courtyard fort meade bwi business district: The Man Who Shocked The World Thomas Blass, 2009-02-24 The creator of the famous Obedience Experiments, carried out at Yale in the 1960s, and originator of the six degrees of separation concept, Stanley Milgram was one of the most innovative scientists of our time. In this sparkling biography-the first in-depth portrait of Milgram-Thomas Blass captures the colorful personality and pioneering work of a social psychologist who profoundly altered the way we think about human nature. Born in the Bronx in 1933, Stanley Milgram was the son of Eastern European Jews, and his powerful Obedience Experiments had obvious intellectual roots in the Holocaust. The experiments, which confirmed that normal people would readily inflict pain on innocent victims at the behest of an authority figure, generated a firestorm of public interest and outrage-proving, as they did, that moral beliefs were far more malleable than previously thought. But Milgram also explored other aspects of social psychology, from information overload to television violence to the notion that we live in a small world. Although he died suddenly at the height of his career, his work continues to shape the way we live and think today. Blass offers a brilliant portrait of an eccentric visionary scientist who revealed the hidden workings of our very social world.

Theoretical considerations and a host of empirical studies covering different configurations provide an in-depth analysis of the sciences' media connection and its repercussions on science itself. They help to form a sound judgement on this recent development.

courtyard fort meade bwi business district: I Will Survive Gloria Gaynor, 2014-03-11 I Will Survive is the story of Gloria Gaynor, America's Queen of Disco. It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including Honey Bee, I Got You Under My Skin, Never Can Say Goodbye, and the song that has immortalized her, I Will Survive, which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

courtyard fort meade bwi business district: Masters Theses in the Pure and Applied Sciences Wade H. Shafer, 1976 Masters Theses in the Pure and Applied Sciences was first conceived, published, and disseminated by the Center for Information and Numerical Data Analysis and Synthesis (CINDAS) *at Purdue University in 1957, starting its coverage of theses with the academic year 1955. Beginning with Volume 13, the printing and dissemination phases of the activity were transferred to University Microfilms/Xerox of Ann Arbor, Michigan, with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community. After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader dissemination. Hence, starting with Volume 18, Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York, and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from Plenum. We have reported in Volume 20 (thesis year 1975) a total of 10,374 theses titles from 28 Canadian and 239 United States universities. We are sure that this broader base for theses titles reported will greatly enhance the value of this important annual reference work. The organization of Volume 20 is identical to that of past years. It consists of theses titles arranged by discipline and by university within each discipline.

courtyard fort meade bwi business district: Beyond Duty Shannon Meehan, 2013-04-30 Under the blazing Iraqi sun in the summer of 2007, Shannon Meehan, a lieutenant in the U.S. Army, ordered a strike that would take the lives of innocent Iraqi civilians. He thought he was doing the right thing. He thought he was protecting his men. He thought that he would only kill the enemy, but in the ruins of the strike, he discovers his mistake and uncovers a tragedy. For most of his deployment in Iraq, Lt. Meehan felt that he had been made for a life in the military. A tank

commander, he worked in the violent Diyala Province, successfully fighting the insurgency by various Sunni and Shia factions. He was celebrated by his senior officers and decorated with medals. But when the U.S. surge to retake Iraq in 2006 and 2007 finally pushed into Baqubah, a town virtually entirely controlled by al Qaida, Meehan would make the decision that would change his life. This is the true story of one soldier's attempt to reconcile what he has done with what he felt he had to do. Stark and devastating, it recounts first-hand the reality of a new type of warfare that remains largely unspoken and forgotten on the frontlines of Iraq.

Quickly the village developed as a cattle industry center, which was important to the Confederacy until its destruction in 1864 by homegrown Union forces. In the postwar era the cattle industry revived, and the community prospered. The railroads arrived in the 1880s, bringing new settlers, and the village grew into a town. Among the new settlers were well-to-do English families who brought fox hunts, cricket matches, and lawn tennis to the frontier.
