors draw on their extensive clinical experience to discuss how to identify, manage, treat, and prevent eating disorders in sport participants. They begin by examining the clinical conditions related to eating problems, including descriptions of specific disorders and a review of the relevant literature. Special attention is given to the specific gender and sport-related factors that can negatively influence the eating habits of athletes. The second half of the book discusses identification of participants with disordered eating by reviewing symptoms and how they manifest in sport; management issues for sport personnel, coaches, athletic trainers, and healthcare professionals; treatment; and medical considerations, such as the use of psychotropic medications. A list of useful resources is included in an appendix, as well as a glossary of important terms.

connections wellness group rockwall: *Impact* Tim Irwin, 2014-02-04 NEW YORK TIMES BESTSELLER For more than 25 years, organizational psychologist and management consultant Dr. Tim Irwin has worked with thousands of leaders in well-known global companies. He knows most leaders work for recognition and advancement and they want more challenge and responsibility. He's also found this to be true: Most of us want to make a positive difference through our work and to have our lives count for something more than simply making a living. We want to make an impact. Yet when we look around our organizations, we don't see many leaders who have real impact. We see them just managing the daily rat race. Somewhere along the line, many began working for money instead of for meaning, for status instead of for a lasting legacy. In *Impact*, Irwin identifies the principles and beliefs that lead to great leadership—ways in which you can grow and thrive and be trusted by others. Learn how to be the kind of leader that motivates others in meaningful work and great accomplishments and what you can do to stay on track so you avoid a path of personal destruction so many leaders go down today. Accessible, humorous, and engaging, Irwin's latest book shows you how to live the vision you began your career with and then finish strong for a lasting impact, the hope of every great leader.

This new edition continues a fifteen-year tradition of helping individuals and groups pray. Now with a new preface and fresh design, *The Cup of Our Life* is available to anyone seeking a more intimate and disciplined life of prayer. Joyce Rupp, the bestselling Catholic woman writer today, illustrates how the ordinary cups used each day can become sacred vessels that connect readers with life and bring them into closer union with the Divine. She explores how the cup is a rich symbol of life, with its emptiness and fullness, its brokenness and flaws, and its many blessings. With daily devotions for six weeks, this book is ideal for individual usage as well as group usage in parish settings, religious communities, and small Christian communities.

connections wellness group rockwall: *Emotional Transformation Therapy* Steven R. Vazquez, 2012-11-02 Emotional Transformation Therapy: An Interactive Ecological Psychotherapy describes

an entirely original approach to psychotherapy that drastically accelerates therapeutic outcomes in terms of speed and long-term effects. It includes an attachment-based interpersonal approach that increases the impact of the therapist-client bond and is amplified by the precise use of the client's visual ecology. This synthesis is called Emotional Transformation Therapy® (ETT®). Steven R. Vazquez, PhD, discusses four techniques that therapeutically harness the client's visual ecology. When the client is asked to view a maximally saturated spectral chart of colors, visual feedback provides immediate diagnostic information that helps the therapist to regulate emotional intensity or loss of awareness of emotions. A second technique offers an original form of directed eye movement that facilitates relief of emotional distress within minutes. A third technique uses peripheral eye stimulation to rapidly reduce extreme emotional or physical pain within seconds as well as to access previously unconscious thoughts, emotions, or memories related to the issue or symptom. The fourth technique uses the emission of precise wavelengths (colors) of light into the client's eyes during verbal processing that dramatically amplifies the effect of talk therapy and changes the brain in profound ways. Emotional Transformation Therapy uses theory, research, and case studies to show how this method can be applied to depression, anxiety disorders, posttraumatic stress disorder, and complex trauma. Pre and post brain scans have shown that ETT® substantially changes the human brain. This method possesses the potential to revolutionize psychotherapy as we know it.

connections wellness group rockwall: Healing the Addicted Brain Harold Urschel, 2009-04-01 New York Times Bestseller! New, scientifically-based approaches that recognize the biological basis of addiction have brought major advances in the treatment of addiction. Dr. Urschel is at the forefront of this treatment paradigm. Dr. Larry Hanselka, Psychologist The Proven Scientific Approach to Conquering Addiction and Defeating the Disease *Healing the Addicted Brain* is a

breakthrough work that focuses on treating drug and alcohol addiction as a biological disease—based on the Recovery Science program that has helped thousands of patients defeat their addictions over the past 10 years. It combines the best behavioral addiction treatments with the latest scientific research into brain functions, providing tools and strategies designed to overcome the biological factors that cause addictive behavior along with proven treatments and medications. Using this scientific approach, you will learn to conquer the physical factors that keep people tied to drug and alcohol addiction. The proven fact is addiction is not a moral failing or an issue of not having enough willpower. It is a disease of the brain that can and must be treated like other chronic medical illnesses —such as diabetes, hypertension, or asthma—in order to defeat the disease. This revolutionary program can triple the success rate of patients, from 20-30% to 90% *There Is Hope*. By understanding addiction and using 21st-century breakthroughs, for the first time drug and alcohol addiction can be, and will be, defeated.

