costco business center sherman way north hollywood ca: The Capitalism Papers Jerry Mander, 2012-06-08 In the vein of his bestseller, *Four Arguments for the Elimination of Television*, nationally recognized social critic Jerry Mander researches, discusses, and exposes the momentous and unsolvable environmental and social problem of capitalism. Mander argues that capitalism is no longer a viable system: What may have worked in 1900 is calamitous in 2010. Capitalism, utterly dependent on never-ending economic growth, is an impossible absurdity on a finite planet with limited resources. Climate change, together with global food, water, and resource shortages, are only the start. Mander draws attention to capitalism's obsessive need to dominate and undermine democracy, as well as to diminish social and economic equity. Designed to operate free of morality, the system promotes permanent war as a key economic strategy. Worst of all, the problems of capitalism are intrinsic to the form. Many organizations are already anticipating the breakdown of the system and are working to define new hierarchies of democratic values that respect the carrying capacities of the planet.

costco business center sherman way north hollywood ca: Mean Baby Selma Blair, 2023-05-09 Selma Blair has played many roles: Ingenue in *Cruel Intentions*. Preppy ice queen in *Legally Blonde*. Muse to Karl Lagerfeld. Advocate for the multiple sclerosis community. But before all of that, Selma was known best as ... a mean baby. In a memoir that is as wildly funny as it is emotionally shattering, Blair tells the captivating story of growing up and finding her truth. Blair is a

rebel, an artist, and it turns out: a writer.—Glennon Doyle, Author of the #1 New York Times Bestseller *Untamed* and Founder of Together Rising The first story Selma Blair Beitner ever heard about herself is that she was a mean, mean baby. With her mouth pulled in a perpetual snarl and a head so furry it had to be rubbed to make way for her forehead, Selma spent years living up to her terrible reputation: biting her sisters, lying spontaneously, getting drunk from Passover wine at the age of seven, and behaving dramatically so that she would be the center of attention. Although Selma went on to become a celebrated Hollywood actress and model, she could never quite shake the periods of darkness that overtook her, the certainty that there was a great mystery at the heart of her life. She often felt like her arms might be on fire, a sensation not unlike electric shocks, and she secretly drank to escape. Over the course of this beautiful and, at times, devastating memoir, Selma lays bare her addiction to alcohol, her devotion to her brilliant and complicated mother, and the moments she flirted with death. There is brutal violence, passionate love, true friendship, the gift of motherhood, and, finally, the surprising salvation of a multiple sclerosis diagnosis. In a voice that is powerfully original, fiercely intelligent, and full of hard-won wisdom, Selma Blair's *Mean Baby* is a deeply human memoir and a true literary achievement.

costco business center sherman way north hollywood ca: The Discourse of Online Consumer Reviews Camilla Vásquez, 2014-06-19 The Discourse of Online Reviews is the first book to provide an account of the discursive, pragmatic and rhetorical features of this rapidly growing form of technologically-mediated communication. Examining a corpus of over 1,000 consumer reviews, Camilla Vásquez explores many of the discourse features that are characteristic of this new, user-generated, computer-mediated and primarily text-based genre. She investigates the language used by reviewers as they forge connections with their audiences to draw them into their stories, as they construct their expertise and authority on various subjects and as they evaluate and assess their consumer experiences. She also demonstrates how reviewers display their awareness about emerging conventions of the very genre in which they are participating. This book adopts an eclectic approach to the analysis of discourse, and explores topics such as evaluation, identity and intertextuality as they occur in online reviews of hotels, restaurants, recipes, films and other consumer products.

costco business center sherman way north hollywood ca: The New World of Economics Richard B. McKenzie, Gordon Tullock, 2012-05-16 The New World of Economics, 6th edition, by Richard McKenzie and Gordon Tullock, represents a revival of a classic text that, when it was first published, changed substantially the way economics would be taught at the introductory and advanced levels of economics for all time. In a very real sense, many contemporary general-audience economics books that seek to apply the "economic way of thinking" to an unbounded array of social issues have grown out of the disciplinary tradition established by earlier editions of The New World of Economics. This new edition of The New World will expose new generations of economics students to how McKenzie and Tullock have applied in a lucid manner a relatively small number of economic concepts and principles to a cluster of topics that have been in the book from its first release and to a larger number of topics that are new to this edition, with the focus of the new topics on showing students how economic thinking can be applied to business decision making. This edition continues the book's tradition of taking contrarian stances on important economic issues. Economics professors have long reported that The New World is a rare book in that students will read it without being required to do so.

Along the way, the author explains how the 9/11 terrorists have, through the effects of their heinous acts on the relative prices of various modes of travel, killed more Americans since 9/11 than they killed that fateful day. He also explains how well-meaning efforts to spur the use of alternative, supposedly environmentally friendly fuels have starved millions of people around the world and given rise to the deforestation of rainforests in Malaysia and Indonesia.

costco business center sherman way north hollywood ca: Where a Man Stands Carter Paysinger, Steven Fenton, 2014-11-04 When Beverly Hills High School welcomed a skinny boy from the other side of the tracks, no one knew just how life-changing the decision would be, not just for Carter Paysinger but for all of Beverly Hills. Carter grew up hearing his parents say, "Don't just strive to be good. Always strive to be great." He dreamed of finding greatness in playing professional

baseball or becoming a black Donald Trump, but fate had different plans and, ultimately, he found his calling as a teacher and coach at the school that once embraced him, becoming a rock for the innumerable kids who came seeking an ear to listen or a shoulder to cry on. One such kid, a scrappy Jewish boy from a prominent family, would change the course of Carter's life. His name was Steven Fenton. Twenty years later, as Beverly Hills High fell into disarray—with principals hired and fired and families fleeing the school—as well as his own life coming apart, Carter ran into Steven Fenton again. Together, they found renewed passion and hope to fight for their school and test the limits of what community means. But when Steven convinced Carter to throw his hat into the ring as principal, the progressive Beverly Hills suddenly thought that its winningest and most beloved coach didn't fit the profile for the Beverly Hills image. It was the beginning of a long road, but Carter could hear his father saying, "Don't listen to those voices. Do what you have to do." Filled with hope, triumph, and the struggles that come to define us, *Where a Man Stands* is a beautiful fish-out-of-water story about the families formed in unlikely places and how, in the end, where you stand, and with whom, and for what, matters as much as anything.
