Ruvio, Russell Belk, 2013-01-04 Tell me what you eat, I'll tell you who you are, said Anthelme Brillat-Savarin. Today, You are what you consume is more apt. Barbara Krueger's ironic twist of Descartes - I shop therefore I am - has lost its irony. Such phrases have become commonplace descriptions of our identity in the contemporary world. In our materialistic world it seems as if there is no debate that our consumption behaviour is fused with our self-identity - shaping it, changing it and often challenging it. The Routledge Companion to Identity and Consumption introduces the reader to state-of-the-art research, written by the world's leading scholars regarding the interplay between identity and consumption. The book addresses the diverse issues regarding the ways identity affects our consumption behaviour and vice-versa and in doing so, presents a broad perspective on the dynamics of self-identity and consumption. With chapters discussing the theory, research and practical implications of these dynamics, including the way they change across our life span and their expression within different social, cultural and religious contexts, this book will be a valuable reference source for students and academics from a variety of disciplines.

In the final days before the fall of Saigon in 1975, 125,000 Vietnamese who were evacuated or who made their own way out of the country resettled in the United States. Finding themselves in unfamiliar places yet still connected in exile, these refugees began building their own communities as memorials to a lost homeland. Known both officially and unofficially as Little Saigons, these built landscapes offer space for everyday activities as well as the staging of cultural heritage and political events. *Building Little Saigon* examines nearly fifty years of city building by Vietnamese Americans—who number over 2.2 million today. Author Erica Allen-Kim highlights architecture and planning ideas adapted by the Vietnamese communities who, in turn, have influenced planning policies and mainstream practices. Allen-Kim traveled to ten Little Saigons in the United States to visit archives, buildings, and public art and to converse with developers, community planners, artists, business owners, and Vietnam veterans. By examining everyday buildings—who made them and what they mean for those who know them—*Building Little Saigon* shows us the complexities of migration unfolding across lifetimes and generations.

At its heart are the three Cartier brothers whose motto was "Never copy, only create" and who made their family firm internationally famous in the early days of the twentieth century, thanks to their unique and complementary talents: Louis, the visionary designer who created the first men's wristwatch to help an aviator friend tell the time without taking his hands off the controls of his flying machine; Pierre, the master dealmaker who bought the New York headquarters on Fifth Avenue for a double-stranded natural pearl necklace; and Jacques, the globe-trotting gemstone expert whose travels to India gave Cartier access to the world's best rubies, emeralds, and sapphires, inspiring the celebrated Tutti Frutti jewelry. Francesca Cartier Brickell, whose great-grandfather was the youngest of the brothers, has traveled the world researching her family's history, tracking down those connected with her ancestors and discovering long-lost pieces of the puzzle along the way. Now she reveals never-before-told dramas, romances, intrigues, betrayals, and more. The Cartiers also offers a behind-the-scenes look at the firm's most iconic jewelry—the notoriously cursed Hope Diamond, the Romanov emeralds, the classic panther pieces—and the long line of stars from the worlds of fashion, film, and royalty who wore them, from Indian maharajas and Russian grand duchesses to Wallis Simpson, Coco Chanel, and Elizabeth Taylor. Published in the two-hundredth anniversary year of the birth of the dynasty's founder, Louis-François Cartier, this book is a magnificent, definitive, epic social history shown through the deeply personal lens of one legendary family.

costco westminster business center: The Life and Afterlife of Gay Neighborhoods Alex Bitterman, Daniel Baldwin Hess, 2021-03-19 This open access book examines the significance of gay neighborhoods (or 'gayborhoods') from critical periods of formation during the gay liberation and freedom movements of the 1960s and 1970s, to proven durability through the HIV/AIDS pandemic during the 1980s and 1990s, to a mature plateau since 2000. The book provides a framework for contemplating the future form and function of gay neighborhoods. Social and cultural shifts within gay neighborhoods are used as a framework for understanding the decades-long struggle for LGBTQ+ rights and equality. Resulting from gentrification, weakening social stigma, and enhanced rights for LGBTQ+ people, gay neighborhoods have recently become "less gay," following a 50-year period of resilience. Meanwhile, other neighborhoods are becoming "more gay," due to changing preferences of LGBTQ+ individuals and a propensity for LGBTQ+ families to form community in areas away from established gayborhoods. The current 'plateau' in the evolution of gay neighborhoods is characterized by generational differences—between Baby Boom pioneers and Millennials who favour broad inclusivity—signaling various possible trajectories for the future 'afterlife' of these important LGBTQ+ urban spaces. The complicating impacts of the COVID-19 pandemic provides a point of comparison for lessons learned from gay neighborhoods and the LGBTQ+ community that bravely endured the onset of the HIV/AIDS pandemic. This book will be of interest to students and scholars in various disciplines—including sociology, social work, anthropology, gender and sexuality, LGTBQ+ and queer studies, as well as urban geography, architecture, and city planning—and to policymakers and advocates concerned with LGBTQ+ rights and social justice.