connections wellness group rockwall: *Overcoming Adversity* Eileen S. Lenson, 2018-03-30 No one searches for adversity. Bad things happen. Yet how many of us will know what to do to prevent our lives from spiraling out of control when we encounter traumatic events that threaten our safety, careers, emotions, health, or relationships? In this pragmatic and inspirational book, experienced US-based life coach and former psychotherapist Eileen Lenson shows us tools to turn suffering into hope and develop resilience by combining scientific research with an understanding of our emotional and spiritual lives. She cuts through existing myths and provides readers with a look into what it takes to not just overcome adversity and survive, but to thrive. Written to help anyone who finds themselves in a painful place, regardless of social background, culture, religion or education, each chapter describes from a scientific, psychological and spiritual perspective, why we do the things we do. Armed with this knowledge we can learn to manage our feelings and respond to devastating events with the skills to seek healthy coping options and change our lives for the better. In this book you'll learn how to: • Use five core factors of your life — forgiveness, courage, perspective, perseverance, and hope — to reduce emotional suffering. • Identify and replace unproductive coping skills with healthy thoughts, feelings and behaviors. • Master new skills through practice exercises. • Benefit from the stories of others, just like you, who have faced and overcome adversity.

connections wellness group rockwall: *Chasing the Scream* Johann Hari, 2015-01-20 The New York Times Bestseller What if everything you think you know about addiction is wrong? Johann Hari's journey into the heart of the war on drugs led him to ask this question--and to write the book that gave rise to his viral TED talk, viewed more than 62 million times, and inspired the feature film *The United States vs. Billie Holiday* and the documentary series *The Fix*. One of Johann Hari's earliest memories is of trying to wake up one of his relatives and not being able to. As he grew older, he realized he had addiction in his family. Confused, not knowing what to do, he set out and traveled over 30,000 miles over three years to discover what really causes addiction--and what really solves it. He uncovered a range of remarkable human stories--of how the war on drugs began with Billie Holiday, the great jazz singer, being stalked and killed by a racist policeman; of the scientist who discovered the surprising key to addiction; and of the countries that ended their own war on drugs--with extraordinary results. *Chasing the Scream* is the story of a life-changing journey that transformed the addiction debate internationally--and showed the world that the opposite of addiction is connection.

connections wellness group rockwall: *More or Less Dead* Alice Driver, 2015-03-26 In Ciudad Juárez, Mexico, people disappear, their bodies dumped in deserted city lots or jettisoned in the unforgiving desert. All too many of them are women. *More or Less Dead* analyzes how such violence against women has been represented in news media, books, films, photography, and art. Alice Driver

argues that the various cultural reports often express anxiety or criticism about how women traverse and inhabit the geography of Ciudad Juárez and further the idea of the public female body as hypersexualized. Rather than searching for justice, the various media—art, photography, and even graffiti—often reuse victimized bodies in sensationalist, attention-grabbing ways. In order to counteract such views, local activists mark the city with graffiti and memorials that create a living memory of the violence and try to humanize the victims of these crimes. The phrase “more or less dead” was coined by Chilean author Roberto Bolaño in his novel 2666, a penetrating fictional study of Juárez. Driver explains that victims are “more or less dead” because their bodies are never found or aren’t properly identified, leaving families with an uncertainty lasting for decades—or forever. The author’s clear, precise journalistic style tackles the ethics of representing femicide victims in Ciudad Juárez. Making a distinction between the words “femicide” (the murder of girls or women) and “feminicide” (murder as a gender-driven event), one of her interviewees says, “Women are killed for being women, and they are victims of masculine violence because they are women. It is a crime of hate against the female gender. These are crimes of power.”

connections wellness group rockwall: The Texas Model for Comprehensive School Counseling Programs, 2018-02-15 The Texas Model for Comprehensive School Counseling Programs is a resource to develop effective and high quality comprehensive school counseling programs that align with Texas statutes and rules governing the work of school counselors. It outlines a process for tailoring school counseling programs to meet the varying needs of students across an array of school districts through implementation of the four components of school counseling programs, Guidance Curriculum, Responsive Services, Individual Planning, and System Support. With this resource, a school counselor will learn to use campus-specific data to identify the unique needs of a campus and design a comprehensive school counseling program to meet those needs. Recognizing the important roles of the entire educational community, the Texas Model for Comprehensive School Counseling Programs provides examples of how parents, teachers, administrators, principals and school counselors can best contribute to implementation of each of the four components of comprehensive school counseling programs. It provides a developmental framework for a school counseling program curriculum that includes activities at each grade level to enhance students’ educational, career, personal and social development.
